

**THEORIES ABOUT FOOD.**

Also a Few Facts On The Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the large cities where no meat, pastry or coffee is served and the food crank is in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who, lived four score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutrient in a highly concentrated form and is digested and assimilated more quickly than vegetables and grains.

Dr. Julius Remmington on this subject says: "Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use."

That large class of people who come under the head of nervous dyspepsia should eat plenty of meat and insure its proper digestion, by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids, and salts, which actually perform the work of digestion. Cheap cathartic medicines masquerading under the name of dyspepsia cure are useless for indigestion as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal times of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.

All druggists sell Stuart's Dyspepsia Tablets at 50c. for full treatment.

**WANT ONE SOON****SEEKING TO HAVE A C.E. CONVENTION**

Reasons For Holding One in Kingston Next Spring—The News From the Churches—Anniversary Event.

There is a movement on foot among the Christian Endeavorers of the city to have the annual convention held here next spring. It is pointed out by those who are the leaders in this agitation that no more centrally located place could be found; its proximity to points in the United States is also in its favor.

"Tis Kingston's turn to demonstrate the ability of the Endeavorers to plan and carry out the details of a convention," said a prominent Christian Endeavor worker on Sunday.

**DEATH OF W. HARKNESS.**

Passed Away After Short Illness—Was Highly Respected.

Announcement of the death of William Harkness Sunday morning came as a surprise to his many friends, few being aware of his illness. The deceased was ill only a few days—of heart affection, and though the best medical skill was consulted, nothing more than temporary relief could be secured.

The late William Harkness was born in Kingston, fifty years ago, being the second son of a family of twelve who have been prominent citizens for a number of years.

In life he was a successful businessman in the drug business, in the lumber business, and was a member of the St. Andrew's church.

The service in St. Andrew's church last evening was of a musical nature.

At the conclusion the choir sang "God Be With You Till We Meet Again," as a good-bye to Mr. Arthur, who presided at the organ for the last time.

The following have been elected society representatives on the official board of Queen Street Methodist church: Mrs. R. E. Sparks, Mrs. (Prof.) W. Pike, Messrs. Bateman, Aspinwall, Clark, Dobell and Worm.

Harvest Thanksgiving services were held in Holy Trinity church, Wolfe Isl. and Sunday. The attendance at morning service was unusually large. The pretty little edifice was tastefully decorated with tokens of an abundant harvest.

Rev. Mr. Forster preached in the morning the musical portion of the service was rendered by a choir from the city, under direction of W. W. Keeley. Fred Tighe presided at the organ. The music was greatly appreciated.

**"A Trip To Coontown."**

The finest singing combination of the season appeared at the Grand opera house on Saturday. There was a large and appreciative audience at night, and the spectators enjoyed themselves greatly.

Representatives of McGill football club were in the gallery and gave the college yell, and joined in the choruses. The programme was rich in solo numbers, duets, trios, quartettes and concerted pieces.

There was dancing galore and a very Niagara of irresistible laughter. The girls are all pretty and the men talented.

The company is headed by Miss Laura Walker, called the Melba of her race.

De Wolf Hopper, at his best, was more entertaining than the principal feature of the organization, the original "Jim" Brown. Altogether, the company is a good one and will be popular during their tour in Ontario.

**What May Take Place.**

The civic committee on water works will meet this week to consider the question of appointing a successor to F. G. Smith, book-keeper for the department.

There are about a dozen applicants for the position, among them being William A. Newlands, clerk in the office of the city engineer. From present indications, Mr. Newlands will receive the appointment, in which case the city engineer will have to provide himself with a clerk, as was done by a by-law adopted last year, regulating and defining the duties of the city engineer, that official having power to appoint all the officials, laborers, etc., employed in his department, so that the council will not have anything to say in the amount of a successor to Mr. Newlands, in the event of his transfer to the water works department.

**Fall Importation Of 1902.**

Preston, of the New York clothing store, Brock street, has received all his fall importations for order work in his tailoring department. His ready-made department is well assortied and a large assortment to choose from. For low price and durability he defies competition.
