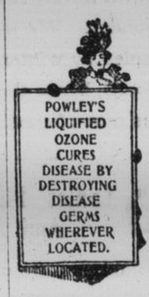
BANISH YOUR RHEUMATISM

W. A. Andrews Banished His When He Was So Bad That He Had Lost Twenty-five Pounds and Was a Complete Wreck.

Hobbling Around on Two Canes He Commenced to Take Powley's Liquified Ozone, Which Instantly Destroyed the Disease Germs.

In Two Days His Appetite Returned, His Sleep Was Natural and Restful, His Pains and Aches Vanished and He Threw Away His Canes.



"Last August I was attacked with severe muscular rheumatism. So bad was this attack that I called in my doctor, who had to administer injections to allay the pain, after which he put me through the sweating system. He attended me well and faithfully for five weeks. When I got up I was compelled to use two canes to get around the house. During all this time I lost about twenty-five pounds in weight; in fact I was a complete wreck. My appetite and sleep left me. I tried a number of good tonics to brace me up and give me an appetite, but none of them helped me.

"About this time my daughter commenced taking Ozone for a chronic sore throat and quinsy, from which she had suffered for years. In a short time she was completely cured of this troublesome disease. So effective was the preparation in her case that I commenced taking it myself, and in two days' time my appetite returned and my sleep became as good as ever. All the pains and aches had vanished by the time I had started on the second bottle, and I threw away my canes. Ozone toned up my system and I became a new man. I gained rapidly in flesh, as all my friends can testify. I look well and enjoy as good health now as ever I did in my life.

"(Signed) W. A. ANDREWS,
"12 Elm St., Toronto."

W. A. ANDREWS.

Ozone Acts Rapidly and Thoroughly.

It is conceded by medical men that the cause of nine-tenths of the disease from which people suffer is disease germs. Powley's Liquified Ozone acts rapidly because it immediately attacks this cause. It acts thoroughly, because it eradicates every trace of it.

In a nutshell, Powley's Liquified Ozone cures disease by destroying the disease germs that cause it. It is especially beneficial in cases of rheumatism and will give relief and effect a permanent cure in the very worst cases.

Powley's Liquified Ozone is sold only by reliable dealers—never by fakirs or peddlers. Price 50 cents and $1.00 per bottle. Our book on Rheumatism free on receipt of name and address.

THE OZONE CO., Limited, Toronto, Ont.

A Guaranteed Cure

For All Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys:

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three to six bottles cure all kidney and permanent cures. If not relieved and cured, you waste no money."

Hoag, the druggist, Princess street, Kingston, Ont.

Geo. W. Mahood, druggist, Princess street, Kingston, Ont.

W. H. Medley, druggist, Princess street, Kingston, Ont.

H. B. Taylor, druggist, Princess street, Kingston, Ont.

There is a tonic and stimulant quality to the MAGI CALEDONIA WATERS: good for all sorts of people. Sold by best dealers everywhere.

OUR NEIGHBORS

WHAT WHIG CORRESPONDENTS TELL US.

The Tidings From Various Points In Eastern Ontario — What People Are Doing and What They Are Saying.

Oso Station Notes.

Oso Station, Feb. 13.—The party at F. W. Kelsey's on the 11th, was a decided success. Lahzey Bourk, Middleville, is visiting friends here. John A. Bourk, on the sick list, is slowly recovering. Albert Chambers, North Gore, is visiting friends here. The farmers are taking advantage of the good roads by drawing cordwood and logs on the K. & P. banking ground. Mrs. Hughes, Maberley, was visiting friends here.

Lansdowne Locals.

Lansdowne, Feb. 16.—That old favorite play, "Ten Nights in a Bar room," was put on by the Sons of Temperance, Wednesday evening, in the town hall, to a crowded house. All admitted that it was very cleverly presented. A. J. Watson has secured the position of attendant in Rockwood Asylum. He left last week to assume his duties. Joseph Steacy, Winnipeg, is visiting this section, after an absence of several years. Mrs. R. T. Allen has moved into D. McFadden's house. A. Robinson is ill in the hospital, Brockville. All wish for his speedy recovery. G. O. Redmond is laid up with a bad attack of sciatica.

Parham Paragraphs.

