

Angier's Petroleum Emulsion with Hypophosphites is prescribed by physicians for children's diseases. The little ones thrive on it. It is pleasant to take and agrees with the stomach.

It is the best children's medicine. They become fond of it. Put your child on a steady treatment of Angier's Petroleum Emulsion, and note how quickly it gains in health and becomes strong and robust.

The Emulsion improves appetite, aids digestion, regulates the stomach and bowels, quiets the nerves, and revitalizes the whole system.

My little girl was troubled with bowels and a hoarse cough. I had almost given up on her when I got Angier's Petroleum Emulsion, which I did. It cured her cough, and she almost immediately began to gain in flesh and improve in color.

Angier's Petroleum Emulsion is sold by druggists everywhere, and is best obtained by getting Angier's Large Size, 50c. Small, 25c. SINGIER LABORATORIES, SINGIER MASSACHUSETTS U.S.A.

LONDON BARE OF "AMERICANS" Prices "low" and "short" interest great. "Carrying" large. Public interest in stocks "little". Outlook "good". Speculative sentiment "bad". Crop prospects excellent. NOT IDENTIFIED. The "Tobacco Burglar" Was Not "Foxy" Smith. Belleville, Ont., March 31.—Chief of Police Clarke, of Galt, was in the city on Sunday. He came to see the prisoner Stephen Fox, charged with breaking into the C.P.R. office at Trow. He believed from a description that the prisoner belonged to Galt. The chief went to the jail and saw the prisoner but he could not identify him. On Saturday afternoon Stephen Fox was brought before Judge Lavier for election and elected to be tried by his honor. The trial was fixed for Tuesday, April 7th.

Principal London, of Toronto University, rises in his sleep to say that the Kingston School of Mining is not a part of the provincial system of education.

If you get try Carter's Little Liver Pills for sick headache, biliousness or constipation, you will never be without them. They are purely vegetable, and do not take. Don't forget this.

A FAREWELL WILL PROBABLY BE LORD MINTO'S VISIT.

Building Boom Continues—Not Much Fear of Labor Troubles—Senator Cox Declines to Answer Certain Questions.

Toronto, March 31.—It is understood that when Lord Minto comes to spend about a month in Toronto from April 28th, to May 21st next, it will be in the nature of a farewell, and that he will be anxious to visit other points in Western Ontario.

Toronto's building boom continues, and there is little fear apparent of a much-delayed trouble on May day, when any trade but brick-layers, who demand fifty cents an hour. Building permits for the first three months are \$356,000, as against \$431,000 for the same period last year.

Senator Cox was examined some time ago as a director of the Canada Cycle and Motor company in a suit brought by Bedell, to investigate the formation of the company, and the purchase of its constituent companies. He declined to answer certain questions as to the price paid for the individual concerns. The plaintiff obtained an order compelling the senator to re-attend, but a divisional court this morning set aside this order, holding that the senator was not acting in a capacity for the shareholders, while negotiating these transactions, and is, therefore, not compelled to answer these questions.

D. F. Burke, Port Arthur, wants the government to establish a tourist and health resort in the public court to the west of the city. He points out that Switzerland gets a revenue of about \$40,000,000 annually from tourists; that the G. T. R. carried 30,000 tourists, principally wealthy Americans, into Muskoka last year, each of whom probably spent \$100. The scheme he thinks would be a great source of revenue besides developing New Ontario.

Christopher McGrain pleaded not guilty in yesterday's police court to the charge of murder laid against him for the death of George Williams, who died of a stab received a week ago while walking home on Sakville street. McGrain will appear again tomorrow.

The Belmont gold mine is installing thirty more stamps, making sixty in all.

Describing Paul's Farewell to Ephesus.

The international Sunday school lesson for April 5th is found in Acts 19: 1-17. The golden text is the thirty-fifth verse of the lesson. The events of this lesson follow immediately after those studied three weeks ago. Recall Paul's experience at Ephesus, especially the trouble with Demetrius and the silversmiths, and remember that it was this trouble, which led to his leaving Ephesus on the journey studied to-day. Just as in a battle a general hastens to strengthen his weakest point, so Paul hurried to rally the brethren where they most needed his encouraging words. While laboring in Ephesus so successfully he was concerned for the church at Corinth, and wrote the brethren there a letter. Then, after the uproar in Ephesus he set out to see them face to face, visiting the disciples at Macedonia by the way, and sending on another epistle to the Corinthians by the hand of Titus. Staying at Corinth for three months only he narrowly escaped a plot against his life in coming away. Note what he did also on his return trip, and you have a faint idea of the immense importance of this one man in the spreading of the gospel.

