LARGE MEETING

OF KINGSTON LABOR EMPLOYERS HELD.

An Employers' Association to Be Formed — Addresses By Mr. Du Brul, Cincinnati, and Mr. Day, Toronto.

A large meeting of Kingston employers of labor was held in the Whig Hall last night to organize. G. N. Chown, vice-president of the board of trade, was called to the chair. He announced that Ernest D. Du Brul of Cincinnati, vice-president of the National Metal Trades' Association, and E. W. Day, secretary of the Employers' Association, Toronto, would shortly arrive by the G. T. R. train from the west to address the meeting.

Among those present were Cornelius Bermingham, John Hewton, G. N. Chown, W. H. Macnee, J. Jenkins, A. D. Harold, H. Hunter, A. Abernethy, H. Youlden, H. D. Bibby, M. Sullivan, C. Selby, F. W. Spangenberg, George Sears, John McKelvey, M. Mallen, R. Taylor, Prof. Cappon, J. Morgan Shaw, J. Nugent, W. McCartney, J. McD. Mowat, E. Stacey, James Redden, B. W. Folger, W. B. Dalton, M. Kirkpatrick, H. Wilkinson, James Tweddell, Z. Prevost, H. Rutan, T. Milo, T. Langdon, A. McMahon, A. Hopgins, C. Livingston, W. J. Chapman, T. Carter, J. R. Black.

John McKelvey moved, seconded by James Nugent, "that it would be in the interest of the employers of this city to form an association to be called the Employers' Association of Kingston, its object being the protection and advancement of our interests and the prosperity of the city."

Mr. McKelvey said the main object of the association would be to avert strikes. The Kingston labor employers were not united, in fact they were almost unknown to each other. An industrial association would be very helpful. He said he had employed labor for the past thirty years, and seldom had the slightest trouble arisen. The trouble with employees generally arose when they allowed outside influence to prevail. He had no objection to unions, but he did object when union men refused to listen to reason. The article by Prof. Cappon in Monday's Whig was full of good advice, and should be read by every labor unionist.

Mr. Hewton was heartily in support of the movement to establish an association which would result in lessening labor troubles and boom the city. Kingston had every advantage, and yet it didn't seem to prosper. Therefore, it was the duty of the business men to get together and discover what the trouble was.

M. H. Claxton stated that the time had come when the labor employers must organize for their own interests. They could then more easily avert labor troubles.

B. W. Folger said that if the merchants would hold together much trouble would be prevented. He was in favor of unions, but there seemed to be too much boycotting. With a strong merchants' association, if a strike did occur, it could be speedily settled.

Mr. Chown wanted it understood that the proposed association was not being formed in opposition to the labor unions. The time had simply come when employers of labor must organize, not only for their own good, but also for the welfare of their employees. His idea would be to divide the association into sections, or trades, just as the labor union men had done. There was great need, he claimed, of the employers coming more into sympathy with one another.

M. Sullivan declared that the association's object would be to oppose the unjust demands of the labor unions, which were now assuming an attitude beyond all reason.

Mr. Du Brul, having now arrived, was called upon. He said that the question of handling labor was a question of government. Labor men had been compelled to organize themselves, on account of unfair employers, and therefore the governmental relations between employer and employee had changed greatly in recent years. To-day, employers couldn't deal with their men individually as formerly, as the men were members of unions, and under one great central organization. So that when one employer's employees united with a competitor's employees, he was placed at a disadvantage. Organized capital (or organized employers) was being developed to-day in order to handle organized labor. Its power is seen at once, for when there is organization more attention is paid to it than to individual effort. Labor unions were essential, but they had become so oppressive that the employers were compelled to organize to balance the labor power, and to correct its oppressive methods. The employers were not uniting to oppress, but to secure their rights.

The great mass of labor unionists want to be fair, and are not responsible for the unfairness which prevails. The trouble lies in the power being placed in the hands of a few men who rule with an arbitrary hand and control thousands of union men. This was the evil that had to be remedied, and organization of employers was the remedy. On the side of the employer there had until lately been nothing done. Now the time had arrived when the employers must unite to stop the alarming spread of socialism, atheism and anarchism in labor ranks, so prevalent in the United States.

Mr. Du Brul said he knew of some of the things which had recently been taking place in Kingston, and he declared it was time that something was done here to unite the employers.

