Halifax, N.S., Dec. 29.-The little village of Hubbard's Cove was in the hands, all day, vesterday, of a mob of Italian workmen, employed on Mackenzie & Mann's South Shore railway construction, which is going on near that place. The trouble arose over the fact that the contractor for that section of the line was behind in his payments of wages for November. Groups of armed Italians gathered around the hotel, in which the officials lived, early yesterday, and remained on guard all day, preventing anybody from getting out or getting in.
