COMMERCIAL MATTERS.

What is Going On in the Business World—The Market News.

The output of cotton seed oil in the United States is short. Contracts have been signed in California for the delivery of 750,000 barrels of fuel oil to Hawaii.

On the railroads in Canada it is necessary to keep over six hundred snow plows in operation every winter.

The Canadian Pacific Railway company has issued the following return of trade earnings: Week ending Dec. 7th, 1902, \$875,000; corresponding week, 1901, \$729,000; increase, \$146,000.

The past year is said to have been a profitable one for the American Fisheries company. The catch during the season amounted to 1,377,786 barrels, from which were obtained 55,000 barrels of oil.

Hon. John Dryden announces that much capital is being arranged for to handle the surplus live stock trade of Canada and on slight notice to turn it into the channels of the dead meat trade.

Income of some of the great powers are: Russia, \$80,412,882; France, \$710,314,099; United States, \$649,516,830; Great Britain, \$575,556,064; Austro-Hungary, \$539,515,976; Germany, \$502,926,320; Italy, \$324,199,386.

Alabama will produce more than 11,000,000 tons of coal during 1903, from all its mines. Preparations are being made to increase capacities at the mines now in operation by putting more industrial machinery in the production at the Alabama coal mines last year was a little over 8,000,000 tons.

The State Of Trade.

So far this month the trade returns in the city have been disappointing. It was naturally to be expected that the Christmas trade would boom matters somewhat, but such has not been the case.

December's trade, so far, has fallen behind that of the past few months. An inland revenue official, whose position enables him to feel the pulse of the city's trade better, perhaps, than any other man, declares that December's business is not nearly as brisk as that of October or November. No reason can be assigned for this state of affairs, except that weather conditions have not been satisfactory. With the coming of good sleighing it is hoped that business will grow brisker.

How He Was Saved.

The gentleman who was steward on the ill-fated steamer Bannockburn must be counted among the lucky ones of this earth, says the Port Arthur Chronicle. A day or two previous to the sailing of the vessel he was taken ill and went under a doctor's care. On the day of sailing the captain of the Bannockburn called upon him, when the steward said he felt better and was prepared to go with the vessel. The captain, however, prevailed upon him to forego the trip, saying that he would be back the following Thursday, when he could join the crew again. Accordingly the steward stayed and thus escaped the fate which overtook his shipmates.

Made A Presentation.

The Bicycle Club room was the scene of a very pleasing event, last evening. One of the popular members of the club being about to take unto himself another rib and also to take his abode in a western city, his friends wished him and the partner of his joy and sorrows to carry with them a reminder of the friendship of his companions of other days. D. Campbell was presented with a set of carvers and a nut bowl for his bride. A very complimentary address was read by President Hoag and ably responded to by Mr. Campbell.

Death of a Woman Under Strange Circumstances.

New York, Dec. 12.—Mrs. Sarah Waters, a wealthy woman, aged about eighty years, died yesterday. The district attorney at once ordered an investigation and embalming of the body was stopped. Mrs. Waters' estate, worth \$100,000 or more, has been in litigation. She had decided away all her property and in the suit which followed, commission was appointed to examine her mental condition. Alexander S. Bacon, attorney in the proceedings, said in court that he doubted if Mrs. Waters would live to have her sanity tested, and he hinted at a grave crime in connection with her illness.

B.C. POLITICS.

Col. Prior Will Go To The Country If Defeated. Vancouver, Dec. 12.—It is stated on authority that if defeated in the house Colonel Prior will go to the country, and no other gentleman will be called on. The premier said "You can take from me that I will not be lying down, and that I will go to the country as premier."

An early session of the house is certain, probably the second week in January. J. R. Webster, R. J. McPherson and G. W. Grant are named for the Burrard liberal nomination. There was no nomination held at Ashcroft, the returning officer not having received the writ.

APPEAL TAKEN

IN ELECTION CASE OF SOUTH OXFORD.

Two Charges Will Have To Be Reviewed—Two Judges Named to Consider All The Cases Yet to Be Tried.

