

THE WHIG—70th YEAR. DAILY BRITISH WHIG, published each evening at 8 o'clock, King Street, Kingston, Ontario, at 25 cents per copy.

THE DAILY WHIG. "Quibus per Orbem Dicitur."

A REASONABLE INFERENCE.

The Whigman offers the most reasonable explanation as to why Mr. Clark was appointed lieutenant governor of Ontario, much to the surprise of the people generally and of the appointer.

GAMBY OUT OF THE CASE.

The conviction is general that whatever Mr. Gamby may do, however he may complicate the case so far as he is individually concerned, the commission must complete the work it has undertaken.

The issue, however, as the commission pointed out to Mr. Blake and his associates, is not the purity of the personality and the performance of Mr. Gamby, but the position and character of a member of the government.

The revelation in regard to the bank deposit and the Crossin book mutilation came unexpectedly and from a witness for the prosecution. It cast doubt and discredit on a great deal of Gamby's work.

The wisdom of choosing the commission is here apparent. Had the Gamby charges been laid before a parliamentary committee they would have depended upon the constancy and consistency of the accuser.

THE TRADE OF CANADA. The Syracuse Post-Standard strangely in regard to the canal tolls, and not very consistently, in the first place it concludes that the freedom of the Canadian canals will not seriously affect American shipping.

Ontario's Sacrifice. Toronto Star. It would naturally be expected that the discovery of a great bed of coal, near Wilkesbarre which will add 300,000,000 tons to the known surplus would reduce the price of coal. This, however, is not regulated by the law of supply and demand, but by the coal trust.

Ontario's Sacrifice. Toronto Star. It would naturally be expected that the discovery of a great bed of coal, near Wilkesbarre which will add 300,000,000 tons to the known surplus would reduce the price of coal.

JOYFUL WEDDING BELLS. Well-Known Queen's Graduate Is Happily Married. Toronto News. A pretty ceremony took place in St. Michael's cathedral, when Miss Annie Alexis Forbist and J. J. Harrell, were joined in matrimony.

Quite A Difference. St. Thomas Journal. Some men get all broken up and some all broken down, while others are just plain broke.

TO SEE POPE. King Edward Will Make A Call On Him.

SEE A VOLCANO. A SIGHT THAT WILL BE MUCH ENJOYED.

The French Will Give The King A Hearty Welcome on His Visit to Their Country—President Loubet to Visit London in July.

To Kill Emperor. Vienna, April 23.—An extra edition of the Post announces that a Hungarian soldier, has been arrested in connection with an alleged plot among the Hungarian troops to murder Emperor Francis Joseph during the military manoeuvres.

Will Be Welcomed. Paris, April 23.—The Temps declares that the campaign being conducted by the Patrie against the reception of King Edward does not represent the views of the French people.

To Visit In July. Paris, April 23.—The Echo de Paris, says President Loubet will make a visit to London, in July, to return the call of King Edward. He will remain three days in England, and will be accompanied by the French ambassador, the Marquis de la Roche.

Work Of His Life. Syracuse Post-Standard. Dr. Parkhurst has invited Bill Devery to join the fusion cause, if Parkhurst converts Bill he will win a starry crown.

A Cool Conclusion. Here it is spring, and Germany "clothed in winter's garb," no doubt as a graceful tribute to "Our Lady of the Snows."

Loneliness of Wealth. Montreal Herald. A man with \$140,000 has killed himself on account of loneliness. There are a few people who would try and not feel lonely with a wad like that.

Depend On The Trust. Toronto News. It would naturally be expected that the discovery of a great bed of coal, near Wilkesbarre which will add 300,000,000 tons to the known surplus would reduce the price of coal.

Ontario's Sacrifice. Toronto Star. It would naturally be expected that the discovery of a great bed of coal, near Wilkesbarre which will add 300,000,000 tons to the known surplus would reduce the price of coal.
