NINTH LANCERS' SCANDAL.

Reason Given Why Officers Were Recalled to India. London, Nov. 3.—The Express states that the cavalry regiment, whose officers were recently ordered to rejoin their command, is the 9th Lancers, stationed at Telkote, in the Punjab, where it recently arrived from South Africa.

Some of the privates were accused of brutally beating a native cook named Atu, his maltreatment resulting in his death. Lord Curzon, the viceroy, believing that the soldiers were guilty, despatched, according to the Express, a telegram that all the commissioned and non-commissioned officers and privates should be immediately recalled, and forbidden further leave of absence for six months, in order to emphasize the discipline their conduct had brought on the regiment. The Express declared that there is strong evidence that Atu was killed in a native alley. There is great concern and resentment in the regiment over the cutting off of absence of leave.

TO BE PRIVATE

The Visit Of The Kaiser To London

PEER HAS FLED

FOR FEAR OF PROSECUTION ON CRIMINAL CHARGE.

The German Shipbuilding Trade is Slack—May Buy Up the Staffordshire Coal Fields—The Journey From Paris to Pekin.

London, Nov. 3.—It is understood that the visit of the Kaiser to England will be strictly private and personal, both by the desire of king and also by that of guest himself.

Several cabinet ministers have, however, been invited by the king to meet the German emperor and information obtainable both in Germany and England indicates that while the visit will be private, there is little doubt that the political relations of two countries will be touched upon during the meeting of two monarchs.

A report is current here to the effect that a well-known peer has fled from the country to avoid prosecution on a criminal charge of a most serious character. The name of the same nobleman has been mentioned, probably a few months ago, in connection with such offences, according to one account, he was arrested a few days ago and held in £5,000 bail, which was furnished, after which he absconded.

Pessimistic reports on the state of the German shipbuilding trade come from Berlin. Five hundred men are said to have been dismissed within a few weeks from the Krupp's Germania yards and the Howaldt yard at Kiel, and it is anticipated, that further dismissals will take place shortly.

The report that Mr. Morgan is about to buy up shares in the Staffordshire coal fields has created lively interest in that district. The greatest interest is observed, but it is stated that at a meeting of local coal owners will be held on Wednesday to consider the matter, and that Mr. Morgan will be represented.

Through passenger traffic from Paris to Pekin will begin early in the year 1904, and it is estimated that after that time 28,000 first-class passengers will travel over the route every year. The International Sleeping Car company estimates that the journey from Paris to Pekin will take at first about twenty days and afterwards a little over fourteen. The average speed per hour will be: From Paris to Berlin, 53 1/2 miles; from Berlin to Moscow, 31; Moscow to Irkutsk, 23; Irkutsk to Lake Baikal, 17; Lake Baikal to Inokov, 20, and Inokov to Pekin, 23. Through tickets will be issued at various European centres, which will allow the holders to take two months for the journey. Return tickets can be used for nine months. Each passenger can carry 105 pounds of baggage free. Yearly tickets will be issued for express trains, and will include board, exclusive of wine. Children under five years of age will be allowed to travel free and between five and ten will pay half fare.

The Spanish steamer Eneo and the British steamer St. Regulus were in collision on Friday night off Bangor, and the Eneo was so badly damaged that she sank. Twenty-two of her crew were drowned. The St. Regulus has arrived at Gravesend in a damaged condition. She has three of the Eneo's crew on board. The collision occurred at about midnight. The Eneo was struck near the engine room and as she sank her boilers exploded.

A COSTLY INITIATION.

Riding the Goat Brought Damages in Wake. Grand Rapids, Mich., Nov. 3.—A circuit court jury has brought in a verdict of \$2,000 for Mrs. Mary E. Lewis against the Modern Woodmen of America.

Mrs. Lewis sued for \$50,000 damages for injuries alleged to have been received by her husband, since deceased, while being initiated into the Coopersville camp of the order last winter. As a result of these injuries, it is alleged, necrosis set in which caused his death.

Killed Girl He Loved.

Henryville, Ind., Nov. 3.—Rosa Lightcap, aged eighteen years, was shot and instantly killed by her sweet heart, William C. Beckett. Beckett had been employed by Miss Lightcap's father, a wealthy farmer, and fell in love with her. His affection was reciprocated, but her parents objected, and Beckett was discharged. He called on Saturday at the Lightcap home, and was met at the door by Miss Lightcap's brother, who ordered him away. A fight followed. The girl appeared just as Beckett drew a pistol and levelled it at Lightcap. She jumped between the men just as Beckett fired. Beckett fled.

