

# CONSUMPTION CAN BE CURED

**EDITOR'S NOTE.**—The Slocum System of Treatment for the cure of Consumption, Pulmonary Troubles, Catarrh, General Debility, and nearly all the ills of life, is medicine reduced to an exact science by the world's foremost specialist.

By its timely use thousands of apparently hopeless cases have been permanently cured.

The Emulsion of Cod Liver Oil is needed by some, the Tonic by

others, the Expectoant by others, the OxoJell by others still, and all four, or any three, or two, or any one, may be used singly or in combination, according to the needs of the case.

Full instructions with each set of four free remedies illustrated here. Our readers are urged to take advantage of Dr. Slocum's generous offer.

## THE FREE TRIAL

The honor of this effectively arresting the progress of this fatal malady rests with the wonderful system of treatment which has been reduced to an exact science for the cure of Consumption and for the cure of Catarrh and other prevalent conditions which pave the way for Consumption—that successful method evolved by America's greatest scientific physician, Dr. T. A. Slocum, whose great liberality through his Free Trial Treatment, sent broadcast throughout this broad land, has contributed most to the rout of the most potent agency in the destruction of human life in this hemisphere.

His Free System of Treatment has arrested the hand of death in the cases of thousands of consumptives and has prevented the disease in countless instances.

The Slocum Treatment consists of four distinct remedies for the cure of Consumption, Weak Lungs, Bronchitis, Catarrh, and all pulmonary and wasting diseases, and is based upon principles essential to the correction of function, the rebuilding of the tissues, the overthrow of parasitic animal organisms and the estab-

lishment of health in all the departments of the human body.

The four preparations embody all the necessary elements of a complete treatment for Consumption—its cure and prevention—as well as for most of the chronic and wasting ills of life. Apparently hopeless cases are cured by their timely use.

These free remedies comprise the great curative forces discovered by the eminent physician, Dr. Slocum, they represent the acme of the pharmacist's skill and with them will be found explicit directions for their use in any case.

You are invited to test what this system will do for you. If you are sick, by writing for a FREE TRIAL TREATMENT and the Four Free Preparations will be forwarded you at once with complete directions for use.

Simply write to the T. A. Slocum Chemical Company, Limited, 170 King Street West, Toronto, giving post office and express address, and the free medicine (the Slocum Cure) will be promptly sent.

Persons in Canada seeing Slocum's free offer in American papers will please send for samples to Toronto.

## Canadian Woman's News Letter.

From the Canadian Syndicate.

Ottawa, Nov. 15.—Her Excellency the Countess of Minto, owing to a severe cold, was obliged to cancel the reception which concludes the state dinner, celebrating his majesty's birthday. The reception is held for the wives and daughters of the men who are his excellency's guests at the dinner.

Lady Minto's cold had been troubling her for some days previously, and only the most heroic efforts had enabled her to keep up for the teas given during the week before. Much of the time layers of cotton wool were under her elegant gown served to prevent her from cold after applications of linseed poultices, but finally she was compelled to yield to the inevitable, and at the last moment to cancel, to her own as well as her guests', disappointment, the state reception.

Lady Cartwright, wife of the new privy councillor, is one of the most picturesque figures in the society of the capital, and in a period of fashionably dressed and elaborately coiffured women it is a treat to look at her simple gowns and quaintly arranged hair. In the latter particular she follows the style of forty or fifty years ago, parting the hair in the middle, brushing it down towards the ears, and turning it under at that point.

In connection with the rumor that Sir Richard Cartwright will succeed Sir Oliver Mowat as Lieutenant-Governor of Ontario, everyone is saying or thinking that Lady Cartwright would make an ideal mistress for the gubernatorial mansion, but it is most improbable that this will occur, for Sir Richard thinks he is just as young as ever and does not want to retire from active political life.

Sir Richard and Lady Cartwright are very fond of each other, being just as much in love it is said as on the day of their marriage.

The approaching departure of Mr. Falconio, the apostolic delegate to Canada, is a matter of sincere regret to all who have come within the circle of his excellency's influence. Among the warmest friends which he leaves behind him are the members of the Alumnae Library Association of the Rideau Street Convent, an organization in which the delegate has taken a deep interest since its inception a couple of years ago, and of whose work and influence he always spoke in terms of emphatic commendation.