Dayton, Ohio, had gone through the worst of labor troubles, which had been overcome by an employers' union, and now everything was running smoothly. In Quincy, Ill., a boycott had been smashed to pieces by the Employers' Association, who bought heavily from those under the labor ban. It takes organization to defeat the oppression. But organizations should be fair. Then they would receive the sympathy and support of all fair-minded labor men.

Mr. Day spoke of the Employers' Association in Toronto, which he had organized and of which he was secretary. There were twenty-three branches of trade represented in it, and it was not five months old. The object of the association was mainly to prevent labor troubles, and it was now able to withstand any fight the labor men wanted to put up. But the association was for peace, not for war on the labor unions. Once the prominent men in a city were organized, troubles were settled by diplomacy, because when labor unions realized that they were up against another strong organization, there would always result a settlement.

Mr. Bermingham said he had always been in favor of labor organizations because of the past injustice of employers. Now the time had come when employers must organize to meet the injustice and the abuse of power by employees. He moved a vote of thanks to Mr. Du Brul and Mr. Day for their visit and for their able addresses. Mr. Hewton seconded the resolution, which was carried amid applause.

A resolution to form an Employers' Association was carried unanimously. A committee was appointed to nominate officers and to report at a later meeting.

$1,400 FOR PARKS.

The Committee's Request — The Swimming Bath Project.

The aesthetic (or is it the agricultural?) aldermen who compose the civic parts committee, held their initial meeting in the city engineer's office yesterday afternoon. Alderman Walkem, who loves to feast his eyes on well-kept lawns, neat shrubbery and beautiful flowers, is right at home, to use a homely phrase, as chairman of this committee, whose hardest work lies in getting their appropriation from council. In different years he has presided over the destinies of the committee, until he has now come to be looked upon as the one man in the council who knows all about the various green and shady spots set aside for the recreation and admiration of the people.

At yesterday's meeting he was provided with such able supporters as Aldermen Tait, Sands and Bassam. It being the inaugural meeting of the committee a quorum was secured, something the chairman cannot reasonably expect to encounter during the year. The chief item of business yesterday was the determination of the appropriation required. Last year council handed out $1,000; the committee used it all, and more, too, leaving nothing except a deficit. This year the committee will ask for $1,400. This sum is made up as follows: Labor, $500; walk in the city park, $300; gun carriages, $100; painting, $150; flowers, $100; incidentals, $100; reserve, $150; planking the breakwater, $200.

Alderman Bassam, remembering the time when he ran away from school to enjoy a bath in the lake, made a plea for the establishment of a swimming bath. He wanted to have it located at Macdonald park, where a slip or dock could be excavated, and a building erected over it. In this building small dressing rooms could be arranged. He would have the slip run out into the deeper water of the lake, so that the bolder swimmers could enjoy more liberty and danger if they so desired. A penny a piece might be charged the users. In the opinion of the man from Victoria ward the scheme should pay. The chairman agreed to lay the matter before the council at its next meeting. It is probable, said Mr. Walkem, that the bandstands in Macdonald and Victoria parks will be painted this year. There was no other business before the committee.

PERSONAL MENTION.

Movements Of The People—What They Are Saying And Doing.

Vascoe Toole won a watch raffled by himself last evening.

Roy Anderson, of Renfrew, is the guest of Russell Miller, Bagot street.

J. S. Gallagher, M.P.P., is at the Palmer House, Toronto, and Mr. Pense at the Rossin.

Rev. A. Laird, of Cooke's church, left to-day for Philadelphia. He will be absent for a month.

Miss Eleanor Milton, Pittsburg, is visiting Miss Etta Macdonald, 318 Queen street, for a few days.

Captain Cummings will command the steamer Pierrepont this season. Captain Allen will sail the America.

In St. Mary's Cathedral on Sunday morning the "Pater Noster" was sung by Miss Nora Murphy. In the evening the "Ave Regina" was very creditably rendered by her. Both solos were most pleasing.

The late Capt. Frederick Graves was a member of the Whig's staff in 1859 and 1860, while the office was located on Bagot street. Of all the large number employed in the office at that time only two are now living.

RESOLUTION PASSED.

Expression of Sympathy With John McIntyre, K.C.

The Board of Health meeting on Tuesday afternoon was of short duration. There were present Mayor Bell, Aldermen Meek, J. D. Thompson and Joseph Donaldson. The mayor was called to the chair, and he referred to the death of Mrs. McIntyre, the wife of the faithful chairman. On motion of Mr. Meek, seconded by Mr. Thompson, this resolution was adopted:

"That this board regrets the death of Mrs. McIntyre, wife of our respected chairman, and that the secretary be directed to write to him and convey our sympathy with him in his great bereavement."

