R. G. Dun & Co. report 24 failures in Canada this week, against 19 last week and 16 the week last year.

A feature of the dry goods trade this week has been an increased demand for flannels—a result of increased prosperity.

A combine in the malleable iron plants of the United States has been formed. The deal has been pending since last July.

The conditions of trade throughout the Dominion are healthy, and the outlook for the next two months is very promising.

The production of iron and steel upon which bounty was claimed in Canada last year was 435,039 tons.

Two big consolidations are planned by the beef interests. The packers will combine first and then effect a merger of all the stock yards in the United States.

One of the most remarkable indications of the foreign wheat situation is the fact that white world's wheat shipments for four weeks have been in excess of 45,000,000 bush.

The consumption of tobacco is increasing in France. About 25,000,000 pounds were sold in 1877; 32,000,000 pounds in 1878; 60,000,000 pounds in 1879; 69,000,000 in 1880; and 81,000,000 pounds in 1900.

The average per head is now 12 pounds, which is exceeded in Belgium, Holland, Spain, Germany, Austria, Hungary, Denmark and Norway, but exceeds the average in Turkey, Bulgaria and Greece.

No Inquest Necessary. Dr. Mundell, after investigating the case of Gilbert Flynn, found dead at Mountain Grove on Friday, decided that an inquest was not necessary.

Suicide was plainly evident.

Import Duties. The import duties for October amounted to \$12,235,12, as against \$11,083,16, in 1901.

ASKING FOR AID TO BRING ABOUT BETTER TRADE RELATIONS

And Possibly Confederation—The Windsor Board of Trade is Seeking to Have the Matter Considered.

Toronto, Nov. 1.—A communication from the Windsor Board of Trade, asking the co-operation of other boards of trade, first, to bring about better trade relations between Canada and the colonies of Newfoundland and Jamaica, and, second, to consider a basis for confederation if such was deemed practicable, was informally discussed by the council of the Toronto Board of Trade yesterday.

The members agreed that the trade relations should be strengthened, but as regards confederation it was felt that they had not enough information at their disposal to venture an opinion.

The downtown section of the city was in the possession of hundreds of students and followers for several hours last night. The police say that it was the wildest Halloween in years.

Several persons were injured, considerable damage was done to private property and seven young men were locked up on charges of disorderly conduct.

The students were finally dispersed by a charge. Mounted Policemen Wallace and Wood were injured while driving the noisy crowd up Yonge street, and had to be taken home.

George C. Willson, president of the Medical Society, had a fractured rib and another student had a leg broken.

On the application of the petitioners the trial of the North Westworth election petition against R. A. Thompson which was set for trial at Hamilton, on Tuesday, is indefinitely postponed.

In North Norfolk petition, against D. Snider, it was expected that a similar application would be made by the respondent, but it was not.

The application may yet be made, on Monday, or when the case is called for trial at Simcoe, on Tuesday, and it will be opposed by the petitioners.

Robert Walton, aged fifty-six, for many years chief assistant clerk of the customs, Toronto, and auditor for the British Assurance company and the Central Canada Loan company, died last evening. He leaves a widow, two sons and two daughters.

The Dominion Licorice and Novelty company, Lombard street, this city, the only industry of the kind in Canada, has been absorbed by the National Licorice company, of New York, and the plant will be closed down.

The National Licorice company was organized about three months ago and has bought up all the licorice interests in the United States.

Dalton Mortimer died in St. Michael's hospital, early this morning, of injuries caused by some rascals falling on him on Thursday last.

HAVE ONE IDEA.

The Aim of the Doukhobors of the West. Winnipeg, Nov. 1.—The Doukhobor pilgrims, last night, encamped near Church Bridge, and at the present rate of progress Sunday noon will see them cross the boundary into Manitoba.

They are nearly all barefooted and hatless, unshaved and are showing signs that hunger, fatigue and emaciation have weakened their bodies.

They still refuse to pay any attention to argument and have only one idea which is to find Jesus. The women who were detained at Yorkton are becoming rational, and, yesterday, allowed the children to partake of the food which was offered them as well as taking sparingly of it themselves.

COTTON MILLS COMBINE.

British Syndicate Engineering a Big Deal. Mexico City, Nov. 1.—E. N. Shaw, a capitalist of London, is in Mexico for the purpose of effecting a consolidation of all the principal cotton mills in this country. He is said to represent a British syndicate, which has a capital of \$50,000,000, organized for the purpose named.

The plan of the merging of these industries into one concern has been submitted to the mill owners and meets with general approval.

Much Gratiified.

Victoria, B.C., Nov. 1.—An important public meeting called to celebrate the completion of the Pacific cable was held in the theatre last night.

Mayor Hayward, president, and those present included Lieut. Gov. Joly, Admiral Bickford, members of the local government, and prominent public men.