The Catholic Indian Association, organized by Miss Katherine Hughes of Ottawa, also loses a warm friend in Mr. Falconio. His excellency was one of the first to see the importance of the proposed movement, and has given it his cordial support since it was brought to his attention.

The prospects of the Ottawa Woman's Art Association, which have been very gloomy of late, have begun to brighten, thanks to the good offices of her excellency, the Countess of Minto, and it is now confidently hoped that its troubles are at an end. At the beginning of the present season, the president, Mrs. Irwin, insisted on resigning after a year's faithful and efficient service, and the problem of finding a successor proved serious. The duties of the office are not very arduous, but as the society has been in a continual struggle, financially, all through want of appreciation of the good work it is doing, the responsibility of steering it through those low waters, was one that few of the members were anxious to assume.

There was some talk of giving up the society altogether, but as it had only been reorganized for a few years, and had been able to struggle along and do a good work in spite of its many discouragements, the members felt that it should not be allowed to lose the stand it had gained. In this dilemma Lady Minto was asked to come to the rescue and help solve the difficulty by requesting some lady to take the office of president for the present year. Her choice fell upon Mrs. Stanley Maude, who to the delight and relief of everyone concerned consented to step into the breach. She was formally elected this week.

The members of May Court Club are arranging a series of papers on the famous woman of the nineteenth century, to continue the study of those of the eighteenth century given last year. The first of the series, on Lady Eastlake, the clever wife of the celebrated artist and director of the British National Museum, who died in 1865, was given at the first club morning of the season, held this week, by Miss Griffin, daughter of the parliamentary librarian, and the next will be about Jane Austen. The May Court is a body of young society girls of Ottawa, banded together for helpfulness and mutual improvement. The club was organized by Lady Aberdeen, and every May she sends over the pretty enamel lock to be worn by the queen of the year. Three queens only have there been, Miss Ethel Hamilton, daughter of the Bishop of Ottawa, Miss Ethel White, daughter of the controller of the North-West Mounted Police, and Miss Millie White, daughter of the late Hon. Thomas White. The May Queen, who is chosen for more than her beauty, selects two counselors, and the officers and executive is elected by the club. The educational work consists of the morning reunions, where papers are read and discussions conducted upon current events, and also a monthly course of lectures during the winter. In the philanthropic work the members of the junior branch join heartily, and also in the annual exhibition of work, which is usually opened by a tea with her excellency, in town, as guest of honor. Her excellency takes much interest in the club, and frequently

gives cozy little teas at Government House, for the purpose of meeting the members.

The American papers mention that the women of Jersey City are endeavoring to secure the appointment of two women on the city school board. This fact recalls the long and fruitless struggle in New York for the same object, and invites a comparison with the conditions in Canada. In spite of our firm conviction in this country, that we are hopelessly behind the people of the United States, we have in the Dominion, according to the last report of the National Council, twenty women school trustees. There are, or were until very recently, two in Toronto, one in Victoria, one or two in New Westminster, and sixteen in the province of New Brunswick. In the United States, there are, all told, quite a large number of women in such positions, all their cities not being as conservative as Jersey City and New York, but in proportion to their population, they do not appear to come ahead of Canada, while Great Britain is far in advance of both, women not only having been elected, but sought after to serve on British school boards during the last twenty-four years. The National Council of Women has had much to do with the appointment of women school trustees, in Canada, and in the banner province of New Brunswick, the St. John local council is responsible for legislation requiring that there shall be two women trustees in all incorporated cities.

**Distant Relations.**  
"Do you know," said the rabbit, "I believe we must be related? We resemble each other so much as to ears."  
"That's so," agreed the mule. "And I think my owner is going to introduce you to another relative of mine, Mr. Shotgun, one of these days. Mr. Shotgun has about the same kick as I have, and he also has a muzzle."

**Kingston's Good Streets.**  
"I have just returned from a trip through Northern New York," said a citizen to-day, "and I came back with golden opinions of the superiority of our city streets, on the average. Of course, where paved streets exist, they are eminently superior to our macadamized streets. But even there in the absence of macadam, the roads are wretched. Take such an important thoroughfare as State street in Watertown, for instance. It is in the very heart of the city, yet mud exists from curb to curb, axle deep. The worst country road to be found in the Kingston district is not as bad a condition as that Watertown street. That is only one of many I met with in my travels. On the whole, Kingston streets are very good and compare favorably with unpaved streets of other cities."

