LOCAL MEMORANDA.

The Daily Note Book For Whig Readers to Post Themselves By. Tomorrow in fourth Sunday after the Epiphany. General Hospital governors meet, 4 p.m. tomorrow. Attend Campbell Bros' rebuilding sale for big bargains in furniture, from 3rd Methodist church, Monday evening. On this day, long ago that notable campaigner in St. Nicholas St. Church, C. Rossiey and Hunter, evangelists, preached in St. Nicholas St. Church, p.m. Sunday. It sometimes happens that a man is so reserved in his manners that they become rusty from disuse. When two souls find they have but a single thought it is time to save up money for the furniture. Always talking shop and the woman who is always talking shopping—produce that tired feeling. Every family in town is to have a few samples of delicious Quaker Oats—enough for a breakfast for five. Watch the Quakers. It depends on what you do after you are out of bed whether early rising is beneficial. The world would be better off if some people never got up.

Feb. 1st is the day of St. Ignace, who occupies an important place in the history of Christianity, as an immediate disciple and successor of the apostles. He was a bishop of Antioch and suffered martyrdom in Rome. Also the day of St. Bridget of Sweden, whose influence in spreading Christianity in Iceland is considered second only to that of St. Patrick. She was zealous and devout that St. Patrick himself gave her a veil, and so wise that she was invited to become a member of his council. Irresistible was St. Bridget. An attempt was made to defraud her of her inheritance. "How much land do you want?" the judge asked her. "So much as my cloak will cover," modestly replied the gentle saint. The cloak spread out and surrounded like a rubber cloud till it covered the whole of the island, which became her property for life, and she became known as St. Bridget of Kildare.

CHINAWARE!

If you have not a complete Dinner Set, one that you want for a few or special occasions—it isn't likely you'll ever have another chance to get one so cheap now. Handsome decorated full sets, \$7; regular price, \$9.50. Toilet Sets, and odd pieces at alluring prices.

SEES HIS DOOM

Rev. Dr. Parkhurst On Marconi's System. WHAT'S COMING

CAN THINK WITH EACH OTHER AT ANY DISTANCE. Telepathy May Put the Wireless Wizard Out of Business—Wonderful Feats of Communication Come to Us From India. New York, Jan. 31.—Dr. Parkhurst sees the finish of Marconi and wireless telegraphy in the development of telepathy. In an interview Parkhurst says: "Mental telepathy is already a demonstrable fact, when exercised by certain individuals at short range. 'Years ago, when we had a thought' we started to convey to a friend in Europe, we put it on board a steamship. 'Subsequently a fine electric line was substituted for the steamship. And now Marconi is thinking across the

ocean by the aid of a medium a million times finer than even wire. 'By and by we shall probably be able to think across the water without going to the trouble and expense of setting up apparatus at even the shore ends of the route. 'Evidence of the existence of mental telepathy are so common and so thoroughly authenticated as to cause men to regard it as a demonstrated fact. 'Of course, at the present time such intercourse is restricted to very short distances, so far as we know. 'From India, however, have come stories of wonderful feats of communication across the country, inexplicable to the British rulers of the country. 'Recent events in certain parts of India have been made known to persons removed by hundreds of miles from the scene of these occurrences, as quickly as the tidings could be sent over.

Future Admirals To Graduate.

Washington, D.C., Jan. 31.—President Roosevelt, Secretary of the Navy Moody and other public men, including prominent officers of the navy and members of congress will go to Annapolis Monday to attend the graduation exercises at the United States naval academy. The first class composed of fifty-two midshipmen, will receive their diplomas from Secretary Moody. It is not customary to hold the graduation exercises at the academy until later in the spring, but ever since the Spanish war and the enlargement of the navy it has been found necessary to advance the date each year in order to relieve the dearth of commissioned officers in the navy.

General Booth In Dallas.

Dallas, Texas, Jan. 31.—Lads and ladies of the Salvation Army are gathered here from many points throughout the southwest to meet and confer with General William Booth, founder and head of the organization, who has arrived here from Memphis, accompanied by Consul Booth Tucker, and a staff of officers. Tomorrow the general will preach in the Dallas Open House, leaving the following day for New Orleans.

To Honor McMillan's Memory.

