THE MATTER OF PRO-DUCTS AND PRICES.

This is the Purpose of the Combination of the Coal Interests-The Use of Morgan's Name.

among themselves, and discussing the expediency of forming a closer organization for the regulation of product and prices. Morgan's name appears in all the press references to defensive measures against the machinations of the United States capitalists, but this has become an English habit. One day he is represented as buying Brit ish collieries and the next day the coal interests are described as combining against him. While he is convenient as an ogre, the influence of German syndicates for regulating production, distribution and export is felt, and both the coal owners and the iron and steel masters of United industries by similar methods.

The Berlin correspondent of the Morning Leader states that electric traction trials on the military rail-A song in one's heart, a smile upon way, between Berlin and Zossen, have sleepless vigilance." one's lips, a cheery, wholesome mes now concluded for this season. The result of the trials has been to prove beyond doubt that express trains can easily be run by electric power at a speed of seventy-five miles " per hour on the ordinary permanent way.