Parham, Feb. 16.—Box socials and surprise parties are the evening enjoyment of the people. Peter Richie has been out hunting for a week and has had good success. Revival meetings are still going on in the Methodist church, conducted by Mr. Chamberlain and Mr. Ayke. The Oddfellows held an oyster supper and degree meeting Wednesday last. A number of brethren from Westport were up, and by all appearances spent a very enjoyable evening. Miss M. Godfrey and Miss Ina Lake spent Sunday at W. D. Black's; Mr. and Mrs. D. C. Snider at D. Goodfellow's; Miss Black, Westport, at W. Black's, Sr.; R. Butterill at G. Howe's; S. Salsbury, Kingston, at D. Goodfellow's.

Smallpox At Bloomfield.

Bloomfield, Feb. 16.—About ten days ago small-pox broke out near here at the home of John Miller, his wife being affected with the disease. A doctor from Toronto has been in attendance since the outbreak, and no new cases have made their appearance. Mrs. Miller is recovering, although the case was of very violent form. All those exposed have been vaccinated and also a number of others. Jonathan Talbott moved last week to his newly purchased home here. He sold his farm stock and other articles at auction to-day. Owing to the warm weather very little wood is being cut in the swamp. Wilfrid Burr was in Hamilton recently, where he purchased a residence and will move his family there soon. He has sold his store to Abraham Saylor. The Echart family of bell ringers were here and delighted all with their entertainment. At a meeting of the board of health a resolution was carried making a general vaccination compulsory if a new case of small-pox makes its appearance.

May Remove To Algoma.

Addressburgh, Feb. 14.—Henry Rut the intends leaving this week for Lee Valley, Algoma, to look over the country. If the land suits him, he will sell his farm here and remove west in the spring. Dozens of families from this locality are located in Lee Valley, where they are doing well. Norman Hawes was in Brockville one day last week for a load of feed. P. W. Andress, ill, is able to be around again. Thomas Dier is drawing timber from Sand Bay; he will erect a new barn. Edward Hollingsworth is hauling lumber and shingles from Brockville for his new barn. David Seaman, Rockport, has been carrying the mails to Mallorytown, in place of Arthur Dickey, who is not able to do so on account of scarlet fever. David is a kind and obliging carrier, and every man along the route is his friend. A number from here attended the I.O.O.F. "At Home" at Mallorytown on Friday night, and pronounced it one of the best entertainments ever held in the village. An orchestra from Brockville furnished music for dancing and a number of outsider entertainers were present. The spacious hall was filled to the doors.

From Busy Colebrook.

Colebrooke, Feb. 12.—The Ladies' Aid held their tea meeting last night. Owing to the stormy evening there was not a large turnout. Herchimer Aylesworth, Deseronto, occupied the chair, and made an exceedingly jolly and entertaining chairman. A very pleasant evening was spent despite the rainy weather, and about twenty-five dollars was cleared. A five and ten cent social will be held Friday evening. Word was received here last week of the death of Seth Lyon, an aged resident of this place, who has been living with his daughter, Mrs. Robert York, Elgin, since the death of his wife, and his death was expected by many. Deceased leaves three daughters and one son. A pleasant wedding took place at the parsonage on Wednesday, February 11th, when Miss Nora Husband and Mr. Townsend were united in holy wedlock by Rev. W. H. Buckler. The young couple have the good wishes of the community. A very pleasant party was given at M. Huffman's last Friday evening. About eighteen couples were in attendance. A very jolly evening was spent, and none went home until the wee sma' hours. Driving parties are now raging. A very enjoyable one was given on Monday evening, when after a very jolly drive the light-hearted youngsters partook of a dainty luncheon, which was served along "Hallelujah Avenue." The enjoyable outing will no doubt be followed by many more. G. Lucas had the misfortune to again injure his foot. He was unloading logs when one rolled on his foot, bruising it very badly. Mr. and Mrs. Wellington Browne are rejoicing over the birth of a daughter. Arthur Hart had the misfortune to fall and hurt his back last week. At the time of writing he is much improved.

Philippsville Facts.

Philippsville, Feb. 16.—Roads are in first-class shape for teaming. The guests at George Whitmore's, from Napanee and Lyn, have returned home. Mrs. Bulger, Westport, Mrs. Murphy and son, Brewer's Mills, Mr. and Mrs. H. Fleming and Mrs. Grey, Chaffey's Locks, were visitors at Mrs. Betsy Kennedy's last week. Miss L. M. Blackburn, Montreal, is the guest of her aunt, Mrs. Phelps. Joseph Halladay has moved from Plum Hollow to Ludbrook's Corners. Charles Perr has moved into the Cliff house, on Maple Ridge. J. Lammin has moved his feed-harvesting mill to a more convenient place on the Stone road, where he will be found in the future. Willson Chase is advertising for a man to run his brickyard the coming season. He is also offering for sale two brickyards. The Delta Juniors cleaned out the Philippsville Juniors at the hockey match on the latter's rink on Saturday. John Downey has hired Clayton Dewolf to assist him in working his large farm for the next year. Revival services in the Baptist church this week. W. H. Ludbrook has two boarders for the winter and spring months. A goodly number from here attended the theatrical demonstration exhibition at Delta on Friday evening last and report a good play. P. A. Alford has sold his half interest in the Philippsville cheese factory to Elmer Halladay, Elgin. Mrs. Lappin and Miss Landon, Malcombe, are the guests of Mrs. Lappin's mother and sisters here. John Goodkin is supplying a number of our citizens with wood. George Whitmore will cut his wood this week with Safee's brothers' saw.

