

CATARH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effective Cure For It.

Catarrh of the stomach, has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs, and difficult breathing, headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a shiny, inflamed condition. The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

According to Dr. Harrison the safest and best treatment is to use after each meal a tablet, composed of Distasine, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that health, appetite and thorough digestion will follow their regular use after meals.

R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge from the nostrils backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but to-day I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I can not find appropriate words to express my good feeling. I have gained flesh, appetite and sound rest from their use."

PRICE IS HIGH.

LOCAL DEALERS CAN'T GET SOFT COAL.

What R. Crawford and W. G. Craig Have to Say About Capt. Gaskin's Statements—Soft Coal Over \$5 a Ton Wholesale.

W. G. Craig and R. Crawford have been richly enjoying the statement made by Capt. Gaskin to a local newspaper that the coal dealers here are no doubt getting soft coal at Charlotte for \$2.50 a ton, and that the present retail price gives them an enormous profit.

"Read that letter," said Capt. Crawford, handing the reporter a missive dated last week at Charlotte, and stating that soft coal there cost not less than \$4 a ton. Since then it has taken a jump of over a dollar. "Why it is all nonsense to imagine that we are getting soft coal at last year's price of \$2.50. Last May, four months ago, we paid \$3 a ton, and ever since it has been going up. And it's natural. Soft coal is being used as a substitute for hard coal, and, of course, is becoming more valuable. Here's another letter I received yesterday, stating that soft coal in New England is from \$5 to \$6 a ton. When that is brought to Kingston, and the charges for duty, freight, handling, insurance, carting and a small profit added, it can be readily seen that it cannot be sold for less than \$7 to \$8 a ton."

"I have a vessel now waiting at Charlotte endeavoring to pick up a cargo. But it's only a chance that I will get it, and I shall certainly have to pay a good figure for it."

W. G. Craig also showed the reporter a personal letter he had received. "Here is one from the biggest coal dealers in Buffalo," he said, "showing wholesale soft coal quotations there as \$5.50 a ton. I couldn't bring that coal here and sell it for less than \$8.25 a ton to make the smallest profit. In Sussex, soft coal is now selling at \$7 a ton, and the retail price of that in Kingston wouldn't be less than \$8.50. Last week I got a chance purchase of five car loads of soft coal in Ohio, and it has just arrived. I am enabled to sell it at \$7 a ton, but can't get any more. Just after I got it, the price jumped nearly \$2 a ton."

No Coal For Y.M.C.A.

The Y.M.C.A. directors are wearing anxious looks these days. There is no coal in the bins, and money cannot purchase the article. It is almost impossible to secure a supply of wood, and, unless something unexpected turns up, the building may have to be closed until the strike is over.

Will Meet To-Morrow.

The city property committee, which should have met to-day, had its meeting cancelled until to-morrow. There is no question of purchasing fuel for the benefit of the deservingly poor will be brought up for consideration. The feeling is that the city should take action and procure sufficient fuel to prevent hardship this winter.

GEOGHEGAN-STRACHAN.

Marriage Ceremony in the Archbishop's Palace.

At the archbishop's palace, Wednesday noon, took place the marriage of Florence Gertrude, eldest daughter of the late Major M. D. Strachan, to John H. Geoghegan, assistant superintendent of the Street Railway Company. The ceremony was performed by Rev. Father Kehoe, rector of St. Mary's Cathedral, in presence of relatives and a few intimate friends.

The bride was attired in a travelling suit of sapphire blue cloth, with a silk waist and lavender hat. She was given away by her uncle, Archibald Strachan. Her sister, Miss Mahel, was bridesmaid, and wore black India silk, with Nile green chiton waist and a black picture hat. F. D. Geoghegan was groomsmen. After the ceremony, the newly-married couple drove to the G.T.R. station, leaving for the west on their honeymoon on Friday.

