NOT SETTLED

Mgr. Langevin Still Has High Hopes

IS MORE TO DO

GREATER CONCESSIONS MADE TO MANITOBA CATHOLICS

In The Way of Schools—He Says the Other Prelates so Agreed at a Conference With Mgr. Falconio.

Montreal, Nov. 28.—"The school question in Manitoba is not settled. It will be settled only when right will be done, and I say so after conferring with the bishops of Canada at the conference held with Mgr. Falconio at Ottawa."

Such was the statement made by Mgr. Langevin, Archbishop of St. Boniface, who has left for the west.

"Such a right was promised to the Catholics of the province in 1870 by the imperial authorities. While it is true, that we enjoy a certain degree of tolerance, we will not stop till we have legal recognition of our rights. We are more hopeful than ever at the present time, because the principle of religious education, of denominational education, has received lately a new and more emphatic endorsement in the very heart of the powerful British empire, England. We have every reason to believe that the influence of Edward VII, our noble king, has been felt in this circumstance. We, however, appreciate the increasing good-will of the best thinking men. In the end, every true British subject will realize that what is good for England, good for Quebec, should be good also for Manitoba."

IS NOT INVOLVED.

Senator Cox is Not Interested in Company.

Toronto, Nov. 28.—It is stated on the best of authority that Senator Cox is not involved or interested in the financial affairs of the Canadian Northern railway. William Mackenzie said yesterday: "The Canadian Northern is a great factor, is doing business, is building westward rapidly, is in good financial shape, and can command all the money it wants from half a dozen quarters, and is making no proposals to any one looking toward a merger. And yet, some one would like to engineer it."

Methodist circles are interested in the announcement that Rev. F. A. Cassidy is returning to Japan. Six or seven years ago he was recalled as a missionary owing to his being involved with others in a dispute with the Women's Missionary Society's representatives. He is now going back on his own responsibility, with the intention of supporting himself and doing evangelistic work on the side. He says it is customary in Japan for missionaries to engage in secular work and endeavor to Christianize the people in an indirect manner.

"When in Japan before," he explains, "I had a contract, most of the time, with the government as teacher in the Shizuoka High School. In that position I earned a substantial salary, which, for three years, went into the mission treasury, and after that time was devoted to building a school and helping to build churches."

The contract on which I am now entering is of a different character, being the superintendency of an insurance agency in Tokyo. On this I shall depend for my entire support, but I see no reason why it should be regarded as any more secular than the previous one. I hope through it to be brought in contact with a large number of Japanese gentlemen and to make many friends among them. My missionary work shall be a voluntary offering to the church, whether it be considered large or small."

Mr. Cassidy desires to retain connection with the Hamilton conference. He says it may be better not to hold any official relation to the Japan church, as that is often the source of perplexity."

Toronto Horse Market.

Toronto, Nov. 27.—A lot of heavy horses for lumber camps were sold at Grand's today, some going as high as \$335 per pair. The best of the animals weighing about 1,000 lbs. each. Lighter workers sold at \$125 to \$160 each. A lot of drivers sold from \$10 to \$150 a piece. A heavy stable outfit consisting of buggies, harness, etc., brought very low prices, buggies running from \$6 to \$60, most of them in very good shape, while harness brought \$2 per set up.

A Syndicate After It.

London, Nov. 28.—It is reported that a big United States syndicate has made a proposal for the acquisition of St. James Hall with the intention of converting the existing premises into a large hotel and residence restaurant. St. James is the most famous concert hall in London, and all the greatest musicians who have visited the British metropolis for generations past have been heard there.

New England Quarantined.

Washington, Nov. 28.—Secretary of Agriculture Wilson has promulgated an order establishing a quarantine of cattle, sheep and other ruminants and swine in the New England states, and prohibiting the exportation of such animals from the port of Boston until further orders. This action is taken on account of the discovery of a highly contagious disease known as foot and mouth disease in New England.

WANTED A DIVORCE.

New York, Nov. 28.—Among the passengers arriving on the American liner St. Louis to-day was Gen. Ben. Viljoen, the ex-Boer commander. During the latter part of the recent war in South Africa Gen. Viljoen was one of the most prominent military figures on the Boer side. As a young man he was a policeman in Johannesburg and later became editor of a newspaper and a member of the national legislative assembly. In the legislative chamber his speeches were always moderate in tone, but when hostilities became inevitable he was one of the first to organize a command and proceed to the front. Though one of the youngest commanders he speedily gained distinction on the field and was successful in a number of important engagements. His purpose in coming to America is to deliver a series of lectures for the benefit of the Boer relief fund.

Why Mrs. Sage Quit.

New York, Nov. 28.—Because men smoke at the annual banquet of the New York Society of Mayflower Descendants, Mrs. Russell Sage has determined to leave the society. There will be no formal resignation. Mrs. Sage will simply present her dues and fail to attend future meetings. Her feelings have been thoroughly understood by the membership and their next refusal to respect her wish leaves her only one alternative: She holds that smoking in the presence of women at the annual dinner is an unqualified discourtesy which every instinct forbids.

Very special overcoats, trimmed with a good many dollars in price for Saturday's trade. Grand Union.

TARIFF ACT

Will Now Likely Be Made Effective

A COMPROMISE

HAS BEEN ARRANGED IN THE REICHSTAG

Due to Obstruction Tactics—The Investments in the Atlantic Combine—The Mail's Stirring Words.

