The common definition of catarin is a chronic cold in the bead, which if long neglected often destroys the sense of smell and hearing; but there are many other forms of the disease, oven more obstince and langerous.

Catarrh of the throat and bronchial tubes as well as catarrh of the stomach and liver are almost as common as nasal catarrh and generally more difficult to cure.

Catarrh is undoubtedly a blood disease and can only be successfully eradicated by an internal treatment. Sprays, washes and powders are useless as far as reaching the real scat of the disease is concerned.

Dr. McIverney advises catarrh ferers to use a new preparation, sold by druggists, called Stuart's Catarrh Tablets, because actual analysis has shown these tablets to contain tain anti-septic qualities of the highest value and being an internal remedy, pleasant to the taste, convenient and harmless, can be used as freely as required, as well for children as for adults.

An attorney and public speaker, who that stand against us." had been a catarrh sufferer for years,

"Every fall I would catch a cold which would settle in my head throat and hang on all winter long to go around? and every winter it seemed to get little worse. I was continually clearing my throat and my voice became affected to such an extent as to interfere with my public speaking.

cures and sometimes got relief, but mittee. only for a short time, until this win ter when I learned of the new catarrh cure, Stuart's Catarrh Tablets, through a newspaper advertisement. Two fifty cent boxes which I bought at my druggists, cleared my head and throat in fine shape and to guard against a return of my old trouble keep a box of the tablets on hand and whenever I catch a little cold I take a tablet or two and ward off any serious developments.

Stuart's Catarrh Tablets deserves to head the list as a household remedy. to check and break up coughs and colds, because unlike many other catarrh and cough cures, these tablets contain no opiate, cocaine or any in jurious drug.

### NO HORSE DEAL

RECOMMENDATION OF SUB COMMITTEE REJECTED

Fire and Light Committee Will do Without a Horse for the Time Being-An Overdraft of \$289-Room for Improvement at the Pumping Station.

"We have not a quorum," remarked Chairman Bell at Friday's closing meeting of the fire and light committee, as le looked about the oblong table in the city engineer's office, and saw only the faces of Alds. King, Mc-Farlane and Harkne's gathered there about. "We have a quorum if you count yourself in," replied Ald. King. "That's so," rejoined the chairman, 'I forgot about myself.'

"I just want to say, gentlemen," continued the chairman, "that I have colletted in all outstanding accounts Mr. Richardson an explanation. against the committee, and we will leave office without a debt standing some of these bills remain over and would have had a showing of at least \$200 more to our credit, but I do not believe in foistering the debts of on committee upon another, so I have endeavored to get in all the accounts

an I asked if the chairman would have sufficient money left, after paying all sprinkling. The committee was furaccounts, to purchase enough turkeys ther agreed that hereafter the charge

Aid. Bell replied that there would not be any turkeys this year. Regarding tenders for metal helmets, Ald, Harkness stated George Mills had said he could, in all

> tee to deal with. All the accounts presented were ordered to be paid, on motion of Alds. Harkness and McFarlane. The action of the chairman ir paying up all outtanding accounts was favorably commented upon.

Regarding the purchase of a horse, left in the hands of a special committee, Chairman Bell stated that the committee had examined the mare in use in the department for some weeks and all but one were satisfied with her. This committee recommended the purchase of the animal. The horse had been put to a severe test, having been run down Brock street, and back again, from Bagot street to the Lre station. The animal was then examined by a yeterinary surgeon, who expressed his satisfaction with its condition. Ex-Ald. Toye, an expert, also expressed his approval of the horse, and said he thought it would soon become one of the best in the department. Chairman Bell also submitted,a report of the veterinary surgeon, certifying to the sound condition of the horse in question, which is coming five years old and weighs 1,125. The price asked was \$135. It is the property of James Norris.

In reply to a question, Chairman Fell stated that the grey horse just sold brought \$110. Ald. McFarlane was of opinion that

the horse sold was as good as any one left in the department. Ald. Harkness expressed a similar belief. He opposed the purchase of the Norris horse; it was too light and had not "bone" enough. He thought the animal would not weigh more than 1,-

Chairman Bell pressed the purchase of the horse; if not purchased at once, it would be taken out of the station

within a few hours, leaving the department short of one horse. Ald, Macfarlane suggested placing the money secured from the purchase of the grey horse to the committee's

work when necessary. could not be done, as a horse was have to receive repairs, and sooner or Parlor Chairs - 125 needed every day, and one must be later the committee would have to

acknowledged a weak case. Regarding the claim of the Board of Education, for a rebate for charge made for water used for sprinkling Queen's. lawns of Victoria school, Ald. Sears moved that no action be taken, but

recommended that a tap be placed At this moment Ald. Craig entered outside the school meter, from which water could be drawn for lawn for this school should be the same as that made for a similar service for the Collegiate Institute, namely \$8 a

The application of James Blomley day fireman at the pumping station, for an increase in wages, was referred to the council, where it should first have been addressed.

