Was Very Weak and Nervous.

Heart Palpitated—
Would Get Dizzy Spells—
Many Canadian Women Troubled in this Way—
Are You One of Them?—
If so, You Can Be Cured!

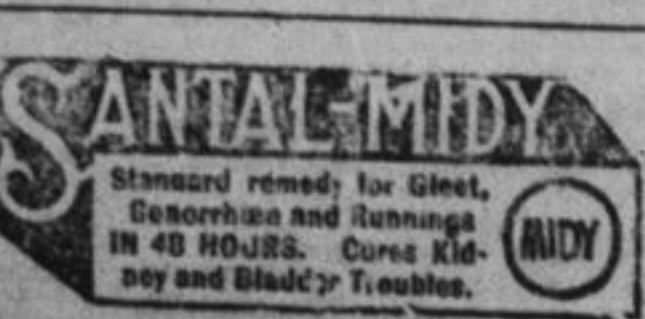

MILBURN'S HEART AND NERVE PILLS WILL DO IT.

Mrs. Denis Hogan, Hazeldean, Ont., writes—During the year 1901 I was troubled very much with palpitation of the heart, followed by a fluttering sensation and great pain. I would get dizzy, and was very weak and nervous. Being advised to try MILBURN'S HEART AND NERVE PILLS, I procured three boxes, and since taking them I have not had a bad spell, and feel better than I have for years.
Price 50c. per box, or 3 for \$1.25; all dealers or The T. Milburn Co., Limited, Toronto, Ont.

We Are Prepared Again

Better than ever, after the holiday rush, to meet and talk with any one feeling the need of properly fitted glasses. An eye error is waste energy, and when rid of, leaves only improved vision and comfort.

HIGH SCHOOL EDUCATION.

The last change in the High School Act is being discussed in the west, and without eliciting any special admiration for its efficiency. There is no provision for any contribution towards the cost of buildings, and in the case of a high school, as in Kingston, a part of the county because its chief centre, the contribution which can be exacted from the school fund will cover only a fraction of the cost of tuition, "the balance of such cost," as the Globe explains, "being borne by the towns which have already paid the full cost of establishing the schools, and the full cost, less the legislative grant, of the tuition of their own pupils." Kingston had an experience with the old law, and with that feature of it which is supposed to have undergone an improvement at the recent session. The only arrangement that can give satisfaction will provide for a contribution from the county, or its school fund, commensurate with the service rendered, the convenience of the pupils in attendance at any high school being duly considered. High school pupils should not be expected to cross the county, when they can't get the tuition they require nearer to their homes, and the county's share of their cost of schooling should be the difference between the city and county rate, which difference represents the cost of erecting and maintaining the school. The more complicated any plan of creating and dividing school funds the less probability there is of working it effectively.

CURE FOR BRIBERY.

The Whig, in a recent issue, favoured compulsory voting, and said that it seemed to be one way, and perhaps the only one, of reducing the evils of the present electoral system to a minimum. Attention has been called to the fact that as long ago as March, 1898, Mr. Rogers, who then represented Frontenac in the commons, in a speech of considerable length, held that a qualification of some kind should be necessary in the voter, but as there was practically manhood suffrage the next step should be compulsory voting. "In my opinion," said Mr. Rogers, "the poor man is not the easiest to bribe, but I do believe that one of the best preventives against the cause of bribery would be to compel men to register their votes. I would not impose a fine or imprisonment for the neglect to vote, but I put the matter in this light. The right to vote is one which every man guards most jealously. He enjoys the advantages and privileges of the laws of our country, and why should he not cast his ballot? If he does not think it worth his while to do so, or should be disfranchised for two, or three years, until he is brought to his senses and takes an interest in the affairs of his country."

Views of the Press.

It would indeed.

The inevitable conclusion.

If he has it to saw.

Oh, that's it?

A place goes begging.

A wrong system.

RAID ON FUNDS.

(Continued from page 1.)
been greatly increased in value, and that this value was equivalent to \$7,000 a year. He held that the fact that the city backed the department had enabled it to borrow money to better advantage, and this he thought was worth, \$500 a year. He figured that the rent of the office in the city hall, if charged, would be worth \$400 or \$500, and the proportion of the water department chargeable against time or officials, outside the water works, the repair to streets, etc., would add several hundred more. He figured that the city's partnership in the water works business was worth \$10,000 a year.

Nothing To Its Value.

Alderman Meek said the city had not added a dollar to the value of the water works plant. What it was it was made by the consumers and they should get all the benefit there was in lower rates and reduced debt. The city, he said, did not fix the value of its debt. The money market was determined by the old rule of supply and demand. Some time ago money was cheap, and the average interest on bonds was 3 1/2. Lately interest had come up somewhat and municipal bonds were selling to yield 3 1/2 and 4 per cent. The demand for them settled their value. If the water works debentures and the city debentures were for sale separately, the former would sell the better because its asset was marketable, and its revenues sure. They could be regulated while the assessment of the city was variable and the rate limited to a certain figure.

EDITORIAL NOTES.

The salaries are in very economic mood this year. 'Tis well. The city's finances do not permit of any extravagance or waste.

Montreal is to have a new liberal paper. Its projectors will see that it does not pass out of their possession through the eccentricity of its editor.

The president of the Montreal Sunday School Association says every college should have a department for the training of students in the technique of Sunday school work. Sensible.

