

Good Healthy Action is easy to have by taking this famous old remedy—To look well and keep well, use

Beecham's Pills.

Sold Everywhere. In boxes, 25 cents.

You take chances with your health and spoil your baking when you use ingredients of doubtful purity.

Empire Soda

best for baking

the result will be light, healthful, delicious baking. One part Empire Soda and two parts cream of tartar makes the strongest and most healthful leavening agent you can use.

Cheapest too, for Empire Soda only costs 5c. a packet. Ask your grocer for Empire Soda and insist on getting it.

Parliament Buildings, Toronto, November 10th, 1902.

Curse Drink COLONIAL REMEDY.

Indorsed by Members of W. C. T. U. Mrs. Moore, Superintendent of the Women's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards, and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

TOLD IN THE TWILIGHT.

One always feels diffident about suggesting anything to which one is unable to give a helping hand, but it is hoped that the following suggestion may be taken in good part. Noticing time and again the unrepresentable nature of garments in which the children of the poorer classes are so often dressed, and realizing that a couple of needlefuls of cotton with, and often without, a patch would make them quite respectable, the writer has been seized with a desire to make a remark suggesting the healing of the rent to the maternal parent of said children, but has been deterred by the fear of causing offence, and also by the knowledge that the poor mother had probably little time to "apply the needle to the torn and thread-bare sleeve," even if she knew how. Now there isn't any reason at all why the little girls in the family should not be able to mend their tatters themselves, provided they know how, and always provided they are not too impossible. The "know-how" is the main thing, and if only some of our young girls, who have time and means could give up a Friday or Saturday afternoon, once or twice a month, get together some small girls, and while making the thing so pleasant that the children would want to come, would teach them to patch, and darn, fine-draw, and otherwise repair, they would be doing an awfully good work. Could not some circle of King's Daughters do this? (One speaks as a "rank outsider," totally ignorant of the aims or the scope of the order). Untidy, ragged little girls, grow up into slatternly, dirty-looking women, who have no more care for the appearance of their homes, than they have for the appearance of themselves, and the consequence is, that the husband finding nothing attractive at home, goes to the place that the prohibitionists want to shut up on December 4th. The connection between mending and drunkenness may seem far-fetched, but it really isn't. And the teaching of children to make clothes may seem more important, than mending of the same, but it isn't either, for in a great many cases parents are unable to buy new material for their children's clothing, and the little ones have to depend on the half-worn garments given them by the charitably disposed. Will any one take this matter up, if the idea is thought at all feasible?

Miss Winslow, who has been staying in Ottawa, expects to leave for her home in Fredericton on Saturday. She was the guest of honor at a girls' tea given by Miss Fiedling yesterday.

Mrs. A. D. Cartwright has been in Ottawa with the Right Hon. Sir Richard and Lady Cartwright. Princess Irene of Prussia is better acquainted in the matter of godfathers than any other woman in the world. (She can boast of no fewer than 4,000 godfathers, and how she came to obtain so many is a pretty story. When she was born the war of 1866 was drawing to an end, and peace being concluded just at the time of her christening her father, Prince Henry of Hesse, requested all the officers and men of the regiments under his command to stand godfathers to his little daughter, whom he named Irene (Peace) in commemoration of the end of the war.

The president spent Sunday quietly with his camping party near Snedens, Plover, was served at fresco, and dinner, pass were on the menu. The negro cook caused much amusement by announcing that as there were not enough knives and forks to go round, he had simply distributed those in stock to the "Colonel," as President Roosevelt is called, and the "foreign gentlemen." A "Rugby Dinner" will be held in Toronto on December 3rd, and a football dinner, with decorations, all suggestive of the great autumn sport, was given in one of our large cities lately.

Miss Blanche Drury left on Monday for New York, and sailed yesterday for England, where she will spend the winter.

The crowns and the presents at the Bankes-Livingston marriage at London, were being published. The bride wore white satin, with court train of silver tulle and lovely lace, and her only ornament was a magnificent crown of pearls. The bridesmaids wore cream Oriental satin, trimmed with sapphire velvet and sapphire velvet hats. The presents included lace bouquets, lace fan, and a diamond spray and ring from the bride's mother; pearl and diamond ornaments and silver tray, tea and coffee set, from her uncle and aunt, Mrs. Molson Macpherson; silver-mounted decanters from Lady Kirkpatrick; silver bon-bon dish, Sir Gilbert and Lady Pasker; crown

