THE WEATHER

Has Brought Distress In Many Cities.

NEED CHARITY

FOR MANY PERSONS ARE OUT OF WORK.

To Go as Governor of the Australian Commonwealth for One Year—The Education Bill Has Passed the Committee Stage in the House of Commons.

London, Nov. 21.—The continuance of the cold weather in Great Britain, although it is not yet extremely severe, has already brought distress in many cities. The depression in many trades is causing lack of employment, and the number of persons out of work is considerably above the average. The Salvation Army labor bureau in Whitechapel, reports that daily applicants for work, chiefly mechanics and laborers, average seventy to eighty. The outlook is exercising charity organizations, which fear that there will be much distress during the coming winter. Two thousand per-

BAD FIRE AT BATH.

Evaporator Building and Three Houses Destroyed.

Bath, Nov. 20.—Our village has again been visited by the fire fiend. On Tuesday afternoon, about 3:30 o'clock, the fire alarm was sounded, and on investigation the building used as an evaporator was found to be on fire. In a short time a crowd gathered, but it was found that all efforts to save the buildings were useless, so the three houses adjoining the evaporator were soon emptied of their contents by the willing citizens. At the same time the fire brigade (which was organized last spring) engaged in protecting Mr. Shibley's residence, which was in great danger for a time, but fortunately the south-east wind blew the flames away from the main part of the village.

As it was the large building in which the evaporator was located, and three houses occupied by Cyrus Barraige, Robert Mott, and George Young, were totally destroyed. If the wind had been in the west, nothing could have saved the village. The building in which the evaporator was located for years was known as the Rover's block. The buildings occupied by Robert Mott and George Young were owned by Mr. Mott, and the house occupied by Cyrus Barraige was owned by Robert Caldwell, of Sydenham. Mr. Mott was unfortunate, this being the second time he has suffered loss by fire, having had the contents of his store burned on May 17th, 1901. Great praise must be given to the fire brigade, also, to the citizens for the way in which they worked during the progress of the fire. Mr. and Mrs. W. Thorvald, Deseronto, are visiting at Nicholas Meyer's.

AWARDED DAMAGES.

Paris, Nov. 21.—The civil courts have awarded ex-Col. Picquart, prominently identified with the Dreyfus case, 30,000 francs (\$6,000) damages against the Jour, for publishing an article suggesting that he was guilty of treason.

BACKED OUT.

Bride's Motives for Marriage Were Mercenary.

Hamilton, Nov. 21.—A wedding that was to have taken place last night at 215 Herkimer street, the residence of the prospective bride, Mrs. William McGee, failed to materialize, owing to the groom backing out at the last minute. The gentleman in question is Charles Vosper, a resident of Barton township, who has a meat stall in the market. The guests and minister were assembled for the ceremony. Mr. Vosper explains his action by stating that Mrs. McGee wanted him to make over to her part of his property, which he refused. He declined to have the ceremony take place because he thought her motives in marrying him were mercenary.

"Manchester Martyrs."

Philadelphia, Pa., Nov. 21.—The Clan-na-Gael and other Irish organizations of Philadelphia have completed the preparations for the anniversary exercises to be held in the Academy of Music to-night in honor of the memory of the "Manchester Martyrs." Rev. Eugene Sheehy, of County Limerick, Ireland, will deliver the chief oration, and other speakers to be heard include Col. Blake, leader of the Irish brigade in the Boer war, and Francis W. Heitz, ex-secretary of the Transvaal Republic.

Biggest U.S. Fleet.

Washington, D.C., Nov. 21.—There is now assembling in the Caribbean sea the most formidable fleet of warships ever brought together under the stars and stripes. Within a few days Admiral Dewey will hoist his pennant on the flagship of this big force as commander-in-chief. The general plan of the manoeuvres is similar to that pursued in the North Atlantic off the coast of New England last summer, but the present mobilization is to be conducted on a much larger scale than ever before attempted by the American navy.

Wreckage Found.

Victoria, B.C., Nov. 21.—Light keeper Daykio, at Carmanah, reports that two miles west of that place the stern of a large ship's boat painted white with the words, "Erisson, Cardiff" in black letters and several long new ash oars, all broken, were found. Also part of a mast, which looks like the topmast of a large vessel. The oars have no marks.

Very Satisfactory.

Victoria, B.C., Nov. 21.—Mr. Dearlove, who has conducted the test of the Pacific cable, at Bamfield Station, is here on his way to London. He has found the cable entirely satisfactory and has formally taken it over for the cable board from the construction company. A speed of 110 letters a minute was obtained which is ten per cent. higher than was expected.

Burial of Mr. Maxwell.

Vancouver, B.C., Nov. 21.—The late George R. Maxwell, M.P., for Burrard, was buried yesterday afternoon. The funeral was under the auspices of the Masonic lodges and was one of the largest ever held here. Service was held in the First Presbyterian church, of which Mr. Maxwell was formerly pastor.

To Survey a New Line.

Winnipeg, Nov. 21.—A party of surveyors has left Montreal, Alberta, to run a trial line for a proposed new railway from Macleod to connect with the Great Northern system in Montana.

The Award Is Ready.

The Hague, Nov. 21.—The award of Councillor Asser, the arbitrator in the matter of the Russian-American Behring sea fisheries question, will, it is announced, be made public next Saturday.

He Has Them All.

TO COME TO TERMS.

Asking for Better Wages on the C.P.R.

Montreal, Nov. 21.—The general committee of C.P.R. conductors and trainmen have not succeeded in reaching an agreement with the company, although they have been in conference for several weeks. The men are asking for an increase of twenty five per cent in wages east of Fort William. The company, at first, offered seven per cent, and has since increased this to ten per cent, but the men have not accepted the offer. There is no doubt, however, that an agreement will ultimately be reached that will be acceptable to all parties. It is announced that the "All Red" Pacific cable will be ready for public business in December, and the rate will be fifty-eight cents a word from all points in Australia. The coroner's inquest into the death of J. B. Vanallen, Morrisburg, Ont., at the Gabel Mission sanitarium, returned today in a verdict that the deceased came to his death through peritonitis and absolving Miss Gabelle from blame as Vanallen was not a fasting patient. The jury found, however, that all sanitariums should be under government supervision.