It is said that sunstroke gave the late Eli Hyman, of Toronto, a special zeal for money getting. There are a good many then that would not mind the sunstroke if it produced in them the same effects.

The late M. De Blowitz will be pleasantly remembered by all press men. He was an ideal correspondent, the man who mirrored French life so ably and well in his daily letters to the London Times. His peculiar place has not been filled.

The Galt Reporter's idea is not to purchase anything from the United States and so punish its people for the suffering they have occasioned on the coal question. And he wholly without anthracite and the heat it affords? Oh, no!

There are vacancies in the senate to be filled, and when the appointments have been made the liberal majority will be very apparent. The setting of Sir Mackenzie Bowell's dictatorship is a sad event for the conservative majority.

Dr. Chown is talking again about the Methodist vote on temperance. It is wise. The church does not dictate the political life and action of its members. The Methodist vote is not in the keeping of the superintendent or of any other man.

Mr. Borden is making "adequate protection." It is a meaningless phrase. It can only be illustrated when Mr. Borden tells how he is going to apply the tariff practically, so that he may bonus the manufacturers and make them living cheap at the same time.

The scheme is advanced of having forty farmers from Manitoba visit the old land and see about 2,000 places, one man a town a day, for about six weeks. The desire is to give all the information enquirers may seek about Canada. A lot of missionary work can in that way be accomplished.

THE END OF IT.

The discussion was continued from then by Aldermen Kent, Tait, Meek, Leed, Walker and Behan, all of whom expressed themselves to be in sympathy with the protection of the water works department, and the preservation of its finances intact from those of the council.

The clause in the mayor's address was referred to the water works committee.

Exactly Suited To My Case

Says Mr. Baker, and He Voices the Opinion of Hosts of Kidney Sufferers Regarding.

DR. CHASE'S KIDNEY-LIVER PILLS.

It frequently happens that people who are cured by Dr. Chase's Kidney-Liver Pills have previously experimented with other medicines, without obtaining the desired results, and consequently a great many make use of this expression, "exactly suited to my case."
The action of this great medicine is so wonderfully prompt and direct, and the effects so marked that people naturally feel that it is particularly suited to their case. Time has proven the merits of this preparation, and consequently it has attained an enormous sale.

John Baker, Deseronto, Ont., states: "I have used Dr. Chase's Kidney-Liver Pills, and can truthfully say that they are perfect in their work. I was subject to pains in my sides and back. At times I had to lay off work, and feared that I would never get rid of the ailment which was causing my sufferings. Dr. Chase's Kidney-Liver Pills were recommended to me, and I found them to be exactly suited to my case. Since using them I have never had a return of my old troubles."

Mrs. W. Francis, 204 Colborne street, Kingston, Ont., writes: "I was in a very bad state with kidney disease in its worst form. I felt miserable most of the time, suffered from pains in the back and legs, and as I saw that I was gradually failing, in health and becoming thinner and weaker. I worried a great deal about the future. I had tried a great many kidney medicines, but did not obtain much benefit."

"A friend of mine asked why I did not try Dr. Chase's Kidney-Liver Pills. I did so, and can truly say that they have entirely cured me. I would not think of being without this remedy in the house now, as we can side it a splendid family medicine."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Mrs. Hughson, of Chicago, whose letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."—Mrs. M. E. HUNSON, 347 East Ohio St., Chicago, Ill.

Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements.

Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started. The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. Lelah Stowell, 177 Wellington St., Kingston, Ont., writes:

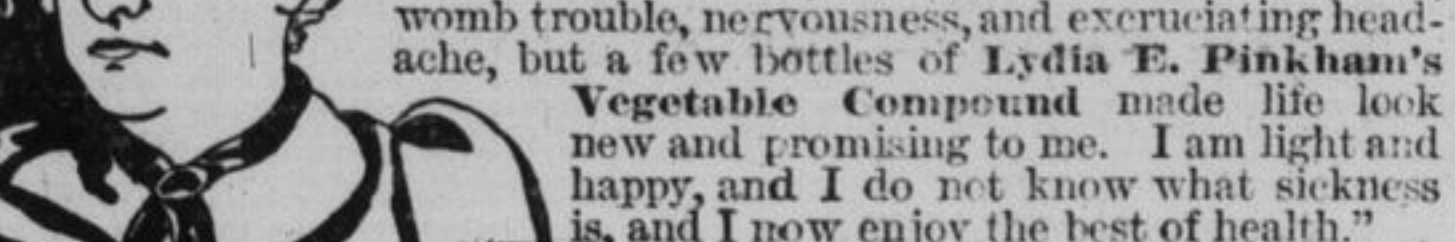

"DEAR MRS. PINKHAM:—You are indeed a goddess to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony."

"I suffered for years with bearing-down pains, womb trouble, nervousness, and excruciating headache, but a few bottles of Lydia E. Pinkham's Vegetable Compound made life look new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health."

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

Lydia E. Pinkham Medicine Co., Lynn, Mass.

Neuralgia, rheumatism, "run-down" condition from an impoverished nervous system.

Paine's Celery Compound corrects this faulty condition, true nerve food and nourishes the nervous system and restores it to its normal state.

"I have had several attacks of neuralgia. It kept on increasing, and I tried all kinds of help, and took all kinds of medicine, but I got no relief. I saw an advertisement of Paine's Celery Compound, and bought a bottle. It cured me of all pains, and I feel as well as ever before. I would not be without it if I had to pay for a bottle for it."
