OPPOSE REDUCTION
In the Duty on Coal Entering
Canada.
Halifax, Jan. 16.—That Nova Scotia
will oppose any reduction in the duty
on any coal entering Canada seems to
be the opinion of leading men in this
province. The action of the United
States congress in giving a rebate of
the duty for one year is regarded as a
temporary expedient to tide over a
difficulty created by internal troubles
in the coal states, but will not lead to a
permanent reciprocal arrangement be-
tween Canada and the United States.
The Nova Scotia operators already
find in the home market a pressing de-
mand for all the coal that can be raised
apart from their contracts.

A LOST CAUSE
Is That Of The Sultan Of
Morocco.
WILL ARRANGE
WITH BU HAMARA, THE PRE-
TENDER, AS TO FUTURE.

Serious Tribal Fighting is Re-
ported Near Tangier—The
Warning Issued By The French
Deputy—May Be Intervention.
Cologne, Jan. 16.—A Madrid des-
patch to the Cologne Gazette says it
is considered here that the cause of
the Sultan of Morocco is lost. It is
believed that all the powers will come
to an arrangement with Bu Hamara,
the pretender, in order to prevent
more serious trouble over the
admission, by some of the line officials,
which disabled the vessel so that she
has been thrown out of her course.
There are some who think the vessel
will show up at the Azores. There is
some adverse criticism because of the
admission, by some of the line officials,
that the steamer's boilers are not
in good condition. With this fact
known it is contended that the vessel
should have been laid up for repairs
and should not have been allowed to
carry a list of passengers.

Inter-Tribal Fighting.
Tangier, Jan. 16.—Serious inter-
tribal fighting is imminent near Tangier.
Everything is quiet at the moment,
but the tribes are preparing to
quell the disturbances and the disor-
ders near Tangier, and the other to
the Rif coast.

May Be Intervention.
Madrid, Jan. 16.—A despatch to the
Imparcial from Tangier, says that the
French minister has warned the sultan's
deputy that if the fighting in the
neighborhood of Tangier is con-
tinued it will justify European inter-
vention, as it will be an indication of
a condition of anarchy that Europe
cannot tolerate.

The Sultan's Flight.
Tangier, Jan. 16.—An official of the
Moroccan government states that the
sultan left Fez recently on January
10th with three of his ministers.

JOSE MILNER'S TERMS.
Virtually Accepted By The Mine
Owners.
London, Jan. 16.—South African
mine owners grumble over the contri-
bution to the expenses of the war
which has been levied against them,
but the market quotations show that
the values of mining securities have
not been reduced by Chamberlain's
negotiations. The terms proposed
by Lord Milner have virtually been
accepted.

The suggested introduction of
Chinese labor for the Rand mines excites
much criticism and opposition here.
It is safe to say that no decision has
yet been arrived at by the govern-
ment on the subject. Leading opera-
tors have different views respecting the
employment of Indian and Chinese la-
bor, but they unite in the declaration
that a settlement of all questions
connected with the mining industry is
of utmost importance. Great masses
of British capital are locked up in
the Rand, and cannot be made pro-
ductive until the conditions of labor
mining may be conducted are clearly
known.

Bandmaster Sousa has written to
the newspapers complaining that pirated
editions of his compositions are being
sold by hawkers in the streets of Lon-
don. He says: "We have a tradition in
America that the English law is a
model to be emulated by all people.
I have been laboring under the delu-
sion that as I have complied with the
international copyright law your govern-
ment should assume the responsibility
of finding a way to protect my prop-
erty. Apparently no such responsibility
exists.

The coal merchants of London have
received with indifference the news
that a bill has been passed at Wash-
ington for the rebate of duty on all
foreign coal. It is certainly not ex-
pected that there will, in consequence,
be an increased demand from the
British collieries, but at this moment
shipments to United States ports are
proceeding with the same regularity
as has been witnessed since the strike
in the coal states. For the past six
weeks, according to a rough estimate
provided by a large coal contractor,
120,000 to 140,000 tons have been
shipped each week to the United
States from Great Britain.

The extreme cold weather is proving
stimulating and invigorating from
the dryness of the air. Even invalids
are finding it wholesome. Mr. Balfour
continues to improve and his intimate
friends promote his recovery. He is
cautiously and prudent. Several
men of letters who had taken refuge
in the south of England from acute
attacks of influenza, are back in Lon-
don, exhilarated by the cold weather.

