

COMFORT COUNTS
At this season more than at any other time of the year. A chilly room will induce a grippiness, and lead to certain illness. You need a heater which will keep the temperature steady, that costs little to own and to operate.

A PARTY WITHOUT CONSCIENCE.
The Whig has been informed by the Montreal Gazette that the conservative party was honestly committed to the Manitoba school remedial act as a matter of duty and conscience.

IN THE MATTER OF the Estate of Mary Elizabeth Sellers, of the City of Kingston, spinster, who died on or about the 8th day of February, 1903.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1897, Cap. 129, and amending acts, that all creditors and others having claims against the estate of the above named person respectively are required to send by post, prepaid, to Messrs. Walkem & Walkem, of the City of Kingston, solicitors for the executors and administrators respectively of the said estate, their Christian and surnames, addresses, and descriptions, the full particulars of their claims, a statement of the securities, if any, held by them.

Reconstructed under Sir Charles Tupper, the government went to the country and to defeat, for the electors had become disgusted with its fencing, on the school and all other questions, and lost all confidence in it.

Mr. Foster a free lance in parliament? Nonsense. He may feel like pitching into the men who have been unkindly to him, who feel no love for him now and no desire to help on his election, but he's a Tory, and he can stand anything for the party.

PRACTICE AND PIETY.
A life teaches more effectively than a sermon. A good man may lay down sound principles for the guidance of himself and his fellows, but if he act without regard to them, and contrary to their import and meaning, his teaching is in vain.

WHAT PAPERS SAY.
Not By Any Means.
An Easy Expedient.
The Globe says that the attitude of Sir Wilfrid Laurier's biographer toward his subject is "frankly one of admiration," thus exploding the rumor that the two gentlemen were intimately acquainted.

He Should Change.
The reports from the riding indicate that Mr. Hugh Clark will not be elected in Centre Bruce if he should be a candidate. The electors will not be caught napping again. Clark is a good fellow, but ought to be a Liberal.

Money in Insurance.
The British marine insurance companies in 1901 made a profit of 14.3 per cent. on the premiums received. If all they say about the St. Lawrence route is true, it is apparently the only thing which prevents them from growing rich beyond the dreams of avarice.

to his accumulations is as intense as ever! The Ideal Man came to earth in order to teach men how to live. He passed through a varied experience in order to demonstrate that he did exactly as he taught. His example should be followed at least by all teachers of our holy religion, whether they be millionaires or menials.

EDITORIAL NOTES.
Premier Balfour is not recovering his physical strength and power. His retirement from the office of first minister seems to be a foregone conclusion.

Was it necessary to send the samples of water to Toronto for analysis? It seems like a reflection on the boasted eminence of our educational facilities.

The Liverpool electric tramway, operated by the city, is not coping with its. Its proportion of expenses is too high. Municipal bodies cannot sometimes manage things with the economy of the private corporation.

Hon. Mr. Davis, the liberal candidate in North York, is alleged to be promoting his election by kissing the girls. And he a married man of many years' standing and a churchman. Who would have thought it!

The conservative candidate in North Ontario is one of the aggregation of men whom the Kincaid Review said they could run a caucus but not the country. Has he improved in character and in capacity while out of parliament?

Mr. Wyndham's bill, for the promotion of peace in Ireland, for the settlement of difficulties between landlord and tenant, is likely to become law. In which case Mr. Wyndham will become one of the most successful legislators that Britain has produced.

The Jews are the healthiest people in the world, and the longest lived. Their manner of life, their generally abstemious habits and methods of selecting and preparing their foods, are very much in their favour.

Struck Rock Bottom.
Ex-Major Ames of Minneapolis, who for years was the head of a ring which looted the city, has been arrested in a distant city, a wreck mental and physical. He has found that the way of the transgressor is hard.

TALKING OF HOCKEY.
Sayings and Comments by Captain Charrand.
Rink, league, ice, stick, hard-checking, forwards, points, covers, goals, nets, about charges, swift skating, off-sides, referees, whistles, megaphone, rosters, cheers, boots, college yells, girlish shrill screams, as many words which mean the hockey game.

Hockey is still very fashionable, but I am afraid it will in time fall into discredit for it is getting too popular. Popularity always kills a game, for fashion is the monopoly of a few.

"Right enough, though rather doubtful, when this happens between colleges having any number of students to pick from. But certain institutions are handicapped in such a course. The Royal Military College, a seat of fine thoroughbred sportsmen, have yearly eighty-five men, whose ages average about eighteen. They put in the field two teams, intermediate and junior. The schedule is invariably laid down so as to make the intermediates face each other, before the seniors have done so.

"This is legal according to rules, but it is nevertheless unfair. These rules should be altered and members of each series appointed for the season to play only in their class. All fair-minded sportsmen will certainly approve of this suggestion, and even those who now take advantage of existing rules, are the first to acknowledge the soundness of such a proposition.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND
I Did Not Feel That I Could Walk

"DEAR MRS. PINKHAM:—It is with thankfulness I write that Lydia E. Pinkham's Vegetable Compound has been of the greatest help to me. My work keeps me standing on my feet all day and the hours are long. Some months ago it didn't seem as though I could stand it. I would get so dreadfully tired and my back ached so I wanted to scream with the pain. When I got home at night I was so worn out I had to go right to bed, and I was terribly blue and downhearted. I was frequent and the flow was scanty, and I was pale and had no appetite. I told a girl friend who was taking your medicine how I felt, and she said I ought to take it too. So I got a bottle of Lydia E. Pinkham's Vegetable Compound and commenced to take it. It helped me right off. After the first few doses menstruation started and was fuller than for some time. It seemed to lift a load off me. My back stopped aching and I felt brighter than I had for months. I took three bottles in all. Now I never have an ache or pain, and I go out after work and have a good time. I am regular and strong and am thankful to you for the change. I recommend Lydia E. Pinkham's Vegetable Compound whenever I hear of a girl suffering, for I know how hard it is to work when you feel so sick."—Miss MARY KERRIS, 553 9th Ave., New York City.

Miss Amanda T. Peterson, Box 131, Atwater, Minn., says: "DEAR MRS. PINKHAM:—I hope that you will publish this testimonial so that it may reach others and let them know about your wonderful medicine. Before taking Lydia E. Pinkham's Vegetable Compound I was troubled with the worst kind of fainting spells. The blood would rush to my head, was very nervous and always felt tired, had dark circles around eyes. I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound and am entirely cured. I had taken doctor's medicine for many years but it did me no good. Please accept my thanks for this most excellent medicine which is able to restore health to suffering women."

Never Too Late To Cure
Stricken With Paralysis Eight Years Ago Knapp Comes To Death's Door

POWLEY'S LIQUID OZONE CURES DISEASE BY DESTROYING GERMS WHEREVER LOCATED.

Now, in order to accede to a total cure of such a fatal affliction, we have two causes, either the causes of Higher Powley's suit of happily having a small bottle of Liquid Ozone taken, hope of curing paralysis, effect on the system. I have since seen from the use of this earnestly recommended to all sufferers.
