

The S. W. Aluminum Paint.

It outranks all similar products in so many respects as to stand practically alone in its field. Its main points of superiority are:—

- Very lustrous.
No mask or odor.
Does not discolor.
Withstands high temperature and excessive heat.
Does not blister, scale or crack.
Great durability.
Large covering capacity.
Easy working qualities.
Tendency to settle reduced to a minimum.

FOR SALE AT CORBETT'S.

WE'RE MAKING A Specialty of These Goods:

There's a Flavor and Strength to our Special Blend Teas and Coffees that satisfies Particular Folks. Try them and you'll use them regularly.

THE STARR CO. 135 WELLINGTON ST.

Carriages Carriages EVERYBODY

Who has rubber tires on their carriages are well pleased with the ease and comfort they enjoy in driving, if you have not got them on your carriage you should send to LATURNEY and have them on and enjoy your drives.

JAMES LATURNEY, CARRIAGE MAKER, 300 Princess St. - Kingston.

"Price," "Capability," "Satisfaction."

A Successful Combination That Merits a Share of Your Trade.

People know from past experience and "CAPABILITY" to supply promptly and "SATISFACTION" anything in the jewelry line required by our patrons, and our "PRICES" are certainly right.

SMITH BROS., Jewelers and Opticians, 350 King St. EYES CAREFULLY EXAMINED.

ATTENTION!

HIGHEST CASH PRICE PAID FOR NEW and Second-Hand goods, Clothing, Furniture, Stoves, etc. Always on hand, new clothing, Stoves, Furnishings, Dry Goods, Jewelry, Musical Instruments, at slaughter prices. I have a large stock of Second-Hand Stoves and Furniture that must be sold for want of space. I have everything from a needle to an anchor to suit the public. Give me a call.

I. ZACKS, 271 and 273 Princess St. Second door below Corbett's.

We Have No Coal

But we have samples touched with gold. These are given away with every sale of gas heating stoves, consisting from 1 to 2 cubic feet of gas per hour. We have stoves from the natural gas region to displace your old stoves. No trouble, no dust, no soot, no gas, cheaper than coal. And we can give you some light on the question by using the Kern Burner, consuming one-half the gas of other burners, and giving three times the light. Open evenings. Call and inspect. J. W. OLDFIN, 228 KING STREET.

BLINDS, GRILLES, STORM SASHES, And all kinds of Interior and Exterior

WOOD WORKING Well Manufactured by S. ANGLIN & CO

Be a friend to Yourself!

Take proper care of yourself. Look after that most important possession—your health. A little neglect or carelessness, and you open the door to serious illness.

Abbey's Effervescent Salt

taken regularly will keep you in good health. It clears the head, gently regulates the bowels and strengthens the digestion. It drives away constipation. Do not take substitutes. Insist on "Abbey's."

Woman's Wealth Is Health.

PAINE'S CELERY COMPOUND

Gives Vitality, Vigor and Strength to Debilitated and Rundown Women.

It is maintained by many writers that the greatness of a nation depends much upon the physical condition of its women. The general conditions which contribute to health and long life, are those which do not imply a rapid and unequal exhaustion of those powers by which life is maintained. While we assert that the women of our land stand peerless for beauty and the virtues that make them lovable, we cannot overlook the fact that there are thousands in our midst who, owing to overwork, worry, household cares, and an unequal exhaustion of life-power, have become weak, nervous, sleepless and debilitated.

We bring to the attention of all weary, despondent, hopeless and sickly women earth's greatest restorer and health-builder, Paine's Celery Compound. Thousands of healthy women ground in owe their present vigor, activity and robustness to Paine's Celery Compound. No other medicine has done such a work for women, and no other has ever received such strong and grateful letters of testimony. Mrs. W. B. Phelps, of Philadelphia, Ont., writes:—

"For two years I was in a miserable state of health, and so nervous that sleep went from me. In my anxious condition it was no pleasure to live. I bought Paine's Celery Compound and after using it for ten days I found myself very much improved, and I was enjoying rest and sleep. I have since taken Paine's Celery Compound from time to time, and find that it keeps me well and strong. I recommend Paine's Celery Compound at every opportunity."

