

AN UNPLEASANT EXPERIENCE

Has it ever been your unhappy lot to be told by your physician that you must go to a hospital and submit to an operation? If so, you remember with what dread and shrinking you awaited the day when you must endure the knife. The present day surgeon appears to be possessed by a mania for operating, especially in cases of hemorrhoids, or piles, and while the greater number of the profession do not recommend this "last resort" unless they honestly believe it necessary, the fact remains that much needless operating is done, and the patient put to much expense and suffering for what? To obtain a possible temporary relief; these words are used advisedly, because in nine cases out of ten the affliction returns, and the patient is just where he started from. Oftentimes he could be cured much more simply and easily by the use of such a remedy as the Pyramid Pile Cure; this has come to be recognized as the best remedy on the market for the painful disease named, and the druggists now sell more of it than all other pile remedies combined. The writer personally knows people who were afflicted with the worst form of bleeding and protruding piles and who were permanently cured by the use of Pyramid Pile Cure. In every one of these cases the attending physician had assured the sufferer that only by an operation could he rid himself of the disease, so much for the infallibility of the doctors. This remedy, which is sold by all druggists at the low price of fifty cents, is in suppository form, is applied directly to the parts affected, and performs its work quickly and painlessly. The Pyramid Drug Co., Marshall, Mich., will mail free to any address a book telling all about piles or hemorrhoids, their cause and cure. A suggestion is offered that if the reader is afflicted, or knows anyone who is, this book be sent for, as it will be found invaluable.

MARCONI SAYS THAT HIS EXPERIMENTS ARE SATISFACTORY.

Workmen Are Busily Engaged at Tablehead Station - Experiments Being Watched by Admiral Douglas, R.N. Halifax, N.S., Nov. 7.—A despatch from Glace Bay says: "A number of workmen are busily engaged at Tablehead station completing the installation of the machinery and apparatus. On two of the towers have been placed poles about thirty feet high, inclining slightly towards the east. Wires connect these with wires which enter the receiving room. These are used in conducting a series of important experiments on which Marconi is now engaged. Marconi, when asked, stated: "Thus far the experiments are giving complete satisfaction." He would neither deny nor affirm that a message had been received from Poldhu by Carlo Alberto, but stated that important announcements would be made in the course of a few days. Admiral Douglas, R.N., was here yesterday to visit the progress of experiments. The admiral is anxious to keep thoroughly up-to-date in all improvements made on this system, hence the presence of Admiral Douglas.

An Excellent Idea. "The idea of licensing factories is an excellent one," says Mr. Hart, "and should be endorsed by everyone interested in our great and growing dairy industry. The safeguarding of the public health through the manufacture of cheese under proper sanitary conditions, the health of the men employed in the factories, the many evils resulting from the multiplication of small and inferior factories, and the injury resulting to our whole dairy industry through the inferior quality of some of our cheeses are reasons for concerted action, which is hardly possible except under governmental control. Before a license is issued to a factory, the premises and plant should be carefully inspected, and no license should be granted unless the factory is situated upon a well-drained site, is in good sanitary condition, and has a pure water supply. The milk and the cans in which it is supplied should all be inspected, and regulations similar to those existing in well governed cities, to ensure a pure milk supply, should be enforced. Inspectors should be required to pass an examination before being appointed. Provision should be made for dealing with appeals from factories, and, of course, the act would have to be very carefully drawn up so as to be workable, just, and impartial."

With The Advertisers. Alcock's porous plasters are being again pushed. The Atlas Bread company is a general advertiser in the west. Buchan Lithia Kidney Pills publicity is stalking forth from Boston. A family grist mill is being advertised by Wilson Brothers, Easton, Penn. The Atlantic and Pacific oil company, New York, is largely increasing its advertising. How many advertisers outside the capable ones in big cities look in claims of circulation and ascertain the rate they are paying per thousand copies? The Leader, Pittsburg, Penn., shows 1,400 per cent. increase in small advertisement over a year ago. What a waking up there must have been in that establishment?

