EDUCATING THE PEOPLE.

The secretary of the Manufacturers' Association has given an official contradiction to the story that a huge fund has been suggested and for the influencing of public opinion through the press as the association desires.

At the annual meeting reference was made to the necessity of education in the interest of Canadian manufactures, and it was understood that a fund would be provided in order to make this mission or work a success.

The secretary of the association informs the people, however, that the education sought is of a different sort, that it applies to the extolling of Canadian wares among the Canadian buyers, that the fund is \$50,000 in place of \$500,000, and that is really under the direction of the association's campaign committee.

That Mr. Tarte is going to be a political force so far as the press is concerned goes without saying. He and his sons own La Patrie and Desbats, of Montreal, and The Mercury, of Quebec, and the views of the ex-minister will be expressed through them in a very vigorous fashion.

The tour a failure. Mr. Borden, the leader of the opposition in the Dominion, has, since his return to the east, given out that his visit to the Pacific Coast with long halts and many meetings in British Columbia and Manitoba will be of great advantage to the party.

There was a time, says the Free Press, when the west was filled with conservative partisans whose support of the party's policy never wavered, however inimical it might be to their material interests.

Mr. Borden set out with the purpose of moving the western people to his side, his way of thinking, and has not succeeded. "Mr. Borden," adds the Free Press, "has made absolutely no impression upon that large body of public opinion which is hostile to the fiscal policy of the conservative party."

His railway policy, like his tariff policy, says the Tribune, "reminds that of the present government they work out in practice, to awaken an ever ardent desire for a change."

complished by the thirty odd day trip across the continent.

MILLER'S WORK FOR THE ONTARIO BUREAU OF MINES.

Reports That United States Iron Masters Are Closely Watching the Situation in Ontario.

The season for geological field work which is now closing has been an active one for the Ontario Bureau of Mines, and a good deal of exploration has been carried on, especially in the newer parts of the province, which will considerably increase the present stock of knowledge regarding the mineral possibilities of these parts of Ontario.

Mr. Miller has just finished a trip down the Mississauga River, the lower portion of which runs through the copper district in one in which promising discoveries of copper have been made covering a large area of territory, and may be expected to produce some good mines in the not distant future.

Mr. Miller has located some area of crystalline iron in the future in connection with the iron or other metallurgical industries in the district.

The anthracite coal transporters allege that they have lost fifteen millions by the strike. They purpose, it is said, to add 50c to the rate of freight. They handle about fifty million tons of coal per year.

A grand jury in Toronto recommends the abolition of imprisonment in the case of juvenile offenders, and the substitution of whipping or whipping.

WHAT PAPERS SAY. The Tables Turned. Toronto Telegram. October saw us looking for hard coal and December may see hard coal looking for us.

Wouldn't Do At All. Toronto Star. How would it do to build a wall around the Donkoshers' roof it in, and call it an insane asylum?

Getting In Our Work. Hamilton Spectator. The New York Sun is again annexing Canada to the United States, and Canada is now annexing the United States by the thousand.

And As Much Appreciated. Ottawa Journal. Any subscriptions Hon. Edward Blake may get in Canada for the Irish cause will be to him just like "money from home."

To Rest And Silence. Montreal Herald. Voices from the tomb! Sir Mackenzie Bowell has been brought to life and asserts that the liberals will declare for free trade. Well that will go for you, Sir Mackenzie. Back to the woods!

Remarkable Saying. Syracuse Post-Standard. One of the remarkable sayings of the past week is attributed to President Taylor, of Vassar College: "From the viewpoint of health, hardly one girl in ten is fitted physically to stand the mental and nervous strain of the college course."

They Drew Lots. Paris, Oct. 29.—There was a drawing by lot, yesterday, of deputies who are to investigate the election at St. Flour, department of Cantat, in August, when Count Jean de Castellane, on the face of the returns was apparently beaten by M. Hugon, Count Jean made a charge of fraud in the counting of ballots. After the previous general election, Count Jean who had been declared elected, was unseated on charges of the unlawful use of money. The first name drawn yesterday was that of Count Boni de Castellane, the husband of Anna Gould, and a brother of Count Jean.