Derby tea set, from Mr. and Mrs. Pilkington, and set of silver salvers and decanters from Mr. and Mrs. D. H. Macpherson. She also received two pearl and diamond bracelets and her gift from the groom was an anchor brooch, entwined with "F. E." in pearls. Lady Minto wore a lace dress at the play at the Academy of Music, in Montreal, on Monday evening, and in her hair and on her corsage, clusters of pink roses, and a Swislet spray was also in her hair. As she is still suffering from a cold, she kept on her opera cloak, of green velvet, with ermine collar. Her excellency was the guest of honor at a tea given by the Woman's Antiquarian Society in the Chateau de Ramoisy on Tuesday. The Earl and Countess of Minto have tendered their patronage to the piano recital to be given by Mr. Stratford, Dawson in Windsor Hall, on Tuesday, November 25th.

It may not be generally known that Charles Dickens passed through Kingston in 1841, and described it as a town "one-half of which was burned down, and the other half not quite built up. He, of course, alluded to the result of the great fire of 1840, and the building operations incident on the city being made the seat of government. Col. Warburton, who was here about this time, was a bit complimentary regarding the aspect of the inhabitants, which he said was impregnated with a strong twang. What a pity he couldn't happen along now and hear some of the lovely English accent which flourishes in our midst.

Miss Mowat gave a small tea in Toronto, this afternoon for Miss Hardy, daughter of the late Hon. A. S. Hardy.

An interesting number on the programme of the Ladies' Musical Club meeting in Toronto yesterday, was a solo by Mr. Percy Coward, the alto with the Westminster Abbey choir. Mr. and Mrs. Edward Branscombe were the guests of Mrs. Stewart House, during their stay in Toronto. Perhaps some people may not have heard that Miss Marie Hooton, the contralto with the Westminster choir, who has won such a warm place for herself with Kingstonians, is one and the same with Mrs. Branscombe.

The marriage of Miss Constance O'Connor, eldest daughter of the late H. P. O'Connor, K.C., ex-M.P.P., to Mr. Paul M. Gorion, of Chesley, took place at Walkerton to-day.

The engagement is announced of Miss Lena West, of Toronto, to Dr. Harvey Hassard, of Sidney, Man.

The engagement of Miss Robertson, of Rossland, B.C., to Dr. Walter Coulthard, is announced.

Amateur cooks who are afraid of attempting the really simple batter for cream puffs are advised to try the following. The result, if the oven is right, will speak for itself, and is much nicer, as well as more wholesome, to use with cut-up peaches or other ripe fruit than sweet cake. Put half a pint of boiling water in the double boiler or granite saucepan; stir into this half a teaspoonful of salt and half a cupful of butter. When at boiling point beat in gradually a cupful and a half of sifted flour; when smooth set aside to cool. Now beat in five eggs, one at a time. Drop this batter from the wooden spoon on to a buttered pan in long shape, allowing a small spoonful for each, as they should puff up to double size in baking. When cold cut off the top and fill with fruit and whipped cream. For a delightful change bake this in a buttered pudding dish or cake pan and serve in slices. This makes a pretty dessert or tea-cake, and is much less trouble than the individual puffs.

A dodge which may be a new one to many is to put a little gelatine dissolved in cold water, into a not-too-sweet syrup. Pour this over the quarters of tart apples which have been previously steamed till tender, and then put in the syrup for a few minutes, and when cold, your apples will be embedded in quivering jelly.

Don't throw away chifon, as many do, when it becomes soiled. Quantities of this expensive and lovely material are wasted each year that could be saved and brought to do duty again, almost as good as new. It requires care and a little extra trouble, but it is certainly worth both of these.

Make a lather of good white soap and let it stand until nearly cold. Put the chifon in gently around in the water, passing it between the fingers, but not rubbing it. Now shake it out in clean water, changing the baths until there is no trace of cloudiness in the water.

Fill a cup-half full of water; drop in a morsel of pure gum arabic, and let this dissolve. Add to it a few drops of white vinegar. Dip in the chifon. Do not squeeze or wring it dry; lay it between two soft white muslin and gently pat it with the hand. Have an iron moderately hot and iron the fabric on the wrong side, having

tissue paper between it and the iron. Embroidered mousseline de soie and other filmy tissues can be renovated by the same process.

Savory eggs is a dainty made as follows: Boil some eggs quite hard, shell them, cut in halves and take out the yolks. Pass through a sieve, mix with chopped ham, parsley, a little bit of onion, pepper and salt, and a little cream. Then put back in the whites. Place on little rounds of bread and butter and serve cold.

VERONA VIEWS.