Toronto, Dec. 12.—Notice of appeal to the Court of Appeal by the Liberals has been given in the South Oxford election case, on the two charges on which Justices Street and Britton disagreed, viz., the personal charge against the member, Donald Sutherland, of paying one Lloyd, and the charge that S. King, an agent, paid E. Collins.

Justices Osler and MacLennan gave judgment, this morning, dismissing, with costs, the Lennox election petition and directing that T. S. Carscallen hold the seat. There were five charges on which judgment was reserved. Four are dismissed by both judges; on the fifth, that the defendant paid one Wilson, of Bath, fifty cents, Judge MacLennan holds that the charge is not proven, but Judge Osler holds it is proven and there is, therefore, a disagreement on this charge. Judge MacLennan also notices that the conduct of Carscallen in paying \$5 for teams when current prices were \$3 comes very near a breach of the law. (An appeal will be taken on this charge, in which there is disagreement. The cross-petition stands yet to have a date for trial fixed.)

Judges Osler and MacLennan have been appointed to try all election petitions to be tried next year.

Judge Morrison, this morning, gave judgment refusing the application for a recount of the South Toronto referendum vote, the majority being over 200.

The Temiskaming railway commission, to-day, awarded the contract for the first sixty miles of road and five miles of sidings to the Algoma Steel company, at \$32 per ton of 2,240 lbs. Each car North Bay, deliveries are one-third, May 15th, one-third June 15th, and one-third July 15th, 1903. The contract is for 8,200 tons of eighty pound rails. The lowest tender received was from Mr. Lower, Montreal, representing German manufacturers, but the figures are not given. That tender, moreover, was not duly free, but was made on the basis that if a duty was imposed the commissioners should pay it.

WANTS AN ARBITRATOR.

To Act Between Venezuela And Great Britain. Caracas, Venezuela, Dec. 12.—The government has taken preservative measures at La Guayra. All the deposits of coal at the navy yard and all the British cars on the LaGuayra railway have been brought here rendering impossible the transportation of the allied troops by rail. Gen. Ferrer, minister of war, spent all of to-day in choosing spots in the mountains, where trenches are to be dug. It is stated, on good authority, that the Venezuelan government has asked the United States Minister Bowen to act as arbitrator in the controversy with Great Britain and Germany.

Want Arbitration.

Washington, Dec. 12.—According to a despatch received by the state department from Minister Bowen, this morning, President Castro has requested him to ask Germany and Great Britain that the difficulties arising out of the claims of alleged damages and injuries to German and British subjects, during the civil wars in Venezuela be submitted to arbitration.

Likely To Be Serious.

London, Dec. 12.—There is a growing fear in political circles here that the trouble with Venezuela is going to be far more serious than anybody expected.

The Birmingham Post, Colonial Secretary Chamberlain's organ, this morning says: "The comic opera aspect of the difficulty does not blind close observers to the dangers lying beneath it. Happily, the fall elections in the United States are over, but those remembering the events of the winter of 1895 are reticent about expressing confidence that no trouble will come from Washington. England and Germany are bound to have their own way so far as preliminaries are concerned, but they are only entering the wood. France and America may have something to save, as it is not obscurely hinted in certain quarters here before they emerge from it."

MAY BE A CRIME.

Death of a Woman Under Strange Circumstances. New York, Dec. 12.—Mrs. Sarah Waters, a wealthy woman, aged about eighty years, died yesterday. The district attorney at once ordered an investigation and embalming of the body was stopped. Mrs. Waters' estate, worth \$100,000 or more, has been in litigation. She had decided away all her property and in the suit which followed, commission was appointed to examine her mental condition. Alexander S. The non-jury sittings of the high court open on Monday afternoon. So far only two cases are entered.

CHALMERS' TEA.

The Ladies Held a Bright Event Last Evening.

One of the brightest and prettiest high teas held this season was given by the Ladies' Aid Society of Chalmers' church yesterday from six to eight o'clock. Three long tables, laden to tempt the appetite and please the eye, were the chief attraction. The color scheme of each was different, and great bouquets of carnations and ferns were in profusion. Silver candlesticks with softly shaded lights added greatly to the beauty of the tables.