Loughboro Township Council. Sydenham, Nov. 3.—Sums voted: W. H. Smith, culvert on Storrington boundary, \$5; H. Cox, breaking stone near W. Nichols, \$5.10; R. Joyce, repairing culvert on Sydenham road, \$3.25; Rathbun company, lumber, \$3.20; William Johnston, culvert near his place and load of wood for Miss Dean, \$10; Daniel Freeman, rebate statute labor, \$5; Edward Patterson, statute labor performed, \$3; Daniel Freeman, error in assessment, \$5.29; H. Vanloun, gravel, \$11.25; H. Martin, repairing sidewalk, \$3.15; L. McDonald, culvert near his place, \$5; H. Cox, breaking gravel, \$11.20; Tobias Young, breaking gravel and repairing culvert, \$5.30. Adjourned till December 15th.

Not The Same Army. In the last issue of the Moon, Toronto, appears a good cartoon by J. W. Brough. It depicts Premier Ross and his colleagues on the stage, with Whitney and St. John as spectators. A sentence from Mr. Ross' speech at the General Booth meeting is quoted: "One of the corner stones of the Salvation Army, as I know it, is to seek to find a shelter and a home for those who have none, for the downfallen, the wanderer, for those who live in the highways, and beggars, and who seem to have no one to care for them." Then Whitney asks: "Do you observe, St. John, that this organization pointing to the one on the stage doesn't offer any hospitality to that sort of people?"

A Farm Sold By Auction. On Thursday afternoon, J. H. Murray, auctioneer, sold the farm of the late R. V. Matthews, Perth Road. The purchaser was Albert Matthews, of Belleville, and the price paid was \$7,000. The farm implements, stock, etc., brought good prices. Yearlings sold at \$32, and cows from \$35 down.

The First In Kingston. We received this week a shipment from California of Bishop's celebrated bottled fruits. They require to be seen and tried to be fully appreciated. Read over the list. Grape fruit, orange, etc., spiced figs, preserved figs, preserved cherries, Guava jelly, Jas. Redden & Co.

Jenkins' Overcoats. A large shipment of dark grey melton with special merized lining, perfect fitting, \$13.50. "Bibby's" Oak Hall. "Bibby's" gloves for street wear, driving or for dress, \$3e, to \$2.50. The H. D. Bibby Co.

INCIDENTS OF THE DAY.

Newspapers Picked Up By Reporters On Their Rounds. Cisceos at Carnovsky's. Ice cream on Saturday, at Ross'. Big boys suits, \$2.50, \$3.25, \$3.90. Grand Union. Lamb-lined shooting coat, \$5, \$7.50. Jenkins. Sir Sandford Fleming left at noon for Ottawa. Men's caps, 25c, 50c, 75c, \$1. Jenkins.

Our dispensing is done carefully and systematically. Taylor. J. S. Breeland, of Wolfe Island, left to visit relatives in Toronto. Aunt Jimima "At Home" in Redden's window. Have a look. J. A. Porter, Watertown, N.Y., is spending a few days in the city. R. H. Cook, Watertown, N.Y., fell from a high scaffold on Thursday and had his neck broken. He was aged thirty-eight years. Mrs. K. Roy, of Adams Centre, N.Y., and Miss Pickering, Toronto, are visiting at the residence of W. H. Pickering, Rideau street.

Boys' overcoats, black and white long coats \$13.00. Jenkins. Miss Edith Godwin, daughter of W. H. Godwin, Pine street, left today for Toronto to take a vocal course in the Conservatory of Music. Aunt Jimima's pancake flour is the best, get it fresh at Redden's. On October 28th, Dr. Francis George Wallbridge, formerly of Belleville, now of Midland, was married to Miss Charlotte Brown Keating, Wyoming, Ont. On Tuesday Rev. Mr. Visser, Brockville, performed the ceremony which united for life Miss Stella McVeigh, Addison, and H. L. Witte, Adams.

W. H. Godwin leaves on Monday for Egauville, where he will join a deer hunting party, which will spend a week or so in the woods north of Whitney. "Orangeate" is prepared from the juice and slices of the orange and lemon, entirely different from marmalade. It is a great breakfast dainty. James Redden & Co. Fraternal societies are the outgrowth of the highest civilization. Rome in the zenith of greatness and power could not point to a single benevolent institution.

Aunt Jimima's pancake flour, at Redden's. William Anderson, a Barriefield market gardener, met with a mishap on lower King street. His market wagon broke down, and spilled a load of vegetables all over the street. Spouses. Prices as low as the place they came from Taylor. The Kansas City Star has begun on a paper mill to make 300 tons per month for its own use, promising employment to 100 men and costing \$250,000. The last estimate seems high for northern states. Leather jackets, \$6.50, \$7.50. Jenkins.