Hunters Return—An Interesting Lecture Given.

Verona, Nov. 17.—S. Asselstine and William Stanford have returned from their hunt, bringing home some fine deer. James Asselstine and family, late of this village, and who located in Manitoba, have all secured positions and are prospering in the Northwest. James is receiving \$3 per day doing carpentering work. Mrs. S. Walker and family have located and a fine dwelling has been erected on their homestead. She writes she is very much pleased with her western home. There was a large gathering at the Free Methodist church on Friday night, to listen to the fine lectures given by Rev. Mr. Perley, Harrowsmith, and Rev. Mr. Cunningham, Free Methodist minister, in the short of the temperance cause. E. M. York made an able chairman. Short speeches were also given by Dr. Claxton, H. W. Reynolds, and others. The occasion was enlivened by a duet by S. Walker and wife, a recitation by Miss Edith York and a duet by Mrs. Dr. Claxton and Mrs. B. Walker.

On Wednesday death entered the home of Levi Storms, and left the spirit of his daughter, Rosa, passed to the bright home beyond. She was attacked on Tuesday with acute Bright's disease. The funeral, a very large one, took place on Thursday at the Methodist church. Rev. Mr. Richards officiated. The remains were placed in the vault. William Percy is adding an addition to his dwelling, which he intends to utilize as a barber shop. Jacob Snider and wife and Mrs. D. Snider have moved from their farm into the village. Donald Craig has the contract of drawing the feldspar from the Walker mine to Hartington; he has a number of teams at work. Anson Charlton has had a cancer removed from his lip.

The American company is opening new feldspar mines on G. Borde's and Mr. E. Meyer's property. Bert Grant is home from Watertown and has secured a position on the K. & P. M. Vanlvan, formerly an employee on the G.T.R., is in charge of the station here. William Abrams is visiting with friends on University avenue, Kingston.

His Farewell Address.

Mississippi, Nov. 17.—Death has again entered our midst and carried off the infant child of Mr. and Mrs. William Kirkham. David Olmstead took his eldest son, Elmer, to the Kingston General Hospital, for medical treatment, and he was very much benefited by his week's stay, and is deemed able to be out. Andrew McPhee and family have left to reside at Sharbot Lake. Mrs. L. Marguerat and brother, Wilfrid, Harper's Corners, are paying a few days' visit here. Hunters do not report as good luck as last year. Miss Maggie Wilson has left for Winnipeg to reside with her sister. The "Feddars" Paragon in Minto Hall, October 18th, proved very successful, and was the means of adding about twenty dollars to the funds of the church. Some of the vendors succeeded in selling nearly all their wares. Rev. James Binnie occupied the chair. The choir discoursed sweet melody. The duet by Miss Mabel Hoag and Miss Bella Gray was very fine. Instrumental selections were given by Roy Allan and Miss Mabel Allan. Mr. Schofield gave an original address, entitled, "The Future of Young Canada." Rev. James Binnie preached his farewell sermon to a large and attentive congregation on Sunday. All regret his departure.

Exterminated Fast.

Toronto, Nov. 20.—Capt. McAulay, of the cruiser Gilgipe, reports to the fisheries department, that there is much difficulty in enforcing the close season for white fish and salmon trout during November, when fishing for herring is permitted, as in many cases those who are ostensibly fishing for the latter catch and sell all kinds of fish. Capt. McAulay strongly recommends that all kinds of fishing be prohibited during the close season, otherwise he thinks the white fish of Georgian Bay will be a thing of the past before many years.

After a competition with British and German firms, the Westinghouse company has secured the contract for the equipment of electrical sub-stations in London of the district railway. The figure at which the contract was secured has not been announced, but it is understood to be £300,000.

HE ATE HIS LEG.

FORCED TO EAT IT BY HIS CAPTORS.

Filipinos Torture Spaniard Until Death Relieves Him—Murderers Released Under the Amnesty Act.

Washington, Nov. 20.—The supreme court of the Philippines has liberated Jose and Isidro DeGuzman, of the province of Isabella, under the amnesty act. The men were sentenced to imprisonment for life for forcing a Spaniard, Lieutenant Piero, of the guards civil, to eat part of his own flesh. They were also ordered to pay to the family of the victim \$1,000. The case has been fought bitterly in the courts. It appears that the lieutenant had incurred the displeasure of the two men. Later when Isidro became governor of the province the lieutenant was placed behind his back and he was fastened to a stake for three days. At the end of that time, having been without food, a piece of flesh was cut from his leg. The meat was cooked before the victim's eyes and he was then forced to eat. Finally he was dragged by the heels through the town and his body dumped into a hole.

