PROPERTY OF THE COMPANY

This Company has secured 10,000 acres of the choicest wheat lands in Assinibofa; Canada, having paid to the owners in addition to cash, 60,000 shares of its Capital Stock, for which the owners are completely equipping the property with all the necessary buildings, steam plows, steam threshers, drills, waggons, tools, fences, and every thing necessary to operate the said 10,000 acres. The Company's property will always be equipped with all the latest im proved necessary machinery to pro-

duce wheat at the lowest cost. It is the intention of the Company to have its own elevator, of capacity sufficient to store its entire production, thus en abling them to take advantage of the highest market prices from time to time. The market for wheat is unlimited The Company also has an option on 10,000 additional acres of the same character of wheat land as the 10,000

acres above mentioned, the propert y being located seven miles from the Canadian Pacific Railway, where large elevators are ready to receive the product. This is an investment that will enhance in value as time goes by, not only from the large production of wheat but the increased value of the Company's lands from year to year.

DIVIDENDS

Dividends of 15 per cent. per year, it is estimated, can be paid semi-annually, December 1st and June 1st of each year. Outside of the amount paid in dividends, the surplus earnings will be accumulated, and will either be divided among the shareholders as ex tra dividends, or used to purchse new wheat territory; or be otherwise employed as may be hereafter determined. Send for the illustrated prospectus and maps of the company's property, which will be mailed free on request.