PECULIARISMS.

Things That Will Interest Many Persons.

The Mexican of average size wears a number six boot.

All the blood in a man's body passes through his heart once in every two minutes.

Thirty-nine thousand six hundred and three varieties fungus are known to botanists.

Cats and other beasts of prey reflect fifty times as much light from their eyes as human beings.

Miss Anna Brown, who is just entering on her 105th year, has lived all her life in the same house at Market Harborough, Eng.

Ducling is made a safe pastime by Dr. Devillers, of Paris, who has provided a kind of chalk bullet that leaves only a harmless mark where it hits.

Medicine as profession for women is constantly growing in popularity in London. Women now holding medical degrees in Great Britain number more than 500.

A bacteriologist recently made microscopical examination of the washings from a woman's train worn on the streets of London, and found it to contain 10,672,000 microbes of disease.

Jacob Judy, of Bloomington, Ill., enjoys the distinction of having voted for twenty presidents of the United States. His first vote was cast for John Quincy Adams, in 1824. He is ninety-nine years old.

Two churches in Neodsha, Mo., have offered their bells for sale. The remainder of the churches have none. The church trustees and the pastors agree that the bells are an unnecessary annoyance.

Fish kept in filtered water will die. That is because the food has been taken out of it. The food, however, is what makes unfiltered water dangerous as a beverage to human beings.

In France there are 15,319 women employed as gatekeepers at the rail road crossings. They get a very small salary, but the railroads provide each one with a house and a small garden patch, rent free.

An old painting representing the apostles recently came to light in Belgium, where it was bought for $10. It proved to be a genuine Albert Durer worth $200,000, stolen from the royal gallery at Munich, years ago.

It has often been stated that sixty miles an hour was the utmost rate at which a swallow could fly. Recent experiments between Compeigne and Antwerp proved that a swallow in a hurry can cover 125 miles in an hour.

A man arrested for theft at Lyons, France, was found to be tattooed in the most extraordinary manner. He had a perfect picture of the assassination of Henry III., by Jacques Clement, on his chest, and an equally good one of the death of Carnot on his back.

Lord Amherst, of London, collects crowns, and has a cabinet with a number of fine specimens of discarded skypieces, including the crown worn by Charles II. at his coronation, the crown worn by George IV. and the one made for Queen Adelaide.

The vomiting of fishes from volcanoes is more startling than mysterious. In the interval between eruptions—often a century or more—the craters become filled with fish-stocked lakes, and the next eruption blows out the water and its contents.

In a recent contest for suggesting the best way to make 85 grow, the prize was awarded to a man who advised that the amount he invested in eggs for hatching. He cited, among other things, the case of a boy who exchanged a penny for an egg, and this grew, successively into a hen, six chickens, a pig, a calf and a pony, with bridle and saddle.

"B didn't own a dollar in the world, sir."

"Put everything in your wife's name, I suppose?"

Price Of Coal Raised.

The price of coal may be raised, but Abernethy is selling boots and shoes cheap enough.

IN THE SOUTH.

A FRONTENAC BOY WRITES FROM OKLAHOMA CITY.

Cowboys Ride Into Banks And Saloons—Roping the Steers — A Lively And Growing City Described By a Former Latimer Boy.

Oklahoma City, Feb. 9.—(To the Editor): While sending my subscription to you I thought it possible you would like to hear from this place, which is fast becoming the centre of the southwest. The town was settled in the run in eighty-nine and was situated on the Sante Fe railroad, after which came the Choctaw, Okla and Gulf railroad, (at present the Rock Island system), then the 'Frisco, next the Okla & South Western, and at present the Katie Flyer is building into town. All of these help to make it a good wholesale town, and enabled the dealers to do $8?,000,000 of wholesale business last year. There are four large public schools building, all of which has from one to four additional class rooms, besides the separate and colored school. The M.E. University, which is to be of importance, is being built. There are so many children attending school that in some classes they are allowed but half the day, to allow another class the balance of the day.

