THE KNOCKER AT WORK.

Should Not Have Been. "The militia department, through Hon. William Harty, M.P., has asked Kingston city council to put in writing what the corporation is prepared to do to retain the Royal Canadian day Trading-The Iron Mould- Field Batteries here. In view of the fact that the location of the corps here means government patronage to Much has been said of the immense superiority of the average

merchants to the extent of \$160,000 a year, and that all the officers and men make is spent here, a majority of the aldermen have signed a statement to the effect that the city will give the government the fair grounds site on condition that a promise is given that the two batteries, "A" and "B," main here permanently. This offer has been forwarded to the department. The grounds cost the city \$17,000, and about \$700 for interest and repairs is spent yearly on them. If the offer is accepted, it is likely the Tete de Pont barracks property will be sold and new quarters erected on the pre-

honorary president of the Knockers' An agreement between the National Club, and has lost caste with those Founders' Association and the Iron who hold their word sacred.

INCIDENTS OF THE DAY

Newsy Paragraphs Picked up by Reporters on Their Rounds.

The Keswick, than it is to pay car fare and board. J. M. Forsythe arrived from England to-day to spend the balance of the year in Kingston. Nearly all the local Presbyterian

ministers left to-day for Toronto, to

Perain, New York, and F. Mossy and attend a session of the inter-provincial O. L., E. H. and H. C. Bickford. Bachrack, Blakely and Levy, on trial Toronto, were in the city to-day for complicity in the Margolious viewing the many points of interest. frauds, startling evidence is promised They were entertained at the yacht

At a meeting last night of barbers, Margolious will be put in the box a committee was appointed to wait and cross-examined and it is stated upon the masters of six shops which that some important questions will be are not union men, in an endeavor to have them join the union. In many centres of learn-The party who sent the despatch to ing it is customary for students to instigation of Archbishop Bruchesi the Toronto paper has been elected be taught languages in the first place, from a grammatical and literary point of view; the conversational and commercial aspects of the subjects, if they are ever considered at all, being left until the course of grammer is completed. The consequence is that, upon finishing their education, many young fellows are able to read with tolerable ease novels written in the languages they It is cheaper to take your meals at have been studying, or to argue expertly upon their grammatical niceties, but are quite unable to converse for a few mements upon the commonest topics, while the most everyday commercial phrase is so much

Chinese to them. Commercial terms and matter, then, should be introduced from the first, and be intermingled with the ordinary study of the language. order to acquire a vocabulary vor to commit the terms to memory, as a rule; differ from one another is all changed. only in the body of the communication, so that there is needless repetition of the same phrases in each letter, and the student, is less likely to note and learn new terms if they are presented to him in a letter than if set forth without accompaniment

With the view of introducing a live interest into this branch of the subject, the student would do well to seek to exchange correspondence with a foreign student of English, each writing in the language he is studying and correcting and revising the other's communications. The advantages to be derived from a correspondence of this character are very

should be made to dismiss from the mind all preconceived ideas of English construction, etc.; that is, the. late it, but from first to last his en-Reading, of course, plays an im-

portant part in the acquisition of a foreign language, but unless it is conducted in a proper manner little benefit is likely to result. A page or two of matter carefully digested, the meaning of every doubtful word sentence being ascertained by reference to the dictionary, is of far greater utility to the student than many pages hastily perused, with but a vague idea of the real significance of their contents. As to the translating of English, there are many good books published, with notes designed to facilitate the task reading, and to spare the reader the wearisome necessity of continual reference to the dictionary. The occasional purchase and study of a newspaper will afford familiarity with newly coined words and expressions which are not to be found in any

London's Electric Tramways. London is at last in sight of electric tramways system. It is announced that the Prince of Wales

will in April inaugurate the lines from the three bridges to Tooting. and the electrician of other of the Council's South London routes is proceeding very rapidly. The cars will be handsome and commodious and not altogether unlike those already familiar to Londoners in the south. The principle of fixed stopping places will be adopted and electrical illumination on the outside will enable passengers to read and otherwise enjoy themselves in the opn air. There are of course many other electrical tramway systems the country, but at only one-Bournemouth-has a system of traction similar to that adopted for London been laid down. But it is probable that in many of its future schemes in the outlying districts the County Council will see the wisdom in his seat. of using the overhead trolley system in preference to the conduit. It costs about five thousand pounds per mile less to construct, and the disorganization of the traffic is comparatively slight. The fares on the County Council electrical lines will not be altered at present.-Lloyd's Weekly. Not Engaged.

One savage yell—then, leyal to his race, He bends to death—but never to disgrace." THE GREEK CHURCH IN CANADA. Missionary in Montreal at Last Finds a Resting Place.

The gorgeous ceremonial of the Orthodox Greek Church is at length being presented in Montreal in place more in keeping with its magnificence and the traditions of history than has been the case in the past. A back room in the store of some Syrian or Greek merchant has commercial purposes, the best plan sufficed for the ten years of the is to purchase a book containing church's history in Montreal to aclists of business terms and phrases, commodate the few worshipers who with exercises upon them and endea- have gathered for the celebration of its mass, more mystic and occult a few at a time, at the same time | than that of the Catholic Church of conscientiously writing out each ex- Rome, and to listen to the ministraercise. After a course of such study | tions of Father George, the aged Sythe student should be in possession | rian priest, formerly secretary to one of abundant material wherewith to of the patriarchs of the East, who compose a letter upon any business cannot speak a word of either subject. Books containing complete French or English, but is, according letters with English translations to his adherents, a powerful orator should be avoided. Business epistles, in the language of Antioch. But that A Picturesque Congregation.

On the first Sunday in April, most under the shadow of Notre Dome, where five thousand of fidck of Leo the Thirteenth were gathered in honor of Palm Sunday, in a big upstair hall on the same street, scarcely furnished as yet with more than a few benches, but with the sanctuary duly veiled almost from the sight of the congregation by a heavy rood screen, and on the walls a few of the pictures that here replace the prohibited images, the faithful came for the dedication of their new church. The congregation was not large. There are only some 200 of the orthodox in Montreal. In original composition, an effort nearly all Syrians, and many of them do business on Sundays as well as on other days of the week. Among those that did attend were a student should not first form in his good many children who received mind, in English, the phrase he is the rite of communion with their eldabout to set down and then trans- ers, according to Eastern fashion. > Father George. Father George has worked long and hard for this attainment. In the eyes of all the orthodox of Montreal, and of hundreds of traveling Syrians in the peddling business, who visit Montreal once or twice a year, he represents the whole church. They know of no superior to him. and it is, indeed, doubtful if he knows of any himself. The Bishop of San Francisco, who petitioned Parliament for incorporation as head has a nominal headship over the church on this continent, but actually Father George is a missionary "in partibus infidelium," and leads his flock as he likes. He is a superbly typical priest, who may be seen around the church at almost any time, hearing confession or superintending the carpenters. In either event, wearing his long cassock, and his round high hat, with a projecting flange round the top, and in the latter case, probably smoking furiously at a cigarette of Turkish tobacco, "made in Montreal." His nearest colleagues are in the Northwest, where among the other curious sects, there is quite a large representation of Syrians and
