J. B. PENSE, PROPRIETOR.

THE DAILY WHIG. Opifer per Orbem Discor.

EFFECT OF THE ELECTION. The republicans of the United States rallied to the polls on Tuesday, and made certain, by their action, that their defeat in the larger contest would not be accomplished two years hence.

A democratic house of representatives would have been exceedingly embarrassing. It would have blocked the legislation that republicans advanced and with the object of strengthening their position in the presidential election.

Apparently at the last hour the republican party perceived its danger, and by a mighty effort re-established itself in power. It is just as well. There would be nothing but friction if the democrats held the lower chamber and the republicans the senate.

BESTING THE CITY COUNCIL. The other day the Montreal police were accused of hard things by the Police Committee. A star act was the order of civilian clothing in the name of the city when it was felt the old police clothing could be made to hold out a little longer.

Now it is alleged that these same Montreal guardians of the peace have been seizing liquor at unlicensed places, and quietly consuming some of it when it was felt that it was too good to spoil or spill away.

Montreal, truly, is a peculiar place in which to live, and the police are a peculiar people. They have been getting pointers, apparently, from the aldermen. By the way are the Montreal police alone in the views they have of the clothing question?

THE MISUSE OF LAW. The Hamilton Herald has had good reason to protest against the charges that have been made against some men in election cases. These charges have not been taken up and disposed of in the courts.

North Wentworth presents a case in point. As many as fifty-seven charges have been preferred against Mr. Thompson and his friends, and after these have been published, in the columns of the conservative papers, the case is dropped.

Now is this an isolated inference? Lisgar, in Manitoba, had an election trial which continued for three weeks, and as a result of which Mr. Stewart, the liberal, was confined in his cell. All manner of wickedness was charged against the respondent and his friends, and many of the charges, though plain as day, were not called up and not investigated.

Kingston had an election trial in which scores of persons were accused of infamous acts, which acts the politicians made no attempt to enquire into.

THE SWING OF SUCCESS. Hon. Mr. Mulock, in his talk before the Mulock Club in Toronto, on Monday, made a most agreeable announcement. It was that, contrary to the contentions of the conservatives, contrary to their prophecies, the post-office department had prospered under liberal rule, and that for the first time in many years, if not in Canadian history, there was for the federal financial year, which ended on June 30th, a surplus.

It is small, only a little more than \$5,000, but it is enough to put an end to the direful talk of Canada's false prophets. Mr. Mulock became head of the department under circumstances which did not promise very hopeful. The deficits which marked the last years of the conservative government were very large. In 1896 the deficiency was \$781,152.19.

Mr. Mulock in 1898, and as post-master-general, moved for a reduction on the postal rates. He held that cheapened rates would lead to an enlarged business. The enemy said he was inviting ruin.

There has been an abnormal development of the postal service, a marvelous extension of the postal facilities, a remarkable cheapening of the rates, and a surplus. In other words there has been a wonderful fulfillment of Mr. Mulock's plans, and the success he has achieved in the best evidence that can be offered in support of his administration. It has been wise, and it has been efficient. Congratulations!

EDITORIAL NOTES. It is estimated that the farmers of Manitoba will make thirty millions out of their crops this year. They will surely make the coming of Santa Claus a hilarious event.

Voting machines generally were used in the New York elections on Tuesday, and with the greatest success. The registration of votes was expeditiously and quickly done.

Sir William Mulock has silenced his opponents. He has demonstrated what energy and capacity can do in the post office department. He is one of the most progressive public men in Canada.

The ostracism of Miss Washington—the daughter of the principal of the Tuskegee institute—in Wellesley College, so that she had to withdraw from it, is the latest demonstration of the social line. It is colour, not brains, that counts with some people.

President London is credited with saying that the students of Toronto University would have been warranted in shooting in their late melee with the police. Other men may lose their heads under excitement, but the president of a college is expected to keep his.

Because the newspaper men made some fun of President Roosevelt's failure to shoot a turkey in Virginia he has soured on them and will not let them travel on his train. He will be sorry for that. The newspaper men have been his friends. They have helped him into public life.

Zola, it is alleged by the spiritualists, is going to write a book from the world in which he finds himself. It will deal with the subject of being born again. Zola's style is imitable. Readers of his literature will have no difficulty in realizing it.

Perish The Thought. Toronto Globe. What is the Mullock mad about, anyway? Is there a coal famine in Africa?

An Expensive Dresser. Montreal Herald. Count Boni De Castellani has an overcoat which cost \$11,000. The price of his new corsets is not named.

