HOW THE BODY BREATHES.

There is a homely old saying that nobody ever dies except for want of breath. There is more truth in this than most people know. Breathing means more than is generally imagined.

The lungs are not the only organs with which we breathe. The whole body breathes. This is not a figure of speech. It is an actual fact.

What the lungs do when they breathe is to take in oxygen and give out carbon dioxide, and the same process goes on all over the body all the time in the little cells that make up the nerve-centers, tissues and blood. This is called internal respiration. It is the chief process in the work of tearing down used-up tissue and allowing new material to be built in its place.

If we could understand this process entirely we would understand life, but we can only study it through its effects. We know that Scott's Emulsion helps this process of cell and tissue-repairing to go on very rapidly. We know it very speedily produces good blood and healthy flesh, but we can only partly explain why.

The emulsion contains elements which are very sensitive to oxygen, and the inmost life cells are always hungry for oxygen. Perhaps the emulsion helps them to get it. That is how a great chemist accounts for it.

Scott's Emulsion is rich in carbon, and carbon is particularly needed in sustaining the energy which shows itself in heat and various forms of both mental and muscular activity. It contains an abundance of other properties which we know are specially demanded by the system in conditions of poor health. But no theory will entirely account for the beneficial effects of Scott's Emulsion, just as no theory will quite explain the curative effects of sunshine.

This emulsion combines the full strength of the whole cod liver oil, perfectly emulsified with the highly medicinal properties of hypophosphites of lime and soda. This combination not only makes the oil easy to take and easy to digest, but greatly increases its natural value. Scott's Emulsion is beyond doubt richer than any other known food or preparation in the nourishing properties needed when the blood is poor or the system run down.

Each package of Scott's Emulsion bears the trade mark label of a man carrying a big fish on his back.

We'll send you a sample free upon request.

SCOTT & BOWNE, 55 Front St., Toronto.

SPORT REVIEW.

KINGSTON COULD SUPPORT GOOD BASEBALL TEAM.

Hardisty and Beattie to Have a Kicking Contest—Limestones and Queen's Had a Practice Match—General Notes.

T. Healy, the champion of Ireland, will row for the Diamond Sculls at Henley next year.

On account of his mother's illness, Lord Hawke is not accompanying his cricket team to New Zealand.

Limestones have not yet settled as to when and where they will play their match with Toronto Wellesleys.

Montreal Baseball Club find that they used false economy last season, and have decided to spend more money next year.

Sault Ste. Marie wants to enter a team in the senior series of the O.H.A. A group of New Ontario clubs may be formed.

The Queen's-McGill match in Montreal was of far more interest to spectators than was the Canadian championship rugby match in Ottawa.

The final for the intermediate O.R.F.U. will probably be played in Peterboro next Saturday with London and Peterboro as the opposing teams.

Bradford, Man., will have a new hockey rink with an ice area of 75 to 150 feet, and accommodation for 2,000 spectators. The rink will cost \$10,000.

Should Hamilton juniors be in their opponents \$100 to play in Hamilton instead of Toronto. If Limestones are their rivals, the offer will likely be accepted.

A new rink is being built at Houghton, Mich., where the Portage Lake Club plays. A visit from Toronto University's team is expected during the holidays, and a Pittsburg team will play three games in Houghton during February.

In Monday's football match at Halifax, between the Montreals and All Halifax the home team again won, this time by a score of 8 to 10. In an exhibition of the western game played afterwards, Montreal scored a try against Halifax.

Wright, of McGill, had his collar bone fractured in the Queen's game last Saturday afternoon. In the excitement of the play, the fracture was not felt, and it was only when the match was over that the bone was found to be broken.

The Rough Riders, Canadian rugby champions, are desirous of going across the line and playing one of the big United States teams for the championship of America. Neither Yale nor Harvard could possibly have a more formidable team than that of Ottawa.

Yesterday afternoon Queen's II and Limestones had a splendid practice on the Queen's Athletic grounds. The husky junior team was fully equal for the more points. Another practice match takes place to-morrow and then both teams will be in fine playing condition for Saturday.

