IN CONFERENCE.

PROVINCIAL PREMIERS MEET IN QUEBEC.

The Meeting is Private—Dominion Government Must First be Made Aware of the Decisions.

Quebec, Dec. 19.—The first regular meeting of the interprovincial conference took place at eleven o'clock this morning. It was presided over by Hon. S. M. Parent, prime minister of the Province of Quebec. The sessions are strictly private.

The business to be discussed and agreed upon at the conference will not be made public until a report of the same is forwarded to the Dominion government. It would be unpolitic and unusual, according to the president of the conference, to make known what transpired at the conference until the resolutions are adopted and in the hands of the Dominion government, the party most concerned, second in importance to the provinces who are applying for their just rights. The prime ministers are expected to close their important deliberations at noon to-morrow. The distinguished visitors will go to Ste. Anne de Beaupre in the afternoon to visit the famous shrine, and they will be dined to-morrow night by the members of the board of trade at Kent House.

Back From Hunting.

Barriefield, Dec. 19.—The council held the last meeting of the year on Monday. The trustees swarmed from all parts of the township and came near swamping the tax collector and council, because they had no money for them to pay the teachers. J. P. Shortall, teaching at No. 2 school, will resign at the close of the season. E. Corky, marine engineer, returned home Thursday, after taking a boat loaded with coal to Toronto, on Saturday, then laying up his boat at Picton. Capt. Batten has returned after his second hunting expedition, highly successful and loaded with partridge. In Sudbury district he visited some of the nickel and copper mines. In some as many as 800 men were working, and all who could get work.

People of the village are happy that Bowman Bros. have again leased the bridge toll privilege. Their many years of invaluable kindness to the public deserves more than gratitude, especially for all the parcels, packages, etc., that are safely cared for and sent on to the owners without pay or even thanks. Job's patience was not anything compared to that of Bowman Bros.

The City Made Deposit.

The water works' committee has paid the captain of the schooner Annandale a deposit of $35 to allow its anchor to remain on the suction pipe for the present. Superintendent Hewitt feared that in attempting to get it free, the pipe might suffer damage, unless great precaution were exercised, and advised the water works' committee to make the money deposit. Later on the anchor will be secured, and either retained by the city or returned to the schooner's captain for the $35. This sum, it was thought, very small, as compared to risking a break in the pipe. Vessels have always been warned not to cast anchor opposite the water works, but the Annandale did so on a dark night, not knowing exactly where it was.

Will Go To Guelph.

Rev. Eber Crummy, B.A., B.Sc., of Brock street Methodist church, has accepted the invitation of the Norfolk street Methodist church, Guelph, to be its pastor if the church authorities agree to the transfer. Mr. Crummy is an able preacher, a fine pastor and in all his methods and plans fully alive to the requirements of the hour. He is popular with the young people.

Will Have Christmas Dinner.

Miss Brooks, matron of the county jail, has, through the kindness of generous friends, collected a small fund with which to provide a bountiful dinner for the inmates of the jail on Christmas day. The dinner will consist of fowl, vegetables, tea and coffee, pudding, etc. At present there are four male and one female prisoner confined in the jail, but preparations will be made to feed eight.

Presented With His Portrait.

At an emergent meeting of Cataraqui lodge, A. F. & A.M., held Wednesday evening, the venerable tyler, Edward Ball, was presented with a large portrait of himself, handsomely framed. The affair came as a great surprise to Mr. Ball, who managed to make a suitable reply after recovering himself. The presentation testifies to the popularity of the aged tyler.

Ignorant, Or Mean?

Every day some persons send manuscript to the Whig, putting one cent stamp upon the envelope, thus costing the receiver two cents. There is no one cent postage now, either in town or out of it, except for printed matter. The letters are becoming so frequent, there will have to be a rule not to take them from the post-office.

Had A Fine Closing.

The pupils of the kindergarten class of Victoria school enjoyed their annual Christmas tree entertainment this morning. Each little pupil received a gift as well as a supply of candy, etc. The class presented Caretaker Laidlaw with a fine big turkey. A large number of parents and friends of the pupils were present.

Send Us A Post Card.

We will be glad to have the names of Christmas visitors to the city. Put the name on a postcard (sign the writer's name, but not for publication), and we will print the intimation. The Whig will always be glad to get items in this way.

Died From Starvation.

