

HAVE YOU ANY OF THESE

Symptoms of a Very Common Trouble?

There is no disease so common in the United States as Catarrh because it appears in so many forms and attacks so many different organs.

It is a common mistake to suppose that catarrh is confined to the nose and throat. Any inflammation of the mucous membrane wherever located accompanied by abnormal secretions, is catarrh.

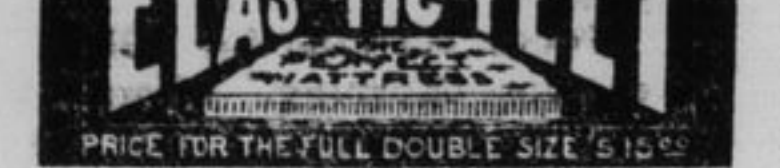

A new remedy has recently appeared which so far as tested seems to be remarkably effective in promptly curing catarrh, wherever located.

Catarrh is simply a continuation of these symptoms until the trouble becomes chronic and grows gradually worse from year to year.

Stuart's Catarrh Tablets, are composed of Hydrastis, Red Gum and similar antiseptics and catarrh specifics, from which it will be seen that no secret is made of the ingredients and also that no mineral poisons are used.

For catarrh of the nose, throat, bronchial tubes, for catarrh of stomach, intestines or bladder, no preparation is so safe and gives such rapid and permanent results as Stuart's Catarrh Tablets.

All druggists sell them at 50c. for full sized package. You can use them with assurance that you will not contract the cocaine or morphine habit as the results from this catarrh cure are apparent from the first day's use.

BIG GATHERING AT ORANGE CONCERT IN THE CITY HALL

Guy Fawkes' Day Remembered—Addresses Delivered—Programme of Song and Story—A Dance Followed.

There was a very large gathering last evening at the City Hall at the Orange concert and assembly, the being the anniversary of Guy Fawkes and the gunpowder plot, an event which is annually celebrated by the Orangemen with much eclat. The platform was handsomely decorated with flags and seated upon it were leading members of the order in Kingston and vicinity.

Rev. G. S. White, Napanee, president, and he made an ideal chairman. In opening the proceedings he referred to the occasion which is familiar to all. It was one which every loyal subject of Britain should feel it his duty to remember. It was the hinging of civil and religious liberty. As an Orangeman in an Orange meeting, he could speak to men from his heart. He was glad to speak in the name of the Prince of Wales to the visit of the Prince of Wales to Kingston in 1850, when the loyal Orangemen of Canada taught the Duke of Newcastle, a Jesuit in disguise, that he was dealing with loyal sons of the British empire, and that they would struggle for their rights.

"No surrender" was their battle cry, and it would never be forgotten. It was known as "Limerick" by his friends, made a humorous address after which he sang a comic song which was well received. Miss Maud Dutton, in a pleasing recitation, received a very generous reception, and was loudly applauded. A comic song by W. J. White, Toronto, made him a favorite with the audience and played him in the front rank as an entertainer. He was so warmly applauded and welcomed that he was obliged to respond several times during the evening. Each of his selections and songs were very pleasing. He had to respond so often that he finally sang in fine voice, "An' So 'Tis" which was a splendid effort, and was lustily cheered.

An address by Grand Master R. Duncan Munroe, of Cornwall, followed and was one dear to an Orangeman's heart. He referred to the work of the order and their loyalty and attachment to the British throne, and the Jesuits' hatred of the Orange-Orangemen was the bulwark of civil and religious liberty. They celebrated to-day not only the gunpowder plot but the landing of William of Orange at Torbay, whose advent in England was the dawn of liberty. The Roman Catholics had reason to be proud of that event, for justice, extended to them, liberty and justice, H. W. Williams had not come to the throne of England at that time it would have been hard for the Roman Catholics, for he was just and generous to them—he gave them liberty and freedom. The address was well received and applauded.

The men of the evening was the singing of Mrs. J. C. Kerr, who carried the audience by storm and well earned the applause she received. "In the Days of Long Ago," was a beautiful selection. She responded in a pretty song. In the second part she again sang and had to reply to repeated calls, so charmed were her admirers with her efforts. Mr. White brought the programme to a close by one of his comic songs. Miss L. Singleton played the accompaniments and added another link to her fame as a brilliant pianist and a cultured musician.

After the concert a large number engaged in the merry dance till the small hours of the morning and will long remember the pleasant night they enjoyed.