In order to settle a controversy over the respective punting ability of Hardisty, of the Toronto Argonauts, and Beatty, of Varsity, Manager Thompson, of the Argos, has declared his willingness to donate a gold medal for a kicking contest between the pair.

His suggestion is that each man be allowed ten kicks, next Saturday, and the player making the greatest distance on the aggregate will win the trophy.

President Ballantine, of the Ontario Rugby Football Union, says that the Burnside rules or the snap-back system would be proposed for adoption at the annual meeting of the union on December 13th, and that they were assured sure to be accepted. In his opinion the smaller towns would hail these rules as a god-send, inasmuch as it cut down the players from fifteen to twelve; would reduce the traveling expenses, and would substitute speed for weight.

A Kingston man recently made the statement to the Toronto Globe that it was hard to get more than a forty-dollar gate at a baseball match in this city. Such a remark is rather rash. Though Lake Ontario Park has a splendid ball diamond, it is unfortunately too far away for the majority of people, and only once in a while can a large crowd be drawn out there for a baseball contest. Then again, the admission charged was only fifteen cents, and further, ladies were admitted free. That, of course, made the gate receipts small, the largest amount taken last season being a little over \$100. But with a central baseball grounds in the city, a charge of twenty-five cents general admission, and fifteen cents to ladies, and a grand stand fee of ten cents, a fair-sized gate would be the result. Semi-professional league baseball paid in Kingston years ago, and there is no reason why it should not do so now, as it is the only summer game here.

Stuart, the aged Toronto counterfeiter, was sentenced to four years in Kingston penitentiary.

News Of The Districts On Both Sides Of The Line.

The marriage of Miss Levenia E. Miller to John T. McLaren, occurred at Carleton Place on Tuesday.

Mrs. McDonald, relict of the late Alex. McDonald, died at West Point, township of Hallowell, on Friday last, aged sixty-six years.

L. Y. C. Titus, a former resident of Trenton, now a citizen of Grand Marais, Mich., has been elected county attorney for Cook county, same state.

Fred. J. Taylor, Regina, N.W.T., and Miss Clara L. Osborne, Peterboro, two former young residents of Brockville, were united in marriage on the 11th Nov., at Indian Head, N. W. T.

The Carleton Place friends of Miss Bella Wilkie will be pleased to learn of her marriage on October 8th last, at Cebu, Cebu, Philippine Islands, to Harry Erwin Bard, superintendent of education. She was a student at Queen's five years ago.

The sudden death of Miss Nancy McNeely, only daughter of John McNeely, Beckwith, has been a cause of much regret. The deceased young lady was twenty-five years of age, was prepossessing in appearance and kind and courteous in disposition, well known far and near.

Miss Mary Helen Weekes, Carleton Place, died suddenly last Tuesday evening. The deceased young lady had been in feeble health from eight years of age, when she sustained a stroke of paralysis from which she never entirely recovered. She was born at Port Emsley, thirty-one years ago.

PERSONAL MENTION.

Movements Of The People—What They Are Saying And Doing.

Revs. Fathers Hanley and Doyle exchange curacies at Brockville and Prescott.

Mr. and Mrs. James Baxter have arrived home after visiting friends in Montreal.

J. J. McLaren, K.C., Toronto, appointed a judge for Ontario, is a prominent Methodist.

Archbishop Gauthier attended the consecration on Sunday of the Roman Catholic cathedral of the Immaculate Conception.

Mrs. W. D. Soles and daughter, Marial, of this city, have gone to Gananoque to spend two weeks, the guest of Mrs. Clark Allen.

Rt. Ex. Comp. Abraham Shaw, G.H., last night, was present at a communication in Peterboro of the Companions of Corinthian, R. A. L., No. 91. The district superintendent was present.

Dr. George Hanley, son of James Hanley, house surgeon in Auburn, N. Y., General Hospital, witnessed the electrocution in the prison there of John Truck for the murder of Frank Miller, in 1899.

Charles R. Gibson, Mallorytown, who was ticket agent for Foley Bros. at Alexandria Bay during the past season, was in the city to-day. He leaves soon for New York, where he secured a good situation.

THE NEELON LEAKED.

Large Coal Vessel Had to Run Into Waupoos.

