THE NEWS IS SPREADING

It is becoming known, although not generally public, that men can buy finer made-up clothing in Livingston's ready-to-wear department, than they can get anywhere else in Kingston. If it was better known we could not supply the demand; as it is we rapidly sell all we can make. Our custom cutters get a few fine suits and overcoats made-up from our choicest cloths and worsteds. If you are interested come in and ask to see our custom tailor-made goods.

Special Line of Men's Overcoats, \$10, \$12, \$15 and \$17.

COMMERCIAL MATTERS.

What Is Going On In The Business World—The Market News.

The total annual consumption of sugar in Canada is about 350,000,000 pounds a year, or about 1,000,000 pounds a day.

According to the Annual Wool Report for 1902, just issued, there are 42,184,122 sheep in the United States, exclusive of lambs under one year old, and the clip, exclusive of wool during the last year, comprised 274,341,032 pounds, as against 265,502,828 pounds in 1901.

For the week ended November 8th, the Minneapolis flour mills made the largest run in their history, turning out a total of 448,710 barrels of flour, increasing the record for a week's run by the round sum of 22,000 barrels. For the same time in 1901 the output was 351,230 barrels.

The aggregate capitalization of the industries at Pittsburg, Pennsylvania, is more than two billion, five hundred million dollars. The production of steel at Pittsburg in 1901, equalled half that of England, was more than that of Germany, twice that of France, five times that of Russia and twenty-five times that of Spain.

Lots Of Work To Do.

There is a long list of questions slated for the consideration of the civic finance committee at to-night's meeting. The question of nominating three students for the civic scholarships in Queen's in consideration of the grant of \$50,000 for the new Arts building, will come up. This will likely be left for next year's council to deal with. A deputation of merchants will wait upon the committee to urge that the by-law governing transient traders be more fully enforced. In addition, the question of removal of market tolls will engage the attention of the members. There are also a large number of accounts to pass.

Doubling The Capacity.

Preparations are under way by the Kingston Cereal company towards converting the plant of the Frontenac Milling company into the production of cereal foods. The present machinery is being changed around with a view to greater economy of space, so as to enable other machinery to be erected, doubling the capacity of the present output of flour, meal, etc. At the same time, the machinery for the manufacture of cereal foods will be placed in position.

Police Court Tidings.

Three cases were booked for Magistrate Farrell's consideration at the police court this morning. James Thompson, on a charge of drunkenness, was held over for one week. Two partners had a disagreement over their work and one had the other summoned upon a charge of theft. Adjudged until Monday. A family dispute led to the summoning of a young man on a charge of using threatening language. As plaintiff did not appear, the case was dismissed.

Dr. Clarke's Suggestion.

Notice of a proposed amendment to the rules from Dr. Clarke, Kingston, was sent to Secretary Beaton of the O.H.A. Dr. Clarke's amendment is intended to improve the junior series by excluding any player who has played senior hockey or more than one intermediate game. Dr. Clarke will be present at the annual meeting to speak to his amendment.

Jenkins' Overcoats.

Boys raglans to hand this morning, dark grey, vertical pockets, cuffs on sleeves, \$1.50, \$5.50, \$6.50.

Bibby's, Oak Hall, Bibby's.

New collars, newest styles, 2 for 25c. The H. D. Bibby Co.

"A Nippon Front" is the title of an exhibit in the C.P.R. ticket office, Montreal. The trout is two feet in length, and is a beautiful specimen.

It has been mounted flat, on birch bark, enclosed in a rustic frame. The fish in the Nejizion district is good this season, and fish similar to the one shown, weighing from six to eight pounds, are said to be plentiful.

A summons was issued by Magistrate Farrell this morning for the appearance in court of a young citizen on a charge of using insulting language towards an opera house employee.

A hockey club has been organized in Almonte, with Bennett Rosamond, M.P., honorary president; K. E. Wilcox, president, and Percy Jamieson, secretary-treasurer.

New raisins, New currants, New figs, New cooking figs.

New prunes, New dates, Jas. Redden & Co.

\$10 and \$12 men's suits, \$5.90, at Dunlop's, Grand Union, Saturday.

NEW PRINCIPAL

HE HAS BEEN CHOSEN AND ACCEPTED

Rev. Dr. Gordon, of Halifax, is the man—The Trustees to Meet Soon to Confirm the Appointment.

Justice Maclellan, Toronto, chairman of the board of trustees of Queen's University, announces that Rev. Dr. Daniel M. Gordon, Halifax, has been offered and has accepted the principship in succession to the late Principal Grant. The board of trustees will meet on December 5th to confirm the appointment. Dr. Gordon's salary will be \$4,000, and a dwelling house. The date on which he will enter on his duties is not yet announced, and will be determined by his Halifax engagements.

Heard At Halifax.

