THE WHIG—70th YEAR. DAILY BRITISH WHIG, published each evening at 106-110 King Street, Kingston, Ontario, at 50 per year, following at 25 cents a copy.

THE DAILY WHIG. "Oppie per Orleans Dear."

INSPECTING THE FOODS. Some recent events have impressed this thought upon the Whig, that no substantial and abiding good can come of the passing of a lot of laws which are not enforced.

The suggestion of the council, or rather of finance committee, some time ago, and in effect that the police, under the direction of the chief, should be the administrators of the by-laws, is eminently proper and should if possible be given effect.

There is no country in which the paternal idea is so far advanced as in Germany. Perhaps the people depend too much upon the state. But the state does not disappoint them.

WIRES FROM WASHINGTON. The alien labor agitator is now receiving attention. A bill is passing through the senate which aims at closing out of Canada the United States labour leader.

EDITORIAL THOUGHTS. The insurance question is not settled. The finance committee asked for time in which to report.

Chatham and London are laying the litholithic pavement. Chatham is advertising for tenders in the Contractors' Record.

General Hutton left Canada because he could not have his way with the militia. He is now leaving Australia for the same reason.

The boundaries and limits of the electoral constituencies of Manitoba occupy four full pages of the Winnipeg Telegram. That is something of an advertisement.

The wogden walks of the city were never in so bad a condition, and lumber is about twice in value what it used to be. A good article is worth \$25 a thousand.

Kingston looks real well when it becomes tidied up. But it must keep tidied. Some folks are very careless about what they do, in the way of using and abusing the streets.

The maritime provinces can only be represented according to population. That is the decision of the supreme court. The kick against a reduced membership in the Commons must therefore go for nothing.

The Bell Telephone company defy the council of Ottawa to prevent it erecting poles and extending its lines in the capital. The mayor accepts the challenge to fight, and prepares to throw some one or something down.

Opposition has no show. E. W. Thomson, writing to the New York Evening Post, intimates that the Canadian opposition in the commons is heading for another defeat. He seems to anticipate an early election, and remarks:

to blame them for not acting like fools. Mr. Thomson is a former Canadian, and was, for a time, an editorial writer on the Globe. Ah, some one may say, that accounts for the political tinge of his article. It does not.

What Was the Object of Mr. St. John?—Amendments Prepared to the Municipal Act—The Preston Bill.

Toronto, May 1.—The able reply of Hon. E. J. Davis to the extravagant attack of Mr. St. John was the feature of the week, and has won him fresh credit.

THE JEW AND JESUS. The announcement of Dr. Hirsch, at an Epworth League convention in Chicago, that if Jesus came to earth He would be welcomed by every Jewish Synagogue in the land, will be surprising news to many people.

On the second readings, a bill of Mr. Preston's to authorize municipalities to relieve people during fuel famine produced a spirited discussion.

Two Surprises. "There go Mr. and Mrs. Wabash," said Mrs. Lakey. "Don't you remember how it surprised everybody when they got married?"

Masked Men Get \$10,000. Des Moines, Iowa, May 2.—Two masked men grabbed a package containing \$10,000 from Agent Peterson, of the United States Express company while a train was standing at Brit.

Such cases as the following cannot but prove interesting to all who suffer from the aches and pains of kidney disease and its many distressing symptoms. This is merely an example of the great good Dr. Chase's Kidney-Liver Pills are accomplishing almost daily in nearly every community in the land.

Heartly Congratulations. Miss Harriette Smirle, daughter of the late Archibald Smirle, school inspector for Carleton county, and grand daughter of Mrs. Cowley, formerly of the Richmond road, has just received her degree of M.A. from Queen's University, Kingston.

OTTAWA CITY. The watering carts are now in the hands of the repairer. The council cannot do business like the individual, or shop, and so put the carts into the dust to fly in the air they thought about.

The Toronto labour market is disturbed by nearly fifteen hundred carpenters, builders, labourers and grantees cutters going on strike. They want more wages. The demanded increase is 10c. per hour. The employers offered 5c. per hour, and the offer was declined.

WAS A FEATURE. THE EFFECTIVE REPLY OF HON. E. J. DAVIS.

London, Mat 2.—The warmth of the king's reception at Paris has created a profound impression here. The editorial columns in this morning's papers ring with the praises of France and the French while the king, himself, is credited with having achieved a notable personal triumph.

A Paris cable to the Tribune says that King Edward's visit is a decided success, surpassing the most optimistic forecasts and Le Francaise voices popular sentiment with the words in heavy black type: "Welcome to our guest, King Edward VII. Parisians tender to the king the same respectful and affectionate sentiments that they felt for the Prince of Wales. May the meeting of King Edward VII and the president of the republic strengthen the ties which should unite two powerful, free and progressive civilizing nations."

Among the answers to questions was one of the commissioner of public works, giving the salary C. F. Aylesworth, as inspector of colonization roads in Hastings, Lennox and Addington, Frontenac, Lanark and Renfrew as \$160 in 1901 and \$1,213 in 1902.

THE SUCCESS OF Paine's Celery Compound Has Astonished and Gratified Medical Men Everywhere.

It is the Only Remedy That Positively Bestows Health and Lasting Strength.

Years ago when a great public movement arose for a remedy for nervous ailments as well as a reliable blood purifier, Dr. Edward E. Paine, Professor of Materia Medica and Medical Botany, of Dartmouth Medical College, gave to the world a remedy from his own women his great discovery Paine's Celery Compound. The success of this wonderful prescription has been phenomenal. No other remedy known in medical science enjoys such a widespread reputation. To be gained a bilious nervous system; it is a positive cure for sleeplessness, wasting strength, rheumatism, neuralgia, dyspepsia, liver and kidney troubles and all blood diseases. S. Hanna, a respected resident of Hanover, Ontario, writes thus:

"After severe sickness and suffering for a length of time, I am happy to state that I was made well by Paine's Celery Compound. To be gained a bilious nervous system; it is a positive cure for sleeplessness, wasting strength, rheumatism, neuralgia, dyspepsia, liver and kidney troubles and all blood diseases. S. Hanna, a respected resident of Hanover, Ontario, writes thus:

"The Eagle declares that Mr. Cleveland is the only democrat who can stand up to Roosevelt. New York, May 2.—The Brooklyn Eagle, an independent democratic paper, and one of the most influential in the east, in a leading editorial has come out squarely for Cleveland's re-nomination. The Eagle declares that Mr. Cleveland is the only democrat who can stand up to Roosevelt. In a triple column editorial, a column and a half in length, it urges the strongest nomination should be made next year.

Editor McKelvey said that he had taken his stand for Mr. Cleveland without knowing of any definite movement in Mr. Cleveland's favor, but believing that the demand for the president would develop until it became irresistible.