To Honor Gen. Molineux.

New York, Nov. 20.—Gen. Molineux is to be the guest of honor to-night at a banquet given by the United States Post, G.A.R. of Brooklyn. The affair is in recognition of the public pleasure felt at the acquittal of Gen. Molineux's son, Roland B. Molineux, at his recent trial for the murder of Mrs. Kate Adams. During the entire four years of the aged general's worry and expense in connection with his son's misfortune, his old war comrades stood steadfastly by him. Among other things they offered to furnish the funds necessary to meet the immense expense of the second trial, which offer, however, the valiant old fighter declined with thanks.

Poisoned Before His Love.

New York, Nov. 20.—William C. Mahoney, twenty-three years old, said to be a member of a wealthy Boston family, and a graduate of Harvard, has committed suicide in this city because a woman who had refused to marry him had caused his arrest twice recently for persisting in his attempts to marry another. The woman, whose home is said to be in Paris, was employed in this city as a designer. Mahoney called upon her, entered a violent protest against her intended marriage, and then poisoned himself in her presence.

London Delegates At Toronto.

Toronto, Ont., Nov. 20.—The party of distinguished members of the London Chamber of Commerce which came over recently to attend the dedication of the new home of the New Chamber of Commerce, arrived in Toronto to-day and were received by the local officials and representatives of the local commercial organizations. The visitors are to remain in Toronto two days, spending the time in viewing the various industrial enterprises of the city and concluding their visit with a banquet to-morrow evening.

With The Advertisers.

Bell's special seasoning is being heralded. Kerosene soap is being exploited from a Boston agency. Contracts are being renewed with newspapers for Buckle medicines and for Kemp's Balsam and Lane family remedies.

The rate per page per issue of Argosy Magazine has been increased from \$150 to \$200 per page. It has 300,000 circulation, Munsey's and McClure's alone exceeding it. There are no better-made-up nor more effective advertisements anywhere than those of Laidlaw, of Kingston. The store work behind them makes them tell for all they are worth, a bargain announced is always found to be genuine and reliance is placed in the announcements, securing prompt response.

Loyalty to Kingston is best shown by doing business with the people within its borders and encouraging everything helpful in it.

The King of Ranges—"Buck's Happy Thought" Canada's Most Popular Range. For twenty-one years The "Happy Thought" Range has been Canada's most popular Range. It has gained its title, "The most popular Range in Canada," on its merits and the superior quality of its construction. It has always been the aim of the manufacturers of The "Happy Thought" to make each and every Range turned out by them a standing advertisement. This is one of the many reasons why there are more "Happy Thought" Ranges used in Canada than all other makes combined. Made by The WM. BUCK STOVE CO., Limited, BRANTFORD. Sold by McKelvey & Birch, 69-71 Brock St.

DR. J. COLLIS BROWN'S CHLORODYNE THE ORIGINAL AND ONLY GENUINE. CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma. CHLORODYNE effectually checks and arrests those too often fatal diseases: Diphtheria, Fever, Croup, Ague. CHLORODYNE acts like a charm in Diarrhoea and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Tooth-ache, Meningitis, etc. From W. Vesalius Pettigrew, M.D., formerly Lecturer at St. George's Hospital, London—"I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and a sedative. I have used it in consumption, Asthma, Diarrhoea, and other diseases; and I am perfectly satisfied with the result." Earl Russell communicated to the College of Physicians that he received a despatch from Her Majesty's Council at Manila to the effect that Cholera has been raging fearfully, and that the only REMEDY of any service was CHLORODYNE.—See Lancet, December 1st, 1864. CAUTION—BEWARE OF PIRACY AND IMITATIONS. CAUTION—Vice Chancellor Sir W. Page Wood stated that DR. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the whole story of the defendant Freeman was deliberately untrue, which he regretted to say had been sworn to.—See Times, July 13th, 1864. Sold in bottle of 1s. 1/4d., 2s. 6d., 4s. 6d., and 11s. each. Nine is genuine without the words "Dr. J. Collis Brown's Chlorodyne" on the Government Stamp. Overwhelming Medical Testimony accompanies each bottle. SOLE MANUFACTURER—J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London, Eng.

TEA COFFEE. All Copper, Nickel Plated, Patent Cold Handle, Beautifully Finished, Very Durable. Nice Assortment. Prices Moderate. McKELVEY & BIRCH, 69 and 71 Brock Street.