**Along The Rideau.**  
Nanvick-on-the-Rideau, Nov. 12.—Messrs. Scott and Mackley, from the Mountain, came in the vicinity with their thrashing machine. The government has raised the dam here with stone supplied from E. Gremont's quarry. The farmers from the front are taking home their stock, that was north of here, on pasture for the past season. Much of the stock came from Brockville. John McCann has erected a new impounding house. Thomas Carby was in Smith's Falls with the government carpenters. On Friday they were here repairing the lock gates. J. H. Martin, tax collector, was around last week, and rates are not as high as expected. T. Powers and J. J. Quinn, Micaville, were visitors here last week. Joseph Henderson and S. McCallum and friends at Chafey's Lads a visit. Mr. Gremont and wife were at Ardmore on Sunday.

**Have You A Skin Disease?**  
"Tetter, salt rheum, scald head, ring worm, eczema, itch, hives, itch, lice, blotches, chronic erysipelas, liver spots, prurigo, psoriasis, or other eruptions of the skin—what Dr. Agnew's Ointment has done for others it can do for you—cure you. One application gives relief. For sale by H. B. Taylor and Henry Wade—87.

**Rifle Club Scheme.**  
Major-General Hutton, now the commander of the military forces of the commonwealth of Australia, is perfecting a rifle club scheme. That these clubs may not "take on too much military color" it is proposed to create three separate grades. Men belonging to the first will be offered inducements to put in a limited number of drills, and will be closely associated with the military department. The second grade will be an intermediate stage between this class and the civilian rifle club shots who are to constitute the third grade.

**Depew Favors Reciprocity.**  
Springfield, Mass., Nov. 14.—In an address here last night Senator Depew advocated a scale of reciprocity with Canada.

# Eczema Cured by Ozone

Mrs. Ellen Smith of Montreal, was a fearful sufferer from eczema for many years. She was tortured so severely at times she contemplated putting an end to her existence. Thanks to Powley's Liquefied Ozone, she did not do so because it cured her completely and for all time. She is a great believer in Ozone now, and so is her pastor, the Rev. J. Frederick Renaud, who has known her for twenty years, and who is quite conversant with her cure by this drugless product. He vouches for the facts in her case and gives Ozone great praise.

Mrs. Ellen Smith Writes:

"Having been greatly benefited by Powley's Liquefied Ozone, I feel it my duty to allow it to be known to the public at large. I had been a fearful sufferer from eczema for many years. The disease centered in both limbs, below the knees. The left especially, was swollen to alarming dimensions, while the inflammation, irritation, and hard, scaly condition, induced a degree of suffering which only the mercy of God prevented me from ending in suicide."

"I spent the best of three years on my back, besides different periods in three hospitals. Then at home I could not go as far as the next room without the aid of crutches, and altogether my case was considered past help, for I had had the best skill in the country to no purpose."

"I have now used five bottles of Ozone, and I rejoice to say that both limbs are reduced to their normal size, the burning is entirely gone, and I can walk alone with perfect ease, although I am now sixty years of age."

"The Ozone also cured an advanced stage of liver disorder, and I am willing at all times to tell my experience to other sufferers."  
(Signed) Mrs. ELLLEN SMITH,  
31 St. Andre Street, Montreal.

The Rev. J. Frederick Renaud's Corroboration.

"To Whom It May Concern: I beg to state that I have known Ellen Smith for over twenty years, and for the past nine years she has suffered from a running sore but was unable to obtain any permanent relief until she tried Powley's Liquefied Ozone, to the beneficial effect of which she bears most grateful testimony."  
(Signed) REV. J. FREDERICK RENAUD, 82 St. Herbert Street, Montreal, P. Q.

There is no other way of proving the value of a preparation, so valuable, so positive, than by investigating the statements made about it and finding out if the facts are just as they are represented. We always solicit the freest possible investigation of the claims we make for Ozone, and to widen the scope of such an undertaking by you, we suggest that you make enquiries of your druggist. Oftentimes cases come under his notice that he can refer you to. As these cases may not have had our attention, you will get an absolutely unbiased opinion of this great drugless preparation—Powley's Liquefied Ozone.

50c. and \$1.00 a Bottle, at all Druggists.

THE OZONE CO., of Toronto, Limited, Toronto and Chicago.

## "DAY IN AND DAY OUT"
