OPERATORS, EXPERIENCED AND INEXPENSIVE, do work on finishing, seamstresses, on the cloth, to not go away from home with one pair of pants only. Saturday while crawling through a barbed wire fence he had the misfortune to have a large rent torn in them. He was in a dilemma for some time, but reaching his boarding house, he dispatched the trousers by messenger to a tailor to have repairs made while he remained in bed until the return of the garment.

Residents on Barrack street complain that boys are breaking windows there while engaged in playing ball on the street. They wish the police would give the ball some attention.

On Saturday, about 2:30 p.m., the members of the R.C.F.A. reached the city after an absence of three weeks at Deseronto. The men were glad to get back to barracks.

A deserter from the R.C.F.A. was caught at Napanee and is being held for the military authorities.

STOCK THEM

Canada Would Like To Have The Trade

SUPPLY CATTLE

HIGH COMMISSIONER TRIES TO GET US THE TASK.

New Lobster Hatcheries in Maritime Provinces—The Latest Tidings From the Canadian Capital.

Ottawa, Oct. 6.—It is understood that the Canadian government, through the Canadian high commissioner, are endeavoring to have the trade in live stock for the purpose of restocking the poor farms in South Africa, directed to this country. Lord Strathcona has represented to the Imperial authorities at the colonial office that Canada is ready and able to supply the best classes of horses, cattle and sheep required for stock purposes. Now that there is a direct steamship line established, it is probable that the colonial office may see its way clear to patronize Canada in this regard.

The minister of marine has authorized the establishment of three new lobster hatcheries in the maritime provinces, one at Shippagan Harbor, New Brunswick, one at Bellevue Cove, near the entrance to Hillsboro Harbor, and one at Shemogue Harbor in Westmorland county. These hatcheries will be built at once, and when completed will have a capacity for hatching three hundred million lobsters per year, in addition to the two hundred million now hatched yearly at Pictou.

WANT MONEY BACK.

Claim That Lighting Company Was At Fault.

Montreal, Oct. 6.—An important civil case in which the Lachine Rapids Hydraulic and Land Reclamation Co. has been made the defendant, has been instituted by a number of fire insurance companies, the amount claimed aggregating \$25,000. The companies interested are the Royal Insurance company, the London Union Assurance company, Liverpool and London and Globe, and thirteen other companies. This litigation arises over the fire which occurred last October in the premises of A. A. Ayer & Co., William street. Insurance companies paid the Ayer company the insurance and now allege that the fire was caused through the fault of the Lachine company and the defective construction of the appliance; and ask that it be condemned and to reimburse them for the money so paid.

AFTER A QUEEN.

Dowager Empress Marie Dagmar of Russia Closely Guarded.

Copenhagen, Oct. 6.—The strictest precautions are being taken to guard the life of the Dowager Empress Marie Dagmar of Russia, who is now here with her father, King Christian, owing to what the police consider to be an authentic report that several Italian anarchists are coming to Denmark, in order to make an attempt to assassinate her. A number of Russian secret service men have been brought here to aid the Danish police.

Wall Street Is Sound.

New York, Oct. 4.—Henry Clews writes: "Wall street was passed through a sharp crisis without disaster. Bold action by Secretary Shaw in relieving the banks from keeping a reserve in government deposits and in accepting other security for government deposits than United States bonds unquestionably saved the stock market from panic. While some objection has been raised as to the legality of the secretary's action, none has been heard as to the expediency of the two new rulings. We are burdened with a poorly devised treasury and currency system which always works badly in emergencies, and the secretary deserves praise rather than criticism. Business and industrial interests have not suffered by the recent break. These are perfectly sound and satisfactory. Recent violent disturbances indicate no derangement of general trade and no over-extension of credit, except in Wall street. It was strictly a financial squall, the result of excessive stock speculation, and not likely to cause any serious outside derangement, although some heavy losses were incurred by bolder and less experienced operators."

Wants To Stop Marriage.

London, Oct. 6.—An Anglican monk, named Father Black, is opposing the marriage of Lord Francis Hope and his cousin, Miss Bertrise, on the ground that it will be a breach of God's law. The marriage is set forth for next week at the Pacific church of Hope. Father Black is entreating Brighton churchmen to interfere and prevent it.

HAS BEEN IDENTIFIED.

A Desperado Who Flew From Sarnia.

Sarnia, Ont., Oct. 6.—Robert Thompson, the desperado who broke jail here about a year ago, has been identified in the Nebraska penitentiary, at Lincoln, by Joseph Rogers, inspector of the Ontario Government Detective force and E. J. Jarvis, of the Toronto police force. Thompson is serving a sentence under the name of Charles Joy, and at the expiration of his sentence, next month, he will be brought back to Sarnia.