"THE SAFEST STOCK IN WALL ST. TO PURCHASE AT PRESENT."

An extremely "Special Letter," naming the stock and setting forth in exhaustive detail, authentic reasons for believing it to be the safest stock to buy immediately. Should the market ever break it would not decline hardly at all, when the market advances it should be one of the leaders. Sensible, authentic facts, carefully collected and placed before you, which will warrant the above statements.

Letter will be issued immediately upon request. MAILED FREE. ALSO OUR "GUIDE TO INVESTORS," and "DAILY MARKET REPORT."

HAIGHT & FREESE, Hatch's Bldg. 53 B'way, N.Y. 1890. STOCKS, BONDS, GRAIN, COTTON, OATMEAL, etc., Ontario.

Attached is one of the best Job Printing Offices in Canada, rapid, stylish and cheap work; fine improved presses. EDW. J. B. PENSE, PROPRIETOR.

THE DAILY WHIG, Opiter per Orbem Dicor.

THE MAN AND THE PARTY. Bird S. Coler, the democratic candidate for governor of New York, is not inclined to be bound by party ties and party regulations.

The convention at Saratoga decided that the state, (the nation) should be the owner of the coal mines, and that the state should undertake the management of them.

Mr. Coler is not certain that ownership is the only cure for the evils of strikes. He thinks the regulation of great corporations should be honestly and thoroughly tried. It is, in his opinion, to be preferred to the concentration of power in the hands of the federal government.

It is not every candidate who can be entirely frank, who can undertake to set aside the decision of the party in convention assembled.

Cleveland did it and led the democrats to success. Coler may do it, but he is a lighter man, physically, personally, politically. Financially he is heavier, and money counts, though it is not a compensation for the strength of character which carries influence in an election.

TRIP TO NO PURPOSE.

The Toronto Telegram is clearly put out with Mr. Borden, the conservative leader in the commons, in the present search for symptoms of party success.

In Winnipeg, there are two sides to the party, and Mr. Borden leaned to that which is led by Mr. Roblin, and ignored that which is led by Mr. Andrews.

The Telegram has taken alarm thereat. "Progressive independent and conservative sentiment," it remarks, "is outraged by R. L. Borden's vocal partnership in the triumphs of the Roblin government. That government is the foe of independence and progress, and Mr. Borden's tactics in Manitoba are a warning that the friends of these virtues need hope for nothing from him or from the opposition under his leadership."

Not a word is heard from the Mail about all this. With that paper Mr. Borden's Winnipeg outing was a great success, but it is not telling all it knows about some things nowadays. The Telegram's warning may have some effect. Mr. Roblin has not given the people what he promised, and he is not progressive, and if Mr. Borden is not to do any better he will have spent his time and treasure in the late prolonged tour across the continent in vain.

CRITICISM WELL MERITED.

The performance of Dr. Lorenz, of Vienna, Austria, in Chicago, and upon the Armour child, was a wonderful thing. The defect was in the hip joint, which promised to make the heir of millions a cripple for life, and Dr. Lorenz was tempted to leave his home for this long voyage by a fee of \$150,000.

The Chicago physicians pronounced the case hopeless, without an operation, and could give no guarantee of success even then. Dr. Lorenz, who is described as "a man in a million of surgeons," set the joint without cutting, and did this with an amazing ease.

That he might be helpful to the medical profession of America and to other children similarly circumstanced to that of Armour's he performed a series of operations in the public institutions, in the presence of scores of doctors.

And after all he was submitted, to the annoyance of having to pass a qualifying examination and get the certificate which permitted him to practice in the state. The incident has called for the most biting criticism that has ever been passed.

Chicago has its fakirs, of the religious and other sorts who practice their profession and deception without stint, without license, and a man of Dr. Lorenz's standing must be submitted to the indignity of a qualifying examination. It was a farcical proceeding to say the least of it.

EDITORIAL NOTES.

Mr. Mitchell, the labour leader, is generally praised for his management of the late coal miners' strike. He is getting more bouquets than the local coal dealers.

