Wise Ways of Women.

No "prizes" offered with common soaps will long tempt the wise woman to use common soaps. The wise woman soon sees she has to pay dearly for "prizes" in the low quality of soap, in the damage common soaps do her clothes and her hands. The wise woman considers her health-so soon ruined if she were to continue breathing the steam of adulterated common soaps. The wise woman recognizes the difference between such soaps and Sunlight Soap-Octagon Bar. 212

He told how he had organiz- distribution of rewards. ed it, how it had been born in him, how he had preached at an early ace how his descendants had all joined the great work, and how three of his twenty-eight grandchildren were an ong the workers of to-day. Though his hair was white, he still continued preach, and hoped to benefit thousands more before he stepped to the eternal shore.

There were two worlds, the general said, the church world and the worldly world. It was the latter he had hankered after, where he could get at the wicked and the outerst. And the opportunity came. He spoke of Jesus' weeting over the miseries of Jerusalem, and of what little weeping there was nowadays over the woes of the unfortunate. The Salvation Army wept over the people, and tried to comfort and lead them, to the light. During the first fifteen years of its existence, the speaker said the army had a hard struggle. He, himself, toil. ed unceasingly, and finally the doctors told him he must get some small parish where there was good fishing and had girdled the world with the crimson line of salvation.

In conclusion, the general claimed it was all nonsense this talk against religion of excitement, or weeping or feeling. Religion, he said, was not made for Egyptian mummies. He like ed a religion of feeling, a religion that You should light your house or rejoi ed. Regarding the army's future office as economically as possible he declared that God would ever re-The most economical light is main with His people. He, as its founthe YOTTO. WAS TOO INQUISITIVE.

J. W. Johnson Wanted to Know Some Things.

The Belleville Ontario says that a a temperance gathering in Belleville, Rev. Dr. Galbraith made a bitter at tack on the liquor interests. He intimated that no one who used liquor or sold it would ever go to heaven, J. W. Johnson replied, holding that no man in his senses believed that God would send a man to hell because he used liquor. He believed the excessive use of tobacco was just as injurious to the John Walker: system as the liquor habit. He would like to ask Rev. Dr. Galbraith's opinien as to the men who made the tobacco habit possible by manufacturing it and selling it wholesale and

Rev. Dr. Galbraith said Mr. Johnson had not advanced any argument and he did not need to reply. Mr. Johnson-"Well, as the doctor dollar. has not answered my question I will ask him a direct one. Do you sell tobacco in your wholesale grocery?"

AN IDEAL MEDICINE

A New Discovery Which Cures All Forms of Catarra.

The tablet is the ideal form in which to administer medicine, but until recently no successful catarrh tablet had ever been attempted. There is now, however, an excellent and pala table remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their use have been highly gra-

The old time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc. Later on internal remedies were used with greater success, but being in liquid or powder form were inconvenient to use and like all medicines in liquid or powder form. lose their medicinal properties when opened or exposed to the air. Stuart's Catarrh Tablets contain

highly concentrated antiseptics, Hydrastin, Blood root, and Red gum which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, because all authorities are now agreed that catarrh is a constitucations can have only a transitory ef-

The use of inhalers, douches and sprays is a nuisance and inconvenience and can in no wise compare favorably with the same antiseptics given in tablet form internally, where they can reach the stomach and blood and kill catarrh germs right where they are produced.

A prominent lawyer and public speaker of Pittsburg says: I have been troubled with catarrh of the head and throat for twelve years. In this climate it seems impossible to get rid of it. The continual dropping of mucous from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took me an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work and this condition gradually brought on catarrh of stomach, causing loss of appetite, poor digestion and a foul breath, which annoyed me exceedingly. My physician advised me to try Stuart's Catarrh Tablets and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach and I have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of trouble, because since using them I have had no trace of catarrh. Druggists sell Stuart's Catarrh Tab-