The large and beautiful array of presents received by the bride testified to her popularity among a wide circle of friends. Among them were a handsome leather-bound sofa from the employees of the street railway company, and a cheque from F. X. Conneally, Toronto, and Miss Maude Conneally, London, England. Gifts were also received from Grand Froese, N.D., Orillia, Hamilton, Toronto, Port Colborne and Kingston.

Mr. Geoghegan is well-known and popular among the sporting fraternity, having been connected in an official capacity with the Granite, rug, and the Pony baseball clubs. Warmest wishes for a happy future follow the wedded couple. On their return, Mr. and Mrs. Geoghegan will take up residence on Wellington street, near Gore street.

PERSONAL MENTION.

Movements Of The People—What They Are Saying And Doing.

E. M. Storey, architect, left to-day for Nanapan on a business trip.

A. L. Leland, of Binghamton, N.Y., is spending a few days with friends in the city.

Rev. J. A. Leitch, Watson's Corner, has received a call to the congregation of Queensboro, and St. Paul's, of Eldorado, in the Kingston presbytery.

Dr. Anglin is in Montreal, where he underwent an operation some days ago for an internal complaint. He is recovering nicely and will soon be home.

Ex-Mayor William Robinson and wife will pull up stakes and leave their summer home at Sherbot Lake on Thursday next, and return to the city for the winter months.

Miss Mary McQuillan, formerly of Kingston, now of Rochester, N.Y., spending a few days with friends here, left to-day for Bannockburn to visit her parents and other relatives.

Walter Wells, who resigned his duties as provincial assessor at Belleville, five months ago, comes to Kingston to follow special lines in the iron and steel industry.

John Doyle, driver for the Thompson Bottling company, was presented with a new hat for selling the largest number of tickets for the Bartenders' International Union excursion in the summer. The contest was between the different drivers for the different bottling firms.

Miss Nellie Keon, Montreal street, gave a progressive party on Monday evening, in honor of her guests, the Misses Lahey, Cleveland, Ohio. The prizes were won by Miss Kate Sullivan and Jack Cousins, while Miss A. Sullivan and E. Ryan easily succeeded in taking other prizes. The remainder of the evening was devoted to music and dancing and a most enjoyable time was spent.

Has A Description Of Them.

"We have a very good description of the smart young men who seek in a false alarm from box No. 35, near the court house, last night," said Chief Elmer, of the fire department, this morning. "They were seen by a number of people as they ran away. Do you know that they are liable to a five or ten year term in the penitentiary for such an offence? We are practically only a handful of men, and while we are chasing around after false alarms, they may start in the business centre of the city, and, before we can reach it, gain such headway that a block may be destroyed. Again, a poor woman and her children, in some remote corner of the city, may be shut in their room by the flames, and perish before assistance can reach her. These are serious results that might occur any moment because some foolhardy fellow has drawn us, without cause, to another part of the city."

MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

Craig's wharf: Steamer Persia down.

Swift's wharf: Steamer Algathian from Hamilton.

The tug Mary, which lost the government dredge Sir Wilfrid, near Port Hope, was at Swift's wharf to-day, en route for Montreal.

M. T. company elevator: Steamer Cleary and consort cleared for Port William; tug Thomson cleared for four grain laden barges for Montreal.

Richardson's elevator: Schooners Two Brothers and Laura D. from bay ports; schooner Ballou from Concession; steambarge John Milne from Trenton, all with grain.

Ladies And Gentlemen.

We draw special attention to the visit of Prof. Dorewood to Kingston, who will be at B. A. Hotel, Thursday, October 9th, with a large selection of samples, styles in hair goods, such as ladies' and gents' wigs, toupees, bangs, long switches, etc. His hair coverings are worn everywhere, and the satisfaction obtained by those who adopt them, are health, comfort and younger appearance. Don't miss this chance. Investigate the art hair coverings manufactured by Prof. Dorewood, whose skill in this line is world-renowned. They are feather-weight, securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance.

The Methodist Protest.

St. Thomas Journal. The Kingston Whig joins in the protest against the joint Methodist general conference dealt with the amusement question, though somewhat mildly. The writer of the Whig evidently restrains himself in writing on the question, and is careful to be well within the limits of decorous discussion.