The Chief Justice's View.
St. John, N.B., Jan. 16.—Frederick
Goodspeed pleaded guilty yesterday,
to breaking into and robbing two
stores, and was sentenced to three
years and three months in the refo-
rmatory. The chief justice in passing
sentence said he disagreed with the
action of the government in committing
the sentence of Higgins, and said he
believed that the law should have
been allowed to take its course.

May Yohs Gets \$5,000.

NO NEWS OF ST. LOUIS.
She Will Turn Up All Right, He
Says.

New York, Jan. 16.—"There is still
no news of the St. Louis," said Presi-
dent Clement of the American line, at
nine o'clock this morning. "I have,
however, no fears for the ship. She
will turn up all right." Notwithstand-
ing this confident expression there was
an air of nervousness in the offices of
the steamship line this morning.
Clerks were kept busy telling callers
there was "no news and in answer-
ing numerous questions by tele-
phone and telegraph. The arrival, last
night, of the steamer Laurentian,
which left Glasgow, on January 3rd,
the same date as the St. Louis left
Southampton, with the report that
nothing was seen of the big American
liner has added greatly to the uneasiness.
The Laurentian is a much slower
boat than the St. Louis. She travelled
over the route between Glasgow and
Southampton, and reached port here
on schedule time. Her captain re-
ported fair weather most of the time.
This is significant and shipping men
say indicates that the St. Louis has
not with an accident. This she says
probably a break in her machinery,
which disabled the vessel so that she
has been thrown out of her course.

There are some who think the vessel
will show up at the Azores. There is
some adverse criticism because of the
admission, by some of the line officials,
that the steamer's boilers are not
in good condition. With this fact
known it is contended that the vessel
should have been laid up for repairs
and should not have been allowed to
carry a list of passengers.

May Be On Board.
Windsor, Ont., Jan. 16.—Among the
names of the crew of the steamer
Montevideo, which is expected to
reach the Atlantic line St. Louis appear those
of A. F. Kirby and W. J. Cunningham,
and it is supposed that those are
residents of Windsor. The two men
left for Montreal, Quebec, some weeks
ago to give evidence in a horse case.
Nothing has been heard from them
since.

Rough Weather.
New York, Jan. 16.—The steamer
Montevideo, which just arrived after
the captain said was the worst
passage he ever made. The wintry
weather struck terror to the hearts of
Geneva and Neapolitans in the steer-
age and they were glad to see the
time on their knees before rudely con-
structed shrines. The Montevideo's captain
said he had come over the southern
route, but had not sighted the St.
Louis. American officials did not
believe the importance of this, how-
ever, as they said the St. Louis would
not take the southern route.

Loyalist's Rough Time.
St. John, N.B., Jan. 16.—The Fur-
nace Loyalist reached here yester-
day from London, after a voyage of
eighteen days' continuous bad
weather. On Tuesday, January 6th,
the steamer battled with a gale of
Atlantic force, sea breaking over her
deck, and it was found necessary to
use oil to quiet the sea. Her cargo
shifted and she had a list of star-
board as she came into port. Slight
damage to the deck fittings was done
by the seas.

A LAD'S ERROR.
Resulted in Killing of Three
Men.
Cumberland, Md., Jan. 16.—An east-
bound express train of the Baltimore
and Ohio railway, which left there at
4:20 o'clock, struck two freight en-
gines on the main track at the east
end of the yards. Engineer Sims, Fire-
man Morgan Smerling of the passen-
ger train and Engineer Butler of one of
the freight engines were killed. None
of the passengers were injured. A mes-
senger boy, who was in the telegraph
office threw the signal without the
knowledge of the operator, giving the
passenger train a clear track when it
should have been blocked. This caused
the wreck.

Gathering Up Remains.
Vancouver, B.C., Jan. 16.—A for-
mal inquiry into the causes of yester-
day's explosion at Northside has be-
gun. The jury viewed the ghastly
shreds of humanity and adjourned.
Sufficient scraps of the white men have
been recovered to have separate
funerals held and the Chinese also in-
terred in distinct funerals, al-
though it is impossible to distinguish
the remains of their dead. The man-
agement state that re-building will be
begun immediately.

Closing The Visit.
Montreal, Jan. 16.—The Scottish
curlers are winding up their visit to
this city to-day by participating in a
banquet in which the visitors and
Scottish bar residents of Montreal are
pitted against Canadian born curlers.
The five city clubs are re-sounding
with the shouts of the curlers and
eleven rinks are busy. The great event
in curling history will wind up with
a banquet at the Windsor to-night, at
which the Scotch team are the guests
of honor. To-morrow the team departs
for Ottawa.