Not Taught French Language.

London, Nov. 3.—A Paris despatch says it is reported that Minister Combes has forbidden the priests in Brittany to catechize in French, but that Bishop Guimper determined that 110 parishes of his diocese do not contain a single child capable of receiving religious instruction in the French language, and in one small town only twelve out of 150 of the inhabitants understood French.

DOUKHOBORS RETURN.

Others Are in Exhausted Condition on Line of March. Yorkton, N.W.T., Nov. 3.—Several of the men who composed the Doukhobor pilgrimage have returned here. One of them came to Agent Greener and asked for the clothing and blankets which he had discarded on the march. When asked if he intended returning to his village, he replied that that was his intention.

Word was brought in that several of the men had played out and were in an exhausted condition on the line of march between here and Bradbury.

Treat Them As Lunatics.

Ottawa, Ont., Nov. 3.—Premier Roblin of Manitoba, has telegraphed Clifford Sifton, minister of the interior, to prevent the Doukhobors' entry into Manitoba, because they would have to be treated as lunatics and criminals, and the province had no means of doing this. He wanted a guarantee against financial loss. Mr. Sifton replied that the dominion officials were looking after the Doukhobors and there was no reason to believe that they would do harm to any one but themselves. He did not, therefore, see any need of guarantees against loss, and stated that if Roblin interfered with the dominion officers he would do so on his own responsibility.

St. Pierre, in Miquelon Swept By a Great Fire

MANY ARE SAFE

PROPERTY LOSS ESTIMATED AT HALF A MILLION.

Town's Water Supply and Fire Department Unable to Cope With the Flames—Extent of the Disaster is Far Reaching.

St. John's, Nfld., Nov. 3.—The town of St. Pierre, Miquelon, has been devastated by fire. A destructive conflagration started last night and swept the main portion of the town.

The governor's house, the government buildings, the court house, the building occupied by the minister of marine, the Roman Catholic cathedral, the presbytery, the schools and a number of other buildings were destroyed.

It has not yet been learned how the fire originated. There was no wind last night, else the entire town would probably have been completely obliterated. Even as it is, the extent of the disaster is very far reaching and the financial loss will probably reach half a million dollars.

There was no loss of life or serious accident. The rapid spread of the conflagration was due to the trifling water supply and to the fact that St. Pierre has no adequate fire fighting appliances.

The town of St. Pierre has been partly burned down three times before—in 1865, 1867 and 1879.

It is now expected by the British government that the chief work of next session will be the enactment of the Irish land purchase bill, aiming at a more comprehensive settlement than Mr. Wombwell's first project contemplated. That measure, according to every forecast, will, naturally, be followed by a redistribution bill by which the voting strength of Nations alists in the house of commons will be materially reduced.

INDEPENDENT CHURCH.

Movement Presents a Religious Problem in Philippines.

Manila, Nov. 3.—The body of a native woman, attended at her death by priests of the Catholic church of the Philippines, was refused interment at the Pazo cemetery, owned by the Roman Catholic church. There was a scene at the cemetery, and the police were called to maintain order.

In retaliation for this refusal of interment Bishop Aglipay and others of the Schismatic movement are discussing a plan to appeal to the courts to obtain possession of certain churches and other property in the Philippines.

This independent church movement is being watched closely in government and political circles. The extent of the defection of native clergy and their lay adherents from the church of Rome is not known, but it is claimed that a majority of the native clergy sympathize with the movement.

HER TRANCE ENDING.

Doctors Think Patient Will Regain Consciousness.

New York, Nov. 3.—At St. Vincent's hospital it was said that the girl, Nellie Corcoran, who has been lying in a state of coma for thirteen days, was showing many signs of returning consciousness. The doctors stated that when any one approached her bed she invariably opened her eyes. They added that they were hopeful of the girl's ultimate recovery.

The only disquieting feature of the patient's condition was a slight fever, but that, the doctors say, is not of an alarming nature.

The St. Vincent doctors have been annoyed considerably by cranks who had "sibrators" or other machines to sell which they said would wake the woman.

He states that three shots were fired from behind a tree some distance away from where he was standing, but in the darkness he was unable to satisfy himself with a description of the culprits.

The appointment of Mr. Brodeur or Mr. Prefontaine to the public works department will meet with the approval of the Quebec wing of the party, and the best men are satisfied to trust the proposed Montreal harbor improvements in either's hands.</