Resolutions Of Sympathy.

At a meeting of Frontenac, tent No. 200, Macabees, resolutions of sympathy with Sir Knight Tuttle, over his recent accident, and Sir Knight Kinch, in the death of his little daughter. The family of the latter are all in the General Hospital at present.

Fall Importation Of 1902.

Prevost, of the New York clothing store, Brock street, has received all his fall importations for outer wear in his tailoring department. His ready-made department is well assorted and a large assortment to choose from. For low price and durability he defies competition.

Drowned At Gananoque.

The body of Stewart Johnston, Gananoque, who had been missing since Saturday, was found in the river on Monday night. An inquest will be held. His mother resides near Lanark and a brother, S. Johnston, lives in Brockville.

The thermometer this morning reached the forty degree mark—a mark which signified that some of the coal in the court house, and seventy contents must be burned.

If you get your Camphorated oil or Castor oil at McLeod's drug store you can depend on having them good.

"I haven't a pound of coal in my bin, and I cannot buy any," said a workman this morning, "but I do not intend to freeze as long as the anxiety of boardwalks holds out."

Peter McKenna, of Hotel Imperial, yesterday received from New York a valuable dog, a German cocker spaniel, the only representative of that species in the city. It is a pretty animal.

The Carnovsky company takes up carpets, cleans them and relays at prices which it does not pay for householders to do it themselves, Ontario street, Phone 74.

There is not an ounce of coal in the basement of Sydenham street Methodist church, and the trustee board is like other people, unable to purchase either coal or wood. The trustees do not know what to do.

A false alarm from box No. 35 took the firemen to the corner of Sydenham and West streets at eleven o'clock last night. After each member of the brigade had expressed his feelings, the atmosphere assumed a blue tint.

The fruit, vegetables, etc., used to decorate St. James' church on Sunday last on the occasion of the annual Harvest Thanksgiving services, were distributed among charitable institutions. There was a goodly supply.

Fancy going in for a swim before sunrise this morning! The very thought makes one shiver. In the early morning half a dozen hardy young citizens, cooled as taking a swim with mud "dip" of the yacht club wharf.

It is because the editor does so much for nothing, puts the best view out always, and tells only the good side of the human character, that the average reader seems to think he can live on air, or why is it so many writers are prone to delinquency when it is well known that a subscription falls due just as regular as the taxes?

WANDERERS.

Travel Thousands Of Miles And Find It At Home.

We go about from one place to another in search of something we desire, without success, and finally find it at home awaiting us. A mining engineer, out in Mansfield, Mo., tells of his experience with coffee.

He says, "Up to the year 1898, I had always been accustomed to drink coffee with my breakfast each morning. In the summer of that year I developed a severe case of nervous prostration and took several courses of treatment for it in Toronto, Buffalo and New York city, without obtaining any permanent benefit.

One of the most trying manifestations of the malady was a condition of nervous excitement in which I found myself every day during the forenoon. It never occurred to me to attribute this to coffee until I read an advertisement of yours last fall describing a case similar to my own, which had received benefit from the use of Postum Cereal Food Coffee. I at once changed my breakfast beverage from Java and Mocha to Postum and the effect was nothing short of marvelous. After using it less than a week I was free from morning attacks and in six weeks all my nervous symptoms had disappeared.

I have demonstrated the fact that by following your directions of making Postum Food Coffee any one can obtain as rich a cup of coffee as from Postum as from any of the imported brands, and may rest assured that they will escape the injurious effect of coffee and experience much benefit from the use of Postum." Name given by Postum Co., Battle Creek, Mich.

SPORT IN GENERAL.

Notes About the Various Sporting Fields.

Platt will be one of Queen's senior scrimmagers.

The Detroit lady golfers defeated London 28 to 13.

The match went a mile in 2:03 on a soft track at Cincinnati.

Catcher Brennan was not reserved by Toronto for next year.