Washington, D.C., Jan. 31.—The house and senate will meet in joint session tomorrow to pay tribute to the memory of the late Senator McMillan, of Michigan. Eulogies will be delivered by Senator Alger, of Michigan, Senator Burrows, of the same state, Senator Henry Cabot Lodge, of Massachusetts, Senator Hanna, of Ohio, Senator Platts, of Connecticut and several other members, who were intimate friends and admirers of Senator McMillan.

Suing A Bill Poster.

Paris, Jan. 31.—The corporation of wine and distillers is suing a bill poster for nominal damages for affixing throughout Paris, posters warning the public against the evils of alcoholism, and condemning alcohol as being useful to nobody and hurtful to every one. The most interesting feature of the case is that the posters are signed by the prefect of the Seine and the director of the poor-law administration.

Blast Furnace Shuts Down.

Hamilton, Ont., Jan. 31.—The scarcity of coke has resulted in the blast furnace of the Hamilton Steel and Iron company being shut down probably for several weeks. This means not only a loss to the men, but also a big loss to the company.

PITH OF THE NEWS.

The Very Latest News Cullied From All Over The World. Proceedings have been initiated to set aside the Brampton municipal elections. F. G. Morley has been appointed secretary of the Toronto Board of Trade. The Oswego, N.Y., canal is to be enlarged. The cost is placed at \$82,000,000. George D. Grant, liberal candidate in North Ontario, has issued an address to the electors. Fire did \$5,000 damage to stocks in 20 and 22 Wellington street, west, Toronto, on Friday night. Five thousand head of cattle were frozen to death in Eastern Colorado by the recent blizzard. Frank Miller, G.T.R. locomotive engineer at Niagara Falls, died at the St. Catharines hospital. A convention of temperance workers will hold a convention to consider the nomination of a candidate. A German lieutenant, who had shot and killed a lawyer in a duel, was sentenced to the galleys for life. Bernier has received 100 barrels of flour from the Ogilvie Milling company as a contribution to his polar expedition. Rudyard Kipling was recently asked to contribute to the fund for the Cape Colony, but he declined, saying that he is no politician. During January the Clyde shipbuilders launched ten ships, aggregating 11,240 tons. Orders for about 15,000 tons of new work have been placed. The provincial fair directors, the Dominion Sheep Breeders' Association and the Dominion Swine Breeders' Association held their annual meetings in Toronto on Friday. The government of Spain intends to have a navy up-to-date. An Anglo-American syndicate is interested in the deal. No extra tax will be placed upon the nation. Ex-Secretary of State John T. McDonald, Albany, has been appointed chief justice of the Philippine Islands. He is said to be one of the ablest jurists in the United States. Mr. Frohman, the theatrical manager, has decided to give Margaret Anglin, the Canadian actress, a European trip, as a reward for the success she has achieved this season. In the House of Commons, Mr. Chamberlain received a present of a casket of diamonds from the women of Kimberley.

At San Francisco the ministers of Christian churches have passed resolutions protesting against the acceptance of the Smoot-McCowan episode, as United States senator from Utah. The McKenzie and Mann interests are seeking control of the Nova Scotia railway from Halifax to Yarmouth, and the Dominion Atlantic to continue them with their Inverness line in Nova Scotia. An enthusiastic reception at Kimberley, Mrs. Chamberlain received a present of a casket of diamonds from the women of Kimberley.

The National Review again refers to its famous story about the German emperor's visit to an American yacht, it says: "The story may now be regarded as no longer challenged in any competent quarters. It is beyond all possible doubt that the Kaiser did perpetrate the appalling indiscretion of taking Anglophobia at large in the presence of strangers, and discussing his uncle, our king, in a most offensive manner. Judging from the communications which have reached us during the last two months, this incident has made a deep impression upon our readers. The reason we lay so much stress on it is that it affords a conclusive reason why the German emperor should not be allowed to occupy the position he covets in the country of being the power behind the throne."

The current feeling of optimism respecting the Venezuelan affair is not justified by the facts. The differences between the powers are more serious than the despatches from either Berlin or Washington reveal. It suits the purpose of the German emperor to have the official organs announce that the powers are waiting for satisfactory evidence respecting the security offered by Venezuela. Premier Balfour and Lord Lansdowne are also pleased to have the public believe that a settlement is simply a matter of detail which will inevitably be worked out. Meanwhile they are making strenuous efforts to extricate themselves from the results of their own blunders in time for the meeting of parliament. A single day may witness the transformation of the situation, but the signs were not hopeful yesterday. The German emperor is raising difficulties causing delay, and playing fast and loose with United States' patience, and at the same time is holding the British government to the contract made in Sarajevo, or previously, and insisting that it must remain in the alliance until the German claims are settled.