The lesson is Paul's charge and farewell to his flock. The golden text contains the only saying of Christ in the New Testament that is not found in the gospel. It is more blessed to give than to receive. The Christian teacher in his relations should be:

- 1.—As to himself—be qualified, v. 28.
2.—As to the Holy Spirit—obey Him, v. 28.
3.—As to the flock—feed it, v. 28.
4.—As to outside enemies—plan against them, v. 29.
5.—As to inside enemies—be rid of them, v. 30.
6.—As to previous workers—remember and honor them, v. 31.
7.—As to the word of God—build on it and in it, v. 32.
8.—As to himself (again)—be consecrated, devoted and above suspicion, v. 33-34.
9.—As to the weak members—be sympathizing and helpful, v. 35.
10.—As to fellow workers—be appreciative, loyal and considerate, v. 36-38.

Spirit Rapping. On March 31st, 1848, the "spirit rapping" phenomenon began in the house of John D. Fox, in Hyllesville, N.Y. It was on the night of the 31st that the two daughters, near whose beds the noises occurred, first attempted to have the "spirits" answer questions. Soon after, the family removed to Rochester, and there the table-tipping, etc., began. In November, 1849, a public meeting called to investigate the subject, at which Margaret and Catherine Fox made their first public appearance. Since that Friday night in 1848, the doctrines of spiritualism have found believers in nearly every part of the country, and world. According to the majority of spiritualists, spiritualism is the belief that at death the corporeal body is changed for the spiritual, which, through the light and understanding derived from the spirit-world, has been transformed so that all lusts and passions have been transmuted from material to an immaterial organism, but which is still affected by the same natural laws that affect mortals. It is the controlling factor; hence the departed, actuated by a benevolent desire to benefit humanity, are believed to communicate with persons susceptible and sensitive to spiritual influences.

COUNCIL JOTTINGS.

Some Business Which the Aldermen Considered.

Alderman King last evening presented three resolutions to council for consideration. The matter was referred to the Dominion government, and they for their object the abolition of canal tolls, of customs assessment fees on vessels, and tonnage dues and inspection fees. The council gave its assent to the measures.

Mayor Bell found it necessary to rule with an iron rod in the case of Alderman Reeves, who several times refused to obey the summons of the council chamber, or he would have to leave it.

Alderman McLeod presented a resolution dealing with the question of the engaging of John Wright, foreman of men of the Council, and the council for many years, but could not find that he had been engaged by resolution of council. However, his resignation, which was adopted, rescinded all former motions with reference to John Wright, and placed that official under the control of the board of works and city surveyor.

Alderman Abbott is proving himself an alderman possessing advanced views. As chairman of the printing committee he recommended to council that hereafter reports of all committees be printed before presentation to council, which recommendation council adopted.

Alderman Reeves had a scheme on hand whereby the city council was to provide means for furnishing the men of "A" and "B" regiments with outdoor amusements, "which they may engage in and which the citizens may show their good feeling towards the men of the batteries." The mayor ruled against the motion out of order, because it did not request the finance committee to provide funds for carrying out the scheme.

Christopher Kovat presented a petition from the Women's Council asking the council to erect a suitable bathing place for boys and girls on the western shore of Macdonald park. Alderman King pointed out that the petitioners were ignorant of the water at that point, or they would have asked to have the bathing place located there. Fifth from the O'Kill thoroughfare he felt sure that bathers would leave the water dirtier than when they went in. The matter was left in the hands of the parks committee, and Alderman Walkem stating that the question had already been before that committee.

In reference to the position of foreman of streets, Mayor Bell stated that he was unaware that the city had such an official on the pay roll, since the adoption of the budget, as provision was not made therefor for the salary of such an official.