Will Not Leave. London, Oct. 29.—Speaking at Southampton yesterday, the chairman of the London & Southwestern railway company said there was no truth in the rumors that the Atlantic Shipping combine would deprive that port of vessels plying between there and America. On the contrary, it was the intention of the combine to arrange for a large increase in the amount of shipping business done at Southampton.

There was an unusual but interesting function on Tuesday at Westminster Abbey, when the new dean was installed. The mayor and corporation of Westminster, assisted in the ceremony, by Dean Robinson who was one of the guests of Westminster the installation service was almost a household affair.

PICKETING BY LABOR UNIONS Comments on Decision Rendered by Justice Andrews.

Picketing, as practiced in the interest of a labor union as the result of a retail business firm being declared "unfair," is discussed at length in an opinion just delivered by Supreme Court Justice William S. Andrews, of Syracuse. There have been numerous court decisions both in America and England on this subject, and many of them differ widely. While Justice Andrews in reaching his conclusions is guided to a certain extent by higher tribunals, his treatment of the question appears to be, as a whole, decidedly new.

"Merely picketing," says Justice Andrews, "assuming that there is no threat or intimidation, assuming that it is confined to simple persuasion, I do not regard in any sense as unlawful, whatever may be the motive of the picketers."

In other words, Justice Andrews believes that there are two kinds of picketing, one lawful and the other unlawful. Lawful picketing must be confined to a mere request that does not constitute or imply a threat to do unlawful injury. Picketing is unlawful when an act otherwise wrongful is involved.

As the latter proposition there is not the least question that the Syracuse justice is right. It probably will be upon the point that it is possible for picketing to be conducted lawfully that the decision would be attacked should it go to a higher court for review.

A Serious Outlook. Berlin, Oct. 29.—Gloomy reports from the German industrial districts are published in the Berlin Vossische Zeitung, which says that for years to come Germany must expect to stand still or even witness a retrograde movement in her industrial life.

G.T.R. Improvement Plan. Montreal, Oct. 29.—The Grand Trunk railway company has just decided to carry out a scheme of improvements at Bonaventure station, which involves practically the entire reconstruction and rearrangement of the existing building.

For Pale, Thin Bloodless Girls Who Are Weak, Languid and Despondent There is no Preparation so Efficacious as Dr. Chase's Nerve Food.

The question often arises as to why Dr. Chase's Nerve Food is so remarkably successful as a treatment for the ill of girlhood and womanhood, and the answer is found in the fact that Dr. Chase's Nerve Food goes directly to form new, rich, life-sustaining blood.

Dr. Chase's Nerve Food is making hosts of pale, weak, bloodless girls and women strong and healthy and will undoubtedly be of lasting benefit to anyone who uses it.

Rev. T. Brown, Methodist minister, Omemee, Ont., writes: "Dr. Chase's Nerve Food has been a great boon to one of my girls. She was thin, pale, bloodless and altogether unfit for work or exertion of any kind."

Dr. Chase's Nerve Food also restored me after a severe attack of nervous exhaustion, and I have recommended it to many persons with most excellent results."

Mrs. T. Dabell, 21 Charles street, Kingston, Ont., states: "One of my children suffered very much with headache, caused no doubt from over-study and a run-down condition of the nervous system. These attacks of headache were very trying on her and I noticed that she was gradually growing weaker and more nervous. About two months ago I got her a box of Dr. Chase's Nerve Food and since she has been using this preparation she is more than pleased with the improvement which has been made in her health. She looks one hundred per cent better, her nerves are steady, she is not bothered with headaches and is gradually increasing in flesh and weight."

The wonderful medicinal power of Dr. Chase's Nerve Food has been demonstrated in thousands of cases. Gradually and certainly it creates new nerve cells, builds up the system, and overcomes the weakness which gives rise to nervous ailments and feelings of depression and despondency. New houses, new residences, new vitality are instilled into the body and health and strength take the place of disease.

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50. At all dealers or Edmondson, Bates & Co., Toronto.