H. Asseltine, formerly of the Granite, will likely be with Peterboro II this season.

In the O.R.F.U. senior series Hamilton plays the Rough Riders in Ottawa on Saturday.

From present indications it looks as though McGill would have a squint at the Intercollegiate rugby championship.

On Friday afternoon the annual golf match between the Ladies of Quebec and Ontario will be played at Toronto.

The Shamrocks of Montreal defeated Victoria, B.C., in a lacrosse match on Tuesday, by a score of eleven to nine.

Grandpa "Joe" Wright is still playing rugby in Toronto. Joseph was never known to scrimmage a ball properly in his life.

Louis Bruce, the clever little pitcher of the Toronto Eastern league team, is wanted by the Cincinnati club of the National league.

T. P. Phelan, Toronto, topped the list of winning owners at the Woodbine with \$1,595. S. E. Seagram, Hamilton, won \$1,125.

There is a possibility of Ross Murphy, the crack wing, playing with Queen's. He contemplates taking classes at the university.

M. B. Stack's mare, Nellie S. Lyn, won the 2:21 trot and pace, purse \$300, at Montreal, in straight heats. The best time was 2:21.

The Toronto Argonauts will play all their matches this season on the Rosedale grounds. Negotiations are still pending for the game with an all-Rochester team next Saturday.

An American athletic team is being gathered together for England next year. So far there have been chosen, Sweeney (100), Gill (all round), Kanaly (5 mile), Peary (weights), and Keene and Holde (sprinters).

C. L. Bass acted as starter for Queen's College athletic events to-day. This is Mr. Bass' ninth consecutive year in that capacity, and the fact that he has been engaged year after year is a guarantee of his efficiency.

Hamilton has the Eastern league baseball fever again. There is a movement on foot among certain moved men in the ambitious city to purchase a franchise, possibly that of Worcester, and enter a team in the league with Toronto.

For the purpose of working up the Princeton football players to the proper pitch of excitement in practice, a big "Y" (Yale) has been painted on the tackling dummy, and the sight of the much disliked Yale emblem has worked wonders.

Toronto Varsity will pick their team from the following, against McGill: Back, Biggs; halves, Patterson, Beattie; Percy Biggs; quarter, Chown on Ballard; scrumming, Cochrane, Barnham, McLaren; Burwell; inside wings, Fyle, Pearson, Snively; middle wings, Wallace, Bryce, Gilbert; outside wings, Jermyn, Madden, Reynolds.

Toronto Telegram: A lot of figuring is being done to find out what the bookies took out of the Toronto public the past seven days, and the estimates vary to the extent of some hundreds of thousands dollars. One authority states that the books picked up \$15,000 each on an average, and as over twenty books weighed in each day this would make a total loss of \$300,000.

The Kingston policemen are anxious to play a game of rugby with the street railway employees. Policeman Arnold has issued the challenge. "Sam" was taught the game when he studied "Pecology" at Queen's, and hasn't forgotten how to choke the first man of the opposing side who dares touch the ball. That's the mathematical formula, that grandpa Guy Curtis drilled into Samuel's head.

An Interesting Race.

Considerable interest has been centered in a race to take place at the Kingston township fair to-day, when, it is said, the horses of Dr. Hanley, John Theobald and Joseph McConnell, will settle the question of their much disputed merits. A prominent horseman declares that each of the animals can go the mile under 2:20, while Theobald's has come over half in 1:08. A race between the three horses would be very interesting.

Dunlop Divorce Case.

Waterloo Times. William E. Dunlop vs. Mary Jane Dunlop came before Justice Scripture, at Rome, Saturday, on motion of H. C. Treppel, plaintiff's attorney. The parties were married in Kingston, Ont., July 16th, 1889, and lived together there until 1899, when Edward Dunlop, Pittsburg, to whom the claim of John Halligan, Mrs. Braden entered an interpleader to recover the goods on the ground that they were hers and not the property of her husband. Judgment was reserved.

The Bridge Well Repaired.