The remount commission did not regard Canada as a good recruiting station. The fault is not Canada's. Horses for army purposes, have to be bred. They will be produced as there is a demand for them.

In provincial politics things are somewhat muddled in New Brunswick. The liberals are anxious for a straight party fight, which means injury to the coalition government which is now dominated by conservatives. The elections will not take place until spring.

Germany has gone extensively into the manufacture of peat briquettes,

which sell for \$7 1/2 a ton. This is peat fuel, and the demand for it is constantly increasing. Here's a chance for Canada to utilize its peat beds and become independent of the anthracite coal miners and their strikes.

Newfoundland has secured a reciprocity treaty with the United States, so far as Sir Rupert Bond and Mr. Hay can effect it. Will it hold? What will Canada do about it? It is provoking that this colony can get concessions which are denied it by the United States. But its position is unique on the fishing question.

The Ottawa Citizen hears that Hon. Mr. Sifton is going to leave the federal government. It had better not believe all it hears. Mr. Sifton is not going into private life yet awhile. He is wanted in public life. He is too useful a man to let go. It would take too long to educate a man to do his work—when he is young and hearty and willing to serve the people.

WHAT THE PAPERS SAY.

Watch And See.

Montreal Herald. It is hoped that the coal dealers won't be absent-minded enough to forget to lower the price.

Has Them Under Training. Toronto Star. J. Pierpont Morgan is getting the planet so that it will roll over when he whistles.

A Change In Luck. Toronto Telegram. saw us looking for hard coal, and December may see hard coal looking for us.

And Why, Pray.

La Patrie. All the Canadian manufacturers of binder twine are asking: Do we pay less for our binder twine? It is the contrary that is true.

Not Exactly News.

Mail. One of the election cases has revealed so much treating as to lead to the conclusion that the trial is merely a contest between the bench and the bar.

A Delightful Change.

Toronto Star. You can come down town on the street car these mornings without meeting a friend who has just cleaned up a thousand on stocks and thinks you a fool for not getting into the game.

LIKELY FIXED.

The Date of Portuguese East Africa to Britain.

New York, Oct. 21.—The Tribune's London cable says: While premature reports of sale or lease of Portuguese East Africa to Britain have been denied at Lisbon and elsewhere there has been a general agreement among people in the diplomatic set, that the determination of that section would be determined by a secret treaty between Great Britain and Germany. The inference drawn from the journey of the king of Portugal and the German emperor have been elastic, and it is not improbable that negotiations for the acquisition, or control of Portuguese territory are now in progress. The terms of the petition, however, have been agreed upon by the advance, and this carries with it the assurance that the purchase or lease will be effected as soon as the government of Lisbon is prepared to set a reasonable price and face the popular agitation which would inevitably follow the alienation of the national territory.

AFTER PIRATES.

Turkish Authorities Are Very Much Distressed.

Constantinople, Oct. 21.—Despatches from Arabia report that two Italian gunboats have been captured by Arab pirates. The Italian authorities are unable to effect the release of the vessels, and the Italian government is greatly disturbed by Italy's energetic action. Advice recently received from Aden says to the effect that piracy is active in the Red sea, especially against the pearl fishers.

Changes In Ping Pong Rules.

London, Oct. 21.—Ping pong, which has a national association of its own, is about to have its rules radically altered as regards service. In future the server shall play the ball on his own court, making it bounce once thereon, thence over the net to his opponent's court. This is expected to obviate all the difficulties hitherto experienced by umpires in deciding whether a particular service is irregular. It will also put a check on extremely fast service, so fast as to be in many instances unplayable.

Use Aerial Boats.

St. Petersburg, Oct. 21. Russia's Black sea fleet is now equipped with a large number of aerial boats or "flying dragons," as the Russian sailors style them. They are powerful box kites, five being enough to raise a man so that he can inspect a wide expanse of water to discover hostile craft. When there is no wind, the speed of the ship raises them to a great height.

Celebrated Nelson's Victory.

