IT IS IMPORTANT.

To Know What You Are Taking When Using Catarrh Medicines.

Catarrh is the short route to consumption, and the importance of early and judicious treatment of catarrh, whether located in the head, throat or bronchial tubes, cannot too strongly emphasized.

The list of catarrh cures is as long as the moral law and the forms which they are administered, numerous and confusing, from sprays, in halers, washes, ointments, and salves to powders, liquids and tablets.

The tablet form is undoubtedly the most convenient and most effective, but with nearly all advertised catarrh remedies, it is almost entirely a matter of guess work as to what you are taking into your system, as the proprietors, while making all sorts claims as to what their medicines will do, always keep it a close secret as to what they are.

The success and popularity of new catarrh cure, Stuart's Catarrh Tablets, is largely because it not only cures catarrh, but because catarrh sufferers who used these tablets know what they are taking into their systems. Stuart's Catairh Tablets being composed of red gum, blood root and similar valuable and antiseptic ingredients, and are pleasant to the taste and being dissolved in the mouth they take immediate effect upon the mucous lining of the throat, natal passages and whole respiratory tract. Tablets have accomplished in old tary-treasurer, and O. J.