Mr. Thompson moved that the meeting adjourn out of respect to the chairman, and this was immediately done.

Strong violet household ammonia, large bottles, 10c. H. B. Taylor.

MARCH SITTING

OF THE PRESBYTERY OF KINGSTON.

Zion Church, Kingston, is Now Self-Supporting — Good Reports Submitted — Rev. Dr. Milligan Nominated as General Assembly Moderator.

Kingston presbytery met in St. Andrew's church on Tuesday afternoon. Members present: Rev. Dr. MacTavish, moderator, Profs. Ferguson, Ross, Jordan and Fowler, Revs. Messrs. Gracey, Mackie, Macgillivray, Wilkins, Gandier, Henry, Moore, Bates, A. Laird, Boyd, Davey, Mellroy, Milligan, Guy, Binnie, McLaren, R. Laird, McDonald, MacArthur, A. McDonald and Fairlie, with Rev. M. McKenzie, missionary corresponding member, and Dr. McKenzie, G. M. Macdonnell, K. C., and Messrs. A. Sharpe and Alexander, elders.

The demission of the congregation of Napanee by Rev. W. W. Peck was considered. Rev. A. McDonald and Mr. Alexander represented the session. While sorry that Mr. Peck was leaving, yet as he desired to do so, they would offer no opposition. The resignation was accepted, to take effect next Sabbath, and Rev. Alexander McDonald was appointed moderator of the session, during the vacancy. Prof. Jordan and Rev. Mr. Macgillivray were appointed a committee to prepare a minute in reference to Mr. Peck.

The name of Principal Gordon was placed on the roll, as also that of Prof. Nicholson, recently appointed as professor in Queen's University. Dr. Milligan, Toronto, was nominated moderator of the general assembly.

Mr. MacGillivray reported on augmentation. Zion church, Kingston, passes from the position of aid-receiving congregations. Some reduction has been effected in other cases.

Mr. Gracey reported on church life and work. The reports from sessions were on the whole favorable. The report recommended pastors to deal earnestly with their people on the subject of religion in the family as enjoined by the general assembly. The report was highly approved, and was adopted.

The report on Sabbath schools was submitted by Mr. Moore. There are seventy-five schools in the presbytery and six union schools, a reduction from last year's report. The report recommended the grading of schools, the committing to memory the catechism and memory verses of scripture, training classes for teachers, larger contributions to missionary objects, etc. The report was good, and was adopted.

After tea, with the Woman's Presbyterial Society, the presbytery met in Chalmers church. Mr. McDonald reported on evangelical services. Few of these had been conducted. Those at St. John's, Pittsburg, had been beneficial. Some questions were asked and profitable remarks made. The presbytery then, with the members of the Woman's Society, listened for upwards of an hour to a very able address on missionary work in China, by Rev. Dr. McKenzie.

The report on Young People's Societies was presented by Mr. MacArthur. It was not complete, as a number of societies had not reported. The convenor was instructed to have it completed as far as possible. It will then evidently be a favorable report for the year.

The Price Of Coal.

In this city coal holds at $7.25 per ton, the same rate that has ruled all winter. It will not likely change before the opening of navigation. Coal brought in by rail from Suspension Bridge would cost about $7 to deliver here. It is thought that shipping by water will not likely begin before April 15th, and then the stocks for next season will be put in. Freight rates will likely be 35c. or 40c. per ton. The supply is limited just now, but it is thought that the stocks can be made to tide over any future cold snap that may arise. Several dealers have cleaned up all their holdings.

Bible Class Resumed.

Prof. Pike's Bible class, adjourned during the course of the recent revival services, re-assembled at the Y.M.C.A. last evening with a good attendance of young men. A business committee was appointed, and other arrangements made for carrying on the work. Under the guidance of such a clever biblical student as Professor Pike these meetings have been made very interesting and helpful to young men.

Miss Gober's Removal.

Miss Gober's removal of the teaching work of the Kingston Ladies' College to another building will not involve any cessation of teaching, and is being carried out with a view to the permanent success of the school. Locally the support has been excellent.

HE CAN.

Because He Has Been Over The Road.

A grocer down in Texas said that when he first put in a stock of Postum Food Coffee he concluded to try it himself to know how well he could recommend it to his customers. He says: "I quit using coffee and had Postum prepared according to directions on the package and found it a most healthful, toothsome beverage.