Alderman Sears' two-by-laws were timely. One stipulated that all kitchen refuse, etc., must be carried through the city in water tight barrels, securely fastened, and all such barrels, etc., must be kept clean and free from foul smells. The other provides that manure must be carried through the streets in wagons having covers of canvas, securely fastened in front, and back, to prevent portions of the load dropping on the street.

A committee comprising Mayor Bell, Alderman Sears, McLean and McLeod, interview parties interested in the opening of Sydenham street, from Johnson street to Princess streets, and to obtain opinions on property affected.

The mayor, by resolution of council, will appoint a deputation of council to proceed to Ottawa and lay before the government, together with a deputation of marines, the claims of marine men for the abolition of canal tolls, etc.

The timely and well-worded speech of Alderman Behan was warmly appreciated, in which he offered the congratulations of council to Mayor Bell upon his election to the chief membership of the grand lodge of a suitable reply.

NAPANEE NOTES.

Sudden Death—Men and Stock For Yorkton. Napanee, March 31.—A very sudden summons home came to Craig L. Carver, Richmond, yesterday morning, verifying the adage that "in the midst of life we are in death." He died at six o'clock, partook of his breakfast and seemed in every way to be in his usual health. He went to the barn to assist with the milking, and had only been milking a few minutes, when he was seized with a pain in his breast. He went to the trough, until every moment increased the trouble, until he fell at about 7:30, scarcely an hour after the above symptoms appeared. Medical aid was sent for without delay, but too late—the spark of life had fled. Deceased was aged sixty-two years and a native of Napanee, and was a son of the late Edward R. Carscallen, Richmond. He was born upon the farm on which he died, it being the homestead. Besides his sorrowing widow who is in poor health, a family of eight children survive. Four sons and four daughters all grown to manhood and womanhood.

Five brothers, all well known residents also survive. They are, A. W. Carscallen, M.P., Hastings; James, Waterton, N.Y.; Edward, Thomas and Metcalf, Richmond. Deceased was a man of many fine qualities. A neighbor who had the love and respect of his fellow men, who never let an opportunity for good pass without a helping hand, or a word of encouragement. He was a conservative in politics. The funeral takes place on Wednesday at one o'clock. Services will be held in the Selby church. The remains will be deposited in the Eastern cemetery vault.

W. T. Norris, of Port Arthur, is spending a couple of weeks with his parents, Mr. and Mrs. William Norris, Richmond. Thomas Chase left on Saturday for Carleton, Mrs. A. G. Fairbairn and George Dracup left yesterday with two car loads of stock for Yorkton, N.W.T.

TO SET IT ASIDE

ARMY HAS NO AGENT FOR SERVICE.

The Plea Put Up in a Case For Damages at Hamilton—A Woman Injured By a Horse Frightened By Army.

Hamilton, Ont., March 31.—A Hamilton case is before the courts involving the right to sue the Salvation Army. Margaret and George Kingston are suing J. J. McQuarrie, R. A. Arvin and the army for injuries received by Mrs. Kingston. Mrs. Kingston was struck by a runaway, driven by a man in the employ of the Salvation Army band. The writ was served on Major D. F. Macdonald, Hamilton, and now an application is made on behalf of the army to set aside this service. An affidavit, by C. W. Creighton, is filed stating that the army is under the absolute control of General Booth, and that he has no agent in this country on whom service may be made. The matter was enlarged a week.

INCIDENTS OF THE DAY. New Paragraphs Picked up by Reporters On Their Rounds. Dr. Ash, Bradford, Pa., is visiting in the city. J. L. Haycock was somewhat better this afternoon. Efforts are being made to form a sailors' union in this port. General Swift left for Montreal at noon to-day on a business trip. See our special 50c. corset all steel filed. New York Dress Reform. Capt. Jerry Hurley will ship as first mate on the schooner Minedona, the steamer Aletha does not begin her trips to Pictou until Friday next. Her officers will be the same as last season.

Corsets of every description ordered or ready-made at New York Dress Reform. To-day is the anniversary of the battle of Boschoff, Hart's River, Transvaal, in which some Kingstons took part.

The full equipment for No. 3 company, army service corps, has arrived and is now in the company's armoury. A branch of the Catholic Order of Foresters will be started at Portmouthe with twenty or twenty-five members.