Orders from the United States for the iron are beginning to reappear in the Cleveland market and the iron masters in England and Scotland, who, a week ago, anticipated a serious slump in price, are now taking a more hopeful view of the situation.

GONE BACK TO IRELAND. Likely to Force the Measure Through.

London, Oct. 29.—The Irish members, collectively, absented themselves from the House of Commons, yesterday, and returned to Ireland. The sitting was devoted exclusively to the slow progress that is being made with the measure it is understood that the government will close the bill by sections so as to force it through the house by the beginning of December.

The Irish members never intended to take part in the committee stage of the education bill, they appeared only for the purpose of opposing Mr. Wyndham's application of the crimes' act. They obtained a debate on this subject on Monday night, and, therefore, decided to absent themselves from the house, as they have no wish to help the government, but they do not oppose the education bill, which the Catholic authorities support.

Likely To Run Smooth. New York, Oct. 29.—Tribune's Londonable says: The most pressing difficulty of the government has been solved by the Irish members shaking the dust of Westminster from their feet and returning to their native land. All fear of renewal of diurnal demonstrations, which have delayed the business of the country and disgraced the house of commons, is, therefore, at an end for the present, and there is now a chance that the London water bill, as well as the education bill will be passed before prorogation.

BY BRITISH MAILS. What Comes to Us From Over the Sea. Cork exhibition has been visited by 1,025,804 persons.

The English and Scotch supply of harvest labor from Ireland continues to diminish. Nine thousand seven hundred rats were killed at the London docks within two months.

The Irish landlords decided by seventy-seven votes to fourteen against a compromise with the tenants. Eighty-eight hands competed in the national brass band competition in the Crystal Palace, London.

During the week the military authorities have been sorely perplexed by a "paranistic mangle" among the horses in Ireland.

Andrew Carnegie's gifts of \$75,000 to Belfast and \$35,000 to Limerick for the establishment of libraries have been accepted.

A ship in London still possesses an income originally given to it for the purpose of buying faggots with which to burn heretics.

Richmond town council has made a profit of £2,000 on workmen's dwellings, although the scheme was adopted only a year or two ago.

During the week the shipbuilding launched two warships, nineteen steamers, and three sailing ships. New orders amount to 57,000 tons.

Andrew Carnegie, who is rector of St. Andrew's University, has given £1,500 for a union for the women students attending the university.

An instance of the character of the late straggler grower in Kent has just been reported. He has over his apple crop, and between £5,000 and £7,000 in ruined crops.

Orders from the United States for the iron are beginning to reappear in the Cleveland market and the iron masters in England and Scotland, who, a week ago, anticipated a serious slump in price, are now taking a more hopeful view of the situation.

Mrs. Tupman, a prominent lady of Richmond, Va., a great sufferer with woman's troubles, tells of her cure by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For some years I suffered with backache, severe bearing-down pains, leucorrhoea, and falling of the womb. I tried many remedies, but nothing gave any positive relief. I commenced taking Lydia E. Pinkham's Vegetable Compound in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman."

"I commenced taking Lydia E. Pinkham's Vegetable Compound in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman. When I commenced taking the Vegetable Compound I felt all worn out and was fast approaching complete nervous collapse. I weighed only 98 pounds. Now I weigh 109 pounds and am improving every day. I gladly testify to the benefits received."

Mrs. W. H. Pelham, Jr., 108 E. Baker St., Richmond, Va., says: "DEAR MRS. PINKHAM:—I must say that I do not believe there is any female medicine to compare with Lydia E. Pinkham's Vegetable Compound, and I return to you my heartfelt thanks for what your medicine has done for me. Before taking the Vegetable Compound I was so badly off that I thought I could not live much longer. The little work I had to do was a burden to me. I suffered with irregular menstruation and leucorrhoea, which caused an irritation of the parts. I looked like one who had consumption, but I do not look like that now, and I owe it all to your wonderful medicine."

"I took only six bottles, but it has made me feel like a new person. I thank God that there is such a female helper as you."

Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vegetable Compound is the medicine they should take. It has stood the test of time, and it has hundreds of thousands of cures to its credit. Women should consider it unwise to use any other medicine.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case—try her to-day—it costs nothing.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.
