### COMMERCIAL MATTERS.

#### What Is Going On In the Business World—The Market News.

Cheese sales: Brockville, 11 3-16c.; Tweed, 11c.; Vankleek Hill, 11c. The pineapple crop of Cuba for 1902 is estimated at nearly 200,000 barrels, holding an aggregate of 14,000,000. The sales of Canadian dress goods continue active. The assorted trade in newish stuffs, stylish, up-to-date goods, is large. Failures for the week number 232 in the United States, against 240 last year, and 22 in Canada, compared with 29. Nova Scotia coal is being introduced into Boston for domestic use. It comes from the Spring Hill mines, and is being sold there for \$2 a ton. In fine blankets for children's coats and for opera cloaks Canadian mills are supplying the demand, to meet which German goods were formerly imported. Light estimates the best crop of Europe at 5,350,000 tons, as against 5,433,038 tons last season, and 6,046,513 tons in 1890-01. The case crops are estimated at 3,470,000 tons, as against 3,484,465 tons in 1890-01. The market for staple dry goods is quiet, but there is a very firm undertone to the market for cottons and woollens. The mills are not very zealous in the pursuit of new business; in fact some of them would like to see orders slower in coming forward. In the United States alone some 4,000,000 test of pine lumber are used every year for matches, or the equivalent of the product of 400 acres of good virgin forest. About 620,000,000 crosses are now laid on American railroads and 90,000,000 new ties are required annually for renewals. The people of Canada, according to Mr. Boulter, Jr., of the Boulter & Son, Cambridge company, of London use 300,000 cases of tomatoes, and 200,000 to 250,000 cases of corn every year. There are two dozen cans to the case. When I saw a pile of 13,000 cases of canned tomatoes in one lot I thought there ought to be nearly enough in that one lot to supply the whole country. On Tuesday sugar refiners advanced prices 5c. per 100 lbs. on all grades, and Wednesday they marked them up another 5c., making a net rise for the week so far of 10c. If prices for raw bests continue on their upward move they will, no doubt, go still higher in the near future. At the factory granulated is selling at \$3.90 and yellow at \$3.15 to \$3.60 per 100 lbs., as to quality.

MARINE INTELLIGENCE. Notes Regarding the Movements of Vessels. Craig's wharf: Steamers Ocean and Lake Michigan, steambound, cleared up. "Bibby's" To-Night. "Bibby's" "Westminster" the new custom made overcoats, \$12.50, \$10, \$8. The H. D. Bibby Co.

An automobile containing Fred. H. Payne, stockbroker, of New York, and Rush Hart, paymaster N.Y.C., became unmanageable and ran over an embankment into a river. Both escaped unhurt.

Rev. Dr. Sheldon Munson Griswold, Hudson, N.Y., has been elected missionary bishop of Salina. The protest against the election of Dr. Jessop, M.P.P., Lincoln, has been dismissed. The fall hat crop is ripe, come and pick, four new shapes in this week. Jenkins.

Got Twelve Years. Halifax, Oct. 25.—At Sydney, Horace Charbonneau, Quebec, found guilty of manslaughter, was sentenced to twelve years in Dorchester penitentiary.

Two suits for damages, \$10,000 each, were begun on Friday against the Diamond Steamship company of St. Louis, on account of the killing of Christopher Leonidas, and his son, by Mate Breen, of the steamer Dubuque. At Steep Rock Lake, on the Canadian Northern railway, a work train ran into a hand car. Six cars were derailed, one man was killed and two others were injured. At Chester, Pa., Hugh Medally, aged nine, saved Mary Kerr, aged six, whose clothing had taken fire from a bonfire, by wrapping his coat about her. To make room for our new English chocolates, we will sell what we have in stock at exactly half price. Jas. Redden & Co.

## GOT HIS SIGHT IN DARK FOR PAST NINETEEN YEARS.

An Affection of the Chest Was the Cause of His Loss of Sight—Things Look Different.

