DANGERS OF DISEASE.

The council is not to be found fault with because it has provided for the appointment of an inspector of property with special directions to see that all noxious weeds shall be removed from the city next year.

But the council would have been meeting present requirements if it had appointed an inspector of plumbing, and clothed him with authority to force the use of such traps and safeguards as are now missing from many of the houses.

The health department has ordered a minute inspection of the premises in certain streets in order that the causes of certain diseases may be determined.

Village ideas and village practices are out of place in Kingston. Something must be done to improve the drains and drain connections...

A CALL FOR THANKS.

The people of Canada suspend business, traffic and toil, to-morrow, at the invitation of the Federal Government, and give thanks.

So few realize that the earth's multitudes are dependent on the crops from year to year. It is calculated that there is no more than a season's surplus of food on hand at any time.

There are other things, however, beside the crops for which man has great reason to be thankful. The cessation of the coal miners' strike is one of them.

Peace again reigns within the empire, and for that fact the heart is satisfied. A year ago the thoughts of all Canadians were turned towards Africa, in which the British army was having a varied experience.

The providences of the year have been many. They cannot be enumerated. They call for the services, unpaid by the government, and for the country, the city, the community, as a Christian as they are supposed to be the churches will be filled to-morrow and the worshippers shall say: "Because thy loving kindness is better than life, my lips shall praise Thee."

I will lift up my hands in thy name. My soul shall be satisfied as with marrow and fatness, and my mouth shall praise Thee with joyful lips."

EDITORIAL BRIEFS

The farmers of Western Ontario will make a heap of money this fall out of their sugar beets. The business will be all right until it passes under the control of a trust, and there is talk of that already.

Many of the shade trees are being trimmed "out of sight." So much has been cut away that there is little of them left. Looking at the result one is not surprised at the talk of options on cord wood.

To-morrow night at 11.17 o'clock, and on Friday morning at two o'clock the moon will be totally eclipsed.

Toronto has secured from the Welsh mines, and through the admiralty, 5,000 tons of coal, which will cost \$6 a ton less down in Montreal.

The London News refers to John Mitchell as "a modern Napoleon, the most wonderful and successful leader of men the United States has yet produced."

Mayor Cochrane, of Montreal, promises the poor of that city all the dry hard wood they can burn at from \$4 to \$5 a cord.

J. Pierpont Morgan is not in great favour with the working classes, and yet he is the man who ended the coal strike in consequence of which every household in the United States and Canada has been made to suffer.

Mr. Borden is determined that no Quebecer shall succeed him as leader of the conservative party, and so he has addressed the people in French.

The House of Commons has lost its distinguished clerk, Sir John Bourinot, after an illness of many months, has passed away.

M. A. P. does not know Dr. Parkyn, which is a greater reflection upon M. A. P. than upon the late principal of Upper Canada College.

Hamilton tried to get together a citizens' committee to purchase wood for the poor, but only three men were willing to get - Ye Gods! Nearly 50,000 people, and only three men in the bunch!

It is not everyone who can buy wood to advantage, especially wood that has to be resold. And probably the average Hamilton man has had all he could do to buy wood for himself, and so was not in a position to buy for anybody else.

PRESS COMMENTS.

And Appropriately So. Montreal Herald. There is a man named Coffin on the Yale football team. It is a name long associated with football.

So They Should. Toronto News. The afternoon should have something better to do than to try to get political capital out of the fuel difficulty.

A Change Of Words. Exchange. The quotation, "Many are called, but few are chosen," will be more apt if it put: "Many are cold, but few are frozen."

Must Have The Scotch. Ottawa Citizen. Luck is against the temperance people in the referendum campaign.