Justifiable Homicide. Colours Post. Looking over the "teacher's wanted" and salaries offered column, we can not altogether condemn the Manitoba pedagogues who shot a couple of trustees.

It Certainly Did. St. Thomas Journal. The "machine" that won the provincial elections for the liberals was a "talking machine," named George W. Ross, and it spoke well, didn't it?

CIVIC WORKS. BUSINESS OF YESTERDAY'S MEETING.

Mr. McClelland Recommended For Position in Engineer's Office—Board May Offer Reward For Conviction of Halloween Offenders.

The board of works met in the city engineer's office yesterday afternoon. There were present: Chairman McClelland, Aldermen Harkness and McClelland. As these did not constitute a quorum, the committee will bring in to council a minority report.

The customary batch of accounts was ordered to be paid. The labor pay roll was not yet ready. The communication from Mac lounell

HON. G. W. ROSS, A Visitor in the City To-day and an Orator at the Grant Memorial Service.

& Farrell, re drain at Queen's College, was again taken up. The engineer had looked into the matter, and reported to the committee. The college authorities were charged for sewer rent only for the end of the Arts building, \$5 feet, and the front of the Science building, 157 feet.

Ald. Harkness stated that he was willing to do anything that was fair, but that he wouldn't vote to give them free sewerage. He moved that the college pay its sewerage rent. Carried.

A communication was read from Mrs. Sarah Nesbit, Barrie street, re sewerage. She is now paying local improvement rent, and does not think it right to be compelled to pay rent for an old sewer, which had been virtually condemned. She was billed only for last year's rent. No action was taken on the communication.

On a similar communication from the executors of the late Michael Flanagan estate, no action was taken.

R. J. Free, Division street, wrote that he was erroneously charged for sixty-nine feet of sewerage frontage in Ridout ward. On motion of Ald. Harkness, the rent was remitted.

The names of fourteen applicants for the position of clerk in the engineer's office were read. These names were previously published.

The chairman explained that R. J. McClelland had been temporarily appointed to the position. It remained for the committee to now recommend that a permanent appointment be made.

Ald. Harkness immediately moved that Mr. McClelland be recommended to council as a fit subject to fill the position. Carried.

Chairman McClelland made reference to the damage done to property on Halton street. Walks were destroyed in all parts of the city, and much of the corporation's supply of old material, intended for use in patching, had now to be put to other uses.

THE RICH INVESTMENT. The Eastern Consolidated Oil Company Stock Has Paid.

"Two things," declares a well-known financial writer, "are bringing the Eastern Consolidated Oil company prominently before the public." "The first is wonderful growth and the remarkably successful development of its oil properties in Ohio and California, and the second is the unprecedented demand for oil as fuel by railroads, steamships, manufacturing plants and private citizens all over the United States and Canada."

Oil is cleaner, clearer and in every way better than coal for fuel, and the great captains of industry throughout the world are finding this out to their great advantage. The steamship Maiposa, of the U. S. navy, made a wonderfully successful trial trip on the Pacific, burning oil exclusively, the big steamship trust with J. Pierpont

Morgan, at its head, is experimenting with oil as fuel, the great Cramp Steamship company, of Philadelphia, has decided to burn oil, the Pacific Mail Steamship company is converting its vessels into oil burners, the General Electric company, of Lynn, Mass., is lighting on burning oil or fuel, and so on. This list might be prolonged to fill a column.

The Eastern Consolidated Oil company has the oil to sell—which, by the way, has advanced in price under pressure of this great demand. It has 185 richly producing oil wells in Ohio, it has a rich tract of proven oil land in Kern—Livermore, California, where a big well enormously productive, has just come in; work is being pushed with all speed on ten more.

The Eastern Consolidated Oil company sells for cash thousands of barrels of oil every month, and by January will increase its output by at least 50,000 barrels more.

Is it any wonder that the Eastern Consolidated Oil company is a safe and very profitable investment? Ten months ago the stock sold for 25c. a share. Then it jumped to 35c. Now it is selling at 50c. a share for a short time, but will positively be advanced to pay for a share by January. During the past ten months this company has paid 20 per cent. in dividends to stockholders. An investment of \$500 made last January is now worth \$1,000, and has already paid \$10 in dividends. On January 1st it will be worth \$2,000. There is no better stock on the market to-day for a safe and enormously profitable investment.

The present allotment at 50c. a share is almost exhausted. Investors interested will find the advertisement of Eastern Consolidated Oil company stock elsewhere in this issue.