Montreal, Oct. 25.—Joseph Brunet, of this city, states that he has recovered his eyesight after having been blind for nineteen years. Brunet, a vigorous looking fellow about forty-five years, was undergoing treatment in the Hotel Dieu, when a young man, when he suddenly went blind. He consulted oculists without avail. For the past six years he lived with a cousin and found his way about the city with a cane, depending on the kindness of the public to help him over crossings. A year ago he heard that his brother, who was also blind, had been cured by Dr. Grandpre, Valleyfield. The doctor found that an affection of the chest was the cause of his blindness. Brunet went to Valleyfield and implored the doctor to treat him. The doctor understood the case and a month ago Brunet was so far recovered as to be able to read print, and now he says he can thread a fine needle. The sights he sees fills him with wonder, for the colors of nature and the appearance of trees, etc., are different from the impression he retained from the days before he became blind. The Allan line steamer Mongolian sailed Saturday afternoon from Glasgow for New York, via Moville, with twenty cabin passengers, seventy intermediate and thirty steerage passengers. The Allan line steamer Arcadian sailed Saturday afternoon from Glasgow for the St. Lawrence. The point at issue between the Intercolonial and Grand Trunk rail ways, which is to be submitted to arbitration, refers to the handing over to the C. P. R., at Lennoxville, by the G. T. R., of eastern freight which the I. C. R. claims should go to its line according to its contract with the G. T. R. The amount of freight given to the C. P. R. is claimed to be small and only points where the C. P. R. have side siding facilities. The Elder Dempster steamer Melville, the second boat of the South African service, which sails on the 18th prox, is rapidly filling up with merchandise. Among the cargo so far booked is 2,000 barrels of flour, 4,000 cases of butter, 3,000 barrels of apples and 2,000 cases of hams, besides woollens and cotton goods, and agricultural implements.

Killed The Engineer. Missoula, Mont., Oct. 24.—An east-bound passenger train on the Northern Pacific was held up last night near Drummond, Mont., forty-five miles from this city, and Engineer Dan O'Neill was killed. The robber rifled the regular mail and blew open the safe in the express car, which was wrecked by the explosion. Much booty was secured. Word of the attack was telegraphed to Deer Lodge, fifty miles away. Bloodhounds were sent out at once and a search for the robber began. The latter has terrorized railways for years. The Northern Pacific has offered a reward of \$5,000 for delivery, dead or alive, of the train robber.

Market Still Sagging. New York, Oct. 25.—Values on the stock exchange continue to exhibit a sagging tendency in spite of occasional efforts to rush them upwards. The latter operations have not been signal successful, conservative interests continuing to show decided opposition to such manipulation. Dealings were consequently largely of a professional nature. The market for gold has an active bull market are still wanting. Considerable improvement has taken place in the monetary situation, and apprehensions of disastrous stringency have been removed by liquidation in stocks, by contraction in loans and by Secretary Shaw's energetic efforts.

Brussels, Oct. 25.—Because of his cruelty to his two daughters, both of whom he has disowned, King Leopold of Belgium is now one of the most unpopular monarchs that ever sat upon a Belgian throne. Talk of the overthrow of his dynasty and the institution of a republic are again in the air.

London, Oct. 25.—The Daily Mail says it understands that the government will next week ask parliament to vote a grant of \$10,000,000 for the benefit of those residents of the Transvaal who remained loyal to Great Britain during the war in South Africa, in addition to the \$15,000,000 granted under the peace treaty.

At The Police Court. Alderman Walkem again presided at the police court this morning. A young man, eighteen years of age, was charged with being drunk and disorderly. His employer testified to his previous good conduct, and it transpired that his father, who is employed at the locomotive works, had taken his son out last night to help him spend his weekly wage. The young man was discharged with a reprimand.

Another citizen, against whom a similar charge was lodged, pleaded guilty. As this was not his first offence, he was fined \$2 and costs or ten days in jail. He paid up. The young driver of a factory delivery rig yesterday laid information against the factory foreman, charging him with assault. The charge was afterwards withdrawn.

State Of The Market. W. G. Moore, representing W. F. Dever & Co., stock brokers of Toronto, New York and Boston, was in the city to-day looking after the firm's local clientele through this section. Interviewed regarding the situation in Dominion and New York securities, Mr. Moore was of opinion that while both markets had suffered a setback from the calling in of loans, and the consequent rise of higher loaning rates, the money market was gradually adjusting itself to normal conditions, as the result of the inflow to New York of money from the west and south-west that had been used to move the crops. While the present market may be somewhat erratic, the chances for investment can be safely made at the present time, on which handsome profits can be realized by the first of the year.

Manager Sherman is prepared to show Kingstonians what a first-class popular priced company really is.

Reception To Students. On Friday evening the lecture room and Sunday school hall of Sydenham street Methodist church were crowded with a most happy gathering. Fully 600 students were present. Music, recitals and promenades filled the programme. The galleries of the church were opened, and the young people hailed this as one of the special features of enjoyment. Rev. Dr. Philip presided. Mrs. Kerr, Mr. Craig, Miss Ada Chown, Miss Shaw and others, by song and reading, added greatly to the pleasure of the evening. It was a warm-hearted welcome to the students, and all seemed to enjoy it to the full.

May Occur Monday Night. Two weeks ago the city council appointed the mayor, Alderman Walkem and Alderman Farrell a committee to wait upon Andrew Lanigan, the late city messenger, and present him with a gold watch on behalf of the city.