TO BUILD MILLS.

At Various Points on Irish Coast.

London, Oct. 6.—The Belfast correspondent of the London Daily Mail reports that inquiries are being made there on behalf of an American syndicate which proposes to erect large mills on the water-side at Belfast, Londonderry, Dublin, Cork, Waterford and Galway. Maize and wheat will be imported in bulk from the United States, and after being milled will be distributed by means of small coasting steamships, and the property of the syndicate, the members of

ROLAND B. MOLINOUX, whose second trial on charge of murder is set for today.

which are said to have behind them a capital of \$4,000,000. It is pointed out that the corn duty gives a slight advantage to the home-milled article as against imported flour, and that wheat in bulk can be carried more cheaply than flour in sacks. The output of maize and flour is calculated at 20,000 tons weekly.

PITH OF THE NEWS.

The Very Latest News Cried From All Over The World.

President William Markenzie is in Winnipeg to make a trip of inspection over the C.P.R.

President Roosevelt will be unable to review the parade of civil war heroes at Washington.

The Allan steamer Tunisian, from Montreal, for Liverpool, passed the Cape of Man, at 10:20 a.m., on Monday.

Forest fires in the western states show that in the average year sixty lives and \$20,000,000 worth of property is destroyed.

A section of track on the Tamnaco, Pa., coal region was blown up by dynamite on Sunday morning. Troops are now guarding the line.

The United States has ordered that the isthmus of Panama must not be used for war purposes. The Colombia government has protested against this action.

The secretary of the United States navy has awarded the contract for the construction of the battleship Louisiana to the Newport News Shipbuilding company, at its bid of \$3,000,000.

The government has been invited to make an exhibit at Johannesburg, 1904, and the offer will be accepted, the exhibit to be sent to Cape Town in 1903, will be forwarded to Johannesburg.

After spending four months in a desolate search for her missing seven-year-old son, in which she exhausted her own funds, Mrs. William Metzler, New York, has appealed to the public to assist her.

George F. Burns, formerly a prominent clothier of London, Ont., is dead at the home of his father, Geo. Burns, collector of customs, of injury received in a runaway accident at Beaver Lake, Wis., fifteen months ago. A widow and one child survive him.

The man killed on the C.P.R., Winnipeg, on Friday was not William Girdlestone, as three of his neighbors wrongly asserted. Girdlestone came home on Saturday night and found his wife in a state of hysteria over his supposed death. The victim is still unknown.

The Victoria, B.C., terminal and Sydney Railway and Ferry have been sold to a St. Paul official, contractor of the Great Northern railway and John Henry and John Jeffrey, of Vancouver. The price paid is not stated. The deal does not affect the company's steamers Strathcona, Unicorn and Inroquois.

Hon. E. J. Davies Honored.
Newmarket, Ont., Oct. 6.—Such a display of retired decorative effects as were seen here today, in honor of the visit of Hon. E. J. Davies, was unequalled in the history of the town. Among the decorations was a splendid evergreen arch, erected by the Liberal Association of Newmarket. Among the prominent liberals present were Messrs. Mulock, Sifton, Ross and Letchford. The big procession to the Exhibition grounds was led by the band of the 12th York Rangers. Good speeches were made at the grounds, and the liberal leaders were enthusiastically received.

Premier Ross announced that the government would fight rather than resign.

THE NEXT STEP

Looking To The Close Of Coal Strike.

SEE GOV. STONE

ABOUT SUMMONING PENNSYLVANIA LEGISLATURE.

What Will Likely be the Next Move of the President—One of the Most Serious of Social Crises—May be Uprising.

Washington, Oct. 6.—It is believed that the next step to be taken by President Roosevelt, in the strike situation, will be the calling of Governor Stone, of Pennsylvania, into consultation on the question of summoning an extra session of the Pennsylvania legislature to take action looking to the re-opening of the mines.

Discussed In Europe.

New York, Oct. 6.—The Sun's London cable says: "England and Europe generally, are now taking the greatest interest in the United States coal strike. The situation in its latest aspect is regarded as one of the most serious social crises with which republican institutions have had to face. The future of the problem most discussed is what remedies are available in case the strike should continue without the supply of coal should continue inadequate for the public necessities."

Some despatches to the English papers prophesy serious uprisings and riots if the sufferings of the poor become great. Such a condition, it is affirmed here, would force to some sort of an issue the gravest problem which has been created by the modern development of organized labor and organized capital. Europe considers this question one which is bound to press for solution in the near future. Statesmen and political economists of the old world are rather glad that it may reach a critical stage first in the United States, but they are watching the developments with intense interest, well knowing that the day may come when they will be face to face with the same trying dilemma.