Left Overseer Dowie. Chicago, Nov. 6.—Mr. and Mrs. Arthur Booth-Clibborn, the latter the oldest daughter of General Booth of the Salvation Army have withdrawn from Dowie's Christian Catholic church.

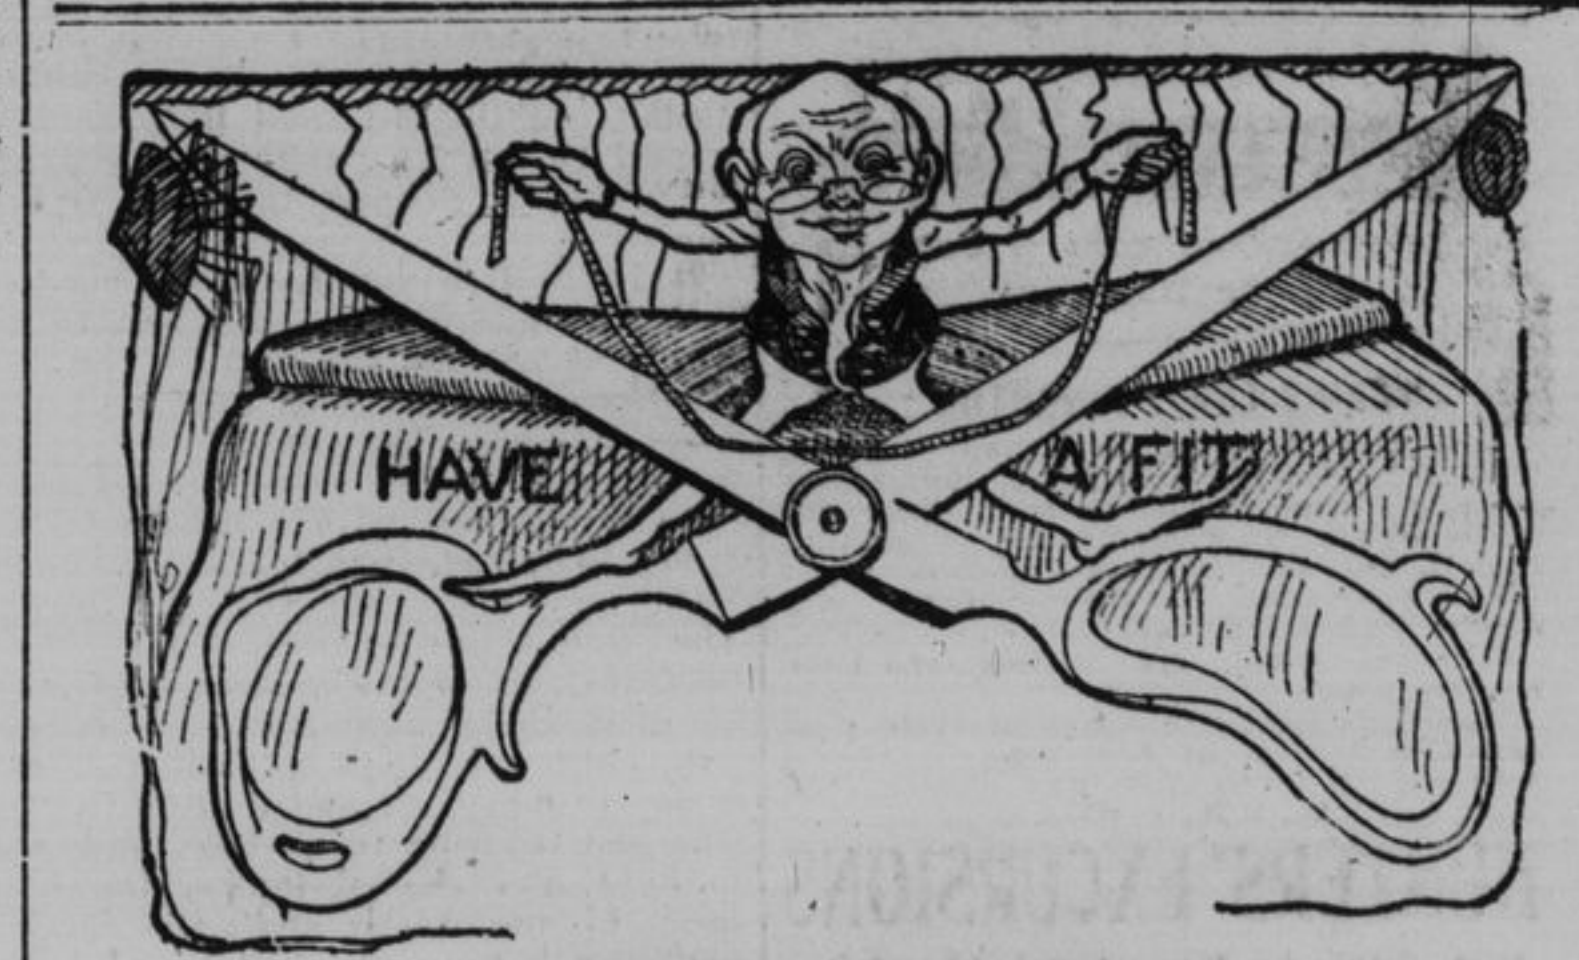

At Zion church Dowie would not discuss the desertion from the ranks of Zion further than to declare that he had asked the Booth-Clibborns to withdraw.

Mr. and Mrs. Booth-Clibborn, who are now in Europe, visited Chicago last summer, and after several visits to Zion City were baptized by Dowie, and admitted to the ranks of the faithful. These followed in the footsteps of Dowie only a little way, however.

Edna Wallace Hopper Sues. Victoria, Nov. 6.—Action has been formally entered in court here on behalf of Miss Edna Wallace Hopper to set aside the will of the late Alexander Dunsmyth, husband of the plaintiff's mother, and also to set aside an agreement made between the plaintiff's mother and James Dunsmyth regarding a disposition of the Alexander Dunsmyth estate.

In Glasgow this year's municipal election has resulted in the defeat of the party headed by Lord Provost Chisholm. This party is identified with the extension of municipal trading. The election was fought on the issue as to whether the corporation should extend its competition against private business enterprises.

Waltham Watches. "Punctuality is the soul of business." "The Perfected American Watch," an illustrated book of interesting information about watches, will be sent free upon request. American Waltham Watch Company, Waltham, Mass.

THE H. D. BIBBY CO'Y., One Price Clothing House, Oak Hall.

Queen Quality. Of all the shoes for women on the market, there is but one that gives complete satisfaction because it combines in one shoe the advantageous points of half a dozen different shoes. 1st. It combines strength with lightness. It is made of leather that is very light and yet extremely strong with great wearing qualities. 2nd. It combines fit with form. It fits closely about and beneath the instep so that the foot cannot slip forward in walking—a feature unusual in ready-made shoes. 