FAMILIAR SONGS. Days of Absence. The words and melody of this well-known song were written by Jean Jacques Rousseau, the celebrated French author who was born in Geneva, Switzerland, June 28th, 1712.

Not till that loved voice can greet me, Not till those sweet eyes can meet me, Telling that I still am dear.

FRANCIS BOOM. He is the Most Popular Democrat in Missouri.

Washington, D.C., March 21.—Ground exists for the belief that there is more in the little presidential boom of former Governor David R. Francis, of Missouri, than is indicated in the several paragraphs that have appeared during the past week.

The story of the inception and growth of the Francis boom is now told for the first time. The teller is a former democratic congressman from Missouri who has been in the political arena for several years.

Francis stood the best show. The conferees dispersed with the understanding that other leaders of the party should be consulted in the matter and one of the number—the ex-congressman from Texas—before mentioned was delegated to come east and interview the party leaders.

Francis is described by these men as the most popular democrat in Missouri. He was governor four years, and was secretary of the interior in the cabinet of President Cleveland, succeeding Hoke Smith, and his friends claim he is the biggest man in point of personality and accomplishments in the whole south-west.
