SULTAN WINS

In His Fight With The Pretender.

A LOST SAINT

HE CAN NO LONGER GET A FOLLOWING.

Additional Stories of Victories by the Sultan's Troops.—The Men of Fez Had No Idea of Leaving the Place.—Why the Women Went Away.

Tangier, Feb. 2.—There is great rejoicing here over the sultan's defeat of the pretender. It is believed that the sultan is now infinitely stronger than he was before the rebellion. Even if the pretender escaped the popular belief in his saintship will be destroyed, and he will never again obtain a following. By Hamir's previous successes are ascribed rather to the incapacity of the sultan's uncles, who commanded the imperial forces, than to his own character.

Simultaneously with the news of the rout of the pretender, comes authentic news that two of the sultan's kais had beaten the Beniwarid and Hyatina tribes, capturing and destroying all their possessions.

Cause Of Women Leaving.

London, Feb. 2.—Mr. Forwood, an Englishman, writing from Fez, under date of January 18th, records the defeat and submission of the Hyatina and Beniwarid tribesmen. He adds that the Englishmen in Fez never had any idea of going to the coast, the women went because the town was full of wild tribesmen, and that the English had never been closed at all.

A FRESH BATCH.

Of Stories of Outrages of Macedonians.

St. Petersburg, Feb. 2.—The Viedomisti, which has been publishing many stories of Turkish atrocities in Macedonia, prints a fresh batch, for the truth of which it vouches. It says that the Turkish military governor of Greece superintended the tortures and murders of two peasants, and the burning of fourteen houses. Three girls were sent to an official's harem. Troops ill-treated twenty-one women and children at the same place. They also tortured thirty-eight peasants and plundered the dwellings of Christians. A priest and five others were tortured and killed at the same place. Aged and sixteen men tortured at Doleid-gratche.

To Make Enquiry.

Vienna, Feb. 2.—At the next sitting of the Reichsrath, Prime Minister Von Koerber will be asked to definitely state whether, as a result of the recent visit to Vienna of Count Lambsdorff, the Russian foreign minister, the government entered into an agreement with Russia regarding the procuring of reforms in Macedonia, and whether joint measures were concerted in the event of the sultan of Turkey not effecting the reforms demanded.

In Honor Of Insurance Pioneer.

New York, Feb. 2.—A tablet to the memory of Morris Robinson, who was cashier of the New York branch of the Bank of the United States, when that was a great financial institution, was erected to-day by the Canadian society. Mr. Robinson, having been a Canadian by birth. The occasion was the sixtieth anniversary of the establishment by Mr. Robinson of modern life insurance in this country. The tablet, which is of bronze, is affixed to the front of the building at 56 Wall street, in which were located the original offices of the first permanent American life insurance organization.

To Be Put Into Shape.

London, Feb. 2.—A matter which is now engaging the earnest attention of the British Board of Trade is the question of improving the consular service and the system under which British commercial attaches and agents are appointed to foreign cities. This is understood to be the first move in an attempt to bring the country's public system relating to trade and commerce more in accord with the wishes and interests of business men generally.

Cannot Accept Passes.

Albany, N.Y., Feb. 2.—Attorney-general Cullen has written an opinion, in which he holds that the operation of a transportation pass to a member of the legislature is a misdemeanor; that it is acceptance by the legislator would constitute a misdemeanor and make him subject to forfeiture of his office.

A Farmer's Suicide.

Almonte, Ont., Feb. 2.—George More, a farmer, who resided in the township of Ramsey, within two miles of this town, suicided Friday afternoon. He shot himself in the head and died immediately. No reason is given for the act, which was a deliberate one. He was thirty-five years of age and was married.

Rise in Canadian Bread.

Montreal, Que., Feb. 2.—The price of bread in Montreal was increased one cent to-day. The baker's union has advanced to the prevailing high prices of flour, wood, coal, and other materials used.

STEEL INDUSTRY GROWS.

Production of Nearly 70,000 Tons Last Year.

Toronto, Feb. 2.—The steel industry in Ontario, according to bureau of mines reports, took a big jump last year, the output having been 68,802 tons, valued at \$1,610,000, compared with 43,471 tons, valued at \$377,280, in 1901. The difference was largely due to entry of the Sault Ste. Marie works into the field. LONDON BABY HORROR.

Trial Leads to Disclosure of Wide-spread Traffic.

London, Feb. 2.—The recent trial of two women named Sach and Walters, for the murder of infants, which had ostensibly been sent to them for adoption with handsome fees by rich women in the west end, and the disclosures in connection with that horrible traffic, have laid bare the details of an individual case in a widespread system which is in constant operation in London.

These two women will be hanged, in all probability, but there are many more pursuing the same inhuman practices.

It is terribly significant that, while previous to the arrest of Mrs. Sach and Mrs. Walters the police in all parts of London had been finding dead babies at the rate of about one a year, since their notorious case was discovered there has been a marked falling off.

WEATHER PROBABILITIES.

Toronto, Ont., Feb. 2.—Cloudy and a little milder Tuesday, comparatively mild; light snow or sleet.

SEND BACK THE CUP.

This Is What The Captain Recommends.

Montreal, Feb. 2.—Capt. Boon, of Montreal Hockey Club, states that if his club wins to-night's match with Winnipeg and retains possession of the Stanley cup, he will recommend to the committee of the club that they send the cup back to the trustees. He considers that Mr. Ross, and the trustees, have not properly administered his trust and that the cup has been a detriment instead of a benefit to the game. On account of being compelled to play the cup matches in the middle of the season, they stand the possibility of having their men disabled, thus spoiling their chance of winning the league championship.

WHEN YOUR COSTLY WATCH

Is out of order you have it regulated, you don't at once throw it aside. Why, then, when your bowels are out of order, do you treat them as useless?

That is precisely what it means to take violent cathartics. They do not regulate the bowels, but take their work away from them, debilitate them, and make you more constipated than ever.

You had far better throw away your good watch than treat your bowels roughly. You can get another watch, but you cannot renew your intestines.

The only cure for Constipation is a gentle laxative with tonic action.
