The suffering and pain endured by many working women is almost beyond belief.

How distressing to see a woman struggling to earn a livlihood, or perform her household duties when her back and head are aching! She is so tired she can hardly drag about, and every movement causes pain, the origin of which is quickly traced to some derangement of the female organism.

When the monthly periods are painful or irregular, when backaches and headaches drive out all ambition, when "I-can-hardly-drag-about" sensation attacks you, when you are "so-nervous-it-seems-as-though-you-would-fly," it is certain that some female derangement is fastening itself upon you. Do not let the disease make headway; write your symptoms to Mrs. Pinkham for her free advice, and begin at once the use of