I had been troubled seriously with stomach trouble but after leaving off coffee and using Postum I gradually got better and better. That interested me so I persuaded my mother-in-law, who is over sixty and a confirmed coffee drinker, to quit coffee and drink Postum.

She has suffered for years with stomach trouble and food coming up in her throat after eating. As soon as she quit coffee and began using Postum this distress stopped and she has been getting better and better ever since.

A short time ago a lady who was starting West bought up my entire stock of Postum for fear she could not find it where she was going.

From my own experience one can readily see that I can recommend Postum very highly." Name given by Postum Co., Battle Creek, Mich.

SPORT IN GENERAL.

Notes And Comments On Sporting Happenings.

The foul strike rule is not kindly received in the Eastern Baseball League.

Renfrew, Vankleek Hill and Carleton Place are to build new hockey rinks for next winter.

It is many years since there were no ice yacht races in the harbor, but such is the fate of 1903.

Montreal II are intermediate champions of the C.A.H.L., defeating Ottawa Aberdeens by 3 to 2.

After the baseball match in the armouries last evening a foot race was run off between Bandsman Stinson and Sergt. Davies. The last named was an easy winner.

It was learned to-day that documents have been signed for a race between the new gasoline yachts of T. McAuley and Capt. Wessels, to Clayton and return, for a case of wine.

The P. A. C. (Kingston) team defeated the Victorias (Ottawa), 6 to 3, in the Pittsburg, Pa., Hockey League and stand second in the season's matches, the Bankers being now first.

O'Hara, the ex-Gananoque third baseman, is still a source of arbitration trouble. A trade may be effected by Syracuse, by which "Bill" will summer in California with the outlaw baseball league.

Ottawa hockey team defeated Montreal Victorias in Ottawa last night by 8 to 0, and won the C.A.H.L. championship and the Stanley cup. To-morrow night in Ottawa, Rat Portage will play Ottawa for the Canadian trophy.

Now that the O.H.A. executive has discovered that the Toronto "amateur" baseball teams pay their players, let them keep track of all those playing next summer, and prohibit them at the beginning of the hockey season from playing in the O.H.A. Much trouble will then be saved.

The Kingston Yacht Club will, in all probability, arrange races for gasoline yachts at the proposed Lake Yacht Racing Association rendezvous regatta to be held this summer. Two cups are talked of as trophies for two lass races. There are so many fast gasoline yachts among the Thousand Islands and several at Kingston that races for them would be of great interest, and a big attraction for the people down the river.

"A spectator" writes to the Toronto Globe about the disputed goal Beechgroves scored against Marlboros at Port Hope, and wants to know what authority the referee had in disallowing it. The Globe admits that the goal should have counted, if scored under the conditions already stated. It's now time that Mr. McCabe explained why he refused to allow it, when the goal judge held up his flag.

The Beechgroves have not been complaining about the result of the O.H.A. junior championship, in the real sense of the word complain, and the Toronto Globe might incline its ear. Only a few statements of actual occurrences were made. The Beechgroves are just as proud as if they had won the cup, because they know they're a better team than the victors. When the Toronto papers declare they are just as good as the Marlboros, that means that a little more might be added, and so there it is.

For the past few days, one of the reasons Toronto is called Hogtown has been plainly evident. All the Toronto papers have sneered at the proposed Eastern Ontario Hockey League because it does not suit the convenience of the big western town. Such a league would be a plume in the cap of Kingston, and perhaps a bee in the bonnets of Toronto, which does not desire that the east should prosper. Montreal congratulates Kingston for its efforts in forming the eastern league, a strange contrast to the attitude of Toronto.

The Sergeants Won Again.

It seems to be impossible to defeat at baseball the unconquerable sergeants of the 14th Regiment. The bandsmen made another attempt last evening, but again failed, the noncoms. winning out by forty-seven to twenty-seven runs. The pitcher for the victorious team is an expert and it was largely due to his puzzling curves that the bandsmen owe their disastrous defeat. The match was witnessed by a large crowd of enthusiasts, and excitement ran high throughout the match. The teams were:

Sergeants—Wellwood, c.; Roberts, p.; Hamilton, 1b.; Tweddell, 2b.; Davies, 3b.; Ludlow, s.s.; Moxley, r.f.; Dowsley, l.f.; Swann, c.f.

Bandsmen—McCormack, c.; Bird, p.; Stevenson, 1b.; Stinson, 2b.; Hamilton, 3b.; Shea, s.s.; Pugh, r.f.; Thompson, l.f.; Connors, c.f.