New York, Nov. 28.—The London Tribune's cable says: The German chancellor has succeeded in bringing about a compromise in the tariff bill, by which the government will be enabled to open negotiations next year for a prolongation of commercial treaties, with slight modifications. A majority has been secured through the coalition of centralists and the moderate men among the national liberals and conservatives. This result is mainly due to the obstruction tactics of the socialists, by which the re-issuing has been united in self-defence. The government proposals, respecting grain and cattle, will now be carried and, unless all signs fail, the agreements will be compelled to be content with half measures of protection.

The peculiar which Morgan & Co. have issued to the shareholders of the steamship companies to be absorbed in the Atlantic combine, offering bonds instead of gold in payment for their shares, has caused a great deal of discussion. An authoritative denial is given, today, to the London Mail's insinuation that Morgan is finding some difficulty in obtaining gold necessary to make cash payments. Sir Clinton Dawkins states the reason why the offer was made was because some of the shareholders, who are going to receive cash and who are investors accustomed to shipping securities, expressed a desire to have an opportunity of reinvesting the cash after they had received it in the mortgage bonds of the new company. The Mail, which seizes every opportunity of attacking Pierpont Morgan and condemning his schemes, now says: "These are certainly very simple shareholders and all that we can say is that they do not know the meaning of the word 'business,' if they thus press their money upon the Messrs. Morgan."

GAVE CHILDREN POISON.

But They Were Saved—She Killed Herself.

Bristol, Vt., Nov. 28.—News of the insane act of Mrs. Ray Stokes, Starkesboro, a secluded town, in committing suicide on Tuesday, after having attempted to poison her three small children, has reached here. She gave the little ones laudanum, but they were saved from death. Mrs. Stokes also took laudanum, but, failing to kill herself by that means, she cut her throat inflicting a fatal wound. It is said that Mrs. Stokes was a victim of hereditary insanity. She was about thirty years of age, and the mother of four children.

USES NO OVERCOAT.

Sir Wilfrid Laurier Has No Organic Disease.

Ottawa, Nov. 28.—Reassuring letters continue to be received here in regard to Sir Wilfrid Laurier's state of health. Lady Laurier, writing to a lady friend, states that the physician in attendance upon the prime minister says he has no organic disease. All that Sir Wilfrid wants is rest and freedom from worry. Sir Wilfrid himself in a letter to a personal friend states that the air at Hot Springs is balmy and the weather very much like that of Canada in June. He goes about in the open air without any overcoat.

Visit Of Gen. Viljoen.

New York, Nov. 28.—Among the passengers arriving on the American liner St. Louis to-day was Gen. Ben. Viljoen, the ex-Boer commander. During the latter part of the recent war in South Africa Gen. Viljoen was one of the most prominent military figures on the Boer side. As a young man he was a policeman in Johannesburg and later became editor of a newspaper and a member of the national legislative assembly. In the legislative chamber his speeches were always moderate in tone, but when hostilities became inevitable he was one of the first to organize a command and proceed to the front. REV. JOSEPH PARKER, D.D.

London, Nov. 28.—Dr. Joseph Parker, minister of the City Temple, who had been seriously ill for some time died this afternoon.

WINE SAVES GIRL.

Fire Extinguished by Application of Several Bottles.

Grand Rapids, Mich., Nov. 28.—Marie Bordoux, a burlesque actress appearing at a local theatre, nearly lost her life at the Bridge street house Wednesday evening. She was saved by several bottles of wine, which were hastily converted into fire extinguishers.

The young woman was engaged in making garments for stage use and was being assisted by other members of the company, when a male member of the company dropped a lighted match in her lap. The lap contained paper flowers, and in an instant she was in flames.

Several bottles of wine, intended for the refreshment of guests after the performance, were seized by one of the girls and poured over Mrs. Bordoux, quenching the flames. She was quite severely burned about the hands and face.

MONSTER CATTLE RANCH.

Millions of Acres Secured Along U. S. Borders.

Salt Lake, Utah, Nov. 28.—The purchase of millions of acres of Mexican territory along the border of the United States for the purpose of creating one of the largest cattle-raising ranches in the world, is the result of recent negotiations of American capitalists with Utah men as principals. The land comprises nearly four thousand square miles.

TWENTY-ONE MEN DROWN.

Band of Achinese Sinks a Barge on River in Sumatra.

The Hague, Nov. 28.—A dispatch from Achin, Sumatra, announces that Lieut. Dekok, and forty-five troops on board a barge on a river in the interior were recently attacked by a band of Achinese, with the result that the barge sank and the lieutenant and twenty men were drowned.

Is Great Excitement.

Chatham, Ont., Nov. 28.—The excitement here has arisen to a flaming pitch as the result of the strike of another gusher on the Seaman farm, a quarter of a mile north of the first gusher. The town is fairly swarming with oil men all in a frenzy of expectation and nervous demonstration. Six new wells have been begun in different parts of the supposed oil belt this week.

Argentina Acts in Cattle Matter.

London, Nov. 28.—In the house of commons yesterday Mr. Hanbury, president of the board of agriculture, announced that the Argentine government had within the last day or two introduced a bill bringing the live stock law of Argentina in correspondence with the British law governing the inspection of cattle.

WEATHER PROBABILITIES.

POTATO FOR THE KING.

From Vermont Farm and Weighs Several Pounds.

Troy, N.Y., Nov. 28.—A unique distinguished package destined for a distinguished personage was an object of curiosity at the depot on Tuesday night.

It consisted of an enormous potato, weighing several pounds. It was in a box and consigned "to His Majesty, the King of England, House of Parliament, London, England," and was shipped by N. P. Hullett of Pawley, Vt., who raised it on his farm. It was on the way to New York and will be shipped from that port to England. The expressage was prepaid.
