Off For Italy.

The many Kingston friends of Miss Lillian Brady will be pleased to learn of her continued success in her chosen profession, that of teaching music. During the past year she was located at Glenwood Springs, Col., where she made a high reputation for herself as a teacher of music and violin soloist. She is now in New York and will sail this week for Italy, per steamship Albergo. After a short stay in Naples, she will travel to Florence, where she will spend eight months studying violin methods and singing under the famous violinist. Thence she will go to Paris and spend four months with Bonnav. Miss Brady began her musical studies under O. F. Tilmann, this city, and her continued success is a high compliment to him as an instructor.

Addressed Young Men.

The first of a series of Sunday afternoon services at the Y. M. C. A., was held yesterday, with a good attendance of young men. Rev. D. N. Morden was the speaker, and his subject was "The Manhood of Christ." He spoke of the two sides of Christ's life and character—first as God and Christ, as man, first as three gospels, Matthew, Mark and Luke, showed him as man, and the gospel of St. John showed as God, the address was a very inspiring one. Trooper Mulloy sang "Saved By Grace," in a very impressive manner. Rev. Prof. Jordan, of Queen's College, will be the speaker next Sunday.

A Dishonest Woodman.

Not many days ago, a Rideau canal man sold a quantity of hand wood to a Kingston dealer. Then he sold the same wood to another Kingston dealer, and immediately afterwards he went through the same process with a prominent firm of brothers. In each case the Rideau woodman collected the money. Then he set out for Chicago. One of the Kingston dealers got wind of the affair, and acting promptly wrote him a letter to the city. The second dealer sent after it on Saturday, and of course didn't get it, and neither will the third parties who bought.

The Mad Mullah Has Been Very Lively

MISSION FAILS

BRITISH SITUATION IN SOMALILAND IS DESPERATE.

News From Swayne Indicates That He is Obligated to Fall Back 150 or More Miles—Three Thousand Soldiers in Peril.
London, Oct. 20.—The foreign office has issued an undated dispatch from Colonel Cobbe, commanding one of the columns of British forces operating against the Mad Mullah in Somaliland. The dispatch was forwarded through the British vice consul at Berbera, Somaliland. The British forces engaged were composed entirely of native troops and levies. Col. Cobbe says:
"My force reached Erege this morning. When about one day's march north of Mudug it was attacked in the thick bush. The advances were made and the enemy was beaten back in the morning. Their losses were heavy and we captured 100 rifles. Our force then proceeded to collect animals for transportation purposes and to join the detachment at the stockade camp. In the afternoon a reconnaissance was made and after sharp fighting the enemy was again driven off.
"I deeply regret to report the following casualties: Col. Phillips and Capt. Angus and fifty men killed and about one hundred men wounded. The latter include Capt. Howard and Lieut. Everett, but both are doing well. There were severe losses among the transport and riding animals. The force will reach the stockade camp tomorrow and will advance to attack the enemy."
The vice consul also telegraphs the substance of a later dispatch from Col. Swayne, who says that as a result of the fighting at Erege, October 6th, which was very severe, the Mad Mullah, who is said to be in communication with Kail and Inger in the direction of the Webbe river, is bringing up reinforcements from all sides. Col. Swayne is much hampered owing to the necessity of transporting the wounded and water. He is retiring on Bohotte. He asks that the method of the Mullah's retreat be ascertained from Berbera forthwith.
The serious reverse in Somaliland places the small British force there of about 3,000 men of doubtful reliability in an exceedingly perilous situation.
"Since the beginning of Col. Swayne's second campaign against the Mullah last May, little has been heard of the expedition. The present dispatches seem to show that he was retreating from the Italian frontier northward when the Mullah attacked him at Erege.
Last December the Mullah was reported to have about 12,000 men, mostly mounted, a large percentage of whom were armed with rifles, it is possible that he now commands about 15,000 men.
With this large force harassing him, Col. Swayne has to retreat to Bohotte, 150 miles, and probably 100 miles still farther, to Buraro, the principal British frontier post. This march must be made under a scorching sun and over an arid and roadless desert, even if the retreat is successful.
The gravest anxiety will be felt until further news is received. The entire expedition will have to be repeated on a much larger scale.
Col. Swayne is accompanied by over twenty white officers and has with him some Maxim guns and some seven-pounders.
The Mullah's success will set the whole Ogaden and Dolbahanta country aflame. Trade relations at Berbera and Bulhar have shown an enormous decrease since the operations of the Mullah cut off access to the rich markets of Ogaden and Dolbahanta. It was announced by Lord Lansdowne, foreign secretary, in parliament, last summer, that the Italians were co-operating with Col. Swayne; but as the dispatches make public it is supposed that some local difficulty was found in arranging for the co-operation.

Troops At Service.

London, Oct. 20.—In the house of commons today, Viscount Cranborne, parliamentary secretary to the foreign office, replying to a question regarding the defeat of the British forces in Somaliland by the Mad Mullah, said that Gen. Manning arrived at Aden, yesterday, with the remainder of the Indian battalion and the remainder of the reserve in British Central Africa he added, had been placed at Gen. Manning's disposal. The country was a most difficult one and this, in a great degree, accounted for the reverse.

Stratford Merchants Victimized.

Stratford, Ont., Oct. 18.—Several Stratford merchants have been the victims of a slick swindler as has appeared here in some time, cheques with forged signatures being the method employed. With one exception, the frauds took place late on Wednesday, so that there was no danger that the banks would have any chance of discovering the forgery, as the next day was a bank holiday. With one exception the frauds were not discovered until the cheques were presented at the banks. The man concerned is described as about twenty-five years old, five feet, eight inches in height, medium complexion, wearing blue overalls, gaiters, rough shoes.

An Interesting Phenomenon.

Toronto, Oct. 20.—C. W. Campbell, of the public works department, who has just returned from Niagara, reports an interesting natural phenomenon exposed as a result of the operations carried on there by the power company. A coffer dam has been constructed outside Dufferin island emptying the channel between the island and the mainland. The bed of the channel thus exposed shows the rock corrugated by the action of the water and holes dug in the bottom by the passage of pebbles, all of which will be quite interesting to geologists.

Willing had shot the woman and then attempted to commit suicide. Mrs. Morton's parents reside in Galt, Ont. She has a seventeen-year-old daughter in a vaudeville troupe.

New York, Oct. 20.—Nine petrified bodies have been found in the cemetery attached to the New York Infant asylum at Mount Vernon. The asylum was closed recently and it became necessary to remove the bodies in the cemetery. While the work was going on the workmen exhumed nine bodies that have the appearance of white marble, and are as solid as a rock.