Tuesday afternoon, the large schooner Muskoka arrived here in tow of the tug Thomson, having had coal for Swift & Co. Her companion ship, the Neelon, sailed across the lake, but began to leak, and had to run into Waupoos. The tug Frontenac was sent after her, and arrived down with the schooner to-day. The leakage was above the water mark. The Neelon, as well as the Muskoka, is owned by the Collins Bay Wrecking company, and was only recently thoroughly repaired in the dry-dock. She carried about 300 tons of coal.

Marine Notes.

Craig's wharf: Steamer Alexandria and Niagara, down.

The schooner Katie Eccles is out of Davis' dry-dock after receiving repairs.

Swift's wharf: Schooners Muskoka and Neelon from Oswego, with 1,800 tons of hard coal.

The big bark steamer Toledo entered the government dry-dock yesterday to have a new wheel placed in position.

M. T. company elevator: Tug Thomson arrived from Oswego, with two coal-laden barges, and cleared with them for Montreal.

FOUR VOTERS ARE ACCUSED.

The Conservative Application for Summons Refused.

There is a summons in the matter of the application for the summoning of four liberal voters in Lennox for corrupt practices were filed Tuesday at Goadsode Hall. The application was refused by Justice MacLennan and Moss, and Mr. Bristol-purposes to renew it at the trial, which opens at Lennox, on November 25th.

There are four affidavits in the case, three of them by Henry Milling and the other by C. M. Rutan, and the liberal voters charged are Homer Miles, Elias P. Smith, J. S. Hulett, and Byron Derbyshire.

He Is Well Posted.

Said a horse dealer this morning: "If farmers in this district would consult with John Carson as to the kind of horses to breed, they would be better off and would have horses for market that would command good prices." Mr. Carson is one of the best posted horse dealers in Canada, and knows the wants of the market thoroughly.

Mr. Carson has gone to New York to attend the horse show, and to keep abreast of the times in the matter of horse flesh.

Awarded The Contract.

Breck & Halliday have been awarded the contract for placing an electric lighting plant in W. C. Macdonald's steamy bath Kate, at Gananoque, and of placing a private telephone system to connect his residence with his stables, the gardener's house, etc. The work will be immediately begun. Mr. Macdonald is an old Gananoque boy, who has prospered in New York, and who now has his summer residence in the busy factory town.

Finest Talcum powder 10c. a tin. Taylor, 124 Princess street.

THE BEST CROP

NOVEMBER BULLETIN SHOWS MARKET PROSPERITY.

Principal Grains Yielded Large—Peas, Beans and Corn Were Below Average, Owing to Wet Weather—Fruit Plentiful.

The average yield of the principal grains was considerably above the average for the past twenty years, according to the November Crop Bulletin, issued by the Ontario department of agriculture. Fall wheat averaged 26.8 bushels to the acre, as compared with 20 for the years 1881 to 1901; spring wheat, 20, as compared with 15.5; oats, 42.6, compared with 34.8; rye, 18.5, compared with 16.2; buckwheat, 20.5, compared with 19.3; peas, beans and corn did not come up to the average. Hay yielded 1.87 tons to the acre, as compared with 1.40. All kinds of fruit were plentiful.

The returns of various crops made by correspondents throughout the province show the yields to have been as follows: Fall wheat—748,592 acres, 20,033,669 bushels, or 26.8 per acre. The August forecast was 25.9, and the yield of 1901 was 15,943,290.

Spring wheat—303,115 acres, 6,048,024 bushels, or 20.0 per acre. August estimate 19.8, yield for 1901, 5,498,751.

Barley—661,622 acres, 21,890,602 bushels, or 33.1 per acre. August estimate 32.2, yield of 1901, 16,671,070.

Oats—2,500,758 acres, 106,431,439 bushels, or 42.2, yield of 1901, 78,334,490.

Rye—189,318 acres, 3,509,332 bushels, or 18.5 per acre. August estimate, 19.5, yield of 1901, 2,545,268 bushels.

Peas—532,620 acres, 7,664,679 bushels, or 14.3 per acre. August estimate 21.3, crop of 1901, 10,089,178.

