WERE MASSED

Hard Work To Get Them Separated.

OFF FOR HOME.

THE CITIZENS HELPED OUT THE POLICE.

The Fanatical Doukhobors Are Now En route to Yorkton by Train—They Fought Hard and Many Mishaps Were the Result.

Winnipeg, Nov. 10.—The government officials having at length, by strategy, gained control of the wandering band of Doukhobor fanatics at Minnedosa, these latter are en route to their homes.

The work of loading the Doukhobors on the trains, was an exciting character. Government Agent Speers entered the rink and asked them to go quietly to the train but one of their number, named Zebroff, who had been exhorting them ever since their arrival here to remain firm, again tried to hold them together. Speers grabbed Zebroff and in spite of his struggles ran him out of the rink and called to the police to bring the rest. The Doukhobors left the rink quietly, but as soon as they were out they locked themselves together by every man hugging another making a solid body. Then the excitement commenced. The citizens turned in and helped the police but it was hard work for a while to get the Doukhobors apart, it taking four and five men to pull one Doukhobor from this interlocked mass. They had to go, however. Some went quietly when broken away, while the majority fought every inch of the hundred yards to the station.

One citizen had an ear nearly bitten off; a Doukhobor had an ankle broken and there were many other minor mishaps. During the struggle at the station the Doukhobors army again formed for battle and here, by far, the stiffest fighting occurred. The Doukhobors fought, kicked and clung to everything they could get hold of and the police had to use clubs to get them on board the train. Finally all were got into the coaches, when the train moved off.

Simple and Wonderful Remedy Successful. London, Nov. 10.—A correspondent writes from Mackay, Queensland, describing to a Sydney paper "what is believed to be a simple and wonderful cure for cancer." He states that a resident who had what had been diagnosed as a cancer under his tongue casually applied some molasses to the affected part, and suffered intense pain for about an hour. Then the pain abated, and the spot in his mouth felt less troublesome than before. After a further daily course of molasses he was "completely cured."

Hop Markets.

Toronto, Nov. 10.—The market for hops has been considerably excited in New York, where English buyers have purchased all the choice state hops they could secure at 35c, and would buy more, but cannot get them at that figure. It seems that buyers in Montreal missed their chance some time ago when they refused a considerable quantity of New Eastern townships and Ontario hops offered them at 17c to 18c, f.o.b. at shipping points, as the same hops to-day are said to be worth 25c to 30c, really choice being quoted at 32c to 35c. Toronto buyers snapped up the above hops at 18c to 19c, laid down in Toronto.

Butler's Case Called.

Butler is a prominent democratic leader of St. Louis and has to face the charge of attempted bribery in securing the garbage contract for that city. Owing to the prominence of the accused and the gigantic municipal scandals recently unearthed in St. Louis the trial of Col. Butler will attract widespread attention.

QUESTIONS MAY BE ASKED IN PARLIAMENT.

Awkward to Have the Matter Debated While the Kaiser is in the Country—The Ratepayers Stand by the Birmingham City Council.

London, Nov. 10.—It is expected that the differences between Great Britain and Germany, regarding the evacuation of Shanghai, will be the subject of a number of questions, this week, in the House of Commons, although possibly the government will not set in a position to make a statement on the subject while it would be obviously awkward to have a debate on the subject when the Kaiser himself is the guest of this country.

The London Daily Mail congratulates the people of Birmingham on the defeat which they have inflicted upon the British Electric Traction company, another of Morgan's many concerns in this country. By a majority of 2,000 the ratepayers have decided to support the city council's proposal to apply in parliament for the power to build and work tramways in Birmingham.

The list of birthday honors published this morning, shows that Great Britain is desirous of pleasing her ally in the far east, Prince Arisugawa, of Japan, is made a Knight Grand Cross of the Order of the Bath, and Count Matsumata, formerly the prime minister of Japan, is made an honorary Knight Grand Cross of the Order of Saint Michael and Saint George. Sir James Mackay is made a Knight Grand Cross of Saint Michael and Saint George, in return for his services in drafting the recent commercial treaty with China.

Tells Sheriff He Never Saw His Accuser Before.

Boston, Nov. 10.—After having given out the confession made by the young negro, George L. O. Perry, with reference to selling the watches taken from the murdered woman, Miss Clara A. Morton and Miss Agnes McPhee, the police admit that Perry declares that Alan B. Mason is the man from whom he received these articles. This admission of the police was made just before young Perry was taken to the jail in East Cambridge, where Mason, the prominent Boston man under arrest on the charge of killing Miss Morton, is confined. In one of the jail corridors Perry positively identified Mason as the man who had given him the two watches. Mason, by look or word, betrayed no knowledge of having seen Perry before. When questioned by Sheriff Fairbairn, Mason merely said: "I do not know this man; I never saw him before."
