LITTLE DIGNITY IN COURT.

Mr. Saunders Finds Bench And Bar Too Familiar.

Montreal Gazette "There does not exist in Pacific coast courts the same respect of form and reverence of the law such as prevails in Canadian courts."

The speaker, F. C. Saunders, who has just returned to Montreal, after an extended trip through the Canadian west and the Pacific slope; yesterday discussed matters that had interested him during his tour. He was particularly interested in the courts and methods of precedure, and had visited many legal men and courts. His observation of usage in the United States led to the expression of opinion pre yiously quoted. Continuing upon the subject, Mr. Saunders related this incident that had come to his notice:

"A friend brought me to one of the courts in San Francisco and when we entered the room a case was in progress. The lawyer for the plaintiff was first to see my friend. 'Hello, Tom,' he cried. He disappeared on September 3rd, and detectives started on his trail. He was traced to Fort Erie, then to Detroit, and later to Toronto. It is said he won a lot of money on the races in the last named city. Then he was followed to New York, and late last night was found in a restaurant with 'two well-dressed women. He handed to one of the women a bag, which is now believed to have contained jewels kept from his brother's estate, which he is accused of squandering. The women escapeo.
