DIVORCE SUIT

Involving Persons in High Society.

WIFE'S STORY

THAT SHE WAS ABUSED BY HER HUSBAND.

On the Stand Sir Charles Denied the Allegations—He Had Some Things to Say of His Wife's Conduct—The Case Going On. London, Nov. 27.—A divorce suit, involving persons in high society, was begun in the court yesterday. It was the case of Sir Charles Hartoph against his wife, who is a famous beauty. The earl of Cowley is named as co-respondent. Lady Hartoph accused her husband of striking her. Sir Charles Hartoph, who is a short, clean-shaven, bald man, fifteen years older than his wife, was called to the witness stand and denied that he had struck or kicked his wife. On the day of the marriage of her sisters, he said, she kicked him upon both shins when he remonstrated with her about her friendships. He admitted that his wife's father gave him £10,000 to pay his card playing and and racing debts at the time of his marriage.

WHAT SHOULD BE DONE.

Opinion of T. O. Davis, M.P. For Saskatchewan.

Winnipeg, Nov. 27.—T. O. Davis, M.P. for Saskatchewan, who is here, says the people of Prince Albert are jubilant over the announcement that the Grand Trunk will build through the North-West Territories to connect with Fort Simpson on the Pacific coast. The North-West territories, he says, certainly need another outlet to the lakes, and in his opinion, the best thing for the new company to do would be, as the Canadian Northern are doing, to build from the western coast to the great lakes and utilize steamship connection with the Georgian Bay ports and the Grand Trunk system, until the North Shore route is completed.

Have Reached Regina.

Regina, N.W.T., Nov. 27.—Messrs. Wainwright and Morse, of the G.T.R., arrived yesterday and were welcomed by a deputation representing the town council, the board of trade, and other bodies. Replying to questions, Mr. Morse said that operations on the new transcontinental line, the Grand Trunk Pacific, would begin as soon as legislative sanction had been obtained and the reports of the company's engineers received. The main line, of course, would not run too close to the C.P.R., but all the great centres would be tapped. Construction would begin at many points simultaneously, and Mr. Morse estimated the trunk line would be completed within five years.

SUDEBURY IRON ORE.

Capitalists Will Go Ahead With Development. Toronto, Nov. 27.—In speaking of the recently reported discoveries of extensive iron ore deposits in the rich Sudbury mineral district, Thomas W. Gibson, director of mines, says that the find is in the township of Hutcheon. Indications of mineral wealth were found in that neighborhood three years ago, and a number of capitalists from the United States have since been investigating the extent of the ore bodies, employing a diamond drill and a number of prospectors. The results of their work have been so satisfactory that the capitalists have secured a number of options and are preparing to go ahead and develop their property. The ore is a high grade of magnetite or magnetic iron ore, which is used in the production of the finest qualities of Bessemer steel.

New York, Nov. 27.—When no bride-come appeared at the hour set for the wedding of Miss Josephine Jerdet, the pretty daughter of a French restaurant keeper in Paterson, N.J., last night, the fourteen bride-elect did not weep or bewail her fate. Instead, she invited the friends who had come to her father's house, and proved the gayest and jolliest of hostesses.

QUEER SECT IN ENGLAND.

They Wear no Buttons and Never Shave.

Liverpool, Nov. 27.—In the course of an article on the Doukhobors a weekly paper points out that on a forty-acre tract in a lonely part of the Colswold Hills, there is a colony of Doukhobors. The first performance of the Socialists who bought the land was to make a bonfire of the title deeds. They consider that no one has any right to private property. The result of this extraordinary performance is, of course, that the land has reverted to the crown.

BISHOP APPEALS TO DEAN.

Latter Replies That He Believes in the Deity of Christ. London, Nov. 27.—As a climax to the widespread agitation caused by the sensational address made by the Dean of Ripon, Rev. W. H. Freemantle, to the Churchmen's Union, October 29th, in which he suggested that the idea of the virgin birth should be left out of account, because, except, in St. Matthew and St. Luke the virgin birth of Christ is not mentioned in the New Testament, and also questioned the miracles, such as raising the dead by Christ and his resurrection, the Bishop of Ripon, the Right Rev. Boyd Carpenter, has written a letter imploring the dean "on behalf of many devout and simple-hearted Christians" to reiterate his belief in the deity of Christ. Such a statement, says the bishop, "your friends and many hearts are looking for with anxiety."

NO HOLIDAY FOR MINERS.

A Full Force Work on Thanksgiving Day. Pottsville, Pa., Nov. 27.—The United Mine Workers have a full force of men at work at all the collieries this Thanksgiving day. The operators requested the men to remain at work and their action is in compliance with all the product of the independent operators. They are paying seven and eight dollars per ton for coal delivered on board at the collieries. For this reason individual operators are refusing to sell coal for local consumption, for which they only get \$3.50 per ton.

Would Say Nothing.

Quebec, Nov. 27.—Commander Spain, R.N., and J. U. Gregory, marine and fisheries department agent, in Quebec, held a court of inquiry, into the cause of the accident to the Allan line steamer Sicilian on Monday last, with a view to ascertain the cause if possible. They sailed up and down the accident spot and its vicinity, throwing the lead and taking soundings in every direction to locate any obstruction that was likely to cause the accident. The commissioners on their return were very reticent with reference to their investigation, refusing to say a word until they made their report to Ottawa.

DIAMONDS FOUND.

Said to Be in British Columbia Quartz. Vancouver, B.C., Nov. 27.—Herbert Wenynns, M.E., late of the South African diamond mines, claims that diamonds will be found in the Sanikilmeen district of the province. While tunnelling some quartz, he says, he was surprised to come across the same formation as in the diamond quartz mines, and secured what he claims are three or four diamonds. The Sanikilmeen district has been long known as a great coal country, but it is not tapped by any railway.

London, Nov. 27.—The rumor of John Har's retirement from the stage is not credited by either actors or managers here, who agree that he is far more likely to revisit the United States and Canada next year. BLEW UP BANK

And Fatally Shot Assistant Postmaster.

A LIVELY TIME.

THE EXPLOSION AROUSED THE VILLAGERS.

There Were Three or Four Men in the Gang—They Got Nothing For Their Pains, as They Were Disturbed Before They Could Secure the Contents of Vault.

Warren, Mich., Nov. 27.—Clint E. Osborne, assistant postmaster and proprietor of the general store in this village, was shot dead on Wednesday by one of a gang of robbers who had entered the Warren bank and had blown open the safe. There were three or four men in the gang. About 2:30 o'clock they drove into town and broke into the bank. They drilled the safe and inserted a large charge of nitro-glycerine in the hole. The explosion aroused Osborne, who telephoned to one of his neighbors that he thought burglars were at work in either the bank or post office. All the telephones in the village are connected at night, and it is thought the crackmen heard the bank telephone ring and listened to Osborne's conversation. Osborne then started down the street and had gone but a short distance when one of the robbers, acting as an outside guard, shot him in the face with a charge of buckshot, killing him instantly. They without securing anything from the safe the robbers rushed from the bank to where they had tied a team of horses. They drove rapidly away and no trace of them has since been discovered.

All will recover. The gas came from the stove.

Detroit, Mich., Nov. 27.—The reciprocity conference, to be held in Detroit on December 10th and 11th, under the auspices of the Detroit Chamber of Commerce and Convention League, is apparently arousing widespread interest across the border.