Congratulatory messages were sent to the king, Sir Wilfrid Laurier, Sir Edmund Barton, Hon. Joseph Chamberlain and Premier Seddon, and a resolution was adopted expressing the gratification of the citizens at the completion of the line.

Gets A Long Sentence.

Nyack, N.Y., Nov. 1.—Frank Wyman, the prisoner convicted of burglary, who escaped from Rockland county jail April 13th, after murderously assaulting the jailer and who was recaptured in New York last week, has been sentenced to twenty-four years and six months imprisonment in Sing Sing prison.

Wyman makes a claim that he paid the jailer \$150 to permit his escape. The charge is being investigated by the authorities.

Dies From Injuries.

Gainesville, Ga., Nov. 1.—Captain John H. Montgomery, president of the Paeolet Manufacturing company, died last night from injuries received in a fall. Captain Montgomery was perhaps the largest cotton manufacturer in the South.

Besides being president of Paeolet and Gainesville cotton mills, which is capitalized at \$1,500,000, he also was president of the three Paeolet mills of South Carolina and a stockholder and director in several more.

Boldt, arrived on the river, is called the Presto, is eighty-five feet long and nine feet six inches beam; is of composite construction, her frame being of iron and her hull of aluminum; natural speed thirty-one miles an hour and thirty-eight under forced draft; finished throughout with mahogany, commanded by Capt. John Bolton of Alexandria Bay.

Mr. Gallagher's Views.

In a newspaper interview at Toronto, J. S. Gallagher, M.P.P., stated: "As to the referendum campaign, the feeling is pretty strong in Frontenac though there are not great surface disturbances, because the temperance party is thoroughly organized. They have been successful in keeping this issue free from politics, and the referendum will be carried in that constituency by an overwhelming majority."

Mr. Gallagher said Mr. Tarte might possibly have some following in Quebec, but the liberal government was immensely stronger without him. He thinks the conservative party would take up the ex-minister of public works? Well, no, he didn't think so.

Established Too Late.

Vancouver, B.C., Nov. 1.—Dr. Haamal, superintendent of mines, gives the total amount of Klondike gold treated at the government assay office here for the season at 56,965 ounces, valued at \$928,965. As the total output for the season was \$12,000,000 worth of bullion, Seattle and San Francisco assay offices must have secured more than eleven-twelfths of the Canadian yellow metal. The Vancouver office was established too late.

He Was Drowned.

The remains of the late Edward J. Nelson, son of George A. Nelson, Johnston street, arrived on the Cape Vincent boat on Friday evening from Washington, and the funeral took place Saturday afternoon. The deceased was accidentally drowned while on a duck hunting trip not far from the city of Washington. A sister was expected to reach the city to-day, bringing tidings of the sad occurrence.

READY TO ACT.

Marconi Is At Sydney And Will Begin Work.

Halifax, N.S., Nov. 1.—A special from Sydney, N.S., says: "I hope to be able to give you an important statement regarding my success in transmitting wireless messages across the Atlantic in about a week's time," said Signor Marconi, in an interview on the deck of the Carlo Alberta, as she lay in Sydney harbor, this morning.

Marconi was exceedingly gracious but had no information to give, at present, concerning the distance from which he was able to send and receive messages, between the warships and Cornwall station. It is generally understood that the station at Tablehead has yet to be fitted with regular apparatus and that, therefore, there was no communication between it and the warship during her voyage out.

Continuing his replies Marconi said: "In addition to apparatus put ashore in the canal, yesterday, at Glace Bay, I have exceedingly powerful receiving and transmitting machinery on board accompanied by two assistants, Messrs. Kemp and Paget, who will aid me in my experiments. Later in the day I shall land at Sydney and proceed to Glace Bay to inspect the station at Tablehead. We shall thus begin, at once, the work of installing the powerful machinery we have with us. This work will occupy us at least a week, and then I shall be happy to give you any information in my power respecting the success of our efforts."

Long In Newspaper Harness.

New York Tribune. M. de Blowitz, who has made up his mind to retire after having represented the London Times at Paris for thirty years, gives as his reason that he is half blind, and when his niece, who acts as his secretary, is not by his side he can neither read, write nor dictate. "A blind man may do very well as an organist or a pianist, but not as a correspondent for a newspaper," he adds. M. de Blowitz will remain at his post until the end of the year, however. He has been the Paris correspondent of the London Times since July 13th, 1871, and shows no symptoms of intellectual fatigue.

"The Sign Of The Cross."

"The Sign of the Cross," presented by a large company made up of prominent players from William Greet's original London Eng., company comes to the Grand Opera house on Wednesday, November 5th. Mr. Berger has bought the American rights to the play and the organization that will present it in this city is the only one appearing in this unique drama in Canada. "The Sign of the Cross" deals with elemental passions and touches chords that recognize no restrictions of time or place.