Buckwheat—93,324 acres, 1,911,683 bushels, or 20.5 per acre. Crop of 1901, 1,757,071 bushels.

Beans—58,964 acres, 670,633 bushels, or 12.4 per acre. August estimate 11.7, average crop for 21 years, 672,406.

Potatoes—144,731 acres, 13,942,250 bushels, or 89 per acre, against a crop of 15,16,637 bushels in 1901, an average year.

Manuel wurtzels—76,558 acres, 39,140,924 bushels, or 511 per acre. Crop of 1901, 29,683,324.

Carrots—8,625 acres, 3,227,161 bushels, or 374 per acre, a small increase over 1901.

Turnips—136,725 acres, 71,740,204 bushels, or 525 per acre. There were 68,287,467 bushels in 1901.

Corn for husking in the ear—371,959 acres, 20,512,194 bushels, or 55 per acre, against 77 in 1901, which yielded 24,838,105 bushels.

Corn for silo and fodder, green—209,859 acres, 2,611,334 tons, or 12.4 per acre. In 1901, at 11.9, the crop was 2,359,514 tons.

Hay and clover—2,646,202 acres, 4,955,438 tons, or 1.87 per acre. The average of the 21 years was 1.48 tons per acre.

Apples—48,185,125 bushels, or 6.86 bushels per tree of bearing age. This is 7,000,000 in excess of the August estimate.

Tobacco—3,070,717 pounds, a trifle less than 1901, 3,113,550.

The crop of red clover seed is 283,540 bushels, and of alsike 152,352 bushels. In 1901, the crops were 262,292 and 112,010, respectively, but the area in 1901 shows an increase of about 50 per cent. in each crop.

Fall Importation Of 1902.

Prevost, of the New York clothing store, Brock street, has received all his fall importations for order work in his tailoring department. His ready-made department is well assorted and a large assortment to choose from. For low price and durability he defies competition.

Eight per cent. of the population of the United States is still illiterate. In Germany, only one per cent. of illiterates exists.

Nerve Disorders Of Women

Accompanied by Neuralgia, Irritability, Sleeplessness and Depressed Spirits.

Dr. Chase's Nerve Food.

The feminine organism requires an enormous quantity of blood, not only to sustain the network of nerves which are found in the woman system but also to make good the periodical loss which so weakens the body.

Consequently it happens that just as soon as the blood gets weak and watery or is deficient in quantity the nervous system suffers, and in woman the effects are most severely felt in the form of irregularities and weaknesses of the feminine system.

At the beginning of womanhood, at childbirth, during the nursing periods and at the change of life, calls are made for an extra supply of blood, and as a result nervous disorders are exceedingly common at these times, and the health and happiness of the remainder of life may depend on the care of the system.

Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system and restore vigor and strength to the body.

Mrs. R. W. Allen, 306 Montreal street, Kingston, Ont., and whose husband is a bill poster, states:

"For a long time I was a victim of sleeplessness which was accompanied by exhaustion of the nervous system. Some time ago I began using Dr. Chase's Nerve Food, and can now say that I have been wonderfully built up in health. My nerves are stronger and steadier, and I am able to sleep well. Something that was almost impossible before using this medicine. It is a pleasure for me to recommend Dr. Chase's Nerve Food since it has proved so beneficial in my case."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmondson, Bates and Co., Toronto.

Blood Disorders Cured Without Drugs. TESTIMONIAL. Absolute purity of the blood stream and disinfection of all the tissues through which it passes are necessary to make the blood healthy and give the skin that clear, deep bloom so much sought after. You cannot obtain this result by taking drugs or applying lotions or ointments. You can by using Powley's Liquefied Ozone, nature's blood food. Clears out all humors thoroughly and surely. Acts quickly. You do not have to take Powley's Liquefied Ozone very long to know that it will cure you. Two sizes, 50c. and \$1.00 at all Druggists. THE OZONE CO., OF TORONTO, LIMITED, TORONTO AND CHICAGO.

KANT KRACK RUBBERS Every Pair Guaranteed. Sold in Kingston by A. Abernethy only. Also New York Good Year Grove Brand.