Miss Marie Correll, the novelist, has a slashing article in 'The Lady's Realm' on the decay of home life in England, declaring that the so-called social reform is not the real aristocracy, but a "disordered wilderness of American and African scrap." Miss Correll calls the smart set gadabouts and sexless creatures, a combination of the female chimpanzee and the fashionable "Johnnie." George W. E. Russell, the writer, who was under secretary for the home department in the last Gladstone ministry, also says that the morals of society are worthy of a "poultry yard."

To Prevent Hostile Legislation.

St. Paul, Minn., Jan. 31.—The Minnesota Fraternal Association met in special convention here today with representatives present from all the leading fraternal orders doing business in the state. The meeting was prompted by a desire to discuss ways and means of blocking hostile legislation, particularly the measure drafted by the state insurance commissioner for passage at the present session of the legislature to establish a minimum basis of rates of assessments for all fraternal insurance orders doing business in Minnesota. The association is of the opinion that such a measure would benefit the old line insurance companies and the larger and stronger fraternal orders at the expense of the smaller ones.

Canada's Part

In Britain's War In South Africa. Ottawa, Jan. 31.—A supplementary report has been issued by the militia department, giving details of the organization and dispatch to South Africa of the Canadian division, South African constabulary, the second, third, fourth, fifth and sixth regiments, C.M.R. and the 10th Field Hospital, and the services rendered by the corps while in the field, including the third battalion, R.C.R., which relieved the Leinster Regiment at Halifax. Canada raised, clothed, equipped and paid a force of 8,272 men, 7,368 of whom were sent to South Africa. The expenditure on the contingents was \$1,996,567, whilst the sum of \$831,097, was paid out in connection with the Third Service Battalion in Halifax. Of the total force of 224 died and 252 were wounded, making in all 476 casualties. The number of killed was sixty-three. Thirty-one died of wounds, 127 succumbed to disease, and 218 were reported missing and believed to be dead. Of the deaths from disease ninety-three or over seventy-three per cent. were due to fever.

AWAKENING

That May Shake Up The Englishmen. TREATY TERMS. HOLDS THAT BRITAIN FAVORS UNITED STATES.

The Remarks of the Saturday Review—Canadian Opinion May Cause Trouble—Imperial Connection May Suffer Because of Concessions. London, Jan. 31.—The Saturday Review discussing the Alaskan treaty, says that the Americans have made a paper concession which is greeted in England with the usual clique that applauds the sacrifice of British, especially colonial interests, to American bluff, and accepts it as gratefully as if the original claim was rather one of right than of impudence. It scolds the reported Canadian acquiescence in the treaty and declares: "It remains to be seen what the attitude of the Canadian people will be towards this pitiful abandonment. The imperial position of the Canadian people is not so clear as it appears. The imperial connection between ourselves and the colony. Well informed Canadians anticipate an unfavorable decision, an anticipation which we entirely share. Englishmen know and care to much more who Americans think that they will one day have a rude awakening. Our ministry is doing its best to demonstrate to the Canadians that their particular interests cannot be allowed to conflict with those of the foreign powers which for the moment the man in the English street delights to favor."

The National Review again refers to its famous story about the German emperor's visit to an American yacht, it says: "The story may now be regarded as no longer challenged in any competent quarters. It is beyond all possible doubt that the Kaiser did perpetrate the appalling indiscretion of taking Anglophobia at large in the presence of strangers, and discussing his uncle, our king, in a most offensive manner. Judging from the communications which have reached us during the last two months, this incident has made a deep impression upon our readers. The reason we lay so much stress on it is that it affords a conclusive reason why the German emperor should not be allowed to occupy the position he covets in the country of being the power behind the throne."

OF GREAT INTEREST

Is a Coming College Announcement. St. John, N.B., Jan. 31.—President Trotter of the Acadia University of Wolfville, has returned from New York where he had been called to confer with John D. Rockefeller, concerning a further donation by the oil magnate to Acadia. Mr. Rockefeller gave \$15,000 to the institution some time ago. Dr. Trotter says he has an announcement of great interest to make, but will defer it until a special meeting of the Acadia board shall be called.