Chairman King submitted a set rules for the governance of the em ployees of the pumping station. It de fined their coming and going and other minor duties, already in force but never having been clearly defined by printed rules. These were adopted on motion of Alds. Tait and Graham

The adoption of these rules led to a rambling discussion upon general affairs, touching things at the pumping station. Ald. Sears stated that he and Ald. Abbott had visited the place one night and found the small engine pounding very hard. In their opinion, if that had been allowed to continue, the engine would soon have been a wreck.

not being run as they ought to be. He ly the latter will occur, had visited the place and found, to making other necessary improvements: I ting this cup. he commended this work to next year's

Ald, Sears bore out Ald, Abbott's

Superintendent Hewitt replied that with a soft wood floor it was impossible to keep the place clean, when the employees were constantly walking among coal, grease, etc. The pounding of the engine has been stop-

Ald. King admitted that there was the superintendent's explanation. He called attention to the fact, however, that next year's committee would have to take steps to have fixed that credit, and to hire a horse for line portion of the wharf supporting the coal shed, which was in a dangerous Chairman Bell replied that this condition. The small engine would face the question of the purchase Ald. McCammon came in at this a larger pump, to replace the small stage and said he was favorable to one, as the consumption of water the purchasing of the horse; it was would soon be in excess of the small D.D., will preach at 11 a.m. and 7 p. pump's capacity.

The committee was in a fair way of be referred back to the committee for having an all night session, as some further investigation, to report at a of the members had come prepared to talk. An end was put to the session This motion did not meet with the however, by Alds. Abbott and Grah approval of either Ald. Harkness or am requesting Ald. Tait to take the Chairman Bell. Saving Effected in Coal and Other Lines.

At Friday's meeting of the water works committee, Chairman King made reference to a question asked by a citizen, through the press, some time ago, regarding affairs at the pumping station. In the first place, he said, no fuel saving device or dampers had been installed during the regime of William Hazlett; he would be glad to learn something more about this affair. If expenses were increasing, it was only to be expect-Ennis, J. Henderson, J. Marshall; ed, as the consumption of water was increasing, but he thought the increased expenditure was not comparatively greater than the increased

Superintendent Hewitt quoted figures the amount of coal, waste and oil used this year; since may last Turkeys, geese, chickens, Crawford's, | coal consumed has not gone over 100 tons a month. Previously it used to Even the river banks are unable to go over that amount. Expenses all along the line had been reduced.

# DON'T STAY SICK

When a Postal Will Bring You a Way to Get Well.

You who stay sick and don't write me-I address this While you are waiting I am curing thousands just like you.

They simply write me a postal, then I do this. I mail the sick one my book, and with it an order on his druggist for six bottles Dr. Shoop's Restorative. He takes it for a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I pay the druggist myself. And the sick one's mere word decides it.

I am ready to do that withyou. My book will tell you how I cure these troubles, and it tells you so clearly that you will know that I am right. If you

then wish to test the remedy, your druggist will supply it on trial. If it succeeds, you are well. If it fails, it is free. Two facts make this offer possible. One is that people in general are honest. The other is that I have learned how to cure. In the past 12 years I have supplied my Restorative on trial to over half a million sick ones, and 39 out of each 40 have paid for the treatment gladly, because they were cured. I have willingly paid for the rest.

My Restorative strengthens the inside nerves. For a lifetime, I have studied to perfect a way to bring back the nerve power, which alone makes the vital organs act. When an organ is weak we know that its nerve power is weak. It is like a weak engine-it needs more steam. When we restore that nerve power, the organ does its duty, and the

cure is permanent. To doctor the organ is useless. The best results are but temporary; and that is why common treatments fail. My Restorative cures the cause and when the cure is complete the sick one is well all over. Won't you write a postal to learn about a remedy like

Simply state which book you Book No. 2 on the Heart. want, and address Dr. Shoop, Box Book No. 3 on the Kidneys. 40, Racine, Wis.

Mild cames, not chromic, are often cured by Shoop's Restorative is sold by all druggists.
