A NEW SYSTEM OF RAILWAYS IN THE NORTH-WEST

There is Plenty of Capital Behind the Projectors—What the Purposes of the Company Are. Winnipeg, Nov. 3.—With reference to the proposed new system of railways for Manitoba, a St. Paul despatch says that, in an interview, C. E. Hamilton, of that city, who was formerly attorney-general of Manitoba, and who is the solicitor for the parties interested in the scheme, said: "The plan is to construct lines to form connections between the principal cities and terminals of the American railways by direct routes. The rich country in the interior of the province is rapidly being developed by the settlers and as the present railways do not extend throughout the heart of the country it is expected that if these new lines were built they would be exceedingly profitable and would aid in building up the country. The men behind the project have had it in view a long time and intend to enter upon the work of construction as soon as the charter is obtained. All I can say in regard to the projectors is that eastern capital is behind the deal and that my clients are supplied with all the money necessary for building and operating the roads. The systems is to be entirely independent of either Canadian Pacific or American railways."

G. H. Greig, editor of the western edition of the Farmers' Advocate, has been appointed live-stock commissioner for Manitoba, under supervision of F. W. Hodson, live stock commissioner for the Dominion.

J. R. Osler, assistant manager of Mr. Greig's big stock farm at Crystal City has been appointed agricultural manager and supervisor of stock at Minnesota State University experimental farm at Crookston, Minn.

The Doukhobors last night camped this side of the Manitoba boundary. They present a sorry looking spectacle. The detachment of four North-West Mounted police detailed to follow the pilgrims will reach Fox Warren to-night. At Yorkton things are improving. The government officials are contemplating the deporting of five hundred who came from the vicinity of Swan River back to their homes.

Preached Good Sermons. On Wednesday, October 29th, the Lord Bishop of Ontario, accompanied by Rev. Canon Grout, acting as his chaplain, visited St. Paul's church, Sydneyham, for the purpose of confirming the candidates presented by our rectory. The church population in this part of the country is unhappily very small, but the church was filled to its utmost capacity with an attentive congregation. If anything can stir up to a greater spirituality and enthusiasm for the holy religion, these yearly visits of the bishop will surely do much good to the hearers. The service was nicely rendered. The candidates seemed devout and promising. The bishop's sermon was all that could be wished for—conclusive in argument and full of loving advice to the newly confirmed. On Thursday his lordship, accompanied by Rev. Canon Grout, held services and preached in the churches at Marvle and Harrowsmith, but owing to the unfavorable weather and the hours appointed, the attendance at these churches was not large.

At Mullin's This Week: At Mullin's this week: 25 lbs. best granulated sugar, \$1; 30 lbs. yellow sugar, \$1; 1 lb. featherstrip cocoanut, 20c.; 7 lb. pail pure jam, 45c.; 2 lbs. black ceylon tea, 25c. Corner Johnston and Division streets.

There is no truth that the czar is suffering from a serious illness.

INCIDENTS OF THE DAY

Newsy Paragraphs Picked Up by Reporters on Their Rounds. The granolithic 'crossings at the corner of Princess and Bagot streets are at last being repaired.

Ald. J. E. Walkem went to Montreal to-day to attend the marriage of his niece, Miss Nellie Bartlett.

Hooper's Asbestos Plaster on your furnaces and pipes will reduce your fuel bill. A small outlay is once made, the saving in fuel goes on forever.

Curbing and cinders are being laid for the asphalt walk on King street, east of Collingwood street. The asphalt will not be laid till next spring.

There was a great rush for seats to-day for the opera coming to the Grand, on November 10th. There are, however, a hundred or more good seats left.

G. Vail, Toronto, the guest of A. C. Wagoner, University avenue, returned home to-day. Mrs. John Boyce, daughter and son, Toronto, are the guests of Mrs. Wagoner.

John McGrath, inspector of sewers in Chicago, and his brother, Thomas, of the same city, returned west to-day, after attending the funeral of their late father, John McGrath, Sunbury.

A young lady and gentleman of the city drove to the country on Sunday to spend the day and when they reached their destination, discovered an old hen under the buggy seat. They think this a sure sign that they will soon go to housekeeping.

This Woman Was Obstinate. It is a rule of Manager Brown, of Victoria theatre; that all ladies must remove their hats during the performance, and a rule that nearly everyone is in hearty accord with. On Saturday night one lady alone refused to remove her headgear. Ushers were repeatedly sent to ask her, but she was obstinate. At last Manager Brown instructed his head usher to tell the lady to either remove her hat or else go to the box office for her money. She refused to either remove her big hat or to leave the house. The lady sat near the front, and greatly obscured the view of those behind. Mr. Brown declares his intention of enforcing the rule every night, no matter how many wearers of hats he has to turn away. He has the sympathy and good-will of the public on his side.

Injured While Hunting. While Abraham Potter, this city, was out shooting with his brother-in-law, William Connolly, of Pittsburg township, he met with a painful accident. The gun was accidentally discharged, one of the bullets lodging in his eye and several more in his chest. A city physician dressed the wounds on Sunday, and found that his injuries were not at all dangerous.

Received His Certificate. Among those veterans who have received certificates for the government land grants in New Ontario is John N. Kivell, city manager for the Sincer Manufacturing company, Princess street. Mr. Kivell intends leaving for a few days to pick out his portion of land, and, if possible, to purchase an adjoining half-section. Many of the other veterans also received their certificates on Saturday.

Contracts Awarded. The contracts for improvements and additions to Campbell Bros' hat and fur store, Princess street, have been awarded to the following firms: Robinson Bros. painting; John Peters, carpentering; Campbell Bros., plumbing, heating and metal work; E. M. Storey, architect. Work will be commenced at once.