Mrs. Smith was in charge of the crimson, Mrs. McMillivray of the green (with white carnations) and Mrs. Young of the pink. Several ladies assisted at each table, among whom were Madames Haig, Fenwick, Dyde, McKay, Macnee, Laidlaw, Renton, Galloway and F. Shaw. A bevy of white gowned young girls were the efficient waitresses.

During the afternoon, a sale of work was held by the young woman's society of the church. The candy table was presided over by the Misses Lena Porteous, Isabel Ross, Mabel Bowie, Etta Richmond and Hilda Jordan. The work table was speedily relieved of its array of stately and useful articles. It was well looked after by the Misses May Ross, Ferguson, Smith, Swales, McAdam and Makins. During the evening a most enjoyable organ recital was given by Mr. Harvey and Mrs. Dobbs.

New Officers Of 47th Band.

On Wednesday evening the members of the 47th Regimental Band held their annual meeting, at which the following officers were elected for the ensuing year: President, W. Allen; vice-president, George Marshall; secretary, J. Angrove; treasurer, W. Brown; auditors, J. Tierney, M. D. C. and F. Angrove. The receipts for the year ending November 30th last were shown to be \$1,496.50, of which a small balance remains in the treasury. The newly-formed orchestra is reported to be making splendid progress. A new piano has been placed in the band room and thus additional entertainment is furnished to the members. The band begins the year in better shape than it ever was in before.

Haney's Affidavit.

In the suit of Haney vs. Locomotive company, Mr. Haney, in an affidavit, says that any notice of the meeting at which the increases of salary were voted stated that the question of salary would be considered, but there was no mention of a resolution to be passed, and consequently he did not attend. He also says that J. J. Harby, who is one of the defendants, holds 250 shares of the company's stock as trustee for himself, William Hart, and C. Birmingham, that J. J. Harby never consulted him as to how he should vote on his shares. The total increase is understood to be \$10,000. The injunction has been enlarged till Tuesday to allow a date to be arranged for a trial.

SIX DAYS WHEEL.

The Contestants Are Still Behind the Record. New York, Dec. 12.—Two teams succeeded in separating themselves from the others in the six-day bicycle race yesterday, and by clever team riding took the lead. They were the Newkirks Jacobson and Leander-Floyd Krebs aggregations. The score at midday, however, was nearly 160 miles behind the record for that time of 1,855 miles two laps.

High Price For Pears.

London, Canada Gazette. A shipment of Canadian pears which recently arrived at Glasgow turned out, both as regards quality and the price at which the wholesale dealers were able to sell the pears, much beyond expectation. One large dealer purchased over 300 cases at 3s. 9d. to 4s., and after keeping them for a couple of weeks sold every case at 5s. to 5s. 6d. These were Dickets pears, beginning to color splendidly. Another dealer, after keeping twenty cases for ten days in a warm banana house, disposed of them at from 5s. to 6s., and the buyers were well satisfied with the bargain. The dealers generally speak well of the whole consignment.

Royal Arcanum Officers.

St. Lawrence Council, No. 905, Royal Arcanum, met last evening and elected officers for the coming year as follows: Regent, T. H. Carnovsky; vice-regent, G. H. Bell, V.S.; orator, R. J. McDowall; past-regent, John Twigg; secretary, R. D. Anglin; collector, F. G. Dunlop; treasurer, J. Morgan Shaw; chaplain, Robert J. Reid; guide, W. Dunlop; warden, A. Strachan; sentry, T. X. Rogers; trustees, M. Sutherland, John Nicolle and James Crawford; auditors, James Johnston and J. A. Gardiner.

More Snow Needed.

The stages plying between Kingston and outlying points have been placed on runners. The snowfall, however, has not been sufficient to provide good sleighing on all roads. A Collins Bay farmer, who was in the city to-day, said that for hauling a heavy load wheels were still preferable to runners. The roads are bare in spots. A little more snow is needed to make good sleighing.

The Germans Happy.

None of the German machinists have departed, in deference to the Buffalo agent's wishes. Most of them are happily settled under the hospitable roofs of Peter Devlin and James Norris, who are doing everything to make them comfortable. The Germans are picking up a smattering of English, and highly enjoy themselves at their meals as they try to utter their requests in King Edward's tongue.

Succeeds Mr. Campbell.