Halifax, Nov. 21.—Information was received in this city last night that Rev. Dr. Daniel M. Gordon, professor of theology in the Presbyterian University during the past eight years, and formerly pastor of St. Andrew's church, this city, and before that of Knox church, Winnipeg, had accepted the principship of Queen's University. A correspondent called up Dr. Gordon and asked him if the report was correct. He expressed surprise that the news was public, and while not denying its truth said that the announcement was premature, and that all that had happened was that he had been communicated privately with, and asked if he would accept the position were it offered him, to which he had said he would. The board of directors does not meet till next month, and, therefore, the appointment will not be made till then, though it is practically done now, as Dr. Gordon has said he would accept. Dr. Gordon has a son, Alexander M., also a minister of the church, who has just returned to Canada from a charge in London, Eng. Dr. Gordon's name was mentioned after Principal Grant's death as his successor. He is one of the most popular of Halifax Presbyterian ministers, and well known in his denomination throughout Canada.

The New Principal.

Rev. Daniel Miner Gordon, the new principal of Queen's University, is the son of the late William Gordon, a native of Sutherlandshire. He was born at Pitlochry, Nova Scotia, January 30th, 1845, and was educated at the Pitlochry academy, and the universities of Glasgow and Berlin. He took various distinctions at Glasgow, where he graduated M. A., 1863, and B. D., 1866. Ordained to the ministry in 1866, he returned to Canada, and bad for a year the oversight of an extensive charge, embracing St. Paul's church, Truro, and several minor stations. In 1867 he was induced pastor of St. Andrew's church, Ottawa, where he continued until 1882, when he proceeded to Winnipeg, as pastor of Knox church in that city. In 1887, in response to a unanimous call, he accepted the charge of St. Andrew's church, Halifax. While in Winnipeg, Dr. Gordon was chaplain of the 90th Battalion, V. M., and was on active service with it during the rebellion of 1885. Dr. Gordon was appointed to the professorship of theology and apologetics in the Presbyterian college, of Halifax, in 1891.

The new principal of Queen's has been a leading figure in the Presbyterian church. He took an active part in promoting the union of the Presbyterian churches throughout the dominion, and was commemorated in 1875, as one of the delegates appointed to represent the views of the Canadian church to the general assembly of the Church of Scotland.

Rev. Dr. Gordon was in 1876 elected moderator of the general assembly, the supreme court of law of the Presbyterian church in Canada, received the honorary degree of D.D. in 1895. Dr. Gordon is also the author of several works.

Dr. Gordon was a fellow-student and close personal friend of the late Rev. D. J. Macdonald, formerly minister of St. Andrew's church, Toronto, and for some years sat under the ministrations of the famous Dr. Norman McLeod. In 1869 he married Eliza Simona Maclellan, daughter of a Highland minister, who had settled in Prince Edward Island.

One writer, referring to Dr. Gordon, has said: "In every position to which he has been called—pastor, professor, moderator, chairman of college board, member of committees—Dr. Gordon has acquitted himself worthily and well, as becomes a man of counsel, of large charity, a willing worker, trusting in God and loving his fellow-men. Loyal to the church, also to his church, he also loves his native land, and knows it well from ocean to ocean. In 1879, he travelled from Victoria, B.C., to Winnipeg, before there was much of the great railway built in the far west. The story of his travel he told in a charming volume published in 1880, and he has often testified on the platform to the attractions and the inestimable value of our western heritage. He has had no small share in laying the foundations of our church's work in that vast field. It is not too soon to say that in the professorial chair Dr. Gordon has proved himself all and more than all the church expected of him."

A Pleasant Evening.

A very pleasant evening was spent last evening at the home of Philip Fitz, Johnston street, in honor of his daughter, Lena. A party of about forty couple enjoyed games and songs until an early hour this morning. Some very good selections were presented by E. H. Baker and O. Randell, accompanied by Miss Judd Lalonde.

Jenkins' Overcoats.

Boys raglans to hand this morning, dark grey, vertical pockets, cuffs on sleeves, \$1.50, \$5.50, \$6.50.

The construction of the Russian railway from Erivan, a town of Russia, 115 miles from Tiflis, to the Persian frontier, will be completed in the spring of 1903.

THE COUNTY COUNCIL.

No Grant to the Kingston Township Quarantine.

The county council met Friday morning. J. M. Ferrell, F. King and W. F. Nickle appeared on behalf of Queen's University council, regarding the account of \$783.59 for the Queen's bonus by law. The amount, they claimed, was much larger than was sometime ago agreed on. It was their desire to settle at once, and they would like to have the various items gone over. The matter was placed in the hands of the finance committee for adjustment.

Engineer Smith reported that the Kingston-Napanee road was in excellent condition, all necessary repairs having been made.

Mr. Spanke, inspector of county schools, addressed the council regarding the scheme of the Ontario government to establish libraries in the rural schools. The legislature proposes to pay half the cost. The remainder had to be made up by county and township councils and school boards.

Moved by Councillor Avery seconded by Councillor Campbell that a bonus of five dollars be paid to every rural school in Frontenac establishing a library in accordance with the regulations of the education department of Ontario, said grant to be payable by the county treasurer on the order of the public school inspector. Carried.

Moved by Councillor Avery seconded by Councillor Campbell that the bonus of five dollars