Catarqui bridge has been placed in good condition for fall and winter traffic. Carpenters have been at work there nearly all summer, and are now nearly through with their task. New beams have been placed in position, the floor has been for the most part removed, and a great deal of railing is new. The bridge, over which there is a large traffic all the year around, is now stronger and better than it has been in a long time.

Suffered Much Loss.

Another Wolfe Island farmer, who had his wheat field levelled by a severe storm about a month ago, managed to cut some of the grain and last week threshed it. Twelve men and eight horses were engaged all one day in the task, and fifty bushels of wheat was the net result, whereas it should have been from 1,000 to 1,500 bushels.

"Bibby's," Oak Hall. "Bibby's."

Overcoats! Have you seen the new Western overcoat? It's the thing of the season. \$10, \$12.50, \$15. The H. D. Bibby Co.

WHAT IT COSTS

LOT OF MONEY SPENT ON NEW YORK EXCURSION

Take Big Sums Out of the City—An Evidence of Canadian Prosperity—Money Goes Rapidly in the Metropolis.

"If you want evidence of the prosperity of Canada, you can take the excursion to New York for an example," remarked a merchant last evening. "Since reading over the names of those who went on the excursion," he continued, "I have been cogitating, and have concluded that the satisfactory patronage accorded this excursion is an evidence of prosperity and a plentifulness of money."

Some have gone who might have better remained at home and put the money they will spend to other use, and thereby have made happy some of their best friends. "Have you ever figured out how much money these New York trips take out of the city? No? Well you would be surprised if you took the trouble to work out the little problem. Putting the number of Kingston excursionists at 150—and that number is rather below than above the figure—and the rate at \$9 a ticket, yields \$1,350 for passage alone. At the very least, each excursionist will spend \$50 in New York—and if you have been down on one of these trips you know from experience that \$50 goes but a very short way down there—that counts up to \$7,500, which added to the cost of tickets, makes a total of \$8,850.

"These figures represent Kingston alone. Supposing we add 150 more excursionists from the surrounding district, the totals will be doubled, and the aggregate will be \$17,700. You must also remember that excursionists are run from all points of importance along the Canadian frontier, in the provinces of Quebec and Ontario, so you can form some idea of the vast amount of money that Canadians will have paid out for this trip to the great American metropolis. As I said before, the large number taking this trip is an evidence of Canadian prosperity.

"While it is true that I have taken \$50 as an average of the expenditure per head, there are some whose expenditure will run up into the hundreds, but at my modest estimate a lot of money is shown to be involved. Of course, as long as the people can afford the luxury, no one should find fault, but, as I have said before, some of the excursionists might better have staid home and spent their money where it would have done considerable good."

GENERAL HOSPITAL.

The Staff Of Nurses Likely to be Increased.

At the October monthly meeting of the General Hospital board of governors, there were present: Prof. Marshall, chairman; B. W. Robertson, Rev. S. Tighe, Rev. M. Macgillivray, Rev. J. Mackie, Dr. E. H. Smythe, W. F. Nickle, T. M. Robertson, R. E. Kent, Dr. Chown, Dr. Thirsk, Dr. Wood, Dr. R. T. Walkem and honorable secretary, W. B. Skinner. After careful consideration of the last weekly report of the lady superintendent it was unanimously agreed to empower the committee of management to inquire into the advisability of increasing the staff of nurses. The plumber's report was read and referred to the committee of management. The visiting governors gave a most favorable report as to the general condition of the buildings.

Took The Wrong Medicine.

On Tuesday evening Archibald Galagher, who resides in the country a little east of the G.T.R. depot, was visiting his sister-in-law, Mrs. Lambert, lower Rideau street. He was suffering with a cold, and to relieve it he took a dose of what he thought was cough medicine, but which turned out to be a strong and dangerous powder, which burned his mouth and throat very severely. He was attended by Dr. Hanley, and at once removed to Hotel Dieu, where he spent a very trying night. He is somewhat improved this morning, but is still in a precarious condition.

County Court Case.