Wrong Method Adopted. There is considerable complaint throughout the city over the sending of the bailliff to the home of citizens to collect sewerage rent, etc. The bailliff is an official that few people like to see; still less do they like to have their neighbors see him at the front door. An alderman, the other day, offered to pay his sewerage rent to the tax collector, but the latter refused to accept it. The matter had been placed in the hands of the bailliff. The alderman in question will probably ask for an explanation. He considers that it is quite proper to employ a bailliff to collect back taxes, but, on the other hand, quite improper to send him to collect small far accounts, which people would pay if they were once reminded of them.

Is Well Put On. Three carloads of scenery are employed in the production of the new Stange and Edwards spectacular military opera, "When Johnny Comes Marching Home," here on November 10th. The scenery for this opera has been painted by three of the most famous scenic artists in United States. One exterior by Homer Knapp, another by J. Frank Dodge, and the two grand finale scenes by the famous Ernest Albert. It will unquestionably be the event of the theatrical season, judging from the rush for seats.

Watched It All Night. An alderman is authority for the statement that a prominent official of the fire brigade, on Holloway, laid in wait all night near the fire alarm at the Queen's college gate. The alarm had been raised, and the fire several times, but the official was bound to catch the offender if he came around. But he didn't come. Few men show such devotion to duty or such perseverance of purpose as did this official.

CHANGES MADE IN QUEEN'S SENIOR TEAM AGAINST 'VARSITY.

McDowall to Play Quarter-Back—Another Interscholastic Hockey Conference to be Held in Toronto—Sport in General.

F. Scanlan has been elected captain of the Winnipeg Victoria hockey team. Montreal people are delighted over the visit of the Ottawa Rough Riders to play McGill on Saturday.

The Limestone scrimmagers average 185 pounds, while the inside wings also weigh about the same. Pretty husky juniors!

The American baseball league is likely to invade Pittsburgh, Pa., and the National league is outlining plans to fight the invaders.

Hardisty, of the Toronto Argonauts says he will retire from the rugby field this year. He is to be one of the all-Canadian team to go to Britain.

Sidney Pointer, the fast pacer, owned by W. H. Moffatt, Kempsville, has made \$3,800 for his owner this season. He won eight out of nine races.

Hardisty is getting all his strong players out to defeat Queen's on Saturday. The Toronto team is simply bound to win, and its prospects are certainly good.

The R.M.C. II team has defaulted to the Limestones who defeated them so badly last Saturday. Limestones will try and arrange a match in Deseronto to look at next Saturday.

It is looked as though Limestones will be in the final match for the O.R.F.U. junior championship. They require some financial aid now, and subscriptions are being asked to defray travelling expenses.

Creeseus, the champion trotter, accompanied by his owner, George H. Ketchum, has arrived at Atlanta, Ga. Arrangements have been made to match him against "Bobby" Walthour, the cycle champion, during his stay there.

Limestones will have a pretty husky team when the junior semi-finals of the O.R.F.U. are played. Wheeler will take his old place in the scrimmage, and Varney will be one of the inside wings. G. Birch will likely play full-back in Tweed's place.

The annual meeting of the Canadian Rugby Football Union will be held on November 14th, in Montreal. This is the evening before the McGill-Queen's match. The annual dinner of the C.I.R.F.U. will be held at the Queen's Hotel on the following evening.

'Varsity, Queen's and McGill delegates will meet on Saturday night at Toronto, to discuss the advisability of forming a collegiate hockey association. Similar meetings have taken place for some years past, and it's time something definite was done.

Several marked changes will be noticed in Queen's I team against 'Varsity on Saturday. McDowall will play Dalton at quarter. Britton will play Elliott at full-back, and the line and Strachan will play centre half-back.

It is practically decided that international golf match between England and Scotland is to be an annual affair. It may, perhaps, pave the way for other contests of similar character. A match between the English and Scotch universities would be most interesting.

The baseball season is just over at Vancouver, B.C. It ended with a game between Vancouver and Seattle, that was won by the home team by a score of six to one. The players of the Seattle team will receive \$200 each for services of the trick and winning the pennant.

Toronto Telegram: Good old Queen's are already getting into the hockey line. J. McDowall will captain their seniors this year and W. Gillespie the juniors. And here is wishing the two captains all kinds of luck, and that when they come to Toronto they will give every Presbyterian in the city a chance to holler himself hoarse.

Quarter-back Dalton, of Queen's has been named for the grid iron. He has rendered splendid service to Kingston rugby teams, and will especially be remembered on the Granites' team, when the Ontario championship was wrested from the Ottawa Rough Riders. Dalton has the satisfaction of winning his last match.

The costume of the all-Canadian rugby team that is to go to Britain will consist of red stockings, blue breeches and white jerseys. Upon the jersey will be worked a maple leaf with the words "Canada, 1902-1903." The caps will be of the shape of the regulation, championship caps, and will be in blue and silver. On the front will be a silver "maple" leaf and under that the word "Canada" in silver.

