BONE FOOD

The bones of a baby are soft—so very soft that at first they can scarcely be called bones. They grow hard in time, but the period of their growth is a critical one. Loose joints, bow-legs, enlarged head and hip disease are evidences of rickets. If character. This is the natural result of improper bone nourbone development.

The child needs mineral substance to harden the bones and this is plentifully supplied in the hypophosphites of lime and soda contained in Scott's Emulsion. The cod liver oil provides the element of fat needed to reinforce the child's ordinary food.

Thus Scott's Emulsion offers in a perfect combination the very principles of proper bone and flesh nourishment most needed by a young child. The action of the Emulsion is so mild that will accept and retain it. This makes Scott's Emulsion children and very young babies who are in absolute food-medicine.

Pale-faced children show they are not getting what they ought to get from their blood and give them strength healthy growth.

in growth, or slow in development it will be found that Scott's Emulsion will quickly help it. There is nothing better for babies and growing children than Scott's Emulsion.

We'll send you a sample free upon request.

The Toronto Mail-Empire says that dy" read the future any better than many friends of Dr. W. A. Graham Bobby' Laird, one of Queen's brightest graduates in arts and theology? Ten years hence we shall know.

Notwithstanding the eulogies passed by the Toronto papers on the Burnside rules, they have never yet answered the Whig's charge, that in the last 'Varsity-Argonaut match there was continual interference play by the former team in its endeavor to protect its running half-backs. This occurred with an expert referee-"Biddy" Barr; who was unable to stop it. If that can be done when the rules are in their infancy, what will be the result when tricksters have undermined them?

If the O.H.A. refuses permission to the Frontenacs to go to Pittsburg, there are only two courses open to the Kingston club-they must either break their contract or leave the Ontario association. It is likely that the Frontenacs will pursue the more honorable course, and keep their contract. If the O.H.A. then throws them out, they will play independent hockey or join another smaller league, fully convinced that they have done no wrong, even though the Toronto Telegram may throw up its pious hands in horror, and preach the Frontenacs' funeral sermon of respect and sorrow.

A GERMAN ENTERTAINMENT By Queen's Modern Language Society Last Night.

The attendance at Queen's College Modern Language Society Dramatic and musical entertainment in Convocation Hall last evening was very good indeed, considering this is the mrst time an admittance fee has been charged, and that the attendance is i nited to those having some knowledge of and interest in the German language and music. A very pleasant feature of the entertainment, which deserves special mention, was the presence, as guests of the club, of almost twenty representatives of the recently arrived German colony, and they certainly manifested deep interest and enjoyment in the rendition of the programme by their marked attention and vigorous applause.

The first part of the programme consisted of seven numbers, four ve cal, one piano, one recitation, and a horus. Miss Calvin played Lizst's Liebestraum No. 3, as the opening number. Miss Massie sang "Home, Sweet Home," under the guise of 'Das Heiniabland," while Miss Waldion sang "Robin Adair" in its Gernan form. Then came a recitation 'Das Sangers Fluch' by Miss Hawes. Miss Knight sang "Mignon," and Mrs. Farrell, selections from Heine and Schubert, when the first part was closed by the chorus sanging 'Die Wacht am Rhein.

The second part was a short Germin drama of domestic life, presented by Messrs. Foik, McGregor, Brydon, and Misses Thompson, Williams, Jack son and McConkey. It was a case of all's well that ends well, where fami ly jars, lost keys, exchanged over coats, missing letters, eventually find satisfactory adjustment in two proposals and two acceptances.

The players, as amateurs, nobly sus tained their parts, showing evidences of careful study and practice. The so ciety is to be congratulated on its successful and characteristic entertain-

A year has nearly passed since I was at your beautiful store last Christmas. I had a grand time with the children and never met a prettier, healthier, happyer lot. The good warm underclothing, Pants, Fur Collars, Fur Caps, Mitts, Stockings, Toques, Sashes, Clouds, Fur Boas, and Over Stockings have a great deal to do with keeping them thus health y and happy. I carefully examined your childrens' wearing apparel, both on and off, and I was delighted with them. They are by far the best I have seen in any Brown, refused to admit Pennsylvania part of the world. No parent should think of buying any others for their children but yours.

I will start immediately, as my load is indeed heavy and weighs so much that my reindeers cannot travel very fast, and they will have to rest now and then on the way. I will be at your store on WEDNESDAY, Dec. 24th, at 10 o'clock, and will remain until Christmas Eve.
