TOLD IN THE TWILIGHT.

The annual exhibition of the Kingston branch of the Woman's Art Association always very popular, seemed to be even better attended this year than usual.

Among notable additions to the Woman's Art exhibit, which arrived too late to be catalogued, were a beautiful miniature of Miss Irene Kent, the work of Miss Hattie Wrenshall, in which the delicate treatment of the pretty fair hair of the sister, deserves much praise.

The engagement is announced of Miss Mabel Clark, daughter of Mr. Emily Clark, of Victoria avenue south, Hamilton, to Mr. George Taylor, son of Sir Thomas and Lady Taylor, Toronto.

The exhibit of china painting was exceedingly good, and here Miss Frances Macaulay carried off the honors with her exquisite miniature of the Countess Potocki, and her lovely work on a tea caddy.

THE FOOD SYSTEM THE SOURCE OF LIFE.

Any Derangements of Liver or Kidneys That Interfere With Digestion and Assimilation of Food Rob and Deplete the Body.

DR. CHASE'S KIDNEY-LIVER PILLS.

It matters not how good your appetite, how you relish your food or how much you eat, so long as there is anything to interfere with proper digestion and assimilation of the food by the body, strength and vigor will gradually decline and weakness and debility take their place.

Dr. Chase's Kidney-Liver Pills have been marvellously successful in exactly this class of disease, principally because they act directly on the kidneys, liver and bowels, regulating and invigorating their action, and restoring them to health.

tors for the compliments which were bestowed, equally lavishly by admiring women, who didn't understand the technicalities, and by the one man who did. Miss Gildersleeve was the exhibitor of pyrography, better known to the uninitiated as burnt work, and a very attractive little exhibit it was.

But after all the greatest interest centered round the old china, for the pleasure of seeing which, everybody must thank Mrs. Richard Hooper, who originated the idea, and so successfully carried it out. To speak of all, or half indeed, of the rare old bits on view, most of which came from the valuable collections of Mrs. and Miss Yates, and Mrs. Hooper herself, would be impossible.

BIG OIL STRIKE IN KERN RIVER, CAL.

THIS is where oil property has advanced in price from \$10 an acre to \$5,000 an acre in two years—the richest fuel oil section in the whole world!

The Eastern Consolidated Oil Company's holdings in this tract alone should pay the present dividends, to say nothing about over 1,200 acres of choice oil lands and over 100 producing wells in Ohio.

Production has INCREASED at one jump at the rate of nearly 25,000 bbls. of oil monthly.

Stockholders from all parts of Canada are doubling their holdings in anticipation of the almost immediate rise in price of the stock.

ACT AT ONCE

If you wish any part of the present 50c. allotment of stock in the Eastern Consolidated Oil Co., you must act at once.

STOCK GOES TO \$1 A SHARE THE MOMENT PRESENT ALLOTMENT IS EXHAUSTED. IT MAY COME ANY DAY!

GOOD REASONS FOR GIVING THANKS

Montreal, Canada, Nov. 28, 1902. C. B. HEYDON & CO., Toronto, Canada:

Gentlemen—One year ago, after thoroughly sifting all the oil companies, I decided to invest in Eastern Consolidated and have never had occasion to regret it. I own 4000 shares of this stock which has already doubled in value and I understand will double again before January 1.

I have carefully watched the company's management and have been well pleased. Therefore, taking into consideration the additional fact of the big oil strike on our property in Kern River, Cal., I have decided to increase my holdings to 10,000 shares in this company; check to cover the same is enclosed.

In less than one year I have received \$200 in dividends on my present holdings, which is about six times as much as I could obtain in any other safe investment in the same time.

Yours Respectfully,

NOTE—This is the kind of letters we are receiving from all over the country. Stockholders are doubling their subscriptions so fast that over-subscriptions seem inevitable.

C. B. HEYDON & CO.,

Rooms 401 and 402 Manning Chambers Building, 72 Queen Street, West. Corner Queen and Terauley Streets, Court House Square, TORONTO, ONT.

WHY should you invest in Eastern Consolidated Oil Co. stock NOW?

BECAUSE of the absolute certainty that you will double your money within 12 months!

BECAUSE you can buy now at 50c. a share and the price goes to \$1.00 a share before New Year's.

BECAUSE this company has 100% producing oil wells and over 21,000 acres rich oil land.

This is the stock that has paid 20 per cent. in dividends on the investment, in ten months.

Why shouldn't you make money in a good oil stock as thousands are now living in affluence have done before you?

THIS OPPORTUNITY

Is one you cannot afford to let slip! \$50 invested now becomes \$100 within 30 days; \$200 becomes \$400; \$500 becomes \$1,000, and so on. No oil company whose stock is on the market can equal this record. We challenge comparison! Are you ready to grasp this opportunity?

LETTERS TO THE EDITOR.

A Misstatement Corrected. Kingston, Dec. 4.—(To the Editor): I regret that it is found necessary to trouble you or your readers further with what has resolved itself into a personal matter.

The best answer to this serious misstatement is to rehearse the conversation in full, which I now see should have been done in my former communication.

Mr. Mudie called me to the telephone and asked if I had said in my 'Sunday sermon' what the Whig had reported. I answered that I had not seen the report, would he state it. He did so and told me where it might be found. I said I will look it up. In a very short time I telephoned Mr. Mudie, saying I had found the report, and added that in my sermon I had given a quotation from Milton, and had made reference to the quotation in his pamphlet.

Mr. Mudie then asked if I would write him, giving my views of Milton's quotation and his application of it. I answered, thanking him, but stated that my time was so occupied that I could not grant the request. To this he replied, 'Then I shall resort to the Whig.' I could only answer that he was welcome so to do.

This commenced and ended this memorable conversation. I shall leave it with your readers (without further comment) to judge for themselves whether the statement of Mr. Mudie is true that I acknowledged the 'substantial correctness of the report,' etc., and whether his attempt to justify his course and censure mine is well founded.

The communications from the pen of Mr. Mudie appeared in the press before I decided to reply. Controversy is not congenial and I would gladly have avoided it, but when so severely and persistently assailed I could not in justice to myself longer keep silent.

As I have in my former correspondence answered the charges of 'misquoting,' 'misapplying' and refusing to 'publish a justification' of what, presumably, I said, together with