The most important factor in the British coal trade, at this moment, is the continued demand from the United States. Quite a number of vessels have been fixed to load cargoes for United States ports at Cardiff, Swansea, Newcastle, Liverpool and Glasgow. It is reported that several of the Elder Dempster steamers have been ordered to the Tyne to load full cargoes of coal for New York and Boston. This unprecedented export of coal to the United States has naturally had the effect of raising the quotations on the London market and with a continuation of the strike prices are bound to go materially higher.

One More Effort.

Washington, Oct. 6.—President Roosevelt is making one more effort to end the coal strike. He has just had an important conference with his advisers. It is believed that the miners will be urged to work, and that the president will then try to procure them the desired relief.

WILL BE PRIVATE.

Government Supporters Are Against Bill.

London, Oct. 6.—The revolt of supporters of the government against the education bill is spreading, and becoming more pronounced. Almost every day during the past week, the newspapers have contained convincing evidence of this fact. Four or five prominent conservatives, who are also churchmen, have openly declared themselves hostile to the bill in its present form, but the political situation is made still more interesting by the determined stand taken against the measure by the liberal unionists of Birmingham. There is trouble in Mr. Chamberlain's camp, and though he affects to treat the matter lightly, it is clear from the fact that he has summoned a private conference of his supporters for tomorrow, that the charter cannot be dismissed with a cheap sneer at the revolting "two hundred." The conference will be a private one.

ATTACK OF A MOB.

Attempt Made to Seize and Lynch a Negro.

Charlotte, N. C., Oct. 6.—A special from Lincolnton, N.C., says: "As the result of considerable talk of lynching here since the preliminary hearing of Calvin Elliott, colored, for an assault on Mrs. Caleb Brown, a crowd broke into the jail, Sunday morning and tried to batter down the doors, but failed and dispersed without getting the negro. Judge Hoke wired the governor to call a special term of court for the trial of the negro and the latter replied that he could not do so at once."

Looks After Canadian Market.

Montreal, Oct. 6.—Cornelius Shields, general manager of the Dominion Coal company, in the city to-day, denies the report that his company is in league with the anthracite coal operators in the United States. He says the Canadian market will be looked after in the present contingency.

Mrs. Leys Seriously Ill.

London, Oct. 6.—Mrs. Leys, wife of Col. F. E. Leys, ex-M.P., was stricken with paralysis at the family residence here Friday, and her physician and friends entertain grave fears for her recovery.

Given Seven Years.

Niagara Falls, Oct. 6.—Locks Carter was given seven years in Kingston penitentiary for breaking into the house of Harry Wright.

Mrs. Earl's furniture sale Wednesday, ten o'clock. Piano will be sold at 1 p.m.

SEA LION IN LAKE.

Captain of a Tug Claims He Saw Animal.

Chicago, Oct. 6.—A marine animal, resembling a sea lion and believed to be such, was sighted by Capt. John Cullman, of the Chicago tug T. T. Morford, Thursday, in Lake Michigan, ten miles off Milwaukee harbor. When Capt. Cullman first sighted the animal it was half a mile to leeward, swimming leisurely. He steered the boat in its direction and when it was within a hundred yards of the animal it rose partly out of the water, and with a loud snort, darted beneath the waves. Capt. Cullman cruised about the spot where the animal was seen, but it did not reappear.

The members of the tug's crew believe that the animal was the sea lion which several years ago escaped from Lincoln Park.

Cheaper Cost of Wheels.

Philadelphia, Pa., Oct. 6.—A new process for the manufacture of freight car wheels has been perfected which will revolutionize railroad methods in this country.

Charles Schwab, who is with Charles T. Schoen, Pittsburg, has been interested in inventing a method whereby pressed steel wheels for freight cars may be turned out at a price sufficiently low to insure their adoption in place of cast-iron wheels now in use. The experiments which have been made recently at the Bethlehem steel works prove the process to be a success.

Sixteen Indictments.

St. Louis, Mo., Oct. 6.—The sixteen members of the municipal assembly against whom the fresh batch of indictments in the boodle cases have been returned, are John A. Sheridan, Emil Hartman, Edmund Borsch, Otto Schumacher, Charles Buttery, Adolph Mader, John Schmittner, Charles Gutke, Louis Decker, T. Edal, Bright, John Helms, Julius Lehmann, Charles E. Kelly, J. J. Hannigan, William Family and Harry Faulhaber. Against all of these defendants bench warrants already had been issued and information filed.