Before leaving England for America, champion oarsman Gordon Towns said, "I have a young lady from Richmond, Va. After returning from the office, I have found myself so completely exhausted that I was unable to engage in any recreation or to take any of the usual so-called 'restorative' tonics with any effect, and finally noticing an advertisement of Grape-Nuts as a food recommended to brain workers, I purchased a package and tried it. I found it extremely palatable, and after a week's use (two meals of it a day) I noticed a general improvement in my condition, the feeling of extreme exhaustion was growing less, and strength visibly increased."

I began to put on flesh and felt ready to enter into the amusements of the other members of the family, and now after using the food for eleven months, I am like a new person. I have absolutely no sensation of fatigue, my brain is clear, eyes bright, and skin rosy and healthy, and my muscles have strengthened to a marked degree. I am now able to walk from the office home, a distance of three and one-half miles, up one of the steepest hills for which our City is famous, and to engage in any amusements that may come in my way without any sensation of extra fatigue.

I am also using your Postum Food Coffee with excellent results. My sister-in-law, who lives in Norwalk, Conn., writes me that she uses it also and has not suffered from the distressing sick headache she formerly had. Name given by Postum Co., Battle Creek, Mich.

FILTHY DRAIN.

Runs Under the Building on the North-east Side of Market Street—Board of Health Orders it to Be Examined, and Will Take Action.

The Board of Health held a special session on Wednesday afternoon, to further consider the unsanitary condition of the drain under the Inland Revenue offices on the Market Square, which have had to be vacated. There were present: John McIntyre, K.C., chairman; Capt. Gaskin, Robert Keck, J. R. Donaldson, J. D. Thompson, Mayor Shaw, Medical Health Officer Fee, City Solicitor McIntyre and City Commissioner Gordon. Also in attendance were these owners and occupants: L. Halliday, James Henderson, Charles Parker, A. B. Cunningham, H. H. Gillespie and H. Mooers.

Mr. Cunningham stated that he lodged a complaint with the medical health officer about the drain last June, and asked why the matter had not been attended to then. The chairman stated that the Board of Health had never heard of it. The letter, however, was produced, and Dr. Fee explained that he had examined the drain, and understood at the time that Mr. Cunningham was going to put it into a sanitary condition.

Mr. Cunningham stated that he made the drain sanitary, by building a sanitary, and if the matter had been attended to last summer, he would have been saved \$150.

The owners of adjoining buildings were then heard. Mr. Mudie, on behalf of Charles Parker, stated that the building of the latter was perfectly sanitary, as an iron pipe had recently been constructed into the old drain.

Mr. Mooers said that he had cleaned out his part of the drain last spring, and had it tiled, and cemented over. It was very bad before that. Now it is all right. If the city would give him permission to close up the old drain, he would pay for his own connection with the public health drain.

Mr. Cunningham stated that he had been trying for some time past to get the owners together, but failed. For his own protection he had to put a tile drain under his premises, and connected it with Clarence street. He did not use the old drain now, but was willing to do anything in reason.

Mr. Henderson, who owns the Inland Revenue building, explained that the drain under his place seemed to be the dumping ground of the others. It was not his refuse, nor those of his tenants. He regarded the drain as a public sewer, and it was the duty of the city to close it up, for it was detrimental to the public health.

Mr. Mooers pointed out that there were five people interested, three of whom were willing to drain into Clarence street. If Mr. Parker and Mr. Gillespie would do the same, the whole matter would be settled.

Mr. Gillespie wanted to know if city had a right to close up the drain. If it was not sanitary, let the owners be made to put in one that will be sanitary. Mr. Mudie held that there was a prescriptive right by the owners, and the Board of Health had no power, therefore, to close up the drain.

Mr. Parker would be put to much expense in draining into Clarence street. Mr. Cunningham declared that there might be a prescriptive right to a drain, but there was no prescriptive right to a nuisance.

The chairman said that the drain was badly in need of cleaning out. It was a detriment to health.

Capt. Gaskin claimed that the five owners should agree and settle the matter at once. He was sure Mr. Parker's building could be drained into Clarence street.

When the owners had retired, Capt. Gaskin moved that the drain be closed up, if the city had the right.

The city solicitor stated that if the drain was cleaned out and tile sewers connected with those of Mr. Mooers, Mr. Cunningham, then the result would probably be satisfactory.

It was finally decided, on motion of Mr. Meek, that the city engineer, the medical health officer and the city commissioner should inspect the drain and report at once to the board, which would then be in a position to take a vote. The lower end of the drain is full of filth, and this continually pours down from the premises above. Immediate action is required.