Beit Is Better.
London, Jan. 16.—A despatch from
Johannesburg says that Alfred Beit,
the South African mining millionaire,
is so much better that he will start
for England at the end of this month.

BIG GROWTH
In The Trade Of The Dom-
inion.
NEW STAMPS.
LIKELY TO BE ISSUED NEXT
JULY.

A Gunner Ill As a Result Of An
Accident in South Africa—He
Will Go South—News From
the Capital.

Ottawa, Jan. 16.—The trade returns
of the dominion for the six months
ending December 31st, last, are issued.
They show a marvellous growth in the
trade of the country. The aggregate
amount was \$231,342,307, compared
with \$213,231,600 for the same time
last year, or an increase of \$18,110,
707. The trade of the past six months
is about eleven millions greater than
for the whole of the year 1900.

Sir William Mulock has had samples
of new postage stamps, with the
king's head on them, prepared and
ready to be issued as soon as the pre-
sent issue is exhausted. This will likely
be about July.

W. L. Lambkin, of the senate, who
served with "D" battery, R.C.A.,
through South Africa, has been con-
fined to St. Luke's hospital suffering
from a fresh attack of hemorrhage
from rupture of a blood vessel from
which he has suffered since the engage-
ment at Lillifentien, in which the men
had hard work saving the guns. The
doctors have ordered him south, where
he will leave shortly. "Bill" and
many friends hope for speedy recovery.

The death of Senator McCallum
makes six vacancies in the upper
house, and when these are filled the
house will have forty-two members in
a house of eighty-one, or a majority
of three.

The report that Sir Elzear Tascher-
er might become lieutenant-governor
of Quebec and intimating that he had
been offered the position and would
be willing to give up the appointment
of chief justice of the supreme court
to accept it, is denied on the author-
ity of Sir Elzear himself. The chief
justice says there is not a word of
truth in the story.

Robert Stewart has been appointed
postmaster at Milton.

REACHING TERMS.
A Divorce Granted—Income Given
Her.
Berlin, Jan. 16.—The Geneva corres-
pondent of the Frankfurter Zeitung
says he learns, from competent author-
ity, that the reports that the Crown
Princess of Saxony will return to
Austria, are pure inventions. The di-
vorce question has been finally set-
tled, and the negotiations now going
on between her lawyers and those of
the crown prince concern financial
points involved and an agreement as
to her occasional meetings with her
children. The following are the terms
agreed upon: The princess will re-
ceive an annual income of 30,000
marks (\$7,500). She claims to be en-
titled to move out of her dowry, but
it was decided not to press the mat-
ter. She was offered a lump sum of
an income, and decided to take the
latter. A divorce will be pronounced
on January 28th at Dresden. There
are conditions respecting the mother
seeing her children, which run as fol-
lows: Should she marry, or live with
M. Girou, she is prohibited from see-
ing them. Otherwise provision will be
made for meeting them at stated
times and places.

TARTE'S VIEWS.
As Disclosed Before Brantford
Board Of Trade.
Brantford, Ont., Jan. 16.—At the an-
nual banquet of the Brantford board
of trade last night Hon. J. I. Tarte
was the chief speaker. He responded
to the toast, "Our Country," dealing
with the tariff and transportation
problems. Mr. Tarte declared that
Canada had reached a solemn stage in
its history. Governments and parlia-
ments, if true to the people, would
have to consult the people's opinion.
It was his aim to unite the opinions
of all the people of the Dominion in
favor of Canada as a land for the Cana-
dian. Mr. Tarte strongly advocated an
all-Canadian transportation route
from west to east and appealed for
increased aid to harbor grants. The
proposed new G. T. R. line he declared
should be absolutely all-Canadian.

KILLED HIS FOE.
The Result of a Duel—Student
Sentenced.
Berlin, Jan. 16.—A student of the
name of Ruff has been sentenced to
three and one-half years' imprison-
ment, in a fortress, for killing another
student in a duel. The duel was a
repetition of many familiar precedents.
Ruff met his victim who was a mem-
ber of a rival students' corps in a
cafe at Karlsruhe, and picked a quar-
rel with him. A court of honor decid-
ed that a duel should be fought. The
victim was a lad of nineteen, who
had never fired a pistol. The duellists
faced each other at a distance of six-
teen metres. Ruff fired first, and his
opponent fell dead.