Col. Steels has become tired of South Africa, and contemplates returning to Canada in a few months and going back to Calgary. It is said that William J. Calvert, guard in the Kingston penitentiary, will be promoted to the instructorship of unsmiling in that institution.

Kingston will have a military camp beginning on June 16th. The extent of the gathering will depend upon the action of the city council in preparing the camp grounds.

Mrs. (Capt.) Shark died in Toronto Monday, aged seventy-seven years. Her husband, a well-known lake man, was accidentally killed on board his vessel in Kingston harbor in 1853.

James Johnston, leaving for Montreal, has been remembered by Synagogue street Methodist Sunday school in a grateful address of appreciation for his faithful services during many years.

Rev. Dr. Philip, wife and daughter will spend two months in California this summer, going out in June. They will go via C.P.R., returning by the Southern route. Dr. Philip has two sons at Los Angeles.

Bug Balloonist (who has met with an accident)—How lucky Mr. Spiker left his home here! I really must thank him.

Reply Not Received. Up to three o'clock this afternoon Coroner Mundell had not received a reply from the son of the late Dennis Collins, who died in the Kingston hospital last evening. The deceased was formerly employed at the Hotel Dieu as gardener. It is not known whether he was coming into the city or going out. Dr. Mundell thinks that likely the dead man's son started for Kingston without taking time to reply to the telegram apprising him of his father's death.

What Might Have Occurred. What might have been a serious case happened here Saturday night, when an agent for an insurance company, doing business in this city, forced an entrance into a residence with a revolver in his hand, and threatened to take the life of a young lady because she would not run away with him and get married. He will answer to the police station. A charge of carrying firearms, house breaking and attempting to take life.

Are Doing Well. J. H. Bowden reports that the Middletons and J. H. Taylor are prosperous Kingstonians in St. Louis, Mo. Taylor was formerly superintendent of the Kingston and Penbrooke railway. He is now a railway broker in the southern city. The Middletons are successful railroaders.

A deputation of the usual impressive proportions waited on Hon. A. G. Blair and Sir William Mulock to-day and asked that the outlet of the Trent canal be located at Port Hope instead of Trenton, saving a distance of 261 miles. Consideration was promised.

"Genuine Imported" How many "phony" brands of shoes think you are made in Canada to supply the demand for "genuine imported." A stamp costs less than \$5.00 so it is not difficult for one shoe factory to make half a dozen different "brands" and so dodge responsibility, and also catch the gullible "imported-shoe" faddist. In the "Slater" Shoe Factory there are two brands—one is "The Slater Shoe," the other, well no matter—One is the stamp of genuineness—of sterling shoe worth. The other is used when a shoe has lost its right to be classed, sold or worn as a "Slater," when its antiquated shape has passed into oblivion and its "Slater" brand is replaced by one which may or may not be represented by some enterprising dealer as a "genuine imported shoe." Get the real made-in-Canada.

"Slater Shoe"

Made in Canada 40 Years. For Men and Women, \$3.50 and \$5.00. For Boys, \$2.50 and \$3.00. Sold in 15 "Slater" Stores and 200 Agencies. "Slater Shoe Polish" is made to preserve "Slater Shoes."

SOLE AGENT F. G. LOCKETT KINGSTON, ONT.

DROWNED AT GODERICH.

A Young Doctor's Sad Fate—Opening of Navigation.

Goderich, March 30.—Mrs. F. P. Creva attended the last supper at Knox church, previous to leaving for her new home at Kingston. The supper was a great success. About 500 persons were served.

Rev. James G. Anderson spent the last two weeks of March at Montreal, as a delegate to the French evangelization convention.

The saddest event of 1903, as the death of Dr. Francis D. Turnbull, late of Auburn, and brother of James L. Turnbull, surgeon at Goderich. He ran the river in a frail canoe, which upset somewhere near the quarry, just above Mainland Bridge, and being near the last of his trip. If he had not been seen from the G.T.R. station by some persons waiting for the train to go out on Thursday, March 12th, he and his canoe would have gone into the lake and never have been found.