Umpires, J. Porter, R. Carson.

The sergeants will meet a team from the Highland Cadet corps to-morrow night. They have also received a challenge from a picked team from the regiment. The Army Service corps also wants to again meet the sergeants.

Fossil Pills.

The demand is proof of their worth. Dr. Agnew's Liver Pills are beating out many fossil formulas at a quarter a box. They're better medicine, easier doses, and 10 cents a vial. A thousand ailments may arise from a disordered liver. Keep the liver right and you'll not have sick headache, biliousness, nausea, constipation and sallow skin. Sold by H. Wade and H. B. Taylor.—61.

David, The Shepherd Boy.

A meeting of vocalists was held in the Y.M.C.A. parlors last evening to consider the advisability of taking up the religious cantata, "David, the Shepherd Boy." It was decided to go ahead with the work, and the first rehearsal will be held next Tuesday. The cantata will be produced in costume in the city hall towards the end of April. Mr. Brander will conduct the rehearsals.

Coughs And Colds.

Are often overlooked. A continuance for any length of time causes irritation of the lungs or some chronic throat disease. Brown's Bronchial Troches are offered, with the fullest confidence in their efficacy, giving almost invariably sure and immediate relief. 25c. a box.

Reply to constant reader: No, it is not spring yet. Don't build on spring being here until you hear a German band playing.

Dress Fabrics

FOR SPRING.

We are recognized as headquarters for all that is fashionable and desirable in seasonable Dress Fabrics. Our present showing surpasses all former efforts, and will prove profitable and interesting to all who appreciate latest styles and newest weaves. A magnificent display, everything worthy the season has evolved included. These suggestions to keep you in touch with a few of the many styles we show:—

From the Banks of the Teviot.
Exclusive Scotch Suitings Now on Exhibition.

As far as Tweed and such Rough Suiting Fabrics are concerned, the district about Hawick, on the Teviot, is the very centre of the world. Our latest cases come from there—all the beautiful variations in shade and effect of the snowflake suitings.

Exclusive Designs in Scotch Suitings

Made from the finest quality of all pure wool, correct weight for suits, with knots and knickets worked in with mohair, colorings are very rich, including black, navy, new blue, fawn, grey, myrtle, reseda, brown, mode, castor, new green, etc.

Costume Lengths.

New Fancy Costumes; consisting of the newest shadings and styles in weave, knicker effect and fancy designs; each costume an exclusive pattern; 8-yard lengths.

$6 to $19.50 each.

STEACY & STEACY.

LETTERS TO THE EDITOR.

A Clergyman's Appeal For the Boys.

Kingston, March 11.—(To the Editor): Your issue of last evening contained an appeal from the Y.M.C.A., for at least $1,000 for increased accommodation for the boys' department. The best work among young men and boys is impossible under present conditions. The requirements of boys up to sixteen years of age, in reading, games, etc., are entirely different from those of their seniors, and can only be met by having the boys in a department that shall be entirely their own.

The Y.M.C.A. authorities see that the young man problem can only be handled through the boys. Hitherto the boy has not been reached soon enough. It is unfortunate that the good work of this institution should be crippled for want of funds. Surely the citizens of Kingston will not allow boys to be turned away when $1,000 will give them suitable quarters. — THOMAS BROWN.

To Cure A Cold In One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Lithia Tablets, useful for diseases of the kidneys, bladder, etc., also for rheumatism. Bottles of 50 tablets 25c. McLeod's drug store.

The steamer Arundell will again run on Lake Ontario and St. Lawrence river route next season.

YOU CAN INTEREST HIM.

Any Man Over Fifty,

You can interest any man over fifty years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care, there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest wholesome food because blood, nerves, brain tissue and every other constituent of the body is entirely the prodct of digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves, when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermenting half digested food.

No, the stomach itself wants help, and in no round about way either; it wants direct, unmistakable assistance, such as is given by one or two of Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use give the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food, such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of prepared foods and new fangled breakfast foods simply makes matters worse as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark must be a humbug whereas as a matter of truth any druggist who is observant knows that Stuart's Dyspepsia Tablets have cured more people of indigestion, heartburn, heart trouble, nervous prostration and run-down condition generally than all the patent medicines and doctors prescriptions for stomach trouble combined.

INSTEAD OF MEAT
Quaker Oats

Perfectly Delicious Are Taylor's Chocolates

They are the best, of course, 40c. and 60c. per lb.