New York, Dec. 18.—Jacob Buthren, sixty-seven years old, has been removed to a Brooklyn hospital from his home, where he was lying alongside the dead body of his brother, Michael, seventy-three years old, who is supposed to have died from starvation. The two men kept a little shoemaker's shop and did not mix with the neighbors. For two weeks nothing had been seen or heard of the brothers, and a neighbor, becoming alarmed, notified the police, who made an examination with the result stated. When Buthren reached the hospital the doctors said that they had never seen such a complete emaciation. His recovery is doubtful.

Mr. Chitty, president of the club, states that the club will stand firm in its position.

The story printed in a Toronto paper about the G.T.R. acquiring the R. & O. navigation steamboat business, is pronounced as foolish in official circles here.

It is stated here in banking circles that W. D. Ross, formerly manager of the Bank of Nova Scotia at Charlottetown, P.E.I., but latterly chief clerk of the finance department at Ottawa, has been offered the assistant general managership of the new Metropolitan Bank at Toronto.

Marysville, Wolfe Island, Dec. 17. — The public school concert held in the Masonic hall, Wednesday evening, by the two popular teachers, Misses Allen and Hiscock, was greeted by a crowded house, proceeds devoted to enlarging school library. TARRED STONE FOR COAL.

How a Benevolent Stranger Fooled Customers.

Derby, Conn., Dec. 18.—Many angry persons in this vicinity are hunting for a benevolent-looking stranger who sold them crushed stone coated with tar for coal.

The fellow said he represented a syndicate which, from philanthropic motives, was distributing a limited quantity of coal throughout the state and that he could sell to one household not more than two bushels. He said the price to all was fifty cents a bushel, which just covered the cost, including delivery, and that orders taken would be filled the next day, cash on delivery.

He took many orders, and, the next day he delivered the alleged coal in a large waggon and received his money. The fraud in almost all instances was discovered within a few hours. It is thought the fellow is the same man who sold several bushels of tarred stone to a tenant of Chief of Police James Wrinn, of New Haven.

Old Yacht Being Rebuilt

The yacht Katie Gray, owned by John P. Phelps, Oswego, N.Y., is being rebuilt. It was first constructed at Belleville, twenty-five years ago by Capt. Cuthbert, who modelled the Atlanta, which contested at one time for the cup in the international races. The Katie Gray was purchased by William B. Phelps, Jr., and taken to Oswego, about twenty years ago. At that time she was considered the fastest yacht of her class in Lake Ontario and won several first prizes in races. She is still very fast and there are but few of the modern designed yachts that can show her their heels.

Sues To Recover Millions.

Colorado Springs, Col., Dec. 19.—J. D. O'Haire, one of the original locators of the Portland mine at Cripple Creek, has filed a suit in the district court against James F. Burns and the Portland Gold Mining company, asking for a one-sixth interest in the mine and a one-sixth interest in the one which has been shipped since the date of discovery. The mine has produced approximately $12,000,000, and at the ruling market price, the stock is selling at $6,000,000, so that the claim amounts to $3,000,000 against the Portland estate.

Set Fire By Pet Dog.

St. Joseph, Mich., Dec. 19.—Miss Julia Thompson, who was severely injured a few days ago, died this morning. Miss Thompson was the victim of a peculiar accident. A gasoline stove exploded; her pet dog caught on fire and dashed through several rooms a mass of flames, finally leaping onto her lap, igniting her dress, which resulted in burns that caused her death.

Hides, Wool And Tallow.

Toronto, Dec. 17.—Wool is firmer. Fleece is quiet but a little higher at 15c. for washed and 8c. to 8½c. for unwashed. Pulled wools are in demand for local mills, and prices are higher at 19c. to 20c. for extras and 15c. to 16c. for supers.

Hides are quiet and unchanged, but the market looks weak. No. 1 green, are quoted at 8c.; No. 2 at 7c. and No. 3 at 6c.; great steers' are quoted at 9c. Cured hides are unchanged at 8¾c. for cows' and 9¾c. for steers'.

Lambskins are steady to firm at 75c.

Calfskins are steady at 10c. for No. 1, and 8c. for No. 2.

Tallow is weaker. Local dealers are offering 6c. to 6¼c. and asking 6¼c. to 6¾c.

A Recent Case.

Kingston, Dec. 17.—(To the Editor): A letter in your issue of December 15th, contains misleading statements. The facts are: Over three years ago the late Stewart Davy was healed through Christian Science prayer after materia medica had given him no hope. In his last illness a Christian Scientist was called on Friday and on the following day the patient, to pacify some friends, consented to have a doctor, so on Sunday the doctor was called and the patient continued under his loving and faithful care up to the time of his death ten days later. In view of these facts it is most unjust to attribute his death in any way to Christian Science.—C. R. Munro.