As it was a message was telephoned to the wharf to get boats ready, and a youth of fourteen years, Harry Carver, went out at the wharf with a life line, to intercept the doctor, but life was extinct. His remains were taken by train to Milverton, the home of his parents, Mr. and Mrs. John Turnbull, "Burnside Farm." The funeral was Masonic; about ninety Masons marched to the station on Friday, March 13th. The young gentleman was captain of the Auburn Rifle Club and joined the "Morning Star" lodge of Masons at Smith's Hill. The casket was covered with emblems from the Masonic bodies, Medical Association of Huron, Auburn Rifle Association, and many friends. The Auburn Rifle Association had presented their captain with a handsome gold chain and charm, on his leaving Auburn to attend the hospital of Europe. It was found safely upon him, when taken from his canoe.

Whether to buy a large building with good grounds, or build a new hospital, is one of the present matters claiming the attention of the hospital board. The hospital movement is a praiseworthy action.

It was reported to the harbor on Wednesday, March 18th, the lake was open, no ice to be seen save a strip in the middle of the lake, and every appearance of the opening of navigation struck the eyes. There lay the "The W. H. Lundy" (with Capt. and Mrs. Estelle aboard), the Senator, Capt. Charlie Anderson, and all our own craft farther up. These vessels wintered with safety in our harbor. The "The W. H. Lundy" has a fishing fleet have a new tug, the Maritimo built the past winter on the Maritimo Island. The boats expect to leave April 1st. Mr. Maloney, Kingston, returned lately from Chicago, to work at the Doty Engine works again.

CUREW STILL RINGS. Council Wants Some Further Information. At last night's meeting of council the following letter, relative to the much discussed curfew by-law, was read from the city solicitor: "The only thing that the police can do under our by-law with children found loitering on the streets after hours, is to take them to their parents' homes. The police may warn, by writing, the parents of children who habitually loiter on the street, and if parents still disobey the by-law, they may be summoned before the magistrate and fined. "The by-law cannot be amended as the chief of police suggests, so as to authorize the police to take loitering children to the police station. "I cannot say whether the by-law in all these years has been given a fair trial, but before repealing it, I think enquiry should be made as to how many prosecutions have been instituted against parents under the by-law, and how they resulted. The whole sting of the law is in the penalty to be visited upon the parents who permit their children to loiter on the streets. If a few of the fault-finding parents felt the sting, and the many defaulting parents knew that the sting would be vigorously and impartially applied, I must say I have a strong opinion that the nuisance and evil sought to be abated by the curfew by-law might be abated."

On motion of Aldermen Meek and Craig, the chief of police was asked to furnish statistics referred to by the city solicitor.

Why do we wear Granby Rubbers and Overshoes. Dealers all over Dominion say they give better satisfaction than any others. The people say they fit better, look better, wear better.—Because they are honestly made out of pure new rubber. "Granby Rubbers wear like iron."

EGGS ARE CHEAPER. A STEAM EGG POACHER. Cooks them so that they not only look well but eat well. ASK TO SEE THEM. McKELVEY & BIRCH, 69 and 71 Brock Street.

EASTER MILLINERY! Now is the time to make a selection. Our show tables are loaded with the LATEST CREATIONS—No two alike—Being the finest assortment of TRIMMED GOODS ever shown in this city.

SPENCE & CO., The Leading Millinery Store.

CHILLAGOE RAILWAY OF QUEENSLAND (£1 FULLY-PAID SHARES). Last week I recommended the above shares when they were standing at 5 shillings. They are now 8 and those who took my tip made big profits. The shares formerly stood above 30 shillings, and will touch 40. The best people are behind them, and they are on the move. Carried on the London Stock Exchange, 2000 margin for 1000 shares. REGINALD CAMERON BROWN, Temple Building, Toronto. Correspondents, Members-London, Toronto & New York Stock Exchanges.

TWIN FIT. The newest and best fitting LADIES' BOOT ever made. It fits high or low insteps without the least sign of a wrinkle and is the most comfortable shoe ever invented for ladies. It is a patented boot made by Krohn & Fechheimer, of Cincinnati.

SOLD ONLY BY A. ABERNETHY, KINGSTON CALL AND SEE THEM. Headquarters for Trunks and Valises.
