The Other Half

Half the children in the world actually need Scott's Emulsion. The other half would be benefitted by it.

The lack of proper nourishment in a child's food is responsible for its failure to thrive and grow as it should.

What can be done for such children? Give them Scott's Emulsion. It is so palatable and acceptable that children like it.

So-called wines, cordials and extracts of cod liver oil should always be avoided.

SCOTT & BOWNE, 55 Front St., W., Toronto.

EDUCATIONAL SCHOOL OF ART. Classes will be resumed after vacation, on MONDAY, January 8th, 1906.

THE FARMERS HAD A GOODGATHERING AT BARRIEFIELD.

Profitable Addresses Delivered by Messrs. Stonehouse and Stevenson - A Pleasant Evening Meeting.

Farmers' Institute meetings were held in the town hall at Barriefield on Saturday.

Mr. Stevenson, who was the first speaker, declared that he and Mr. Stonehouse were not professors from colleges.

Mr. Rogers Thanks The Press. The chairman requested D. D. Rogers, ex M.P., to address the meeting.

The Dairy Cow. This cow, he said, was another subject discussed by Mr. Stevenson.

Foods And Milk. James Stonehouse was the second speaker, and his subject was "The Relative Value of Foods for Feeding Pigs."

The Evening Session. The evening session saw the hall almost overflowed, a large number of ladies being among the audience.

By a chant, the speaker showed the relative portions of these constituents in each food.

Mr. Stevenson then took up the subject of "Seeds" - a subject which the department of agriculture made com-

palatable, succulent and easily digested. It is the natural food and the other food we give cows should be as nearly like it as possible.

Mr. Stevenson, who was the first speaker, declared that he and Mr. Stonehouse were not professors from colleges.