Many citizens are complaining of the loss of pet cats. One young lady, with tears in her pretty blue eyes, told a pitiful tale of the loss of her pet. She declares that the students stole it, and that while she was in tears the cat was in the form of a cloud. The thought that we are the actual creators of the world's fortune is one that must load us with a sense of responsibility that will be intolerable or inspiring according to our disposition. Yet, when we speculate about the condition of the world in the coming century we do not realize that things in that age will be what we make them. Mr. Wells makes this point very clear in a study of "Mankind in the Making" in November Cosmopolitan.

Can a woman give to another woman the unswerving loyalty which an ideal friendship should exact? Will a woman be faithful to her friend not merely while she is her friend, but after? If for any reason "palooze" or envy or the poison of suspicion part the two, will each be loyal to the past, keep its secrets and respect its obligations? If two men who have been friends wear out their friendship and perhaps exchange it for open enmity, they will respect the tie that has been broken. For the future, they will strike as hard as they are able, but will not violate their old friendship, nor use the opportunities which it gives them for inflicting pain. But is this the same to a man as to a woman? These are some of the questions which Raloff Pyke asks in November Cosmopolitan on "What Women Like in Women."

Continuous Advertising. Nothing is truer than that to have an enduring effect advertising must be continuous. A case in point is that of a "once well-known proprietary medicine which had a tremendous vogue and paid \$200,000 a year as long as it was widely advertised. When, however, the proprietors quit advertising, thinking to do business on the established reputation, the sales diminished until they became insignificant.

Prominent Pomologist Dead. Napa, Cal., Nov. 7.—Professor George Huesmann, one of the best known pomologists in the United States, died at seventy-five years. He was one of the founders of the American Pomological Society, a contributor to many magazines, and author of several books on viticulture and horticulture. Britannia Rules The Waves. London, Nov. 7.—Walter Lang, in a speech, quoted figures showing that the British navy had four times as many men as Germany. We were spending £9,000,000 a year on construction alone, whereas the whole cost of the German navy was but £10,000,000.

Green Goods Department. We have spinach, wax beans, lettuce, radishes, parsley, celery, cauliflower, Brussels sprouts, artichokes, Hubbard squash, salsify, Boston marrow, etc. Carnovsky's, on the Corner. Canned tomatoes will be very scarce during the coming winter, and are already selling at fifteen cents per tin, compared with eight to ten cents a year ago. Many merchants are unable to obtain an adequate supply for their trade. The scarcity is due to the wet weather and early frosts in the fall, which destroyed a large part of the crop. Boys' suits, 25c, 50c. Jenkins.

SNOW REMOVAL

WILL BE CONTINUED BY STREET CAR SERVICE.

Sale of a Seat on the Montreal Stock Exchange at a Good Round Figure.—The Arrivals of Vessels. Montreal, Nov. 7.—The removal of snow from streets by street cars will be continued by the corporation. Although tenders were called for to have the work done by contract, only two tenders were received, one being for the whole, and another for a section. The tender for the whole was \$10,119.50, but it was thought too high and nearly as much as it costs the city by its present antiquated methods, which will now have to continue this winter. A seat on the Montreal stock exchange was sold to the highest bidder to-day for \$25,500, to W. R. Miller, of R. Mont & Co. This is a high record price, the last sale being at \$20,000, a few weeks ago. The Allan line steamer Brazilian, from Montreal, for London, arrived out on Wednesday afternoon and landed all her live stock without loss. The Allan line steamer Numidian, from Philadelphia, at Glasgow, arrived at St. John's, Nfld., at 7 a.m., on Friday.

The Late Mrs. Lyon, Colebrook. Seth Lyon, Colebrook, received a telegram from Winnipeg on Monday, stating that his wife had died that morning. Mrs. Lyon went to Winnipeg this summer to visit her daughter, Mrs. Samuel Montgomery, of that place, where she was taken ill. It was reported that she was gradually improving, and the news of her demise was a shock to the community, as well as to her family. Mrs. Lyon, although far away from home, had two daughters, Mrs. Samuel Montgomery, Winnipeg, and Mrs. Robert York, Batavia, and her only son, Vincent, Los Angeles, Cal., at her bedside. The other members of the family who mourn for her are her daughter, Beryl, and her husband. The remains will be brought home for burial. Mrs. Lyons was held in high esteem by all and was a very superior woman in every way. She leaves five brothers, John and Joseph residing here, David at Stouffville, James at Newburgh, and two sisters, Mrs. Dennis Boyce, Belleville, and Mrs. Martin, near Hartington.