There are 27,000 inhabitants here, a growth of 7,000 in the last year. The streets are being paved and a street car line put in, the first car running on Sunday last. From general appearance it has been put in to stay. On February 4th, at about 6 a.m., the Lion store, one of the largest dry goods stores in the city, was noticed to be on fire, and as the local fire engine was out of town for repairs, and the department weak, the store was destroyed before assistance could be had from Norman and Guthrie. In the meantime fire broke out in another part of the town, and destroyed four stores and a saloon. In the excitement two firemen were seriously, if not fatally, injured, and a trainman while loading a fire engine at Guthrie was run over and his head severed from his body. The fires in both cases started by the explosion of a furnace and of chemicals.

This being a good cotton country there is a corn press and oil mill, at which about 7,000 head of cattle are being fattened on cotton seed meal. This food is very fattening, but has a tendency to render the animal blind after a time. Otherwise they are uninjured, and, being fat, are shipped to the great slaughter houses of Kansas City, where nothing is lost but the bellow of a cow and the squeal of a pig.

The cattlemen of the southwest held their annual convention at this place on February 10th, 11th and 12th, which drew crowds from the surrounding states and territories. Subjects of interest to cattlemen were ably discussed by men who have made a success at the business. The afternoon performance in the park was quite interesting. The United States cavalry and artillery of Fort Sill did some nice work. The cowboy band, of Mulhall, dressed in their sheepskin pants, leather jackets, long boots and broad-brimmed hats, looked very attractive and rendered some fine music. The roping contest was the most exciting. Twenty-four of the wildest steers to be found in Texas were turned loose, one at a time. At the drop of the flag they were followed by a man on a horse who roped and threw the steer. The horse, by keeping the rope tight, kept the steer from getting up, while the rider tied his feet. The first prize was won by J. Hopkins, of Mulhall, who roped, threw and tied his steer in thirty-four seconds, next best time being forty-three seconds. Some of the steers ran through the crowds of spectators, closely followed by the pursuer, who, soon captured and tied them, it being impossible for the police to keep the crowds back. The gate receipts showed that over twenty thousand people were admitted to the ground. No one was hurt. The cowboys had lots of fun, and amused the crowd also by roping the many dogs that ran after the artillery and cavalry.

Miss Lucilia Mulhull, a young lady not out of her teens, daughter of Col. Zack Mulhull, who was manager of the sports, wears divided skirts, rides astride, and ropes and ties her steer. She also gave an exhibit of roping and iron-horse breaking, her time of roping being one minute. The first prize was $100; second, $75; third, $50. The specials amounted to several times that. The Jones Saddlery Co. gave a $100 saddle, while an endless number of bridles and boots were also given. The cowboys are good fellows. They came for a time and had it, winding up with a ball at the Lee hotel.

Oklahoma City is in the midst of a fine farming and fruit country. Peaches, grapes, and berries do exceedingly well. Potatoes grow well but are hard to keep. The sweet potato is raised and kept without difficulty. The wheat is all of the winter wheat variety, which keeps green and affords excellent pasture all winter, there being no frosts severe enough to kill it. Three light snowstorms are all we had this winter, and they lasted only a few days. The thermometer rarely goes to zero, and when it does it is only for a day or two, and then the weather is fine again. The heat in summer is felt very little on account of the steady south west wind, and a prostration from heat is never heard of. Oklahoma City was never more promising than at present, there being more building than ever before in its time. Like the many churches Oklahoma City has her share of saloons. Standing on the corner of Broadway and Grand avenue you can count twenty-six saloons and red light houses. The saloons did a great business when the cowboys were here. The boys rode the streets and emptied their six-shooters. They rode into the State National bank, while the band played. They rode into the best hotels ordered drinks to be set up and drank while mounted. There were several shooting cases, but that is a common occurrence. They were told that it was a rough way to behave. The only reply they made was that that was the way they used to do in the seventies.—FRANK BRADY, formerly of Latimer.

Sunlight Soap freshens and preserves Linoleums and Oilcloths.

SUNLIGHT SOAP

If you wash linoleums and oilcloths with ordinary soap you will find the colors will fade. You can preserve their colors and make them last a long time if you wash them with Sunlight Soap. When dirty, wash with warm water and Sunlight Soap, rinse with clean water and wipe completely dry with a soft cloth. Use Sunlight Soap throughout the house. It makes homes bright and hearts light. It contains no impurities or free alkalis to injure the most delicate fabric.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands.
