CLEAN RECORD.

ALDERMAN GRAHAM'S CONDUCT IN COUNCIL.

Voted Against High License for Butchers and for a Four Pound Loaf—Large Tax Paying Citizen—Stood by the Workingman.

Upon advancing to the platform front, Alderman Graham was warmly received, showing that he had many strong admirers in the audience.

"In coming before you to-day as a candidate for the mayor's chair, I do not intend to make a long speech. Since entering public life as a representative of Victoria ward, you have watched and criticized every step I have taken, but in case you may have forgotten, I will cite a few of the

ALD. C. J. GRAHAM.

many points that have come up for discussion during my term as an alderman.

"When I entered the city council four years ago, the first question with which I had to contend was a by-law to reduce the weight of a loaf of bread to three pounds. This, gentlemen, I considered an outrage on the working man, and as a working man I took my stand against it to the best of my ability, for it was my first night in council. I fought the three-pound loaf, and with the support of ten new members, I defeated the by-law, and you still have a four-pound loaf.

"After sitting in council for one year, I introduced a motion giving to our corporation laborers a nine-hour day, with wages of \$1.25 a day, which you I felt, and I know you will agree with me, was as small a wage as a man could live on; moreover, our laborers were not constantly employed. This year has been one of hard fighting. My friends and opponents, Dr. J. H. Bell and J. T. White, and their colleagues, in bringing down the budget, showed a deficit of \$750.

In order to meet this deficit they imposed a tax on one of the most essential articles of our daily food, by raising the butchers' license fee from \$2 to \$20 a year. If they had succeeded, who would have had to pay the \$20? The butcher or the consumer? The consumer, of course. Dr. Bell's strongest reason for favoring an increase in the license fee was the fact that he had recently been called to a poisoning case and had traced the cause to alleged diseased meat, purchased in a small butcher shop in Catherine ward. So, when he voted to clear up the small dealers and to place the business in the hands of about half a dozen monopolists, Dr. Bell eased his conscience from the burden he was placing on the shoulders of the working classes, by citing his poisoning case. The by-law was carried in March, when the budget was passed. I at once gave notice of motion

Bleeding Piles.

Not Only Painful and Annoying But a Menace to Life Itself—Can Be Cured by

Dr. Chase's Ointment

Pile of hemorrhoidal tumors, like varicose veins in other parts of the body, sometimes burst and permit the escape of blood from their central vessels. These constitute bleeding piles. Such hemorrhages are sometimes exceedingly profuse, so as to even endanger the life of the patient.

The victim of piles should avoid rich and stimulating foods and drinks and should keep the bowels slightly relaxed, as constipation is one cause of the ailment.

Some people do not think of trying Dr. Chase's Ointment for bleeding piles, though they know of its wonderful power in curing other forms of this horrible complaint.

The best proof of the efficiency of Dr. Chase's Ointment in this regard is the testimony of persons who have been actually cured of bleeding piles by using it. The statement of Mr. Jackson given below is that of a well known and responsible business man who felt so grateful for the benefit derived from Dr. Chase's Ointment that he attempted to do what he could to let others know about it.

James Jackson of the Laurie Spool company, St. Alexis de Monts, Que., writes: "You may put my name to any praise you can give to Dr. Chase's Ointment, for it has done me more good than any medicine I ever used."

"I was troubled for two years with that cruel disease, bleeding piles, and after using Dr. Chase's Ointment, I can say I am entirely rid of it. It is a treasure to all suffering from piles." Dr. Chase's Ointment, 60 cents a box. At all dealers, or Edmondson, Bates & Co., Toronto.

ADDRESS MADE.

BY ALDERMAN BELL AT THE CITY HALL.

Reviews His Six Years' Work in the Council—His Attitude on Street Paving, Taxation, Etc.

This address was delivered by Alderman J. H. Bell, mayoralty candidate, at the nominations in the City hall this morning.

"The year 1902, with all its personal opportunities and municipal advantages is passing away forever, and shall soon have recorded on the pages of history its important and unimportant events. Its faults and virtues, its failures and successes have been chronicled in the minds of observing citizens; and, undoubtedly, many who are interested in the affairs of government and the condition of the governed have watched with deep interest every movement, and, I trust, will continue to watch closely all matters pertaining to our beloved city's welfare.

We have just passed through the golden gates of a new century and are standing on the threshold of another year crowded with municipal problems of the greatest interest to the twenty thousand people within the jurisdiction of this old and historic city.

Hitherto, unfortunately, it has not been customary to attach much importance to city government; the public mind has been so absorbed with the affairs of the province and has been so deeply immersed in dominion politics that the question of municipal government has been relegated to the background. This fact is to be deplored, and I consider it my duty as a loyal citizen to ask you to look more seriously on this question of municipal government and to assist in advancing the good work of efficient and economical administration in city affairs. By doing this we shall be doing something towards instilling these principles into our national life.

"Believing that with your aid, I can conduct the business of the city in an economical manner, I have come before you to-day as a candidate for the mayoralty, and take the liberty of requesting your suffrage and support. I do not ask for any man's vote from a mere feeling of personal friendship, nor do I make any pecuniary promise. I enter to no class or society, promise neither office nor emolument in return for your support, but I appeal to you on the ground of faithful service for the past six years. I have served on all the committees of the council and have been chairman of three of them; and so with a thorough knowledge of the affairs of the city with this six years of experience, I feel that you will be satisfied that I am in a position to appreciate and understand the business advantages and possibilities of our city for the coming year.

"I trust that it may not seem egotistical if I make a brief reference to part of the work which fell to my lot during my term of office. While chairman of the parks committee, I had the open and unsightly breakwater in Victoria ward converted into a park. I do not ask for any man's vote from a mere feeling of personal friendship, nor do I make any pecuniary promise. I enter to no class or society, promise neither office nor emolument in return for your support, but I appeal to you on the ground of faithful service for the past six years. I have served on all the committees of the council and have been chairman of three of them; and so with a thorough knowledge of the affairs of the city with this six years of experience, I feel that you will be satisfied that I am in a position to appreciate and understand the business advantages and possibilities of our city for the coming year.

"As a citizen I have always stood by the workingmen. I have been in the building business for nearly twenty years, and during that period I have at all times paid the highest wages to every class of mechanic I employed. At all times my men were treated fairly, summer and winter, I pay in the same way. I did not take advantage of the winter season, when men were willing to work for less wages. I have employed dozens of men in this city, and these are statements I am not afraid to stand here and make, for I make them knowing they cannot be refuted.

"When the workingmen recommended Mr. Taylor as second engineer for the waterworks pumping house, they did not have to send a deputation to me to find out if I would support their man. On the other hand they sent one to Dr. Bell, and what was his answer: 'If the vote is taken by ballot I will vote for Taylor, if not I will have to go with my party.' At the same time he was working with all his might in caucus to carry C. G. Clarke. Gentlemen, I have never been two-faced. I have never told any man that I would support him, and then voted against my promise. I have never missed a meeting of council, and I have without fear cast my vote on every measure that came up for discussion.

"Now, it is in your power to say by your vote on January 5th, whether or not I shall fill the mayor's chair as your representative for the year 1903. And, in voting to my dear friend in council, I believe you will affirm that I am the proper person to be your chief magistrate for the coming year."

President's Remarkable Gift. Washington, Dec. 29.—President Roosevelt received a remarkable walking stick from James Atkinson, an ex-slave of Rome, Ga. The cane was carved by the sender and bears 109 figures of men, women, beasts and birds. Among the carved personages are Washington, Lincoln, Grant, McKinley, Mrs. McKinley and the Saviour.