Do Ants Have Horses, Too? Not long ago a French explorer, M. Charles Meisen, in travelling through Siam, observed a species of small grey ants which were new to him. To his surprise he noticed among them from time to time an occasional ant which was much larger than the others, and moved at a much slower pace, and at each of these larger ants, M. Meisen saw, always carried one of the grey ants on its back. This discovery led him to watch the movements closely. He soon saw that while the main body of grey ants was always on foot, they were accompanied by at least one of their own sort, mounted on one of these larger ants. He mounted and detached himself now and then from the line, rode rapidly to the head, came swiftly back to the rear, and seemed to be in command of the expedition.

Dried Potatoes For Cattle Feed. A prize of \$7.13 has recently been offered by two of the leading agricultural and manufacturing associations of Germany for the best method of drying potatoes for feed for cattle. Almost one-half the German potato crop is now used as feed for cattle. Three and one-half tons of fresh potatoes yield one ton of dried ones. One of the conditions governing the award is that the dried shall dry ten tons in twelve hours.

Will Accept Decisions. Washington, Nov. 7.—Col. Wright, recorder of the strike commission, received a telegram to-day, saying that it is understood that the large part of the individual operators in the Lacawanna and Wyoming coal regions have agreed to become parties before the commission and accept its decision. There are about seventy of these operators working smaller mines in the anthracite region.

Indians On The Rampage. Tucson, Ariz., Nov. 7.—J. R. Sullivan, superintendent of a mine at Laguna Sea, and a half dozen Mexicans, have been killed near San Marcial, Sonora, by Yaqui Indians, who are reported to have taken the warpath, and are beyond the control of the small Mexican force.

Has Gone To England. Walter Giddings left last night for Montreal, on route to England, his native land, where he will probably remain. He has resided here many years and is well known as an industrial mason and good citizen. A number of his fellow members of Kingston lodge, I.O.O.F., gave him a friendly send-off.

Barbed Wire Telephone Circuits. The Pacific States Telephone company has decided not to oppose the extension of the barbed wire telephone systems, and has made special offers to supply farmers with instruments at \$6 a year for use on barbed wire circuits. Its use is spreading rapidly in the farming districts.

Jenkins' Overcoats. The season is in full swing and the overcoats at \$10 in dark grey, long loose back, are going off like hotcakes. The United States census bureau has issued a report showing the amount of cotton of the crop of 1902 given up to October 18th, to be 5,925,872 commercial bales for the entire United States, which is estimated to be sixty per cent. of the entire crop. "Bibby's" hats, purchased from Francis Davis, the residence at 22 Frontenac street, at present occupied by Capt. John L. Bogart, at \$1.50.

The cranberry crop of Wisconsin, while reasonably satisfactory, is fifty per cent. below the estimate made in August. This is heavy sweaters, striped or plain, \$1. Jenkins.

OLD LADY INJURED.

She Fell on the Stairs—Aged Resident is Dying.

Napanee, Nov. 7.—The large safe in F. W. Smith & Bros' shop was removed yesterday afternoon to his new stand. The safe is a monster, weighing about seven tons. Mrs. Dufoe, mother of J. R. Dufoe and W. A. Dufoe, had the misfortune to slip down three steps on Monday last, breaking one of the bones of her wrist. The injury, besides being a painful one, was a great shock to Mrs. Dufoe's system, she being well up in years and unable to stand very serious injury. Denis Noville, an old and well-known resident, who has been confined to his bed for the past six months with a stroke of paralysis, was stricken with pneumonia early this week and now lies at the point of death. He is over eighty years of age, and his friends fear the malady will be too much for his already weakened constitution. J. J. Lacoste, Singer sewing machine agent, leaves to-day for Mattawa and the north country. He was one of the South African soldiers and a grant of 160 acres of land was given to him. His trip north is to locate his farm, R. D. Martin, Montreal, was in town yesterday. George Hullman, attending Queen's, spent yesterday in town with his parents, Mr. and Mrs. T. A. Huffman.