Favor Trans-Canada Line.

Truro, N.S., Jan. 31.—At a joint meeting of the board of trade and citizens of Truro, held yesterday, to consider the question of another transcontinental railway, a resolution was passed declaring in favor of such a road, the existing railways being entirely inadequate to the country's needs and endorsing the Trans-Canada railway as seeming to meet all requirements.

A Sudden Death.

Belleville, Ont., Jan. 31.—Mrs. John Panter, an estimable lady of this city, dropped dead, this morning, of heart disease. She had resided in this city for fifty years. A husband and five children survive, one of the sons, William, being an alderman.

The Wonderful Selling

Of men's tweed suits to order at \$10 still continues to attract buyers. Livingston's.

EVANGELISTS

Crossley & Hunter Commence Union Services Sunday, Feb. 1, in Synagogue at Methodist Church, 8:10 p.m. Union Mass Meeting, 4 p.m. Union Gathering of Sunday Schools in Brock St. Church.

CARD OF THANKS.

I DESIRE TO ACKNOWLEDGE THE receipt of \$1,000 from the Gold Fellowship association and Lodge No. 10, I.O.O.F., the sum of \$300 this morning, for the late William G. Chubb, who was lost on the Str. Banquet burn, and I desire to express my warm thanks to the lodge for the above amount. MISS EMMA CHALKLEY, Kingston, January 31st, 1903.

To Meet In Battle.

Tanquer, Jan. 31.—It is stated that after his last defeat, by the sultan's troops, Ba Hamra, the pretender, sent a letter to Fez, challenging the sultan to battle and stigmatizing him as a coward for remaining in the palace at Fez. It is said that the sultan, whose authority is daily weakening, has accepted the challenge in despair. The battle will be fought outside of Fez.

CANADA THE LOSER.

This Is The Opinion of Old Sir Charles. Winnipeg, Jan. 31.—Sir Charles Tupper, Bart., in an interview, said that he could not for a moment believe it possible that, as confidently stated by the Washington press, the treaty for the submission of the Alaskan boundary dispute to a commission contains the same provisions as those which were previously indignantly rejected by Great Britain and Canada, yet it seemed strange that with this treaty now in the possession of the United States senate the people of Canada so deeply interested should have no authentic information on the subject. "It seems to be admitted, however," added Sir Charles, "that the arbitrators shall consist of three on each side and I cannot see how Canada, after the experience of Miller, Sir Louis D'Acosta and Sir John Boyd in previous affairs of this kind, can hope to secure any position in favor of her just claim from a tribunal so constituted."

The Names Suggested.

Toronto, Jan. 31.—The Globe's Ottawa special says it is learned that the British jurists in the Alaska boundary dispute will not be appointed until after the treaty has been ratified by the Dominion parliament. The names of Justice Miller, Sir Louis D'Acosta and Sir John Boyd are spoken of in connection with the choice of a Canadian representative.

BADLY CONGESTED.

Great Need For a Bridge at Detroit. Detroit, Mich., Jan. 31.—The necessity for a railway bridge across the Detroit river, at this point, was never more strikingly illustrated than at the present time. The ice blockades have been raised for a week now but still the railways have not caught up with the tremendous mass that had piled up and thousands of cars are still held up on both sides of the river awaiting a chance to be ferried across. It is estimated that there must be at least 10,000. It is admitted that Niagara Falls is blocked with cars that the companies cannot possibly handle for weeks, and that the terminals are badly congested.

MARRIED.

NEWBORN—In Naples, on 29th Jan. John Hart, Field, and Miss Margaret McVicar, daughter of Capt. McVicar, Deseronto.

DIED.

CARSON—In Pictou, on Jan. 27th, Robert Carson, aged eighty-two years. FLEMING—At Cresco, on Jan. 25th, Charles Fleming, father of the late William Fleming, aged eighty-two years. CLARK—In Bedford, on Jan. 25th, George A. Clark, aged seventy-eight years. SHEPARD—At Gananoque, on Jan. 27th, Annie Sheppard, aged ninety years. GORDON—At Naples, on Jan. 26th, Frederick James, infant son of James Gordon.
