"Dear Sirs—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely turned me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sirs—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned."

"Dear Sirs—Yours was received and I had no trouble in making out the receipt as desired, and can hardly believe it is so weak men I am greatly improved in strength and vigor."

Since the oracle has spoken elections have occurred in Yarmouth, Argenteuil, Maisonneuve, and the Yukon. Reference has already been made to the first two named. Yarmouth elected the liberal by an increased majority. Argenteuil did nearly as well by the son of the late member as it did for the man who represented it so long and so favourably. Hon. Mr. Prefontaine is the choice of Maisonneuve by a majority of 1,918 votes. He had 1,774 in the general elections. Hon. Mr. Ross, ex-governor, has been elected in the Yukon by about 600 majority.

So that the country has not tired of the liberal government and is not prepared for the change which the Mail lately declared to be inevitable. Nay, more, the people do not desire the public offices to be transferred to the men now in opposition and for whom the Mail sympathised as it spoke of "the serious and heavy task that will devolve upon the ministry that is yet to be." The electors have not forgotten the mismanagement of the last tory government, its wretched makeup, its quarrels and its scandals, and they are not at all anxious for the revival of its misrule. That is the lesson of recent elections.

REFERENDUM COMMENDED.

The Chicago Inter-Ocean approves of the manner in which the people of Ontario voted upon the recent referendum act. "It was an example of fairness," says our contemporary, "which might well be imitated by the advocates of the referendum and initiative in the following paragraphs:

"The Ontario referendum was, in fact perfectly fair, and by its requirement of an affirmative majority was in marked contrast to the referendum proposals which a group of theorists recently attempted to force upon the people of Illinois. For, if these proposals, fortunately defeated, had been adopted, it would have been in the power of five or eight per cent of the people in any community to compel ninety-five or ninety-two per cent to go to the polls and condemn any proposition that a few enthusiasts or fanatics might choose to demand a vote upon."

"It points out that as the absentees from a legislature are reckoned as opposed to the passage of a pending measure, which may be voted upon, so the people who do not vote for a prohibitory liquor act may be counted against it. Hence the necessity of having an affirmative expression of opinion so strong that it cannot be challenged or discounted.

"It seems that Illinois had an experience of its own upon this question, and to this experience the Inter-Ocean refers in the following paragraphs:

"The Ontario referendum was, in fact perfectly fair, and by its requirement of an affirmative majority was in marked contrast to the referendum proposals which a group of theorists recently attempted to force upon the people of Illinois. For, if these proposals, fortunately defeated, had been adopted, it would have been in the power of five or eight per cent of the people in any community to compel ninety-five or ninety-two per cent to go to the polls and condemn any proposition that a few enthusiasts or fanatics might choose to demand a vote upon."

"The referendum in Ontario contemplated the submission of a question to be approved or rejected by a majority of the voters. The referendum plan, lately proposed for Illinois, would simply put it in the power of a party minority continually to postpone the people with their visionary schemes."

"The vote in Ontario has fallen far short of the figure at which the temperance people aimed, but it was so strong that they are already arranging plans for further parliamentary meetings and legislation in accordance with their views."

"Dr. Lorenz will leave America for his home in Vienna about Christmas. By that time he will have completed about two hundred operations, and I have invited the everlasting Eye and Ear Institute of many children and mothers. Through his directions, other physicians will be able to repeat his methods, so that in a short time thousands of people in America will bless his name. He says he loves the children, and no one doubts it. No man has done so much for them gratu-

REFERENDUM COMMENDED.

The federal government was supposed to be in a helpless way. It was understood to be racked with dissensions and on the verge of dissolution. The Mail, some time ago, felt warranted in announcing that the ministry had touched a critical stage. "The limit of supply for effective cabinet material has been reached," said our contemporary, "and there is a widespread feeling that the crest of the wave has been passed and the descent into the hollow has begun." This was figurative language, and meant to be accepted for what it was worth. How much that has been demonstrated by passing events.