Bath Brevities. Bath, Nov. 6.—Joseph Johnston is home for a few days. Frank Mills is clerking at O. Ball's. Leroy Haselton is working on the Bay of Quinte line. Capt. and Mrs. Charles A. Gunn and baby daughter, Paterson, N.J., who are on furlough, are visiting with Mr. Gunn's sister. A number of people are improving their dwellings. The ladies of the Episcopal church deserve great credit for the way they have worked to earn money for the new furnace put in by Rev. Mr. Spence, preached at the quarterly service last Sunday, which was well attended. George Irish, three weeks in a Kingston hospital, suffering from an accident received from a gun, is home once more. It is to be hoped that his eyesight will be saved. Some of the gardeners in Bath make a fine showing of vegetables this season. The streets are getting a covering of gravel, which has been badly needed.

Death At Enterprise. Enterprise, Nov. 5.—J. D. Wagar spent a day last week in Kingston. J. F. Lochhead, Kingston, spent Tuesday and Wednesday the guest of his mother-in-law, Mrs. M. P. Walker. Miss Mary Davy, Newburgh, is visiting her brother, A. G. Davy. We have to chronicle the death of Master Roy Shier, young son of Richard Shier. Sympathy is extended to the bereaved ones. Visitors: Messrs. Carscadden and Wagar, Tamworth, at their homes; Chloe Wagar at J. Locks'; Mr. and Mrs. Judson Vanest and Mrs. and Mrs. Elias Jackson, at Rouben Wagar's; William Hopkins and family at Wilton Hopkins; Arthur Smith, Moscow, has moved into our town. A few of our citizens have gone on a hunting expedition. Miss Evelyn Carscadden, trained nurse, Belleville, is nursing Mrs. A. G. Davy, seriously ill, but is now convalescent.

Fall Importation Of 1902. Prevost, of the New York clothing store, Brock street, has received a his fall importations for orier work in his tailoring department. His ready-made department is well assorted and a large assortment to choose from. For low price and durability he defies competition. "Bibby's" Overcoats. "Bibby's." That \$10 bill will not get in your pocket, after you have seen our \$10 overcoats. The H. D. Bibby Co. George Colles, Montreal, visiting at Flushing, L.I., was bitten on the hand by a rattlesnake. His condition is serious. Taylor sells patent strings.

NERVOUSNESS

Or dependency caused by weak and irritable nerves, are responsible for more distress and suffering than any other disease. If you have a secret drain from early abuse, later excess or exposure, you cannot expect healthy nerves while your vitality is being wasted. Do not shut out a miserable existence on account of your failing, you are not safe until cured—ensure never excuse—no matter how young, old or innocent one may be. KIDNEYS AND BLADDER. Have you pain in the back, a dull feeling in the region of the kidneys? At times your water comes freely, a large quantity light in color, while at other times you do not make it quite so freely, it is dark in color, you make a small quantity, or you may have a mucous deposit or brick dust colored sediment; give your condition immediate attention or more serious complications will set in. My treatment guaranteed as a positive cure for such conditions, and remember you PAY WHEN CURED. You need pay nothing until you are convinced that a thorough and complete cure has been established. Surely that is fair, as you run no chance. CONSULTATION FREE. If you cannot call, write for blank form treatment. Perfect system of home treatment for those who cannot call. BOOK FREE. Medicines for Canadian patients shipped from Windsor—All duty and transportation charges prepaid—Every reliable medicinal. No names on envelopes or packages—Nothing sent C. O. D. 255 WOODWARD AVE. Cor. Wilcox Street, DETROIT, MICH.

Queen Quality QUEEN QUALITY Of all the shoes for women on the market, there is but one that gives complete satisfaction because it combines in one shoe the advantageous points of half a dozen different shoes. 1st. It combines strength with lightness. It is made of leather that is very light and yet extremely strong with great wearing qualities. 2nd. It combines fit with form. It is fitted closely about and beneath the instep so that the foot cannot slip forward in walking—a feature unusual in ready-made shoes. 3rd. It combines flexibility with wear. The soles are made extremely flexible to give a light, graceful step. 4th. It combines style with economy. In shape and appearance it has a distinction that no other shoe has ever been able to copy. See it! Try it on! The best store in each city has the sole right of sale. Kingston Agency J. H. SUTHERLAND & BRO. The Popular Shoe Store.

THE COLONIAL SHOE

For Ladies is the Popular Thing in Footwear.

The Finest Assortment in the City Is To Be Found At