3rd. It combines flexibility with wear. The soles are made extremely flexible to give a light, graceful step. 4th. It combines style with economy. In shape and appearance it has a distinction that no other shoe has ever been able to copy. See it! Try it on! The best store in each city has the sole right of sale. Kingston Agency J. H. SUTHERLAND & BRO. The Popular Shoe Store.

ESTABLISHED 1890. P. ONE MAIN 4303. W. F. DEVER & CO. STOCK AND BOND BROKERS, 19 Wellington Street East, Toronto. Main Offices—47 Broadway, New York; 60 State St., Boston.

STOCKS, BONDS AND GRAIN Bought and Sold for Cash or on Margin. Particular attention given to Canadian Securities. Market letters mailed daily (4 p.m.) on application. Correspondence invited.

COMPLIMENTS THE P.M.G. MAY WED PRINCESS VICTORIA. Globe Expresses Feeling About Post Office Improvements. Toronto, Ont., Nov. 5.—The Globe, in complimenting Sir William Mulock, says: "It must be acknowledged that the liberal postmaster-general, as in love with Princess Victoria, King Edward's second daughter. The princess, it is said, returns the affection and the encouragement of the two is possible. The difference in the social position of Chamberlain and the princess is probably insurmountable, but it is pointed out that the king's well known democratic ideas might lead him to obviate the difficulty, although these ideas have never been extended in family matters." The Princess Victoria is the only unmarried child of the king. She was born at Marlborough House on July 6th, 1868. Smallpox From Dying Man. Springfield, Ohio, Nov. 6.—Father A. J. Fischer, St. Bernard's German Catholic church has small pox. He contracted the disease while administering the last sacrament to Frank Clark, who died of small pox at a hospital ten days ago. Alderman Murray, six years in the Galt council, will be a candidate for mayor in January. "Bibby's" Overcoats. "Bibby's." Our "Westminster" overcoats are right up to the last tick of the clock in style, \$8, \$10, \$12.50, \$15, \$17, \$20, \$25, \$30, \$35, \$40, \$45, \$50, \$60, \$75, \$100, \$150, \$200, \$250,