Millionaire Gets Five Years.

St. Louis, Mo., Oct. 6.—R. M. Snyder, banker, promoter and millionaire, well known in financial circles in New York, St. Louis and Kansas City, was found guilty of bribery in connection with the passage of the Central Traction bill, and the jury assessed his punishment at five years in the penitentiary. He offered absolutely no evidence in an effort to establish his innocence, but entirely upon the attempts of his counsel to prove that the statute of limitation ought to apply.

Twenty-One Storey Building.

New York, Oct. 6.—Plans are said to be under consideration for the erection of two of the best known business structures in this city—the Mills building and that occupying the banking house of J. P. Morgan & Co., at Wall and Broad streets. If the plans are accepted, a modern twenty-one storey office building will be erected on the site, which is estimated to be the most valuable piece of real estate in the city.

Lively Lamb With Two Legs.

Malone, N.Y., Oct. 6.—James Traversa, a farmer of South Malone, has a freak of nature among his flocks; a lamb several months old, evidently in good health, but born only with two legs. Though seriously handicapped as the means of locomotion the lamb manages to travel around with the other sheep and keep up with them without much difficulty.

Wins a Montreal Girl.

Watertown, N.Y., Oct. 6.—The marriage of Miss Anna J. Broadwell, Montreal, to George St. John, will take place Tuesday at the home of Mr. and Mrs. James Rowe, No. 6 Front street.

The marriage of Leon Signor, Detroit, Mich., and Miss Carrie Pollock, Cape Vincent, will take place at St. Vincent de Paul church, Cape Vincent, on Tuesday.

New Westminster Won Final.

Vancouver, B.C., Oct. 6.—The third and final lacrosse game at New Westminster between the Shamrocks, of Montreal, and New Westminster, was won by the western team by a score of two goals to none, after a hard and desperate match. The result of this contest gives two victories to the New Westminster team and one to the Shamrocks.

Married William Hooper Young.

Holena, Mont., Oct. 6.—The Rev. F. A. Rizzin, superintendent of Indian missions for the Methodist church in Northern Montana, says that last December he married William Hooper Young to Thirza Holmes, of Cardston, a Mormon settlement over the line in Canada. The fate of the wife is a mystery.

Look After Canadian Market.

Montreal, Oct. 6.—Cornelius Shields, general manager of the Dominion Coal company, in the city to-day, denies the report that his company is in league with the anthracite coal operators in the United States. He says the Canadian market will be looked after in the present contingency.

Mrs. Leys Seriously Ill.

London, Oct. 6.—Mrs. Leys, wife of Col. F. E. Leys, ex-M.P., was stricken with paralysis at the family residence here Friday, and her physician and friends entertain grave fears for her recovery.

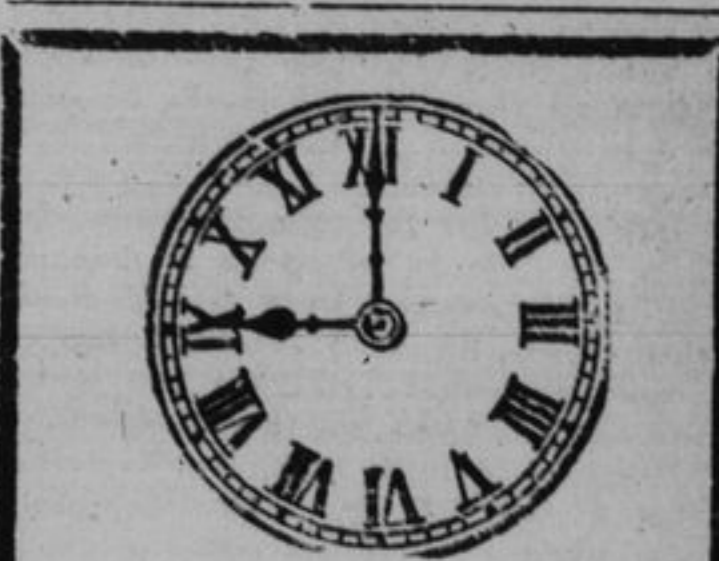

Given Seven Years.

Niagara Falls, Oct. 6.—Locks Carter was given seven years in Kingston penitentiary for breaking into the house of Harry Wright.

Mrs. Earl's furniture sale Wednesday, ten o'clock. Piano will be sold at 1 p.m.

WEATHER PROBABILITIES.

Toronto, Ont., Oct. 6.—Fresh to strong westerly winds, clearing this evening. Tuesday, fair and cool.