Surgeon Major Devine is gazetted for the distinguished service order. Surgeon Major Devine belongs to the 30th Rifles of Winnipeg and was medical officer with the second contingent, first battalion, Canadian Mounted Rifles.

Congratulations Tendered. On Sunday the Bishop of Ontario, Right Rev. Dr. Mills, completed the second year of his occupancy of the elevated and onerous post, and has been receiving the hearty congratulations of clergy and people. He has been a working bishop in very deed, having completed three laborious tours over the diocese, visiting each of the one hundred and twenty-five congregations upon each trip. He has been a successful and prudent administrator, shown by great care and desire for the church's interests with which appointments have been made under the canon on patronages, and he has been firm when occasion called for it. He has been untiring in his public appearances, in helping with his eloquence and warm-heartedness church and educational work alike. His Sundays have been given to sermons and his week days to addresses of general usefulness and helpful inspiration. The diocese is feeling the touch of his forceful hand in many ways and bids fair to rapidly regain the strength lost by the recent separation to provide for the diocese of Ottawa.

QUITE A CROOK

HE POSED AS A MILLIONAIRE AND DID BUSINESS. Secured the Bonds of a Township And Cashed Them—He is Now Under Arrest at Hull For Theft.

Ottawa, Nov. 3.—Joseph Giroux, alias Prevost, who was arrested in Hull, yesterday, for stealing \$141, turns out to be quite a character.

Last winter he went to Lake St. Marie, and stopped with a family all winter, posing as a millionaire. While there the township of Hincks wanted money to build a bridge and Giroux, the millionaire, offered to loan it at exceptionally low rates. The council met and made the necessary arrangements for issuing the bonds in security.

Giroux, it is said, obtained the bonds, cashed them at a bank, and moved to another township. He will now have to answer to this charge, as well as that of the theft in Hull.

The next sitting of the exchequer court will be at St. John, N.B., on November 19th, when Justice Burbridge will hear the King vs. the City of Quebec case, an action for the expropriation of land for use as a rifle range for the provincial militia. The value of the land is \$25,000.

James K. Paisley, Toronto, took over the management of the Grand Union hotel, to-day, from Hugh Alexander. The purchase price was \$25,000.

What It Can And Cannot Do. There are a few things that advertising can do, no matter how good store, health, and strength to a broken-down business that's drawing its last breath and hasn't enough vitality to take nourishment. It can't sell enough of a poor article to make it profitable in the long run. It can't sell very much of a good thing if an equally good and well-advertised thing of the same kind is sold at a lower price.

There are a few things that advertising can and will do—that it is doing right along for those who know how to use it. Advertising of the right sort will help any legitimate business, under heaven, that deserves help. Backed by the right goods and prices it will do more to build up a business than any other force known. Under its influence the small business will grow in that easy, continuous way that pays after spurts and booms are dead and forgotten. It widens an enterprise, the big business along safe, sure lines. It will pull many a business out of the hole when it's a matter of finding a wider market for a good thing and finding it promptly. All this and more advertising has done, and is doing and will do.

For Canadian Enjoyment. Municipal eloquence has been, time out of mind, a storehouse of delight. It was provincial mayor, who, blessed with a numerous progeny, publicly expressed the pious hope that his sons might grow up better citizens than their father, and his daughters more virtuous women than their mother.

A worthy alderman at Oxford, England, was entertained at a public dinner on his retirement. In replying to the toast of his health, he said it had always been his anxious endeavor to administer justice without swerving to "partiality on the one hand or impartiality on the other." Surely he must have been near kin to the moralist who always tried to tread the narrow path which lay between right and wrong; or, perchance, to the new-blessed mayor who, in returning thanks for his elevation, said that during office he should lay aside all political prepossessions and be, "like Caesar's wife, all things to all men."

Advice To A Merchant. A large number of people go past your doors day after day and never come in. They buy the kind of goods you sell, but they buy them somewhere else. There are other people who buy of you year in and year out and never think of going anywhere else. Now, they do it because they find it desirable and profitable to buy of you rather than any competitor. These reasons, if they can hold over present customers, will stop that through that goes by your door and bring it in.

REAL SERVICE TO HUMANITY.

Society That Grooms Men Released From Prison. Samuel Rober, an assistant warden at the Kingston penitentiary, is a guest at the Incoonics. Talking of the efforts to reclaim discharged convicts, Mr. Rober observed: "I can conceive no more desperate situation for a man than when he is just released from prison without a friend or a dollar. The organizations which send a man to the prison gates to greet this character is doing humanity a real service. Ninety-nine of these released convicts have no friends, no money and no place to go. They are arrested the moment they step in a town, and are chased away from every house in the rural districts they approach."

"What is such a man to do? If he gives his correct name and admits that he has just been released from the penitentiary, no one will employ him and the police will watch him. Without giving some information about himself no one will employ him. Is it little wonder that once a convict the chances are always a convict? The first thing these released convicts need is a place to shelter them when they leave the prison gates. The average convict is more than anxious to begin life again as an honest man. But he must have the chance before he can do anything. Any organization that can supply this chance is conferring untold benefits on humanity in general, I believe."

"YOU CANNOT GATHER FIGS FROM THISTLES."

It costs as much to make a \$2.50 Goodyear process shoe, as a \$3.50, or a \$5.00 grade. It costs as much to sell it to the Wearer!

It costs more to finish it, so that it will resemble some inferior \$3.50 shoes!

The dollar difference thus comes out of the leather—out of the very life of the shoe.

No shoe which sells for less than \$3.50 can possess wear enough to justify the cost of fine finish, and no finish can justify the absence of wear.

No shoe, but "The Slater Shoe" for men and women, is sold to Consumers at a price fixed by the Makers to protect Wearers against over charge.

Stamped in a slate frame—\$3.50—\$5.00.