SHOT HIM ON SIGHT.
A Tragedy in South Carolina's
Capital.

Columbia, S.C., Jan. 16.—N. G.
Gonzales, editor of the State, and
widely known throughout the south,
is at the Columbia hospital in a criti-
cal condition as a result of a pistol
wound inflicted by James H. Tillman,
lieutenant-governor of South Caro-
lina. The shooting took place on Main
street.

Policemen Poland, immediately after
the shooting arrested Lieut. Gov. Till-
man and took him to police head-
quarters, where he was relieved of two
 pistols, the one with which he shot
Ed. Gonzales, and a second larger re-
volver from the police station where he
is taken to the county jail, where he is
to-night in full protection of the of-
ficers.

No fight or words occurred between
the men preceding the assault, and the
only attributed cause for the shooting
is that during the recent primary elec-
tion Editor Gonzales opposed Lieut.
Gov. Tillman in his race for governor,
and vigorously assailed him editorially.

During the progress of that cam-
paign Editor Gonzales in his newspaper
called Tillman a debauchee and a
blackguard, and referred to him as a
"criminal candidate," and a proven
"liar." It was this and other such
editorial expressions, it is supposed, that
led to today's assault. The campaign
occurred last August, and since the
first primary, August 26th, 1902, Editor
Gonzales has had nothing to say
about Mr. Tillman, except to com-
ment on the result of the primary.

He Is Doing Nicely.
Columbia, S.C., Jan. 16.—At 8:30
o'clock, this morning, Editor Gonzales'
physicians reported that Gonzales
was holding his own. They expressed
general satisfaction with his condition
since the operation.

FROM ASYLUM TO TOMB.
Inventor of Submarine Torpedo
Boat Released By Death.
Paris, Jan. 16.—M. Goubet, inventor
of the submarine torpedo boat bear-
ing his name, who, as announced Jan-
uary 12th, was recently confined in an
asylum for the insane, is dead.

M. Goubet's death is regarded to
be a loss to the world, as he was re-
sponsible for the invention of the
submarine torpedo boat, which he
never recovered. An English company,
which he had spent fifteen years' time,
blow from which he never recovered.
An English company, which he had
eventually held M. Goubet's patents, has
improved on them, and expects to
shortly build submarine boats on the
Thames.

BRIBERY AND TREATING.
Judgment Reserved on a Number
of Charges.
Sault Ste. Marie, Ont., Jan. 16.—At
the election court judgment was re-
served on thirteen charges of bribery.
Evidence on charge forty, that of
treating at a committee meeting, was
dismissed on the ground that while
treating had been proved it was not
shown that the committee was so
constituted as to bring it within the
act. The court is hearing evidence on
a charge, that of treating by Mor-
reault on election day.

To Make A Report.
Toronto, Jan. 16.—Alfred McDougall,
formerly solicitor to the Ontario treas-
ury, was before Judge Morgan this
morning, on charge of embezzlement.
The case was adjourned to February
20th, when the following physicians
will report as to McDougall's sanity:
For the crown, Dr. Clarke, Dr. Rich-
ardson, and A. J. Johnston; for the
prisoner, Drs. F. H. Cameron, McPhed-
ron and Ferguson.

Are Much Pleased.
Rome, Jan. 16.—Archbishop Chap-
lain, apostolic delegate to Cuba, and
Porto Rico, has cabled the vatican
that great satisfaction is felt in those
islands over the granting of his pro-
posals for their welfare, especially
about the institution of the diocese of
Cienfuegos and Pinar del Rio.

REFERENDUM VOTE.
The Official Returns Are Now
Complete.
Toronto, Jan. 16.—The official re-
turns of the prohibition plebiscite,
taken on December 4th, are now com-
plete, and show that the total vote in
favor of the liquor act was 199,611,
against 103,482, giving a majority for
the act of 96,219. Under the conditions
of the plebiscite 212,723 votes were re-
quired to be cast for the act in or-
der to bring the act into force.

Lead To A Tariff War.
Berlin, Jan. 16.—There was an un-
timed debate in the Reichstag yester-
day over a proposal to denounce most
favored nation treaties. The speeches
showed that the social democrats
were strongly opposed to the proposi-
tion. Herr Bernstein, the socialist
leader, said the whole new tariff was
directed against the United States
and Argentina. He declared that the
adoption of the proposal would lead
to a tariff war with the countries
named.
