Petitions Presented. Ald. McFarlane-From T. G. Mont rief and others, asking for extension water works system in Russell street.-Water works committee.

Alds. Bell, Graham and Tait spoke in behalf of the ratepayers petitioning, who were represented as suffering for want of water. Ald. Behan, while sympathizing with

some of the sincere petitioners, said gists in the Dominion of Cana- that some of them were suffering because of their own fault, as they had refused in the past to agree to take the service when it was obtainable. However, he added his plea to that of the others, and requested that the prayer of the petition be granted possible.

Ald. Graham wanted the service put in even though the income did not guarantee the eight per cent. exacted by the water works committee. He thought the serving of pure water to the ratepayers of more consequence than the carrying out of the committee's fixed rate of interest.

In reply, Alds. King and Walkem pointed out that according to law the department must exact an income sufficient to cover working expenses and payment of debentures, and the department had fixed that rate at eight per cent.

The mayor closed furth "speechify ing by referring the petition to the water works committee.

If Local Applications Alone Ever Cured a Case of Catarrh.

Most remedies for the treatment of catarrh are in the form of sprays, in halers, powders, washes or salves, all them often give temporary relief, but the reason none of them ever really cure chronic catarrh is because ca tarrh is not a local disease and it can not be cured simply by treating the local symptoms.

Moreover the more serious forms of catarrh, like catarrh of the stomarh and catarrh of the bronchial tubes. cannot be reached at all by local applications and the fact that neglected catarrh of the head very soon in volves the bronchial tubes, stomach and liver, demonstrates that the disease is a blood disorder, a constitutional malady and not at all a local

disease: To really cure catarrh the system must be cleansed from catarrhai pois on by an internal remedy which acts effectively upon the blood and liver, The success of a new catarrh remedy, Stuart's Catarrh Tablets, is because it drives out of the system. through natural channels, the catarrhal poison and the mucous lining of the nose, throat and trachea are freed from the excessive mucous which collects and causes the hawking, spitting