London, Oct. 21.—Trafalgar day was celebrated to-day in the usual fashion throughout England. Nelson's flagship the Victory, was being with wreaths and flags at Portsmouth, and Nelson's column, in Trafalgar Square, London, was likewise adorned with wreaths. The usual municipal processions in observance of the day were held in Liverpool, Manchester and other provincial cities.

Russia has asked the British government for the permission to establish direct relations with Afghanistan, but has not answered a request for particulars of the proposed relations.

NOTED PRELATES ATTEND.

The Anniversary of a Bishop's Elevation.

BISHOP McFAUL.

Trenton, N.J., Oct. 21.—The anniversary of the elevation of Bishop McFaul to be the second bishop of Trenton, was observed, to-day, with impressive ceremonies in the cathedral. Bishop O'Connor, Newark, celebrated Mass and many noted prelates and priests were in attendance. Thursday next Bishop McFaul's silver jubilee will be celebrated on an elaborate scale.

Long Life For Brain Workers.

"Brain workers should live sparingly if they would work well and live long," says Mrs. Ernest Hart, an English authority on medical subjects. Their force is required for mental exertion and should not be expended on the task of digestion, which involves a great expenditure of nerve force. They should take only a small amount of butcher's meat, and that especially when able to take more physical exercise. Some animal fat, is useful, such as fresh butter or cream, or a rasher or two of fat bacon at breakfast.

One of the new foods on the market, "Force" is one of the best single articles of diet for the brain worker. It is composed of the whole wheat and barley malt, two grains which Dr. Hart asserts contain proper food for each organ of the body. As it is generally eaten with cream the dish contains animal fat considered necessary in brain worker's diet. In the manufacture of "Force," the malt, acting upon the wheat, performs chemically the work done by the stomach during the first and most swifter stages of digestion. This artificial digestion, however, is stopped by the roasting process, leaving the successive stages of digestion to be performed by the stomach. This food, therefore, while being partly prepared for assimilation by the body still gives the stomach and other organs sufficient exercise to keep them in perfect health.

Epoch Making Event.

Indianapolis, Ind., Oct. 21.—The general conference of Orthodox Quakers, which began in this city to-day, marks an epoch in the history of the famous sect. It marks the passing away of the old form of control of the denomination and the birth of a new religious body having a central authority and combined agencies for work. In other words the members of the church have come to a full recognition of the fact that new methods of a progressive sort are absolutely necessary if the denomination is to retain its influence and membership. In future the church affairs will be managed along the lines employed by the Methodists, Presbyterians and other denominations.

Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period—how to avoid pain and suffering and remove the cause by using Lydia E. Pinkham's Vegetable Compound.

"To Young Women:—I suffered for six years with dysmenorrhea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds. "If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, that was the only medicine which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment, and was cured a month later. I am like another person since I am in perfect health, my eyes are brighter, I have added 12 pounds to my weight, my color is good, and I feel light and happy."—Miss AGNES MILLER, 25 Potomac Ave., Chicago, Ill.

The monthly sickness reflects the condition of a woman's health. Any unusual amount of that time should have prompt and proper attention. Fifty thousand letters from women prove that Lydia E. Pinkham's Vegetable Compound regulates menstruation and makes those periods painless.

READ WHAT MISS LINDBECK SAYS:

"DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound has greatly benefited me. I will tell you how I suffered. My trouble was painful menstruation. I felt as each month went by that I was getting worse. I had severe bearing-down pains in my back and abdomen. "A friend advised me to try Mrs. Pinkham's medicine. I did so and am now free from all pain during my periods."—JESSIE C. LINDBECK, 1201 6th Street, Rockford, Ill.

FREE ADVICE TO WOMEN.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it. Her advice has restored to health more than one hundred thousand women. Why don't you try it, my sick sisters?

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

THE H. D. BIBBY CO., One Price Clothing House, Oak Hall.

A LUCKY MAN

That's what you'll be, if you buy your clothing here. You'll take no chances for we sell clothing for just what it is—ask only what it is worth—sell wool for wool, cotton for cotton, have but one price, the same to everybody, and that price is marked in plain figures. The bashful boy can obtain the same value for his money here as the shrewd trader. We are proud of our good name.
